The Advantages of Brother

Now you can save money, time and resources with Brother. Our advanced fax functions save costs by letting you preview faxes before printing, helping you cut down on paper and toner usage, while the Toner Save Mode enables you to maximise print resources. Also, our large paper trays, expandable memory and Automatic Document Feeder (ADF) coupled by our fast print speed mean that you'll have less waiting time for your print-outs. What's more, Brother's separate toner and drum technology lets you replace toners for a few cycles without changing the drum to reduce wastage and increase substantial cost savings.

In addition, Brother's years of experience allow us to offer efficient and affordable office solutions. These have built-in business tools to help you manage print costs. For instance:
• Colour Restriction tool lets you centrally manage a user's access to colour printing
• Print Allowance^ option restricts the number of pages a user can print, and only the administrator can reset the limit
• Advanced Job Monitoring◆ tool checks the log on high volume printing to monitor toner usage

All these and more are made possible because:

1. Brother has more than a century of experience behind the brand. Further, over the past two decades, we have set industry standards with our printing and imaging solutions, and customer service quality.

2. Brother's excellent support is second to none, from pre- to post-sales with up to three years warranty including priority phone support and on-site technical support. Brother products also provide expandable components like paper trays and memory upgradable to allow for future-proofing when your business needs to grow.

3. Brother's green commitment as an environmentally conscious company ensures that our printing solutions have less impact on the environment. Our Energy Star awarded machines are energy savers that automatically reduce power consumption after a designated period of inactivity, hence lower electricity bills and reduced environmental impact. Furthermore, these RoHS (Restriction of Hazardous Substances) compliant printers do not contain harmful and hazardous chemicals defined by RoHS that can pollute the environment.

FAST AND COMPACT WITH LED TECHNOLOGY.
NOW YOU CAN.

All-new Compact Colour LED Multi-Function Centres

DCP-9010CN   MFC-9120CN   MFC-9320CW

Brother's Latest Series of Compact Colour LED Multi-Function Centres (MFCs) Give You More

Thanks to Brother's latest series of compact colour LED MFCs, businesses can now achieve professional-quality documents and impactful marketing materials right in their offices. Designed to print fast, in vivid colours, and more compact to fit into any office space, Brother's new colour series is the latest office solutions ideal for home offices as well as small-and medium-sized businesses or connected workgroups.

Furthermore, Brother's newest family of colour MFCs use LED (Light Emitting Diode) technology, enabling users a significantly smaller footprint without compromising on quality while saving costs.

So gain control over your printing and imaging needs with reduced costs and increased work efficiency – and enjoy new levels of affordability and quality in full colour! Accomplish more with Brother at your side.

DCP-9010CN
3-in-1 Colour MFC with Networking

Thanks to our unique single pass print technology, the DCP-9010CN carries out colour printing and copying just as fast as black-and-white with up to 16ppm (A4) / 17ppm (Letter) for faster and smoother printing, thus improving your productivity. With print resolutions of up to 2,400 x 600 dpi*, it delivers consistent and high quality results with sharp images and crisp text.

Easy-to-use and time-saving advanced scanning options distribute and store electronic documents with the use of one-touch buttons. Scan your document as a file or an image, and send it off via email or save to the PC. You can also use the document glass for copying or scanning a single document or the 35-sheet Automatic Document Feeder for effortless handling of multiple pages.

MC-9120CN
5-in-1 Colour MFC with Fax and Networking

The MFC-9120CN includes all the features of DCP-9010C, plus fax. It has a Super G3 fax modem for fast fax transmission with storage of up to 500 pages. Also, you can store incoming faxes directly into the MFC's memory even when the PC is switched off, or send fax over the Internet to keep communication costs low.

Without additional software, you can even scan documents on your organisation's internal network or virtually anywhere in the world.

MFC-9320CW
5-in-1 Colour MFC with Wireless Networking

The MFC-9320CW includes all the features of MFC-9120CN, plus several useful enhancements as well as built-in wireless interface to connect to your network wirelessly. The Secure Function Lock gives you better management of resources by giving rights to certain users for selective functions such as print, fax, copy and scan. This prevents unauthorised personnel from wasting toner and paper. You can even apply passwords to confidential PDF documents so that they can't be altered without authorisation.

In addition, you can also save time with Direct Print by printing directly from a USB flash memory drive, or from a digital camera using PictBridge™, without using your computer.

This new colour MFC series comes standard with a 3-year on-site warranty coverage which ensures that the product is well-covered so you will enjoy more cost savings and low maintenance.
