DCP-770CW

The versatile multifunction colour printer that can handle all your printing, copying and scanning requirements for your home/small office.

This is the perfect machine for anyone working from home or in a small office. Not only is it stylish and compact in appearance, the DCP-770CW gives you all the printing, copying and scanning capabilities you'd expect in any office. Including secure wireless networking, so other members of your team or family can also access its many features anywhere in the home.

It can help you produce professional looking presentations and documents because of its high quality printing and impress your colleagues and customers alike. Soon you'll wonder how you managed without it!

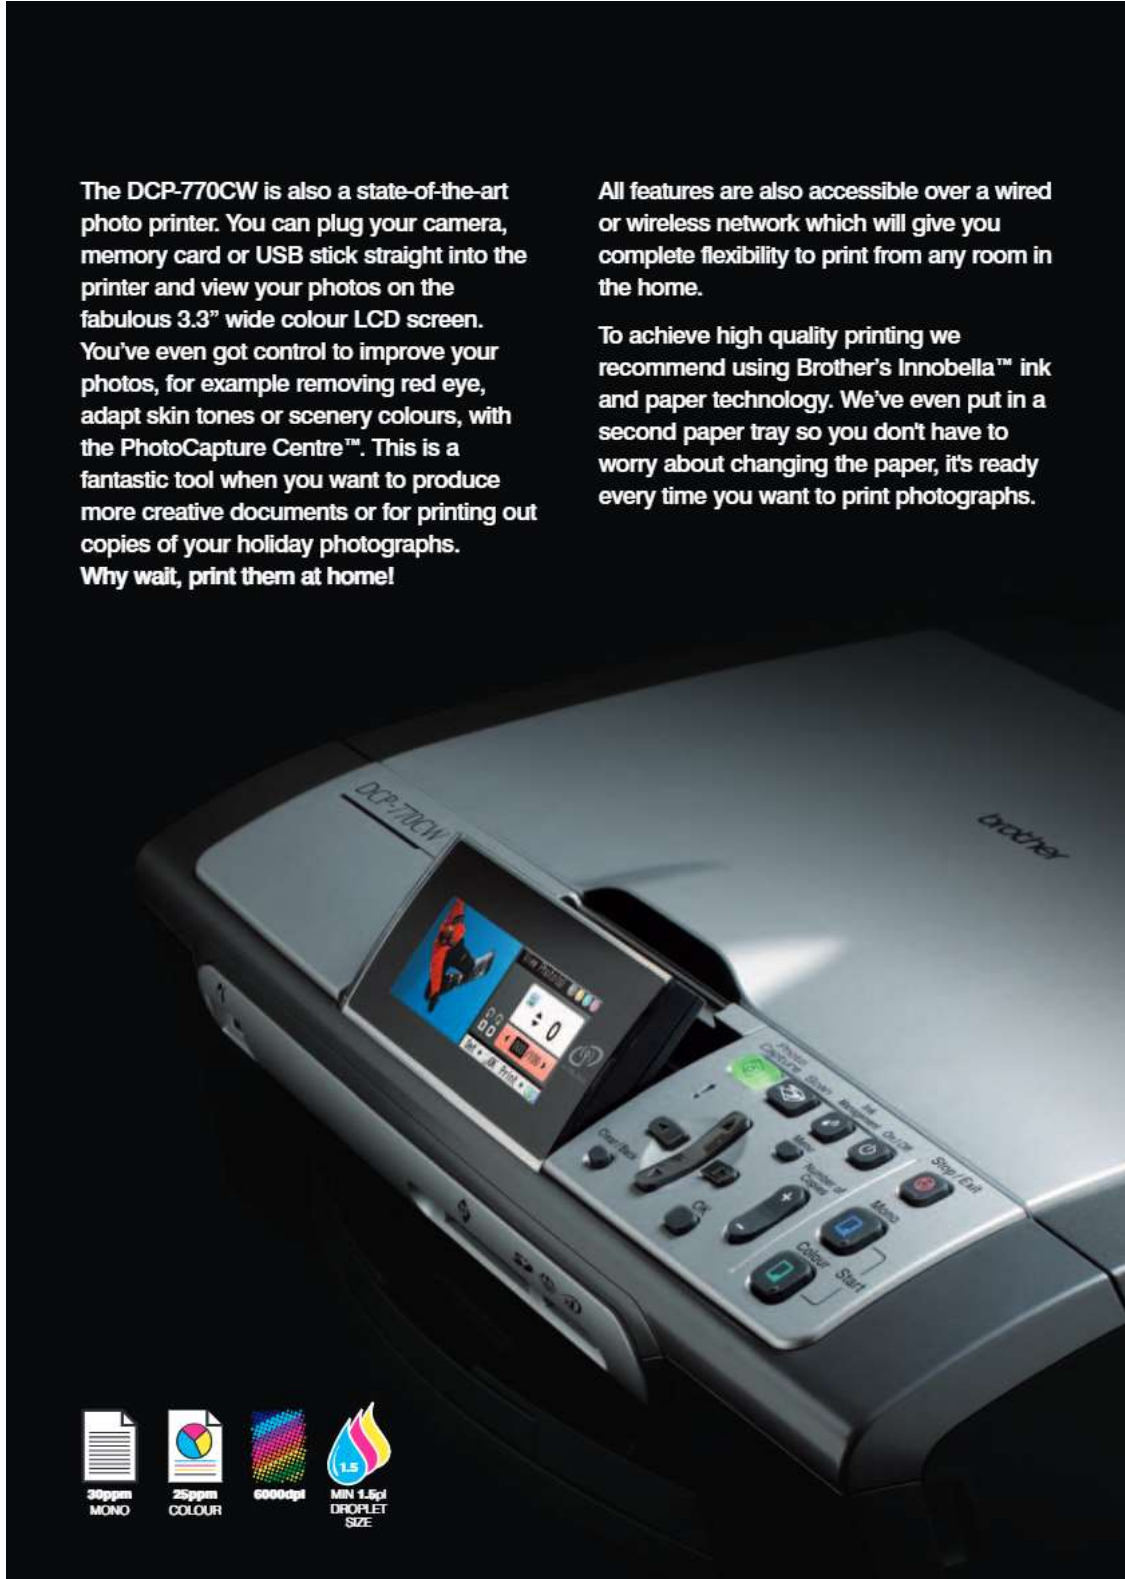

As with all Brother multifunction printers, it is user friendly – we've put the ink cartridges at the front so you can change them easily and because we use separate ink cartridges you only have to replace the colour that runs out, saving you money in the future.

The DCP-770CW is also a state-of-the-art photo printer. You can plug your camera, memory card or USB stick straight into the printer and view your photos on the fabulous 3.3" wide colour LCD screen. You've even got control to improve your photos, for example removing red eye, adapt skin tones or scenery colours, with the PhotoCapture Centre™. This is a fantastic tool when you want to produce more creative documents or for printing out copies of your holiday photographs. Why wait, print them at home!

All features are also accessible over a wired or wireless network which will give you complete flexibility to print from any room in the home.

To achieve high quality printing we recommend using Brother's Innobella™ ink and paper technology. We've even put in a second paper tray so you don't have to worry about changing the paper, it's ready every time you want to print photographs.

Technical Specifications

General	
Engine	Inkjet
LCD Display	Wide 3.3" Colour LCD screen
