**MFC-J6530DW**  
**MFC-J6535DW**  
**MFC-J6730DW**  
**MFC-J6930DW**  
**MFC-J6935DW**

## IMPORTANT NOTICE

The following features described in this guide may not be available at the time of purchase:

- **Auto Crop** in *Scan* options
- **Fit to Page** in *Copy* options
- **Auto Deskew** in *Copy* options
- **Ink Save Copy**
- **Thin Paper Copy**
- **Book Copy**
- **Watermark Copy**

**These features will be available in January 2017.**

To activate these features, download the latest firmware and software:

- To check for the latest firmware, visit [solutions.brother.com/up2](http://solutions.brother.com/up2).
- To check for the latest software, go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com), and download the **Full Driver & Software Package**.

## Definitions of Notes

We use the following symbols and conventions throughout this User's Guide:

 <b>WARNING</b>	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
 <b>CAUTION</b>	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.
<b>IMPORTANT</b>	IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.
<b>NOTE</b>	NOTE specifies the operating environment, conditions for installation, or special conditions of use.
	Tips icons indicate helpful hints and supplementary information.
	Electrical Hazard icons alert you to possible electrical shock.
<b>Bold</b>	Bold style identifies buttons on the machine's control panel or computer screen.
<i>Italics</i>	Italicized style emphasizes an important point or refers you to a related topic.
Courier New	Courier New font identifies messages shown on the machine's LCD.

## Before Using Your Machine

Before attempting any printing operation, confirm the following:

- Make sure you have installed the Brother software and drivers.
- For USB or network cable users: Make sure the interface cable is physically secure.

### Selecting the correct type of paper

For high quality printing, it is important to select the correct type of paper. Be sure to read the information about acceptable paper before buying paper, and to determine the printable area depending on the settings in the printer driver.

### Simultaneous printing, scanning and faxing

Your machine can print from your computer while sending or receiving a fax into memory or while scanning a document into the computer. Fax sending will not be stopped during printing from your computer. However, when the machine is copying or receiving a fax on paper, it pauses the printing operation, and then continues printing when copying or fax receiving has finished.

### Firewall (Windows)

If your computer is protected by a firewall and you are unable to network print, network scan, or PC-FAX, you may need to configure the firewall settings. If you are using the Windows Firewall and you installed the Brother software and drivers from the CD-ROM, the necessary firewall settings have already been set. If you are using any other personal firewall software, see the User's Guide for your software or contact the software manufacturer.

## Control Panel Overview

### MFC-J6530DW/MFC-J6730DW

#### 1. Touchscreen Liquid Crystal Display (LCD)

Access menus and options by pressing them on the touchscreen.

Adjust the angle of the control panel by lifting it.

#### 2. Menu buttons

Press to go back to the previous menu.

Press to return to the Home screen.

Press to cancel an operation.

#### 3. Dial Pad

Press the numbers to dial telephone or fax numbers and to enter the number of copies.

#### 4. LED Power Indicator

The LED lights up depending on the machine's power status.

When the machine is in Sleep Mode, the LED blinks.

## 5. Power On/Off

Press  to turn on the machine.

Press and hold down  to turn off the machine. The touchscreen will display [Shutting Down] and will stay on for a few seconds before turning itself off. If you have connected an external telephone or TAD, it is always available.

If you turn off the machine using , it will still clean the print head periodically to maintain print quality. To prolong print head life, provide better ink efficiency, and maintain print quality, keep your machine connected to a power source at all times.

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

#### 1. NFC (Near Field Communication) symbol

##### (MFC-J6930DW/MFC-J6935DW)

You can use card authentication by touching the IC card to the NFC symbol on the control panel.

If your Android™ device supports the NFC feature, you can print from your device or scan documents to your device in the same way.

#### 2. Touchscreen Liquid Crystal Display (LCD)

Access menus and options by pressing them on the touchscreen.

Adjust the angle of the control panel by lifting it.

---

### 3. Menu buttons

Press to go back to the previous menu.

Press to return to the Home screen.

Press to cancel an operation.

### 4. Dial Pad

Press the numbers to dial telephone or fax numbers and to enter the number of copies.

### 5. LED Power Indicator

The LED lights up depending on the machine's power status.

When the machine is in Sleep Mode, the LED blinks.

### 6. Power On/Off

Press  to turn on the machine.

Press and hold down  to turn off the machine. The touchscreen will display [Shutting Down] and will stay on for a few seconds before turning itself off. If you have connected an external telephone or TAD, it is always available.

If you turn off the machine using , it will still clean the print head periodically to maintain print quality. To prolong print head life, provide better ink efficiency, and maintain print quality, keep your machine connected to a power source at all times.

## Touchscreen LCD Overview

### MFC-J6530DW/MFC-J6730DW

There are three Home screens that you can access by pressing ◀ or ▶.

From the Home screens, you can access Shortcuts, Wi-Fi setup, Settings and Ink levels screens.

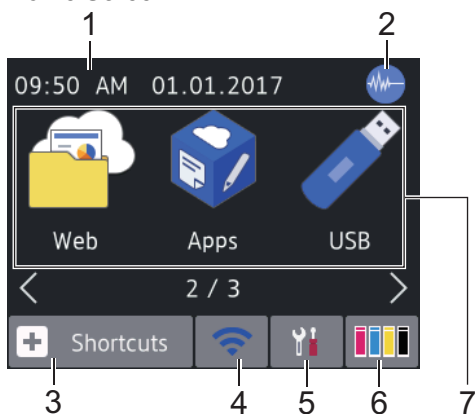

#### Home Screen 1

This screen shows the machine's status when the machine is idle. This Home screen is also called the Ready Mode screen. When displayed, it indicates that your machine is ready for the next command.

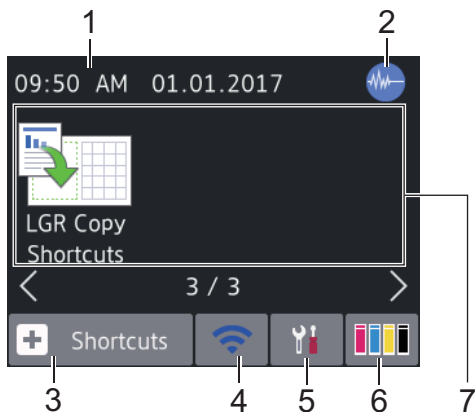

Home Screen 1 provides access to [Fax], [Copy] and [Scan] operations.

#### Home Screen 2

Home Screen 2 provides access to additional features, such as [Web], [Apps] and [USB] operations.

#### Home Screen 3

Home Screen 3 provides access to [LGR Copy Shortcuts].

#### 1. Date & Time

Displays the date and time set on the machine.

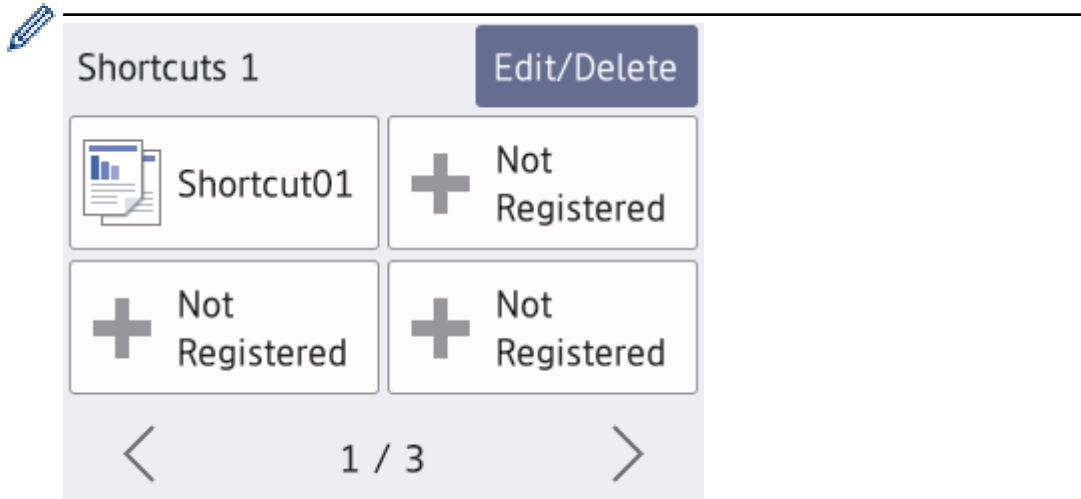

## 2. Quiet Mode

This icon appears when the [Quiet Mode] setting is set to [On].

