## Unpack the machine and check the components

	 <p><b>Drum Unit and Toner Cartridge Assembly</b> (pre-installed)</p>	 <p><b>Product Registration Sheet</b> (USA only)</p>
 <p><b>AC Power Cord</b></p>	 <p><b>Installer CD-ROM</b></p>	 <p><b>Quick Setup Guide</b></p>
 <p><b>Telephone Line Cord</b></p>	 <p><b>Product Safety Guide</b></p>	 <p><b>Basic User's Guide</b></p>

<b>⚠ WARNING</b>	<b>WARNING</b> indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
<b>⚠ CAUTION</b>	<b>CAUTION</b> indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

**⚠ WARNING**

- Plastic bags are used in the packing of your machine. Plastic bags are not toys. To avoid the danger of suffocation, keep these bags away from babies and children and dispose of them correctly.
- When moving the machine, grasp the side handholds firmly from the front of the machine. The side handholds are located under the scanner. **DO NOT** carry the machine by holding it at the bottom.

**Note**

- Keep a minimum gap around the machine as shown in the illustration.

- The components included in the box may differ depending on your country.
- We recommend that you save the original packaging.
- If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier. For how to repack the machine, see *Packing and shipping the machine* in the *Advanced User's Guide*.
- The interface cable is not a standard accessory. Buy the appropriate interface cable for the connection you want to use (USB or Network).

**USB cable**

- It is recommended to use a USB 2.0 cable (Type A/B) that is no longer than 6 feet (2 meters).
- **DO NOT** connect the interface cable at this time. Connecting the interface cable is done during the MFL-Pro Suite installation process.

**Network cable**

Use a straight-through Category 5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

## 2 Remove the packing material from the machine

### ⚠ Important

DO NOT connect the AC power cord yet.

**a** Remove the packing tape from the outside of the machine and the film covering the scanner glass.

**b** Open the MP tray ①, and remove the packing tape ② from the MP tray support, then close the MP tray.

**c** Press the front cover release button and open the front cover. Remove the silica gel pack ①.

### ⚠ CAUTION

DO NOT eat the silica gel pack. Please throw away. If ingested, seek medical attention immediately.

**d** Take out the drum unit and toner cartridge assembly.

**e** Remove the orange protective material from the drum unit and toner cartridge assembly.

**f** Hold the drum unit and toner cartridge assembly level with both hands and gently shake it from side to side several times to distribute the toner evenly inside the cartridge.

**g** Put the drum unit and toner cartridge assembly firmly back in the machine.

**h** Close the front cover of the machine.

# 3

## Load paper in the paper tray

- a** Pull the paper tray completely out of the machine.

- b** While pressing the green paper-guide release lever ❶, slide the paper guides to fit the paper size you are loading in the tray. Make sure that the guides are firmly in the slots.

### Note

For Legal or Folio size paper, press the release button ❶ in the bottom of the paper tray and then pull out the back of the paper tray.

(Legal or Folio size paper are not available in some regions.)

- c** Fan the stack of paper well to avoid paper jams and misfeeds.

- d** Put the paper in the tray and make sure:
- The paper is below the maximum paper mark (▼▼▼) ❶.
  - Over filling the paper tray will cause paper jams.
  - The side to be printed on is face down.
  - The paper guides touch the sides of the paper so it will feed properly.

- e** Put the paper tray firmly back in the machine. Make sure that it is completely inserted into the machine.

- f** Lift up the support flap ❶ to prevent paper from sliding off the face-down output tray.

- For more information about recommended paper, see *Recommended paper and print media* in the *Basic User's Guide*.

# 4

## Connect the power cord and telephone line

### Important

DO NOT connect the interface cable yet.

- a Connect the AC power cord to the machine and then plug it into an AC power outlet.
- b Turn the machine's power switch on.

- c Connect the telephone line cord. Connect one end of the telephone line cord to the jack on the machine marked **LINE** and the other end to a modular wall jack.

### Important

The telephone line cord **MUST** be connected to the jack on the machine marked **LINE**.

