Big things come in compact packages.

At Brother, we understand the importance of having a multifunction printer that is stylish, simple to use, and fits into those tight spaces in your home or small office.

Our latest line up of colour inkjet printers are packed with features, that not only make your life easier, but also do not look out of place in rooms of all shapes and sizes.

With a choice of 7 models, each with different capabilities, this range is sure to provide you the cleverly compact solution to your print, copy, scan and fax requirements.

Save time, money and effort

Each of the 7 machines within the range boasts wireless connection and mobile compatibility, so you can print on the go quickly and easily. Additionally, anyone, such as a guest, can easily connect and print if required.

You can now multi-task with ease by automatic document feeding, just load the multi-page document in the machine and leave it to copy, scan or fax.

Do you ever feel like you're using too much paper? With automatic 2-sided printing, you can save paper and the environment.

If the cost of printing is your bugbear, this range allows you to print cost effectively with a choice of standard or high yield ink for higher volume. With the 4-cartridge ink system (you only replace the empty cartridge) you'll be replenishing ink less regularly.

Brother's original supplies offer peace of mind and quality guaranteed.

You wouldn't put the wrong fuel in your car, would you? To get the most out of your Brother printer, don't compromise on ink; only Brother genuine ink gives you the perfect print performance every time.

Brother's genuine ink supplies will not only help keep your printer in the best possible condition for unrivalled print quality, they are more consistent than non-genuine supplies.

You will also save money by avoiding the incurring costs for re-prints or dead-on-arrival cartridges, Brother ink helps you get it right first time.

Brother Earth

cool earth

Working with you for a better environment.

We take our environmental responsibilities seriously, and encourage our customers to do the same by sending us your used Brother inks and toners for re-manufacturing at no cost. We assure you that absolutely nothing goes to landfill and empty packaging that cannot be reused will be recycled.

In return, Brother donates to rainforest-saving charity Cool Earth, which with our support has saved over 7,000 acres of rainforest.