The Quiet Mode setting can reduce printing noise. When Quiet Mode is turned on, the print speed becomes slower.

## 3. [Shortcuts]

Create Shortcuts for frequently-used operations, such as sending a fax, copying, scanning, Web Connect and Apps services.

- There are three Shortcuts screens. You can program four shortcuts on each screen.
- To display the other Shortcuts screens, press ◀ or ▶.

## 4. Wireless Status

Each icon in the following table shows the wireless network status:

	Your machine is not connected to the wireless access point. Press this button to configure wireless settings. For more detailed information, see the <i>Quick Setup Guide</i> .
	Wireless network is connected. A three-level indicator in each of the Home screens displays the current wireless signal strength.
	The wireless access point cannot be detected.
	The wireless setting is disabled.

 You can configure wireless settings by pressing the Wireless Status button.

## 5. [Settings]

Press to access the [Settings] menu.

## 6. [Ink]

Displays the available ink volume. Press to access the [Ink] menu.

When an ink cartridge is near the end of its life or having a problem, an error icon is displayed on the ink color.

## 7. Modes:

-  [Fax]

Press to access Fax mode.

-  [Copy]  
Press to access Copy mode.
-  [Scan]  
Press to access Scan mode.
-  [Web]  
Press to connect the Brother machine to an Internet service.
-  [Apps]  
Press to connect the Brother machine to the Brother Apps service.
-  [USB]  
Press to access the [USB] menu.
-  [LGR Copy Shortcuts]  
Press to copy to Ledger or A3 size paper using this preset menu.

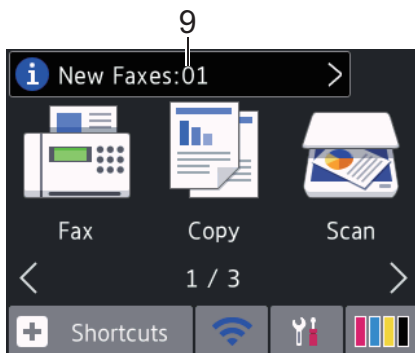

8. [Stored Faxes:]

[Stored Faxes] displays how many received faxes are in the machine's memory.

Press  to print the faxes.

9. [New Faxes:]

When [Fax Preview] is set to [On], [New Faxes] displays how many new faxes you have received and stored in the memory.

Press  to view the faxes on the touchscreen.

If you receive a fax containing multiple paper sizes (for example, a Letter size page and a Ledger size page), the machine may create and store a file for each paper size, so the touchscreen may show that more than one fax job has been received.

## 10. Warning icon

The warning icon  appears when there is an error or maintenance message; press  to view the details, and then press  to return to Ready mode.

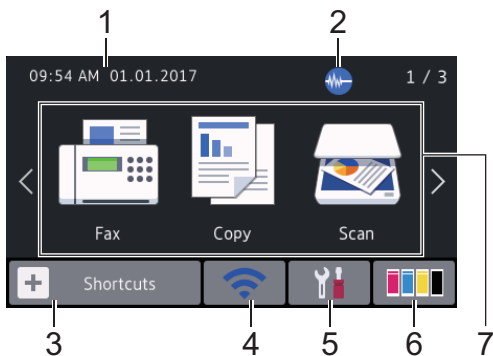

- This product adopts the font of ARPHIC TECHNOLOGY CO.,LTD.

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

There are three Home screens that you can access by swiping left or right or pressing ◀ or ▶.  
From the Home screens, you can access Shortcuts, Wi-Fi setup, Settings and Ink levels screens.

### Home Screen 1

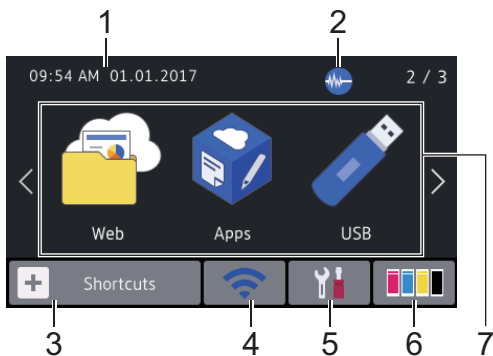

This screen shows the machine's status when the machine is idle. This Home screen is also called the Ready Mode screen. When displayed, it indicates that your machine is ready for the next command.

You can change the Ready Mode screen.

Home Screen 1 provides access to [Fax], [Copy] and [Scan] operations.

### Home Screen 2

Home Screen 2 provides access to additional features, such as [Web], [Apps] and [USB] operations.

### Home Screen 3

Home Screen 3 provides access to [LGR Copy Shortcuts].

#### 1. **Date & Time**

Displays the date and time set on the machine.

#### 2. **Quiet Mode**

This icon appears when the [Quiet Mode] setting is set to [On].

The Quiet Mode setting can reduce printing noise. When Quiet Mode is turned on, the print speed becomes slower.

(MFC-J6535DW in USA only)

While **Demo** appears,  (**Quiet Mode**) is not displayed.

#### 3. **[Shortcuts]**

Create Shortcuts for frequently-used operations, such as sending a fax, copying, scanning, Web Connect and Apps services.

- Three Shortcuts tabs are available with six Shortcuts on each tab.
- Press , displayed at the bottom of the screen to access the Home Screens.

#### 4. **Wireless Status**

Each icon in the following table shows the wireless network status:

	Your machine is not connected to the wireless access point. Press this button to configure wireless settings. For more detailed information, see the <i>Quick Setup Guide</i> .
	Wireless network is connected. A three-level indicator in each of the Home screens displays the current wireless signal strength.
	The wireless access point cannot be detected.
	The wireless setting is disabled.

You can configure wireless settings by pressing the Wireless Status button.

#### 5. **[Settings]**

Press to access the [Settings] menu.

#### 6. **[Ink]**

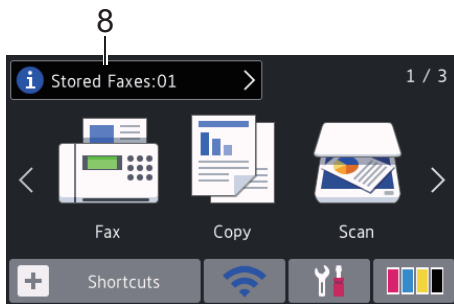

Displays the available ink volume. Press to access the [Ink] menu.

When an ink cartridge is near the end of its life or having a problem, an error icon is displayed on the ink color.

#### 7. **Modes:**

-  **[Fax]**  
Press to access Fax mode.
-  **[Copy]**  
Press to access Copy mode.
-  **[Scan]**  
Press to access Scan mode.
-  **[Web]**  
Press to connect the Brother machine to an Internet service.
-  **[Apps]**  
Press to connect the Brother machine to the Brother Apps service.
-  **[USB]**  
Press to access the [USB] menu.
-  **[LGR Copy Shortcuts]**  
Press to copy to Ledger or A3 size paper using this preset menu.

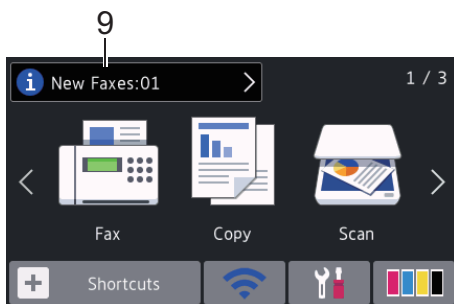

8. [Stored Faxes:]

[Stored Faxes] displays how many received faxes are in the machine's memory.

Press to print the faxes.

9. [New Faxes:]

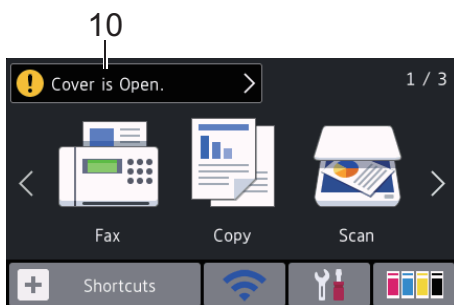

When [Fax Preview] is set to [On], [New Faxes] displays how many new faxes you have received and stored in the memory.

Press to view the faxes on the touchscreen.