## WARNING

The machine must be grounded using a 3-prong plug.

Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

### Note

If you are sharing one telephone line with an external telephone, connect it as shown below.

Before you connect the external telephone, remove the protective cap ③ from the **EXT.** jack on the machine.

- ① Extension telephone
- ② External telephone
- ③ Protective cap

 **Note**

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below.

Before you connect the external telephone answering machine, remove the protective cap **3** from the **EXT.** jack on the machine.

- 1** Extension telephone answering machine (not supported)
- 2** External telephone answering machine
- 3** Protective cap

 Set the receive mode to **External TAD** if you have an external answering machine. See *Choose the correct Receive Mode* on page 7. For additional details, see *Connecting an external TAD (telephone answering device)* in the *Basic User's Guide*.

## **5** Choose your language (if needed)

- a** Press **Menu, 0, 0**.
- b** Press **▲** or **▼** to choose your language. Press **OK**.
- c** Press **Stop/Exit**.

# 6

## Choose the correct Receive Mode

The correct Receive Mode is determined by the external devices and telephone subscriber services (Voice Mail, Distinctive Ring, etc.) you have (or will be using) on the same line as the Brother machine.

### Will you be using a Distinctive Ring number for receiving faxes?

Brother uses the term “Distinctive Ring” but telephone companies may have other names for this service such as Custom Ringing, RingMaster, Personalized Ring, Teen Ring, Ident-A-Call, and Smart Ring. See *Distinctive Ring* in the *Basic User's Guide* for instruction on setting up your machine using this feature.

### Will you be using Voice Mail on the same telephone line as your Brother machine?

If you have Voice Mail on the same telephone line as your Brother machine, there is a strong possibility that Voice Mail and the Brother machine will conflict with each other when receiving incoming calls. See *Voice Mail* in the *Basic User's Guide* for instructions on setting up your machine using this service.

### Will you be using a Telephone Answering Device on the same telephone line as your Brother machine?

Your external telephone answering device (TAD) will automatically answer every call. Voice messages are stored on the external TAD and fax messages are printed. Choose `External TAD` as your receive mode. See the instructions below.

### Will you be using your Brother machine on a dedicated fax line?

Your machine automatically answers every call as a fax. Choose `Fax Only` as your receive mode. See the instructions below.

### Will you be using your Brother machine on the same line as your telephone?

#### Do you want to receive voice calls and faxes automatically?

The `Fax/Tel` receive mode is used when sharing the Brother machine and your telephone on the same line. Choose `Fax/Tel` as your receive mode. See the instructions below.

**Important Note:** You cannot receive voice messages on either Voice Mail or an answering machine when choosing the `Fax/Tel` mode.

#### Do you expect to receive very few faxes?

Choose `Manual` as your receive mode. You control the telephone line and must answer every call yourself. See the instructions below.

 For details, see *Using receive modes* in the *Basic User's Guide*.

- a** Press **Menu**, **0**, **1**.
- b** Press **▲** or **▼** to choose the receive mode.  
Press **OK**.
- c** Press **Stop/Exit**.

## 7 Set the LCD contrast (if needed)

If you are having difficulty reading the LCD, try changing the contrast setting.

- a** Press **Menu**, **1**, **7**.
- b** Press **▶** to increase the contrast.  
—OR—  
Press **◀** to decrease the contrast.  
Press **OK**.
- c** Press **Stop/Exit**.

## 8 Set the date and time

The machine displays the date and time, and if you set up the station ID, the date and time will be added to each fax you send.

- a** Press **Menu**, **0**, **2**, **1**.
- b** Enter the last two digits of the year on the dial pad, and then press **OK**.

02.Date&Time  Year:2012
Enter & OK Key

(e.g. Enter **1**, **2** for 2012.)

- c** Enter the two digits for the month on the dial pad, and then press **OK**.

02.Date&Time XX/XX/2012  Month:03
Enter & OK Key

(e.g. Enter **0**, **3** for March.)

- d** Enter the two digits for the day on the dial pad, and then press **OK**.

