Quick Setup Guide
DCP-385C

Start Here

Important

DO NOT connect the USB cable yet.

⚠ WARNING — Warnings tell you what to do to prevent possible personal injury.

1 Unpack the machine and check the components

Note
- The components of your box may differ depending on your country.
- Save all packing materials and the box in case for any reason you must ship your machine.
- A USB cable is not included. You need to purchase a USB 2.0 cable that is no more than 6 feet (2 meters) long. Your machine has a USB 2.0 Full-speed interface. This interface is compatible with USB 2.0 Hi-Speed; however, the maximum data transfer rate will be 12 Mbits/s. The machine can also be connected to a computer that has a USB 1.1 interface.

a. Remove the protective tape and film.

b. Remove the green protective packing ① by lifting the front of the machine and then pulling down on the packing part.

c. Remove the plastic bag ② containing the ink cartridges from on top of the paper tray.

d. Make sure you have all components.

Starter Ink Cartridges [x4]
- Black
- Yellow
- Cyan
- Magenta

⚠ **WARNING**
Plastic bags are used in the packaging of your machine. To avoid danger of suffocation, please keep these bags away from babies and children.
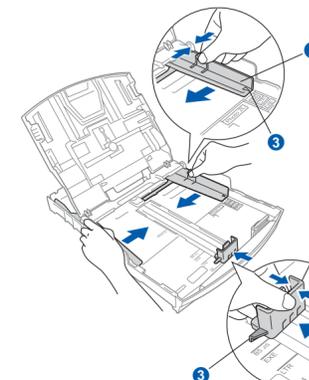

2 Load plain Letter/A4 paper

a. Pull out the paper tray.

b. Lift the paper tray cover ①.

c. Press and slide the paper side guides ① and paper length guide ② to fit the paper size.

Make sure that the triangular marks ③ on the paper side guides ① and paper length guide ② line up with the mark for the paper size you are using.

d. Fan the stack of paper well.

Important
Do not push the paper in too far.

e. Gently put the paper into the paper tray. Check that the paper is flat in the tray.
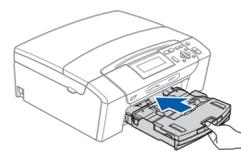

Note
When you use Legal size paper, press and hold the universal guide release button ① as you slide out the front of the paper tray.
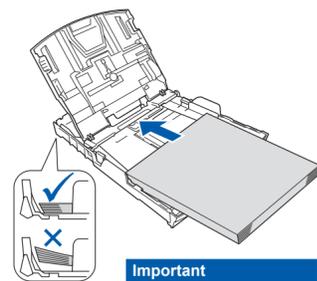

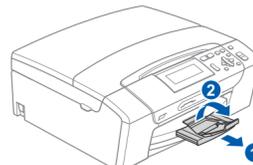

f. Gently adjust the paper side guides to the paper with both hands. Make sure the paper side guides touch the edges of the paper.

g. Close the paper tray cover and *slowly* push the paper tray back into the machine.

h. Pull out the paper support ① until it clicks, and then unfold the paper support flap ②.
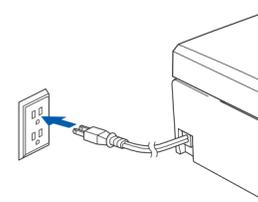

3 Connect the power cord

a. Connect the power cord.

Important
DO NOT connect the USB cable yet.

Note
The control panel warning LED will stay on until you have installed the ink cartridges.
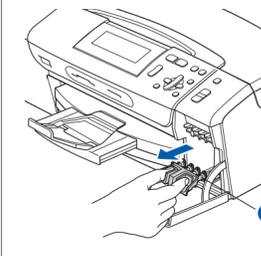

4 Install the ink cartridges

a. The LCD shows:

No Cartridge
Install Ink
☐ Black

**b.** Open the ink cartridge cover ①.
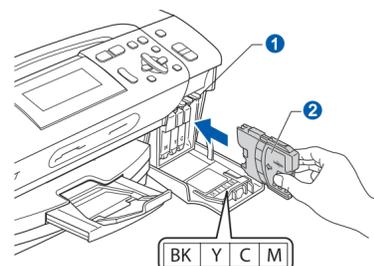

c. Remove the green protective part ①.
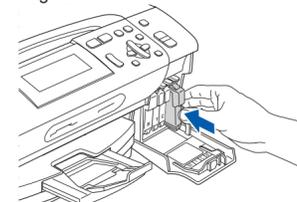

d. Unpack the ink cartridge.
Turn the green knob on the protective yellow cap clockwise until it clicks to release the vacuum seal, then remove the cap ①.

e. Install each ink cartridge in the direction of the arrow on the label.
Take care to match the color of the lever ① with the cartridge color ②.

BK Y C M

f. Gently push the ink cartridge until it clicks. After all the ink cartridges are installed close the ink cartridge cover.
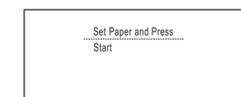

Note
The machine will prepare the ink tube system for printing. This process will take approximately four minutes. Do not turn off the machine.

5 Check the print quality

a. When the preparation process has finished, the LCD shows this message.

Set Paper and Press
Start

Press **Color Start**.

b. Check the quality of the four color blocks ① on the sheet. (black/yellow/cyan/magenta)

OK

Poor

- If all lines are clear and visible, press ➕ (Yes) to finish the quality check.
- If you can see missing short lines, press ➖ (No) and follow the steps on the LCD.