If you receive a fax containing multiple paper sizes (for example, a Letter size page and a Ledger size page), the machine may create and store a file for each paper size, so the touchscreen may show that more than one fax job has been received.

10. Warning icon

The warning icon appears when there is an error or maintenance message; press to view the details, and then press to return to Ready mode.

- This product adopts the font of ARPHIC TECHNOLOGY CO.,LTD.

## Settings Screen Overview

### MFC-J6530DW/MFC-J6730DW

The touchscreen shows the machine's status when you press  [Settings].

Use the Settings menu to access all of your Brother machine's settings.

#### 1. [Maintenance]

Press to access the following menus:

- [Improve Print Quality]
- [Print Head Cleaning]
- [Remove Paper Scraps]
- [Ink Volume]
- [Ink Cartridge Model]
- [Print Setting Options]

#### 2. [Quiet Mode]

Displays the Quiet Mode setting.

Press to access the [Quiet Mode] menu.

When this menu is set to [On],  is displayed on the Home screen.

#### 3. [Fax Preview]

Displays the Fax Preview setting.

Press to access the [Fax Preview] menu.

#### 4. Receive Mode

Displays the current Receive Mode.

#### 5. [Date & Time]

Displays the date and time.

Press to access the [Date & Time] menu.

#### 6. [Wi-Fi]

Press to set up a wireless network connection.

If you are using a wireless connection, a three-level indicator  on the screen displays the current wireless signal strength.

#### 7. [Tray Setting]

Press to access the [Tray Setting] menu.

Use options in the Tray setting menu to change the paper size and type.

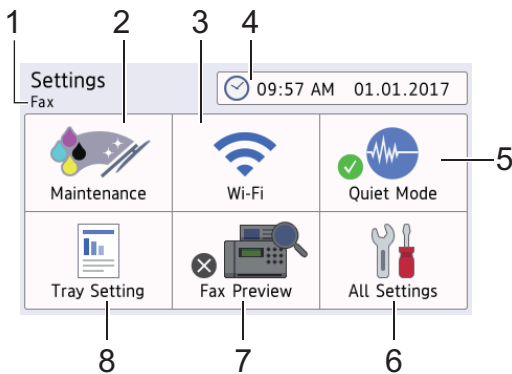

#### 8. [All Settings]

Press to access a menu of all of your machine's settings.

The touchscreen shows the machine's status when you press  [Settings].

Use the Settings menu to access all of your Brother machine's settings.

## 1. **Receive Mode**

Displays the current Receive Mode.

## 2. **[Maintenance]**

Press to access the following menus:

- [Improve Print Quality]
- [Print Head Cleaning]
- [Remove Paper Scraps]
- [Ink Volume]
- [Ink Cartridge Model]
- [Print Setting Options]

## 3. **[Wi-Fi]**

Press to set up a wireless network connection.

If you are using a wireless connection, a three-level indicator  on the screen displays the current wireless signal strength.

## 4. **[Date & Time]**

Displays the date and time.

Press to access the [Date & Time] menu.

## 5. **[Quiet Mode]**

Displays the Quiet Mode setting.

Press to access the [Quiet Mode] menu.

When this menu is set to [On],  is displayed on the Home screen. (MFC-J6535DW in USA only: when  is not displayed.)

## 6. **[All Settings]**

Press to access a menu of all of your machine's settings.

## 7. **[Fax Preview]**

Displays the Fax Preview setting.

Press to access the [Fax Preview] menu.

## 8. **[Tray Setting]**

Press to access the [Tray Setting] menu.

Use options in the Tray setting menu to change the paper size and type.

## Access Brother Utilities (Windows)

**Brother Utilities** is an application launcher that offers convenient access to all Brother applications installed on your computer.

1. Do one of the following:

- Windows Vista and Windows 7

Click  (**Start**) > **All Programs** > **Brother** > **Brother Utilities**.

- Windows 8

Tap or click  (**Brother Utilities**) either on the **Start** screen or the desktop.

- Windows 8.1

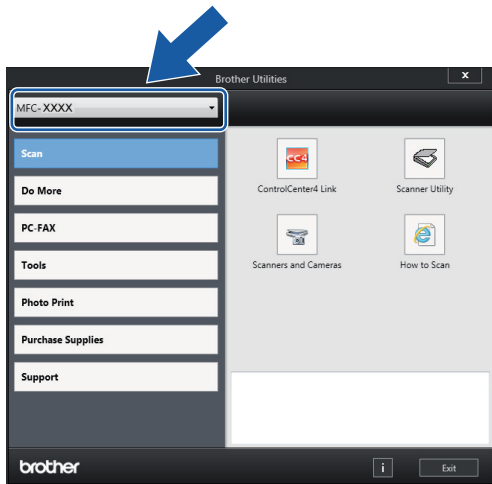

Move your mouse to the lower left corner of the **Start** screen and click  (if using a touch-based device, swipe up from the bottom of the **Start** screen to bring up the **Apps** screen).

When the **Apps** screen appears, tap or click  (**Brother Utilities**).

- Windows 10

Click  > **All apps** > **Brother** > **Brother Utilities**.

2. Select your machine.

3. Select the operation you want to use.

### Related Information

- [Introduction to Your Brother Machine](#)
- [Uninstall the Brother Software and Drivers \(Windows\)](#)

## Uninstall the Brother Software and Drivers (Windows)

1. Do one of the following:

- Windows Vista and Windows 7

Click  (**Start**) > **All Programs** > **Brother** > **Brother Utilities**.

- Windows 8

Tap or click  (**Brother Utilities**) either on the **Start** screen or the desktop.

- Windows 8.1

Move your mouse to the lower left corner of the **Start** screen and click  (if using a touch-based device, swipe up from the bottom of the **Start** screen to bring up the **Apps** screen).

When the **Apps** screen appears, tap or click  (**Brother Utilities**).

- Windows 10

Click  > **All apps** > **Brother** > **Brother Utilities**.

2. Click the drop-down list, and then select your model name (if not already selected). Click **Tools** in the left navigation bar, and then click **Uninstall**.

Follow the instructions in the dialog box to uninstall the software and drivers.

## Load Paper in Paper Tray #1 / Paper Tray #2

- Load Letter, A4, or Executive Size Paper in Paper Tray #1 / Paper Tray #2
- Load Ledger, Legal, or A3 Size Paper in Paper Tray #1 / Paper Tray #2
- Load Photo Paper in Paper Tray #1
- Load Envelopes in Paper Tray #1

## Load Letter, A4, or Executive Size Paper in Paper Tray #1 / Paper Tray #2

- If the [Check Paper] setting is set to [On] and you pull the paper tray out of the machine, a message appears on the LCD asking if you want to change the paper type and paper size. Change the Paper Size and Paper Type settings if needed, following the LCD instructions.
- Load only one size and type of paper in the paper tray at a time.
- When you load a different paper size in the tray, you must change the Paper Size setting in the machine or the paper size setting on your computer.  
Doing this enables the machine to automatically feed paper from the appropriate tray if Auto Tray Select has been set in the machine or printer driver. (MFC-J6535DW/MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)
- You can use only plain paper in Tray #2. (MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

These instructions describe how to load paper in Tray #1. The steps for Tray #2 are very similar. (MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

1. If the paper support flap (1) is open, close it, and then close the paper support (2).

2. Pull the paper tray completely out of the machine as shown by the arrow.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

When you load paper in Tray #2, remove the tray top cover (1).

3. Gently press and slide the paper width guides (1) and then the paper length guide (2) to fit the paper size. Make sure the triangular mark (3) on the paper width guide (1) and paper length guide (2) line up with the marks for the paper you are using.

 If you load Executive size paper, lift up the stopper (4).

4. Fan the stack of paper well to avoid paper jams and misfeeds.

 Always make sure the paper is not curled or wrinkled.

- 
5. Gently load paper in the paper tray with the printing surface *face down*.

**Landscape orientation**

**IMPORTANT**

Be careful not to push the paper in too far; it may lift at the back of the tray and cause paper feed problems.

To add paper before the tray is empty, remove the paper from the tray and combine it with the paper you are adding. Always fan the stack of paper well to prevent the machine from feeding multiple pages.

6. Make sure the paper length guide (1) touches the edges of the paper.

7. Gently adjust the paper width guides (1) to fit the paper.  
Make sure the paper guides touch the edges of the paper.

8. Make sure the paper is flat in the tray and below the maximum paper mark (1).  
Overfilling the paper tray may cause paper jams.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

When you load paper in Tray #2, replace the tray top cover.