02.Date&Time 03/XX/2012  Day:25
Enter & OK Key

(e.g. Enter **2**, **5** for 25th.)

- e** Do one of the following:
  - If you want to use the 24-hour clock, press **▲** or **▼** to choose **24h Clock**, and then press **OK**. Go to step **f**.
  - If you want to use the 12-hour clock, press **▲** or **▼** to choose **12h Clock**, and then press **OK**. Go to step **g**.

02.Date&Time 03/25/2012  ▲ 12h Clock ▼ 24h Clock
Select ▲▼ or OK

- f** Enter the time in 24-hour format on the dial pad, and then press **OK**. Go to step **i**.

02.Date&Time 03/25/2012  Time:15:25
Enter & OK Key

(e.g. Enter **1**, **5**, **2**, **5** for 15:25.)

- g** Enter the time in 12-hour format on the dial pad, and then press **OK**.

02.Date&Time 03/25/2012  Time:03:25
Enter & OK Key

(e.g. Enter **0**, **3**, **2**, **5** for 3:25.)

- h** Press ▲ or ▼ to choose AM or PM, and then press **OK**.

```

02.Date&Time
  03/25/2012 03:25
▲      AM
▼      PM
-----
Select ▲▼ or OK
  
```

(e.g. Choose PM for 3:25 P.M.)

- i** Press **Stop/Exit**.

## 9 Set your Station ID

The machine displays the date and time, and if you set up the Station ID, it will add it to each fax you send.

- a** Press **Menu, 0, 3**.

- b** Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**.

```

03.Station ID
-----
Fax: _
-----
Enter & OK Key
  
```

- c** Enter your telephone number (up to 20 digits) on the dial pad, and then press **OK**. (If your telephone number and fax number are the same, enter the same number again.)

```

03.Station ID
  Fax:XXXXXXXXXXXX
-----
  Tel: _
-----
Enter & OK Key
  
```

- d** Use the dial pad to enter your name (up to 20 characters), and then press **OK**.

```

03.Station ID
  Fax:XXXXXXXXXXXX
  Tel:XXXXXXXXXXXX
  Name: _
-----
Enter & OK Key
  
```

### Note

- See the following chart for entering your name.
- If you need to enter a character that is on the same key as the last character, press ► to move the cursor to the right.
- If you entered a character incorrectly and want to change it, press ◀ or ▶ to move the cursor to the incorrect character, then press **Clear**.

Press key	One time	Two times	Three times	Four times	Five times
2	A	B	C	2	A
3	D	E	F	3	D
4	G	H	I	4	G
5	J	K	L	5	J
6	M	N	O	6	M
7	P	Q	R	S	7
8	T	U	V	8	T
9	W	X	Y	Z	9

 For more details, see *Entering text* in the *Basic User's Guide*.

- e** Press **Stop/Exit**.

### Note

If you make a mistake and want to start again, press **Stop/Exit** and go back to step **a**.

(USA only) The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or electronic device to send any message via a telephone fax machine unless such messages clearly contain, in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity or other individual sending the message and the telephone number of the sending machines or such business, other entity or individual. To program this information into your machine, see *Set the date and time* on page 8 and *Set your Station ID* on page 9.

## 10 Fax Transmission Report

Your Brother machine is equipped with a Transmission Verification Report that can be used as confirmation that you sent a fax. This report lists the name or fax number of the receiving party, the date, time and duration of the transmission, the number of pages transmitted, and whether or not the transmission was successful. If you want to use the Fax Transmission Report feature see *Printing reports* in the *Advanced User's Guide*.

## 11 Set tone or pulse dialing mode (Canada only)

Your machine comes set for a Tone dialing service. If you have a Pulse dialing service (rotary), you need to change the dialing mode.

- a** Press **Menu**, **0**, **4**.
- b** Press **▲** or **▼** to choose **Pulse** (or **Tone**). Press **OK**.
- c** Press **Stop/Exit**.

## 12 Set the telephone line compatibility

If you are connecting the machine to a VoIP service (over the Internet) you need to change the compatibility setting.

