INCLUDED IN BOX

**2 x 6000**
page-yield*
black ink bottles

**Refill Tank System**

Designed to give you big savings, the new Brother Inkjet Multi-Function Centre series features new Refill Tank System and offers ink bottles with ultra-high 6000 page-yield#. You can now maximise your savings and benefit from a smarter design that makes ink refilling effortless!

## Exceedingly Affordable

Save more with Brother's low cost ink that provides up to 6,000 page-yield#. Now, high print volume users can reduce overall operating costs with every printout.

Moreover, with Brother's original refill ink, you minimise the risk of print head damage. This means less repair and replacement costs on your machine.

Make the most out of your budget and choose Brother's original refill ink. Maximise savings day after day!

BLACK 6000 page-yield*

#Refers to black ink. Colour ink: 6000 page-yield. Quoted approx. yields are extrapolated based on Brother original methodology using Test Patterns ISO/IEC 24712. Quoted approx. yields are not based on ISO/IEC 24711.

### Refilling is so easy with
# Refill Tank System
## 3 Easy Steps!

What's amazing about the the new Brother Inkjet Multi-Function Centre series design is how it takes the hassle out of ink refill.

**STEP 1** Open cover.
Accessing ink tank is so easy with the cover right in front.

**STEP 2** Refill ink tank.
Remove tank cap. Tilt ink bottle at 45° angle and gently squeeze it to refill ink tank.

**STEP 3** You're done!
Replace cap and close cover. It's that easy!

## User-Friendly Refill Experience

Most conventional printers require users to tilt the ink bottles vertically when refilling, which increases risk of spillage. Brother's smart design allows for refilling at an optimised 45° refilling angle. This minimises ink leakage and takes the hassle out of refilling.

Other Printers — Potential spillage
Brother's Smart Design — Minimise spillage (45°)

## Saves Space and Convenient

Other printers with external ink tanks usually require additional room for opening and closing of the ink tank compartment, as well as for reviewing ink levels.

Brother's Refill Tank System features a smart design with an embedded, front-access ink tank and a see-through cover. This saves space effectively and makes it easy to check how much ink is left.

Other Printers — Wastes space
Brother's Smart Design — Saves space