9. Slowly push the paper tray completely into the machine.

## IMPORTANT

DO NOT push the paper tray into the machine forcefully or quickly. Doing this may cause paper jams or paper feed problems.

10. Pull out the paper support until it locks into place.

11. Change the paper size setting in the machine's menu, if needed.

2. Pull the paper tray completely out of the machine as shown by the arrow.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

When you load paper in Tray #2, remove the tray top cover (1).

3. Rest the tray on a flat surface.  
Push the green slider to the left and then extend the tray until it locks into place.

4. Gently press and slide the paper width guides (1) and then the paper length guide (2) to fit the paper size. Make sure the triangular mark (3) on the paper width guide (1) and paper length guide (2) line up with the marks for the paper you are using.

5. Fan the stack of paper well to avoid paper jams and misfeeds.

Always make sure the paper is not curled or wrinkled.

- 
6. Gently load paper in the paper tray with the printing surface *face down*.

**Portrait orientation**

**IMPORTANT**

Be careful not to push the paper in too far; it may lift at the back of the tray and cause paper feed problems.

To add paper before the tray is empty, remove the paper from the tray and combine it with the paper you are adding. Always fan the stack of paper well to prevent the machine from feeding multiple pages.

7. Make sure the paper length guide (1) touches the edges of the paper.

8. Gently adjust the paper width guides (1) to fit the paper.  
Make sure the paper guides touch the edges of the paper.

9. Make sure the paper is flat in the tray and below the maximum paper mark (1).  
Overfilling the paper tray may cause paper jams.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

When you load paper in Tray #2, replace the tray top cover.

10. Slowly push the paper tray completely into the machine.

## IMPORTANT

DO NOT push the paper tray into the machine forcefully or quickly. Doing this may cause paper jams or paper feed problems.

11. Pull out the paper support (1) until it locks into place, and then unfold the paper support flap (2).

12. Change the paper size setting in the machine's menu, if needed.

## CAUTION

Position the machine so the tray will not protrude past the edge of the table or desk where someone may bump into it. The machine could fall and cause injury.

Before you collapse the paper tray, take the paper out of the tray.

Rest the tray on a flat surface.

Push the green slider to the left and then push in the front of the tray to collapse it until it locks into place. Put the paper in the tray.

## Load Paper in the Multi-purpose Tray (MP Tray)

**Related Models:** MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

Use the MP Tray for special print media, such as photo paper or envelopes.

- If the [Check Paper] setting is set to [On] and you set the paper in MP tray, a message appears on the LCD asking if you want to change the paper type and paper size. Change the Paper Size and Paper Type settings if needed, following the LCD instructions.
- Load only one size and type of paper in the paper tray at a time.
- When you load a different paper size in the tray, you must change the Paper Size setting in the machine or the paper size setting on your computer.  
Doing this enables the machine to automatically feed paper from the appropriate tray if Auto Tray Select has been set in the machine or printer driver.

1. Open the MP tray.

When you want to load paper larger than Letter or A4 size paper, pull up the paper tray using both hands until it locks into place.

2. Gently press and slide the MP tray paper guides to match the width of the paper you are using.

3. Fan the stack of paper well to avoid paper jams and misfeeds.

Always make sure the paper is not curled or wrinkled.

4. Gently load the paper in the MP tray with the printing surface *face up*.

- Using Letter, A4, or Executive

**Landscape orientation**

- Using Ledger, A3, Legal, Folio, Mexico Legal, India Legal, A5, A6, envelopes, Photo, Photo L, Photo 2L, or Index Card

**Portrait orientation**

When using envelopes, load the envelopes with the printing surface *face up* and the flap on the left as shown in the illustration.

See *Related Information: About Envelopes*.

If you are having difficulty loading paper in the MP tray, push the release lever (1) toward the back of the machine, and then load the paper.

5. Using both hands, gently adjust the MP tray paper guides to fit the paper.

- DO NOT press the paper guides too tightly against the paper. Doing this may cause the paper to fold and jam.
- Place the paper in the center of the MP tray between the paper guides. If the paper is not centered, pull it out and insert it again at the center position.

6. Do one of the following:

- When using Letter or A4 size, or smaller size paper  
Pull out the paper support until it locks into place.

- When using paper larger than Letter or A4 size, or envelopes  
Pull out the paper support (1) until it locks into place, and then unfold the paper support flap (2).

7. Change the paper size setting in the machine's menu, if needed.

Make sure printing has finished before you close the MP tray.

## Load Paper in the Manual Feed Slot

**Related Models:** MFC-J6530DW/MFC-J6730DW

Load special print media in this slot, one sheet at a time.

 The machine automatically turns on Manual Feed mode when you put paper in the manual feed slot.

1. Open the manual feed slot cover.

2. Slide the manual feed slot paper guides to fit the width of the paper you are using.

3. Load only one sheet of paper in the manual feed slot with the printing surface *face up*.

Using both hands, push one sheet of paper into the manual feed slot until the front edge touches the paper feed rollers. Let go of the paper when you feel the machine pull it. The LCD displays [Manual Feed Slot ready].

Read the instruction displayed on the LCD, and then press [OK].

- 
- Using Letter, A4, or Executive

#### Landscape orientation

- Using Ledger, A3, Legal, Folio, Mexico Legal, India Legal, A5, A6, envelopes, Photo, Photo L, Photo 2L, or Index Card

#### Portrait orientation

- When using envelopes, load the envelopes with the printing surface *face up* and the flap on the left as shown in the illustration.

See *Related Information: About Envelopes*.

- When loading an envelope, or a sheet of thick paper, push the envelope into the manual feed slot until you feel the paper feed rollers grab it.
-

## IMPORTANT

- DO NOT load more than one sheet of paper in the manual feed slot at any time. Doing this may cause a paper jam. When printing multiple pages, do not feed the next sheet of paper until the touchscreen displays a message instructing you to feed the next sheet.
- DO NOT load paper in the manual feed slot when you are printing from the paper tray. Doing this may cause a paper jam.

### 4. Do one of the following:

- When using Letter or A4 size, or smaller size paper  
Pull out the paper support until it locks into place.

- When using paper larger than Letter or A4 size, or envelopes  
Pull out the paper support (1) until it locks into place, and then unfold the paper support flap (2).

- If the document does not fit on one sheet, the LCD will prompt you to load another sheet of paper. Place another sheet of paper in the manual feed slot, and then press [OK].
- When you feed paper larger than Letter or A4 size into the manual feed slot, the machine holds the printed page after printing so it does not fall. Once printing is complete, pull out the printed page and press [OK].
- Make sure printing has finished before you close the manual feed slot cover.
- The machine will eject paper loaded in the manual feed slot while a test page, fax, or report is being printed.
- The machine will eject paper loaded in the manual feed slot during the machine's cleaning process. Wait until the machine finishes its cleaning, and then load paper in the manual feed slot.

## Unprintable Area

The unprintable area depends on the settings in the application you are using. The figures below show the unprintable areas on cut-sheet paper and envelopes. The machine can print in the shaded areas of cut-sheet paper only when the Borderless print feature is available and turned on.

### Cut-Sheet Paper

### Envelopes

	Top (1)	Left (2)	Bottom (3)	Right (4)
Cut-Sheet	0.12 in. (3 mm)	0.12 in. (3 mm)	0.12 in. (3 mm)	0.12 in. (3 mm)
Envelopes	0.47 in. (12 mm)	0.12 in. (3 mm)	0.47 in. (12 mm)	0.12 in. (3 mm)

The Borderless print feature is not available for envelopes, 2-sided printing and some paper sizes, such as Legal and Executive.

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Settings] > [Tray Setting].
2. Press the tray option you want. (MFC-J6730DW)
3. Press [Paper Type].
4. Press ▲ or ▼ to display the paper type options, and then press the option you want.

Use plain paper only in Tray #2.(MFC-J6730DW)

5. Press [Paper Size].
6. Press ▲ or ▼ to display the paper size options, and then press the option you want.
7. Press .

The machine ejects paper with the printed surface face up onto the paper tray at the front of the machine. When you use glossy paper, remove each sheet at once to prevent smudging or paper jams.

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Settings] > [Tray Setting].
2. Press the tray option you want.
3. Press [Paper Type].
4. Press the paper type option you want.

