### DCP-J562DW

## Quick Setup Guide brother

Read the Product Safety Guide first, then read this Quick Setup Guide for the correct installation procedure.

1. Remove the protective tape and film covering the machine.

# **WARNING**

**Power Cord** 

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.

#### NOTE

NOTE specifies the operating environment, conditions for installation, or special conditions of use.

Introductory Ink Cartridges [x4]

- Black Yellow
- Cyan Magenta
- (Approx. 80% yield of the replacement cartridge (Standard) >> Basic User's Guide: Supply Specifications)

Unpack the machine and check the components

• The components included in the box may differ depending on your country.

2. Make sure you have all components.

**Quick Setup Guide** Basic User's Guide **Product Safety Guide** 

**CD-ROM** 

# **WARNING**

Plastic bags are used in the packing of your machine. To avoid the danger of suffocation, keep these plastic bags away from babies and children. Plastic bags are not toys.

#### NOTE

- · Save all packing materials and the box in case for any reason you must ship your machine.
- · You must purchase the correct interface cable for the interface you want to use (for a USB connection).

#### **USB** cable

We recommend using a USB 2.0 cable (Type A/B) that is no more than 2 metres long

# Load plain A4 paper

Pull the paper tray completely

out of the machine.

Open the output paper tray cover 1.

Fan the paper well and load it in the tray,

and then adjust the paper guides.

Close the output paper tray cover, and then slowly push the tray completely into the machine.

NOTE Pull out the paper support **1**, and unfold the paper support flap (2) so that the printed pages do not fall.

LEW919004-00 UK Version 0

# Connect the power cord

NOTE You can adjust the control panel angle to read the Touchscreen more easily.

Connect the power cord. The machine will power on automatically.

Open the ink cartridge cover, and then remove the orange protective part from the machine.

Follow the Touchscreen instructions to install the ink cartridges. The machine will prepare the ink tube system for printing.

# Choose your language

- 1. Press ▲ or ▼ to display your language and press the desired language. Press [OK].
- 2. Press [Yes] or [No].

# Machine settings

When the machine has finished the initial cleaning process, follow the Touchscreen instructions to configure the machine settings.

- Check print quality
- Set date and time
- View operation tips
- Set New Function Notice
- · Print the installation sheet

# 6 Print from a computer

Put the CD-ROM into your CD/DVD drive.

 If you do not have a CD/DVD drive, download the software: For Windows<sup>®</sup>: <u>solutions.brother.com/windows</u> For Macintosh: <u>solutions.brother.com/mac</u>

When the device installation screen appears, follow the on-screen instructions.

When you reach **Connection Type**, select the connection type you want.

| Select Language                | Select the connection type of the machine you want to install. |
|--------------------------------|--|
| License Agreement              | ((( Wireless Network Connection (Wi-Fi)                        |
| Connection Type Select Machine |  |
| Software Installation          | Local Connection (USB)   |
| Additional Software            |  |
|                                |  |
|                                |  |

If you select **Local Connection (USB)**, DO NOT connect the USB cable until instructed. Follow the on-screen instructions to continue installation.

Continue to follow the on-screen instructions. When **Installation Complete** appears, your Brother machine is successfully installed. Click **Finish**.

If wireless connection is not successful, connect your machine manually using the control panel, following the instructions below in

(P) Using the Wireless Setup Wizard.

If the Brother screen does not appear automatically, click (Start) > Computer (My Computer).

(For Windows<sup>®</sup> 8: click the **File Explorer** icon on the taskbar, and then go to **Computer** (**This PC**).)

Double-click the CD/DVD-ROM icon, and then double-click start.exe.

|              |   | Change when these notifications appear                          |  |

• To install the machine on additional computers, repeat this procedure for each computer.

If you selected Wireless Network Connection (Wi-Fi): When the Wireless Device Setup screen appears, select Setup without a USB cable (Recommended).

| Wireless Device Setup   | ((() OP |
|---|---------|
| Select a method to configure your wireless device:  |         |
| C Setup without a USB cable (Recommended)   |         |
| C Setup with a USB cable<br>Note:You will need a type A to B USB cable. Refer<br>the images for details regarding the connectors. |         |

If you selected Local Connection (USB):

Wait until the on-screen instructions tell you to connect to your computer: lift the scanner cover, insert your cable into the indicated socket, and guide the cable out the back of the machine. Close the scanner cover, and then connect the cable to your computer.

Print from a smartphone or other mobile device

Print from and scan to smartphones and other mobile devices using our free application **Brother iPrint&Scan**.

Download and install Brother iPrint&Scan at solutions.brother.com/ips or

You can also use AirPrint, a mobile printing solution that lets you wirelessly print photos, emails, webpages, and documents from your iPad, iPhone and iPod touch without the need to install a driver. For more information about using AirPrint, see the *AirPrint Guide* on your model's **Manuals** page.

Your smartphone or mobile device must be connected to the Brother machine wirelessly. Connect your smartphone or mobile device to a wireless access point/router, and connect your Brother machine to the same wireless access point/router, using the Wireless Setup Wizard. See () Using the Wireless Setup Wizard.

### **Using the Wireless Setup Wizard**

Use Brother's Wireless Setup Wizard to manually connect your Brother machine to your wireless network. Your computer, smartphone, or mobile device must be connected to the same wireless network if you want to print wirelessly.

- 1. Turn off your wireless access point/router, wait 10 seconds, and then turn it on again.
- 2. Find your SSID (Network Name) and Network Key (Password) on your wireless access point/router and write them in the table provided below.

If you cannot find this information, ask your network administrator or wireless access point/router manufacturer.

**3.** Press WiFi on your Brother machine's Touchscreen, and then press [Setup Wizard].

| SSID (Network Name)    |  |
|------------------------|--|
| Network Key (Password) |  |

4. Select the SSID (Network Name) you found in 2, and then press [OK].

5. Enter the Network Key (Password) you found in 2, and then press [OK].

6. When wireless setup is successful, the Touchscreen displays [Connected]. Press [OK], and then return to step 6 to install the driver.

If the machine does not connect to the network, verify your Network Key (Password) and repeat these steps.

For additional help, see your model's **FAQs & Troubleshooting** page on the Brother Solutions Center at <u>http://support.brother.com</u>
