Setting Up the Machine

Macintosh[®] USB

Keep this "Quick Setup Guide" and supplied CD-ROM in a convenient place for quick and easy reference at all times.

Safety Precautions

To Use the Machine Safely

Warning	Electrical Hazard	Hot Surface	Caution
Warnings tell you what to do to prevent possible personal injury.	Electrical Hazard icons alert you to a possible electrical shock.	Hot Surface icons warn you not to touch machine parts that are hot.	Cautions specify procedures you must follow or avoid to prevent possible damage to the machine.

Improper Setup	Note	User's Guide
Improper Setup icons alert you to devices and operations that are not compatible with the machine.	Notes tell you how you should respond to a situation that may arise or give tips about how the current operation works with other features.	Indicates reference to the User's Guide.

Warning

Do not use a vacuum cleaner to clean up scattered toner. Doing this might cause the toner dust to ignite inside the vacuum cleaner, potentially starting a fire. Please carefully clean the toner dust with a dry, lint-free cloth and dispose of it according to local regulations.

To prevent injuries, be careful not to put your hands on the edge of the machine under the document cover or scanner cover.	
(DCP-7025 only) To prevent injuries, be careful not to put your fingers in the area shaded in the illustration.	
When you move the machine, grasp the side hand holds that are under the scanner. Do NOT carry the machine by holding it at the bottom.	

A Warning

This product must be installed near an electrical socket that is easily accessible. In case of an emergency, you must disconnect the power cord from the electrical socket to shut off the power completely.

IEC 60825 specification (220 to 240 volt model only)

This machine is a Class 1 laser product as defined in IEC 60825 specifications. The label shown below is attached in countries where it is needed.

This machine has a Class 3B laser diode which produces invisible laser radiation in the scanner unit. You should not open the scanner unit under any circumstances.

A Warning

Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

For Finland and Sweden LUOKAN 1 LASERLAITE KLASS 1 LASER APPARAT

- Varoitus! Laitteen käyttäminen muulla kuin tässä käyttöohjeessa mainitulla tavalla saattaa altistaa käyttäjän turvallisuusluokan 1 ylittävälle näkymättömälle lasersäteilylle.
- Varning Om apparaten används på annat sätt än i denna Bruksanvisning specificerats, kan användaren utsättas för osynlig laserstrålning, som överskrider gränsen för laserklass 1.

Internal laser radiation

Maximum radiation power: 5 mW Wave length: 770 - 810 nm Laser class: Class 3B

IMPORTANT - For Your Safety

To ensure safe operation the supplied three-pin plug must be inserted only into a standard three-pin power outlet that is properly grounded through the normal household wiring.

Extension cords used with this machine must be three-pin plug type and correctly wired to provide proper grounding. Incorrectly wired extension cords may cause personal injury and equipment damage.

The fact that the equipment operates satisfactorily does not imply that the power is grounded and that the installation is completely safe. For your safety, if in any doubt about the effective grounding of the power, call a qualified electrician.

Disconnect device

You must install this machine near a power outlet that is easily accessible. In case of an emergency, you must disconnect the power cord from the power outlet to shut off the power completely.

IT power system (For Norway only)

This product is also designed for an IT power system with phase-to-phase voltage 230V.

Wiring information (for UK) Important

If you need to replace the plug fuse, fit a fuse that is approved by ASTA to BS1362 with the same rating as the original fuse.

Always replace the fuse cover. Never use a plug that does not have a cover.

Warning - This machine must be earthed.

The wires in the mains lead are coloured in line with the following code: Green and Yellow: Earth Blue: Neutral Brown: Live

If in any doubt, call a qualified electrician.

Radio interference (220-240 volt model only)

This machine follows EN55022 (CISPR Publication 22)/Class B. Before you use this product, make sure that you use the following interface cables.

- 1. A shielded parallel interface cable with twisted-pair conductors and that it is marked "IEEE 1284 compliant".
- 2. A USB cable.

The cable must not be more than 2 meters long.

International ENERGY STAR[®] Compliance Statement

The purpose of the International ENERGY STAR[®] Program is to promote the development and popularization of energy-efficient office equipments. As an ENERGY STAR[®] Partner, Brother Industries, Ltd. has determined that this product meets the ENERGY STAR[®] guidelines for energy efficiency.

Getting Started

Carton Components

Carton components may differ from one country to another. Save all packing materials and the carton.

The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (Parallel or USB).

USB interface cable

Please make sure you use a USB 2.0 interface cable that is no longer than 2.0 meters. Do not connect the USB cable to a non-powered hub or a Mac[®] keyboard. When you use a USB cable, make sure you connect it to the USB port of your computer and not to a USB port on a keyboard or a non-powered USB hub.

■ Parallel interface cable

Please make sure you use a Parallel interface cable that is no longer than 2.0 meters. Use a shielded interface cable that is IEEE 1284-compliant.

Consumables

Replacement	Consumables	23
-------------	-------------	----

Step 1 Setting Up the Machine

Load Paper in the Paper Tray

2

Pull the paper tray completely out of the machine.

2 While pressing the paper guide release lever, slide the adjusters to fit the paper size. Check that the guides are firmly in the slots.

3 Fan the stack of paper well to avoid paper jams and misfeeds.

 Put paper in the paper tray.
 Check that the paper is flat in the tray and below the maximum paper mark.

5 Put the paper tray firmly back in to the machine and unfold the output tray support flap before you use the machine.

For details on supported paper specifications, see "About paper" in Chapter 1 of the User's Guide.

Setting Up the Machine

3 Install the Power Cord

Step 1

Do not connect the Parallel or USB cable yet.

 Make sure that the power switch is off. Connect the AC power cord to the machine.

Plug the AC power cord into an AC outlet. Turn the power switch on.

4 Selecting Your Language

- After turning the power switch on, the LCD shows:
 - Select Language Press Set Key

Press Set.

Press the or to select your language and press Set.

English? ▲Yes ▼No

- 3 If your language is selected, press (Yes).
- If you have set the language wrongly, you can change the language from the control panel menu of the machine. (For details, see "How to change the LCD language" in Chapter 6 of the User"s Guide.)

5 Setting the LCD Contrast

You can change the contrast to help the LCD look lighter or darker.

Press Menu and or to select
 General Setup.
 Press Set.
 Press or to select
 LCD Contrast.

General Setup 5.LCD Contrast

Press Set.

- Press

 or

 to select Light or Dark.
 Press Set.
- Press Stop/Exit.