Use plain paper only in Tray #2. (MFC-J6930DW/MFC-J6935DW)

5. Press [Paper Size].
6. Swipe up or down or press ▲ or ▼ to display the paper size options, and then press the option you want.
7. Press .

The machine ejects paper with the printed surface face up onto the paper tray at the front of the machine. When you use glossy paper, remove each sheet at once to prevent smudging or paper jams.

## Change Paper Tray Priority

**Related Models:** MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

Change the default tray priority the machine uses for each mode.

When [Auto Tray Select] is selected in the tray select settings, the machine will feed paper from the most appropriate tray for the paper type and size according to the tray priority setting.

1. Press  [Settings] > [All Settings] > [General Setup] > [Tray Setting].
2. Press the [Tray Setting: Copy], [Tray Setting: Fax], [Tray Setting: Print], or [Tray Setting: JPEG Print (Media)] option.
3. Press [Tray Priority].
4. Press the option you want.
5. Press .

### Related Information

- [Paper Settings](#)

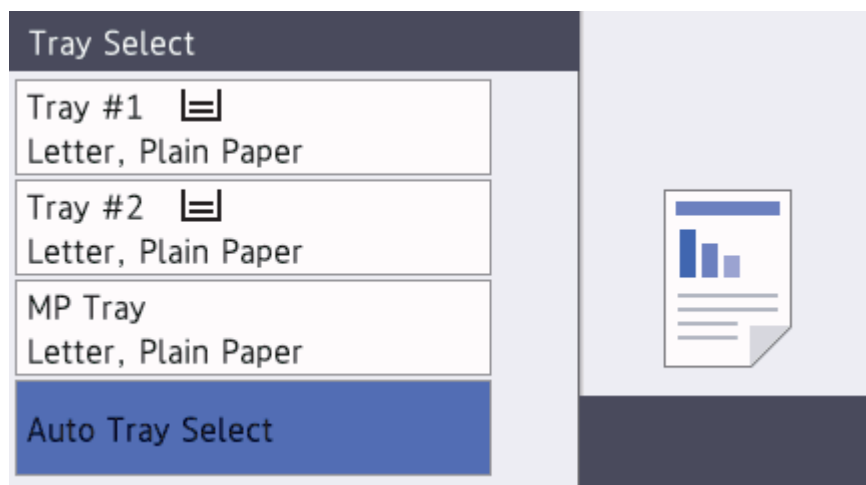

## Change the Paper Low Notice Setting

**Related Models:** MFC-J6935DW

If the Paper Low Notice setting is set to [On], the machine displays a message telling you that the paper tray is nearly empty.

The default setting is [On].

In addition, you can see the icon that displays the remaining amount of paper in the Tray Select option of the Copy mode.

1. Press  [Settings] > [All Settings] > [General Setup] > [Tray Setting] > [Paper Low Notice].
2. Press [On] or [Off].
3. Press .

### Related Information

- [Paper Settings](#)

## Acceptable Paper and Other Print Media

The print quality can be affected by the type of paper you use in the machine.

To get the best print quality for the settings you have chosen, always set the Paper Type to match the type of paper you load.

You can use plain paper, inkjet paper (coated paper), glossy paper, recycled paper and envelopes.

We recommend testing various paper types before buying large quantities.

For best results, use Brother paper.

- When you print on inkjet paper (coated paper) and glossy paper, be sure to choose the proper print media in the **Basic** tab of the printer driver or in the Paper Type setting on the machine.
- When you print on Brother Photo paper, load one extra sheet of the same photo paper in the paper tray.
- When using photo paper, remove each sheet at once to prevent smudging or paper jams.
- Avoid touching the printed surface of the paper immediately after printing; the surface may not be completely dry and may stain your fingers.

  - [About Envelopes](#)
  - [Choose the Right Print Media](#)
  - [Change the Paper Size and Paper Type](#)
  - [Paper Handling and Printing Problems](#)
-

## Recommended Print Media

For the best print quality, we recommend using the Brother paper listed in the table.

### Brother paper

Paper Type	Item
Premium Plus Glossy Photo	
Ledger	BP71GLGR
Letter	BP71GLTR
4" x 6"	BP71GP20
Plain Inkjet	
Ledger	BP60PLGR (USA only)

### Related Information

- [Acceptable Paper and Other Print Media](#)

## Handle and Use Print Media

- Store paper in its original packaging and keep it sealed. Keep the paper flat and away from moisture, direct sunlight and heat.
- Avoid touching the shiny (coated) side of photo paper.

### IMPORTANT

DO NOT use the following kinds of paper:

- Damaged, curled, wrinkled, or irregularly shaped

1. **0.08 in. (2 mm) or greater curl may cause jams to occur.**

- Extremely shiny or highly textured
- Paper that cannot be arranged uniformly when stacked
- Paper made with a short grain

### Related Information

- [Acceptable Paper and Other Print Media](#)

## About Envelopes

- Use envelopes that weigh from 20 to 25 lb (80 to 95 g/m<sup>2</sup>).
- Some envelope sizes require that you set margins in the application. Make sure you do a test print first before printing many envelopes.

### IMPORTANT

DO NOT use envelopes that:

- Are loosely constructed
- Have windows
- Are embossed (have raised writing on them)
- Have clasps or staples
- Are pre-printed on the inside
- Are self-adhesive
- Have double flaps

#### Self-adhesive Double flaps

You may experience paper feed problems caused by the thickness, size and flap shape of the envelopes you are using.

- Before loading envelopes in the tray, press the flaps, edges and corners to make them as flat as possible, as shown in the illustrations.

Fan the stack of envelopes well to avoid paper jams and misfeeds.

### IMPORTANT

If envelopes are "double-feeding," load one envelope in the paper tray at a time.

## Load Documents

- [Load Documents in the Automatic Document Feeder \(ADF\)](#)
- [Load Documents on the Scanner Glass](#)
- [Unscannable Area](#)

## Load Documents in the Automatic Document Feeder (ADF)

The ADF can hold multiple pages and feeds each sheet individually.

Use paper that is within the sizes and weights shown in the table. Always fan the pages before placing them in the ADF.

### Document Sizes and Weights

Length <sup>1</sup> :	5.8 to 17.0 in. (148 to 431.8 mm)
Width:	4.1 to 11.7 in. (105 to 297 mm)
Paper Weight:	17 to 24 lb (64 to 90 g/m <sup>2</sup> )

<sup>1</sup> Up to 35.4 in. (900 mm) when using the long paper function.

### IMPORTANT

- DO NOT pull on the document while it is feeding.
- DO NOT use paper that is curled, wrinkled, folded, ripped, stapled, paper clipped, pasted or taped.
- DO NOT use cardboard, newspaper or fabric.
- Make sure documents with correction fluid or written in ink are completely dry.

(MFC-J6930DW/MFC-J6935DW)

Your 2-sided documents can be faxed, copied, or scanned up to Ledger size using the ADF.

1. Fan the pages well.
2. Adjust the paper guides (1) to fit the document size.

3. Place your document *face up* in the ADF, as shown in the illustration, until you feel the document touch the feed rollers and the machine beeps.

If you loaded a small size document and cannot remove it, lift the ADF document support (1), and then remove the document.

## IMPORTANT

DO NOT leave any documents on the scanner glass. If you do this, the ADF may jam.

### Related Information

## Load Documents on the Scanner Glass

Use the scanner glass to fax, copy, or scan one page at a time.

### Document Sizes Supported

Length:	Up to 17.0 in. (431.8 mm)
Width:	Up to 11.7 in. (297 mm)
Weight:	Up to 4.4 lb (2 kg)

To use the scanner glass, the ADF must be empty.

1. Lift the document cover.
2. Place the document *face down* in the upper left corner of the scanner glass as shown in the illustration.

3. Close the document cover.

### IMPORTANT

If you are scanning a book or thick document, DO NOT slam or press on the document cover.

## Unscannable Area

The unscannable area of a page depends on the settings in the application you are using. The figures below show the typical unscannable measurements.

Usage	Document Size	Top (1) Bottom (3)	Left (2) Right (4)
Fax	Ledger	0.12 in. (3 mm)	0.15 in. (3.7 mm)
	Letter		0.16 in. (4 mm)
	Legal		
	A3		0.18 in. (4.5 mm)
	A4		0.12 in. (3 mm)
Copy	All paper sizes		0.12 in. (3 mm)
Scan		0.04 in. (1 mm)	0.04 in. (1 mm)

## Print as a Booklet Automatically (Windows)

Use this option to print a document in booklet format using 2-sided printing. The document's pages will be arranged according to the correct page number and will allow you to fold at the center of the print output without having to change the order of the printed pages.