### Note

If you are using an analog telephone line you can skip this step.

- a** Press **Menu**, **2**, **0**, **1**.
- b** Press **▲** or **▼** to choose **Basic** (for VoIP). Press **OK**.
- c** Press **Stop/Exit**.

## 13 Dial Prefix

The dial prefix setting will automatically dial a predefined number before every fax number you dial. For example: If your phone system requires a 9 to dial an outside number this setting will automatically dial 9 for every fax you send.

- a** Press **Menu, 0, 5**.  
(For Canada, press **Menu, 0, 6**.)
- b** Enter the prefix number (up to 5 digits) on the dial pad, and then press **OK**.

### Note

- You can use the numbers 0 to 9, #, \* and !. (Press **Hook** to display "!".)
- You cannot use ! with any other numbers or characters.
- If your telephone system requires a timed break recall (hookflash), press **Hook** to enter the break.
- If the pulse dialing mode is on, # and \* are not available to use. (Canada only)

- c** Press **Stop/Exit**.

## 14 Automatic Daylight Saving Time

You can set the machine to change automatically for Daylight Saving Time. It will reset itself forward one hour in the Spring and backward one hour in the Fall.

- a** Press **Menu, 0, 2, 2**.
- b** Press **▲** or **▼** to choose **On** (or **Off**).  
Press **OK**.
- c** Press **Stop/Exit**.

## 15 Set the Time Zone

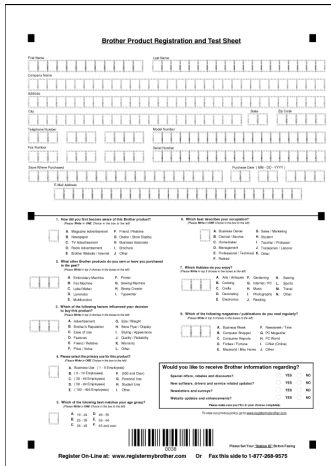

You can set the time zone (not summer time but standard time) on the machine for your location. For example, the time zone for Eastern Time in the USA and Canada is UTC-05:00.

- a** Press **Menu, 0, 2, 3**.
- b** Press **▲** or **▼** to choose the time zone.  
Press **OK**.
- c** Press **Stop/Exit**.

# 16 Send in the Product Registration and Test Sheet (USA only)

You can also register your product online using the On-Line Registration link from the installer CD-ROM or visit <http://www.brother.com/registration/>.

- a** Fill out the Product Registration and Test Sheet.

The image shows a 'Brother Product Registration and Test Sheet' form. It contains various sections for user information, product details, and registration preferences. At the bottom, there is a barcode and the text: 'Register On-Line at: [www.registery.brother.com](http://www.registery.brother.com) Or Fax this side to 1-877-268-9575'.

- b** Put the sheet face up in the ADF (Automatic Document Feeder) or face down on the scanner glass.

- c** Make sure  (FAX) is illuminated in Blue.
- d** Enter the toll-free fax number: 1-877-268-9575.
- e** Press **Start**.

## Note

You will receive a confirmation fax of your Product Registration.

# 17

## Choose your connection type

These installation instructions are for Windows® XP Home/Windows® XP Professional, Windows® XP Professional x64 Edition, Windows Vista®, Windows® 7, and Mac OS X (versions 10.5.8, 10.6.x and 10.7.x).

### Note

- For Windows Server® 2003/2003 x64 Edition/2008/2008 R2 and Linux®, visit your model page at <http://solutions.brother.com/>.
- You can visit us at <http://solutions.brother.com/> where you can get product support, the latest driver updates and utilities, and answers to frequently asked questions (FAQs) and technical questions.

## For USB Interface Users (Windows® XP/XP Professional x64 Edition/Windows Vista®/ Windows® 7)

### 18 Before you install

**a** Make sure that your computer is ON and you are logged on with Administrator rights.

#### Important

- If there are any programs running, close them.
- The screens may differ depending on your operating system.

#### Note

The installer CD-ROM includes Nuance™ PaperPort™ 12SE. This software supports Windows® XP (SP3 or greater), XP Professional x64 Edition (SP2 or greater), Windows Vista® (SP2 or greater) and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.

**b** Turn off the machine and make sure the USB interface cable is **NOT** connected to the machine. If you have already connected the cable, disconnect it.

### 19 Install MFL-Pro Suite

**a** Put the installer CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

#### Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

**b** Click **Install MFL-Pro Suite**, and click **Yes** if you accept the license agreements.

#### Note

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.

**c** Choose **Local Connection (USB)** and then click **Next**.

#### Note

If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

- d** Follow the on-screen instructions until this screen appears.

- e** Connect the USB cable to the USB port marked with the  symbol on your machine and then connect the cable to your computer.

- f** Turn the machine on.  
The installation will automatically continue. The installation screens appear one after another. If prompted, follow any on-screen instructions.

### ! Important

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

### Note

For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, click the check box and click **Install** to complete the installation correctly.

- g** When the **On-Line Registration** screen appears, make your selection and follow the on-screen instructions. Once you have completed the registration process, click **Next**.

- h** When the **Setup Complete** screen appears, check the box of the action you want to perform, and then click **Next**.

## 20 Finish and restart

- a** Click **Finish** to restart your computer. After restarting the computer, you must log on with Administrator rights.

### Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).
- Depending on your security settings, a Windows® Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

## Finish

The installation is now complete.

### Note

#### XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from applications that use the XML Paper Specification. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>.

## For USB Interface Users (Mac OS X 10.5.8 - 10.7.x)

### 18 Before you install

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

#### Important

For users of Mac OS X 10.5.7 or lower, upgrade to Mac OS X 10.5.8 - 10.7.x. (For the latest drivers and information for the Mac OS X you are using, visit <http://solutions.brother.com/>.)

#### Note

If you want to add the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at <http://solutions.brother.com/> and visit FAQ's on your model page for instructions.

- b** Connect the USB cable to the USB port marked with the  symbol on your machine and then connect the cable to your Macintosh.

- c** Make sure your machine's power switch is on.

### 19 Install MFL-Pro Suite

- a** Put the installer CD-ROM into your CD-ROM drive.
- b** Double-click the **Start Here OSX** icon. If prompted, select your model and then follow the on-screen instructions.

#### Important

DO NOT cancel any of the screens during the installation. It may take a few minutes for the installation to complete.

- c** Choose your machine from the list, and then click **OK**.

- d** When this screen appears, click **Next**.

**OK!** The installation of MFL-Pro Suite is now complete.  
Go to step 20 on page 17.

## 20 Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

- a** On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.

**Finish** The installation is now complete.

## For Wired Network Interface Users (Windows® XP/XP Professional x64 Edition/Windows Vista®/ Windows® 7)

### 18 Before you install

- a** Make sure that your computer is ON and you are logged on with Administrator rights.

#### Important

- If there are any programs running, close them.
- The screens may differ depending on your operating system.

#### Note

- The installer CD-ROM includes Nuance™ PaperPort™ 12SE. This software supports Windows® XP (SP3 or greater), XP Professional x64 Edition (SP2 or greater), Windows Vista® (SP2 or greater) and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.
- Disable all personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications for the duration of the installation.

- b** Remove the protective cap from the Ethernet port marked with a  symbol.

- c** Connect the network interface cable to the Ethernet port and then connect it to a free port on your hub.

- d** Make sure your machine's power switch is on.

### 19 Install MFL-Pro Suite

- a** Put the installer CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

#### Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

- b** Click **Install MFL-Pro Suite**, and click **Yes** if you accept the license agreements.

#### Note

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.

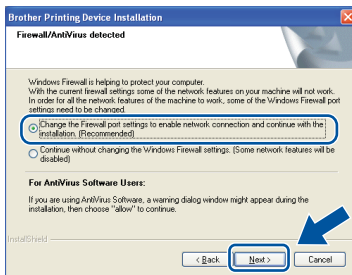

- c** Choose **Wired Network Connection (Ethernet)** and then click **Next**.

**Note**

If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

- d** When the **Firewall/AntiVirus detected** screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.