- Make sure the jam clear cover is closed.
- If paper is curled, straighten it and put it back in the paper tray.
- Use regular paper or thin paper. DO NOT use bond paper.
- If the paper is thin, it may wrinkle.

1. Select the print command in your application.
2. Select **Brother MFC-XXXX Printer** (where XXXX is the name of your model), and then click the printing properties or preferences button.  
The printer driver window appears.
3. Click the **Basic** tab.
4. In the **Orientation** field, select the **Portrait** or **Landscape** option to set the orientation of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

5. Click the **2-sided / Booklet** drop-down list, and then select the **Booklet** option.
6. Click the **2-sided Settings** button.
7. Select the one of the options from the **2-sided Type** menu.

There are two types of 2-sided binding directions available for each orientation:

Option for Portrait	Description
<b>Left Binding</b>	
<b>Right Binding</b>	

Option for Landscape	Description
----------------------	-------------

**Top Binding**

**Bottom Binding**

8. Select one of the options from the **Booklet Printing Method** menu.

Option	Description
<b>All Pages at Once</b>	Every page will be printed in booklet format (four pages to every piece of paper, two pages per side). Fold your printout in the middle to create the booklet. 
<b>Divide into Sets</b>	This option prints the whole booklet in smaller individual booklet sets, allowing you to fold at the center of the smaller individual booklet sets without having to change the order of the printed pages. You can specify the number of sheets in each smaller booklet set (from 1-15). This option can be helpful when folding a printed booklet that has a large number of pages. 

9. Select the **Binding Offset** check box if you want to specify the offset for binding in inches or millimeters.

10. Click **OK** to return to the printer driver window.

11. Change other printer settings, if needed.

The Borderless feature is not available when using this option.

12. Click **OK**.

13. Complete your print operation.

## Print a Color Document in Grayscale (Windows)

Grayscale mode makes the print processing speed faster than color mode. If your document contains color, selecting Grayscale mode prints your document in 256 levels of grayscale.

1. Select the print command in your application.
2. Select **Brother MFC-XXXX Printer** (where XXXX is the name of your model), and then click the printing properties or preferences button.  
The printer driver window appears.
3. Click the **Advanced** tab.
4. For **Color / Grayscale**, select **Grayscale**.
5. Change other printer settings, if needed.
6. Click **OK**.
7. Complete your print operation.

## Prevent Smudged Printouts and Paper Jams (Windows)

Some types of print media may need more drying time. Change the **Reduce Smudge** option if you have problems with smudged printouts or paper jams.

1. Select the print command in your application.
2. Select **Brother MFC-XXXX Printer** (where XXXX is the name of your model), and then click the printing properties or preferences button.  
The printer driver window appears.
3. Click the **Advanced** tab.
4. Click the **Other Print Options** button.
5. Select the **Reduce Smudge** option on the left side of the screen.
6. Select one of the following options:

Media Type	Option	Description	
Plain Paper	2-sided Printing or Simplex Printing	Off	Select this mode to print at normal speed, using a normal amount of ink.
		Low	Select this mode to print at a slower speed, using a normal amount of ink.
		High	Select this mode to print at the same speed as <b>Low</b> , but using less ink.
Glossy Paper	Off	Select this mode to print at normal speed, using a normal amount of ink.	
	On	Select this mode to print at a slower speed, using less ink.	

7. Click **OK** to return to the printer driver window.
8. Click **OK**.
9. Complete your print operation.

## Use a Preset Print Profile (Windows)

**Print Profiles** are presets designed to give you quick access to frequently-used printing configurations.

1. Select the print command in your application.
2. Select **Brother MFC-XXXX Printer** (where XXXX is the name of your model), and then click the printing properties or preferences button.

The printer driver window appears.

3. Click the **Print Profiles** tab.

4. Select your profile from the print profile list.  
The profile settings are shown on the left side of the printer driver window.
5. Do one of the following:
  - If the settings are correct for your print job, click **OK**.
  - To change the settings, go back to the **Basic** or **Advanced** tab, change settings, and then click **OK**.

To display the **Print Profiles** tab at the front of the window the next time you print, select the **Always show Print Profiles tab first.** check box.

## Create or Delete Your Print Profile (Windows)

Add up to 20 new print profiles with customized settings.

1. Select the print command in your application.
2. Select **Brother MFC-XXXX Printer** (where XXXX is the name of your model), and then click the printing properties or preferences button.  
The printer driver window appears.
3. Click the **Basic** tab and the **Advanced** tab, and configure the print settings you want for the new Print Profile.
4. Click the **Print Profiles** tab.
5. Do one of the following:

### To create a new print profile:

- a. Click **Add Profile**.  
The **Add Profile** dialog box appears.
- b. Type the new profile name in the **Name** field.
- c. Click the icon you want to use to represent this profile from the icon list.
- d. Click **OK**.

The new Print Profile name is added to the list in the **Print Profiles** tab.

### To delete a print profile that you created:

- a. Click **Delete Profile**.  
The **Delete Profile** dialog box appears.
- b. Select the profile you want to delete.
- c. Click **Delete**.
- d. Click **Yes**.
- e. Click **Close**.

### Related Information

## Change the Default Print Settings (Windows)

When you change an application's print settings, the changes only apply to documents printed with that application. To change print settings for all Windows applications, you must configure the printer driver properties.

1. Do one of the following:
  - For Windows Vista and Windows Server 2008  
Click  (**Start**) > **Control Panel** > **Hardware and Sound** > **Printers**.
  - For Windows 7 and Windows Server 2008 R2  
Click  (**Start**) > **Devices and Printers**.
  - For Windows 8  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
  - For Windows 10  
Click  > **All apps** > **Windows System** > **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
  - For Windows Server 2012  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware** group, click **View devices and printers**.
  - For Windows Server 2012 R2  
Click **Control Panel** on the **Start** screen. In the **Hardware** group, click **View devices and printers**.
2. Right-click the **Brother MFC-XXXX Printer** icon (where XXXX is your model name), and then select **Printer properties**. If printer driver options appear, select your printer driver.
3. Click the **General** tab, and then click the **Printing Preferences...** or **Preferences...** button.  
The printer driver dialog box appears.
4. Select the print settings you want to use as defaults for all of your Windows programs.
5. Click **OK**.
6. Close the printer properties dialog box.

## Print Settings (Windows)

### Basic Tab

#### 1. Media Type

Select the type of media you want to use. To achieve the best print results, the machine automatically adjusts its print settings according to the selected media type.

#### Slow Drying Paper

Select this option if you use a type of plain paper on which ink dries slowly. This option may cause slight blurring of the text.

#### 2. Print Quality

Select the print resolution you want. Because print quality and speed are related, the higher the quality, the longer it will take to print the document.

#### 3. Paper Size

Select the size of the paper you want to use. You can either choose from standard paper sizes or create a custom paper size.

---

### **Borderless**

Select this option to print photos without borders. Because the image data is created slightly larger than the paper size you are using, this will cause some cropping of the photo edges.

You may not be able to select the Borderless option for some combinations of media type and quality, or from some applications.

### **4. Color Mode**

Select the color mode to suit your preference.

### **5. Orientation**

Select the orientation (portrait or landscape) of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

### **6. Copies**

Type the number of copies (1-999) that you want to print in this field.

### **Collate**

Select this option to print sets of multi-page documents in the original page order. When this option is selected, one complete copy of your document will print, and then reprint according to the number of copies you choose. If this option is not selected, then each page will print according to the number of copies chosen before the next page of the document is printed.

### **Reverse Order**

Select this option to print your document in reverse order. The last page of your document will be printed first.

### **7. Multiple Page**

Select this option to print multiple pages on a single sheet of paper or print one page of your document on multiple sheets.

### **Page Order**

Select the page order when printing multiple pages on a single sheet of paper.

### **Border Line**

Select the type of border to use when printing multiple pages on a single sheet of paper.

### **8. 2-sided / Booklet**

Select this option to print on both sides of the paper or print a document in booklet format using 2-sided printing.

### **2-sided Settings button**

Click this button to select the type of 2-sided binding. Four types of 2-sided bindings are available for each orientation.

### **9. Paper Source (available only for certain models)**

Select the paper source setting according to your print conditions or purpose.

## Advanced Tab

### 1. Color / Grayscale

Select color or grayscale printing. The print speed is faster in grayscale mode than it is in color mode. If your document contains color and you select grayscale mode, your document will be printed using 256 levels of grayscale.

### 2. Color Enhancement (True2Life)

Select this option to use the Color Enhancement feature. This feature analyzes your image to improve its sharpness, white balance and color density. This process may take several minutes depending on the image size and your computer's specifications.

### 3. Ink Save Mode

Select this option to print using lighter colors and emphasize image outlines. The amount of ink that is saved varies, depending on the type of documents printed. Ink Save Mode may make your printouts look different than they appear on your screen.

The Ink Save Mode feature is supported by technology from Reallusion, Inc.

### 4. Scaling

Select these options to enlarge or reduce the size of the pages in your document.

---

### **Fit to Paper Size**

Select this option to enlarge or reduce the document pages to fit a specified paper size. When you select this option, select the paper size you want from the drop-down list.

### **Free**

Select this option to enlarge or reduce the document pages manually. When you select this option, type a value into the field.

### **5. Mirror Print**

Select this option to reverse the printed image on the page horizontally from left to right.

### **6. Reverse Print**

Select this option to rotate the printed image 180 degrees.

### **7. Use Watermark**

Select this option to print a logo or text on your document as a watermark. Select one of the preset watermarks, add a new watermark, or use an image file you have created.

### **8. Header-Footer Print**

Select this option to print the date, time and PC login user name on the document.

### **9. User Authentication**

This feature allows you to confirm the restrictions for each user.

### **10. Other Print Options button**

#### **Change Data Transfer Mode**

Select the print data transfer mode to improve print quality or print speed.

#### **Advanced Color Settings**

Select the method that the machine uses to arrange dots to express halftones.

The printout color can be adjusted to achieve the closest match to what appears on your computer screen.

#### **Reduce Smudge**

Some types of print media may need more drying time. Change this option if you have problems with smudged printouts or paper jams.

#### **Retrieve Printer's Color Data**

Select this option to optimize the print quality using the machine's factory settings, which are set specifically for your Brother machine. Use this option when you have replaced the machine or changed the machine's network address.

#### **Print Archive**

Select this option to save the print data as a PDF file to your computer.

#### **Reduce Uneven Lines**

Select this option to adjust the print alignment if your printed text becomes blurred or images become faded.

## Print Photos Directly from a USB Flash Drive

Even if your machine is *not* connected to your computer, you can print photos directly from a USB Flash memory drive, scan documents and save them directly to a USB flash drive.

- [Important Information about Photo Printing](#)
- [Print Photos from a USB Flash Drive on the Brother Machine](#)

## Important Information about Photo Printing

Your machine is designed to be compatible with modern digital camera image files and USB flash drives. Read the points below to avoid errors:

- The image file extension must be .JPG (other image file extensions like .JPEG, .TIF, .GIF and so on will not be recognized).
- Direct photo printing must be performed separately from photo printing operations using the computer. (Simultaneous operation is not available.)
- The machine can read up to 999 files <sup>1</sup> on a USB flash drive.

Be aware of the following:

- When printing an index or image, the machine will print all the valid images, even if one or more images have been corrupted. Corrupted images will not be printed.
- Your machine supports USB flash drives that have been formatted by Windows.

## Print a Photo Index Sheet (Thumbnails) from a USB Flash Drive

Print a photo Index Sheet to see small preview versions of all pictures on your USB flash drive.

- The machine assigns numbers for images (such as No.1, No.2, No.3, and so on).  
The machine does not recognize any other numbers or file names that your digital camera or computer has used to identify the pictures.
- Only file names that are 20 characters or less will be printed correctly on the index sheet.
- File names cannot be printed correctly if they contain non-alphanumeric characters, but non-alphanumeric characters do not affect photo print settings.

## Print a PDF File Directly from a USB Flash Drive

**Related Models:** MFC-J6935DW

You can print a PDF file directly from a USB flash drive.

 PDF files that are 2 GB or more cannot be printed.

### IMPORTANT

To prevent damage to your machine, DO NOT connect any device other than a USB flash drive to the USB direct interface.

1. Put a USB flash drive in the USB slot.

2. Press [PDF Print].

 If your machine has been set to Secure Function Lock On, you may not be able to access Direct Print.

3. Swipe up or down or press ▲ or ▼ to display the PDF file you want to print, and then press it.
4. Enter the number of copies in one of the following ways:
  - Press [-] or [+] on the touchscreen.
  - Press  $\times 001$  to display the keyboard on the touchscreen, and then enter the number of copies using the touchscreen keyboard. Press [OK].
  - Enter the number of copies using the dial pad.
5. Read and confirm the displayed list of options.
6. To change the print settings, press [Print Settings].

When finished, press [OK].

Option	Description
Print Quality	Select the print resolution for your type of document.
Paper Size	Select the paper size.
Tray Select	Select the tray.
Multiple Page	Set this option to print multiple pages on a single sheet of paper or print one page of your document on multiple sheets.
2-sided	Select the type of 2-sided binding.
Collate	Set this option to On to print sets of multi-page documents in the original page order.
PDF Option	Select this option to print a PDF file with the markups or stamps.

---

7. Press [Black Start] or [Color Start].

### **IMPORTANT**

DO NOT remove the USB flash drive from the USB direct interface until the machine has finished printing.

---

- Press [Scan to Media].
- Do one of the following:
  - To change the settings, press [Options], and then go to the next step.

- To set your own default settings: after making changes to settings, press the [Set New Default] option, and then press [Yes].
- To restore the factory settings: press [Factory Reset], and then press [Yes].

- Press [Start] to start scanning without changing additional settings.  
The machine starts scanning. If using the machine's scanner glass, follow the LCD instructions to complete the scanning job.
- To scan both sides of the document (for MFC-J6930DW/MFC-J6935DW only), press [2-sided Scan], and then select the document type.

Option	Description	Scan result
2-sided Scan: Long Edge	Scan the document so that the pages are read by flipping them on the long edge.	

Option	Description	Scan result
2-sided Scan: Short Edge	Scan the document so that the pages are read by flipping them on the short edge.	

6. Select the scan settings you want to change, and then press [OK].

Option	Description
2-sided Scan (Available only for certain models)	Select the 2-sided scan mode.
Scan Type	Select the scan type for your document.
Resolution	Select the scan resolution for your document.
File Type	Select the file format for your document.
Document Size	Select your document size.
Scan Long Paper (ADF) (Available only for certain models)	Scan a long document using the ADF.
File Name	Rename the file.
File Name Style	Select the order in which the date, counter number, and other items appear in the file names.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
Auto Crop (Available only for certain models)	Scan multiple documents placed on the scanner glass to a USB flash drive. The machine will scan each document and create separate files or a single multi-page file.
ADF Auto Deskew (Available only for certain models)	Correct any skewed documents when they are scanned using the ADF.
Skip Blank Page (Available only for certain models)	When On is selected, blank pages are skipped.
Skip Blank Page Sensitivity (Available only for certain models)	Select the sensitivity level for detecting blank pages in the scanned data. The higher the sensitivity, the easier it is for the machine to detect blank pages.
Remove Background Color	Change the amount of background color that is removed.

- To save the settings as a shortcut, press [Save as Shortcut]. You will be asked if you want to make this a One Touch Shortcut. Follow the LCD instructions.

7. Press [Start].

- 
8. If you are using the scanner glass, set the next page and then press [Continue]. If there are no more pages to scan, press [Finish]. After you finish scanning, make sure you choose [Finish] before removing the USB flash drive from the machine.

## IMPORTANT

The LCD displays a message while reading the data. DO NOT unplug the power cord or remove the USB flash drive from the machine while it is reading the data. You could lose your data or damage the USB flash drive.

## Scan Multiple Business Cards and Photos (Auto Crop)

You can scan multiple documents placed on the scanner glass. The machine will scan each document and use the Auto Crop feature to create separate files or a single multi-page file.