If you are not using the Windows® Firewall, see the user's guide for your software for information on how to add the following network ports.

- For network scanning, add UDP port 54925.
- For network PC-Fax receiving, add UDP port 54926.
- If you still have trouble with your network connection, add UDP port 161 and 137.

- e** The installation will automatically continue. The installation screens appear one after another. If prompted, follow any on-screen instructions.

**Important**

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

**Note**

- If prompted, choose your machine from the list, and then click **Next**.
- If your machine is not found over the network, confirm your settings by following the on-screen instructions.
- If there is more than one of the same model connected on your network, the IP Address and Node Name will be displayed to help you identify the machine.
- You can find your machine's IP address and the node name by printing out the Network Configuration Report. See *Print the Network Configuration Report* on page 23.
- For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, click the check box and click **Install** to complete the installation correctly.

- f** When the **On-Line Registration** screen appears, make your selection and follow the on-screen instructions. Once you have completed the registration process, click **Next**.

- g** When the **Setup Complete** screen appears, check the box of the action you want to perform, and then click **Next**.

## 20 Finish and restart

- a** Click **Finish** to restart your computer. After restarting the computer, you must log on with Administrator rights.

**Note**

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX LAN** (where MFC-XXXX is your model name).
- Depending on your security settings, a Windows® Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

## 21

### Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **19** on page 18.

#### Note

##### Network license (Windows®)

This product includes a PC license for up to 5 users. This license supports the installation of the MFL-Pro Suite including Nuance™ PaperPort™ 12SE on up to 5 PCs on the network. If you want to use more than 5 PCs with Nuance™ PaperPort™ 12SE installed, please purchase the Brother NL-5 pack which is a multiple PC license agreement pack for up to 5 additional users. To purchase the NL-5 pack, contact your authorized Brother dealer or contact Brother customer service.

## Finish

**The installation is now complete.**

#### Note

##### XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from applications that use the XML Paper Specification. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>.

## For Wired Network Interface Users (Mac OS X 10.5.8 - 10.7.x)

### 18 Before you install

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

#### Important

For users of Mac OS X 10.5.7 or lower, upgrade to Mac OS X 10.5.8 - 10.7.x. (For the latest drivers and information for the Mac OS X you are using, visit <http://solutions.brother.com/>.)

#### Note

If you want to add the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at <http://solutions.brother.com/> and visit FAQ's on your model page for instructions.

- b** Remove the protective cap from the Ethernet port marked with a  symbol.

- c** Connect the network interface cable to the Ethernet port and then connect it to a free port on your hub.

- d** Make sure your machine's power switch is on.

### 19 Install MFL-Pro Suite

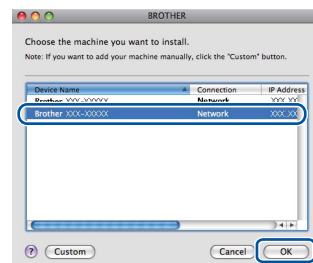

- a** Put the installer CD-ROM into your CD-ROM drive.
- b** Double-click the **Start Here OSX** icon. If prompted, select your model and then follow the on-screen instructions.

#### Important

DO NOT cancel any of the screens during the installation. It may take a few minutes for the installation to complete.

- c** Choose your machine from the list, and then click **OK**.

#### Note

If your machine is not found over the network, confirm your network settings. See *Before you install* on page 21.

## Note

- You can find your machine's MAC Address (Ethernet Address) and IP Address by printing out the Network Configuration Report. See *Print the Network Configuration Report* on page 23.
- If this screen appears click **OK**.

- Enter a name for your Macintosh in **Display Name** (up to 15 characters long).
- If you want to use the machine's **SCAN** key to scan over the network, you must check the **Register your computer with the "Scan To" function on the machine** box.
- Click **OK**. Go to **d**.

- The name you enter will appear on the machine's LCD when you press  (**SCAN**) and choose a scan option. (For more information, see *Network Scanning (For network models)* in the *Software User's Guide*.)

- d** When this screen appears, click **Next**.

- OK!** The installation of MFL-Pro Suite is now complete.  
Go to step **20** on page 22.

## 20 Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

- a** On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.

## 21 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **19** on page 21.

# Finish

## The installation is now complete.

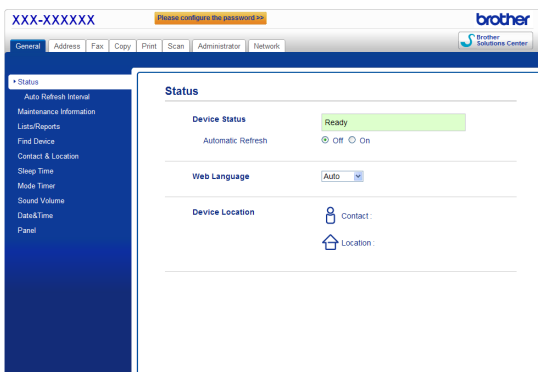

## Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

### Note

We recommend Windows® Internet Explorer® 7.0/8.0 or Firefox® 3.6 for Windows® and Safari 4.0/5.0 for Macintosh. Please also make sure that JavaScript and cookies are always enabled in whichever browser you use. To use a web browser, you will need to know the IP address of the print server. The IP address of the print server is listed on the Network Configuration Report.

- a** Open your browser.
- b** Type “http://machine’s IP address/” into your browser’s address bar (where “machine’s IP address” is the IP address of the Brother machine or the print server name).
  - For example: http://192.168.1.2/

### Note

If you have configured an optional login password, you must enter it when prompted to access the Web Based Management.

For more information, see *Web Based Management* in the *Network User's Guide*.

## Print the Network Configuration Report

You can print the Network Configuration Report to confirm the current network settings.

- a** Turn on the machine and wait until the machine is in the Ready state.
- b** Press **Menu, 6, 5**.
- c** Press **Start**.  
The machine will print the current network settings.
- d** Press **Stop/Exit**.

## Restore the network settings to the factory default

To restore all network settings of the internal Print/Scan server to the factory default, please follow the steps below.

- a** Make sure the machine is not operating, then disconnect all the cables from the machine (except the power cord).
- b** Press **Menu, 7, 0**.
- c** Press **1** to choose **Reset**.
- d** Press **1** to choose **Yes**.  
The machine will restart, re-connect the cables once this is complete.

## Brother CreativeCenter

Get inspired. If you're using Windows®, double-click the Brother CreativeCenter icon on your desktop to access our FREE web site with many ideas and resources for personal and professional use.

Mac users can access Brother CreativeCenter at this web address:

<http://www.brother.com/creativecenter/>

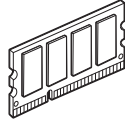

# Options and Consumables

## Option

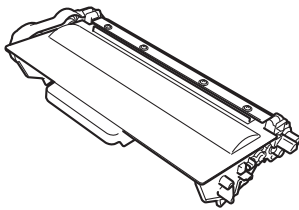

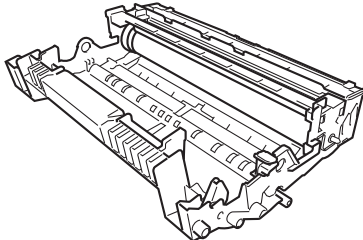

The machine has the following optional accessory. You can expand the capabilities of the machine by adding the item. For more information about the optional compatible SO-DIMM Memory, visit us at <http://solutions.brother.com/>.

 For installing the SO-DIMM Memory, see *Installing extra memory* in the *Advanced User's Guide*.

<b>SO-DIMM Memory</b>
You can increase the memory by installing one SO-DIMM (Small Outline Dual In-line Memory Module).

## Consumables

When the time comes to replace consumable items, an error will be indicated by the LCD on the control panel. For more information about the consumables for your machine, visit us at <http://www.brother.com/original/> or contact your local Brother reseller.

<b>Toner cartridge</b>	<b>Drum unit</b>
Standard Toner: TN-720 High Yield Toner: TN-750	DR-720