### Guidelines for Auto Crop

1. 0.4 in. (10 mm) or greater
2. 0.8 in. (20 mm) or greater (bottom)
  - This setting is available only for documents that are rectangular or square.
  - If your document is too long or wide, this feature will not work as described here.
  - You must place the documents away from the edges of the scanner glass as shown in the illustration.
  - You must place the documents at least 0.4 in. (10 mm) away from each other.
  - Auto Crop adjusts the skew of the document on the scanner glass; however, if your document is skewed more than 10 degrees, this feature will not work.
  - The ADF must be empty to use Auto Crop.
  - The Auto Crop feature is available for a maximum of 32 documents, depending on the size of the documents.

## Scan to FTP

Scan documents directly to an FTP server when you need to share the scanned information. For added convenience, configure different profiles to save your favorite Scan to FTP destinations.

- [Set up a Scan to FTP Profile](#)
- [Upload Scanned Data to an FTP Server](#)

## Set up a Scan to FTP Profile

Set up a Scan to FTP Profile to scan and upload the scanned data directly to an FTP location.

We recommend Microsoft Internet Explorer 8/11 and Microsoft Edge for Windows, and Safari 9 for Mac. Please also make sure that JavaScript and Cookies are always enabled in whichever browser you use. If a different web browser is used, make sure it is compatible with HTTP 1.0 and HTTP 1.1.

1. Start your web browser.  
Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the IP address of the machine or the print server name). For example: http://192.168.1.2  
No password is required by default. If you have previously set a password, type it, and then click .
2. Click the **Scan** tab.
3. Click the **Scan to FTP/Network** menu in the left navigation bar.
4. Select the **FTP** option, and then click **Submit**.

### Scan to FTP/Network

---

<b>Profile 1</b>	<input checked="" type="radio"/> FTP <input type="radio"/> Network
<b>Profile 2</b>	<input checked="" type="radio"/> FTP <input type="radio"/> Network
<b>Profile 3</b>	<input checked="" type="radio"/> FTP <input type="radio"/> Network
<b>Profile 4</b>	<input checked="" type="radio"/> FTP <input type="radio"/> Network
<b>Profile 5</b>	<input checked="" type="radio"/> FTP <input type="radio"/> Network

---

5. Click the **Scan to FTP/Network Profile** menu in the left navigation bar.
6. Select the profile you want to set up or change.
7. In the **Profile Name** field, type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
8. In the **Host Address** field, type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).

9. Change the **Port Number** setting used to access the FTP server. The default for this setting is port 21. In most cases this setting does not need to be changed.
10. In the **Username** field, type a user name (up to 32 characters) that has permission to write data to the FTP server.
11. In the **Password** field, type the password (up to 32 characters) associated with the user name you entered in the **Username** field. Type the password again in the **Retype password** field.
12. To scan securely using SSL/TLS communication, set the **SSL/TLS** option. Change the **CA Certificate** setting, if needed.
13. In the **Store Directory** field, type the path (up to 60 characters) to the folder on the FTP server where you want to send your scanned data. Do not type a slash mark at the beginning of the path (see example).

**Store Directory**

brother/abc

14. Click the **File Name** drop-down list, and then select a file name from the preset names provided, or from user-defined names. You can set the user-defined names and file name style in the **Scan File Name** menu in the left navigation bar.
15. Click the **Quality** drop-down list, and then select a quality setting. If you choose the **User Select** option, the machine will prompt users to select a setting each time they use the scan profile.
16. Click the **File Type** drop-down list, and then select the file type you want to use for the scanned document. If you choose the **User Select** option, the machine will prompt users to select a setting each time they use the scan profile.
17. Click the **Document Size** drop-down list, and then select your document size from the list. This is necessary to make sure the scanned file is the correct size.
18. If you want to scan a document printed on long paper using the ADF, select the **On** option from the **Scan Long Paper (ADF)** option. (Available only for certain models)
19. Select **Auto** from the **ADF Auto Deskew** option, to set the machine to correct document skewing automatically as the pages are scanned from the ADF. (Available only for certain models)
20. If you want to remove blank pages of the document from the scanning results, select the **On** option from the **Skip Blank Page** option. (Available only for certain models)
21. Click the **Remove Background Color** drop-down list, and then select the level from the list. You can use this feature to remove the background color of documents to make the scanned data more legible.
22. Set the **Passive Mode** option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases this setting does not need to be changed.
23. Click **Submit**.

Using the following characters: ?, /, \, ", :, <, >, | or \* may cause a sending error.

## Scan to Network (Windows)

Scan documents directly to a CIFS server on your local network. For added convenience, you can configure different profiles to save your favorite Scan to Network destinations.

- [Set up a Scan to Network Profile](#)
- [Upload Scanned Data to a CIFS Server](#)

## Set up a Scan to Network Profile

Set up a Scan to Network Profile to scan and upload scanned data directly to a folder on a CIFS server.

- We recommend Microsoft Internet Explorer 8/11 and Microsoft Edge for Windows. Make sure JavaScript and Cookies are always enabled in whichever browser you use. If a different web browser is used, make sure it is compatible with HTTP 1.0 and HTTP 1.1.

1. Start your web browser.

Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the IP address of the machine or the print server name). For example: http://192.168.1.2

No password is required by default. If you have previously set a password, type it, and then click .

2. Click the **Scan** tab.
3. Click the **Scan to FTP/Network** menu in the left navigation bar.
4. Select the **Network** option, and then click **Submit**.

**Scan to FTP/Network**

<b>Profile 1</b>	<input type="radio"/> FTP <input checked="" type="radio"/> Network
<b>Profile 2</b>	<input type="radio"/> FTP <input checked="" type="radio"/> Network
<b>Profile 3</b>	<input type="radio"/> FTP <input checked="" type="radio"/> Network
<b>Profile 4</b>	<input type="radio"/> FTP <input checked="" type="radio"/> Network
<b>Profile 5</b>	<input type="radio"/> FTP <input checked="" type="radio"/> Network

5. Click the **Scan to FTP/Network Profile** menu in the left navigation bar.
6. Select the profile you want to set up or change.
7. In the **Profile Name** field, type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
8. In the **Network Folder Path** field, type the path to the folder on the CIFS server where you want to send your scanned data.
9. Click the **File Name** drop-down list, and then select a file name from the preset names provided, or from user-defined names. You can set the user-defined names and file name style in the **Scan File Name** menu in the left navigation bar.
10. Click the **Quality** drop-down list, and then select a quality setting. If you choose the **User Select** option, the machine will prompt users to select a setting each time they use the scan profile.

11. Click the **File Type** drop-down list, and then select the file type you want to use for the scanned document. If you choose the **User Select** option, the machine will prompt users to select a setting each time they use the scan profile.
12. Click the **Document Size** drop-down list, and then select your document size from the list. This is necessary to make sure the scanned file is the correct size.
13. If you want to scan a document printed on long paper using the ADF, select the **On** option from the **Scan Long Paper (ADF)** option. (Available only for certain models)
14. Select **Auto** from the **ADF Auto Deskew** option, to set the machine to correct document skewing automatically as the pages are scanned from the ADF. (Available only for certain models)
15. If you want to remove blank pages of the document from the scanning results, select the **On** option from the **Skip Blank Page** option. (Available only for certain models)
16. Click the **Remove Background Color** drop-down list, and then select the level from the list. You can use this feature to remove the background color of documents to make the scanned data more legible.
17. To PIN-protect this profile, in the **Use PIN for Authentication** field, select **On**.
18. If you selected **On** for the **Use PIN for Authentication** field, type a four-digit PIN in the **PIN Code** field.
19. To set your authentication method, select the authentication method you want from the **Auth. Method** option.
20. In the **Username** field, type a user name (up to 96 characters) that has permission to write data to the folder specified in the **Network Folder Path** field. If the user name is part of a domain, type the user name in one of the following styles:  
**user@domain**  
**domain\user**
21. In the **Password** field, type the password (up to 32 characters) associated with the user name you entered in the **Username** field. Type the password again in the **Retype password** field.
22. To set the Kerberos Server Address manually, in the **Kerberos Server Address** field, type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).
23. Click **Submit**.

Using the following characters: ?, /, \, ", :, <, >, | or \* may cause a sending error.

24. You must configure the SNTP (network time server) or you must set the date, time and time zone correctly on the control panel. The time must match the time used by the Kerberos Server and CIFS Server.

## Set the Date and Time Using Web Based Management

Make sure the date and time and the time zone settings are set correctly using Web Based Management or the control panel, so the machine's time matches the time being used by the server providing authentication.

Start with Step 2 if you already have a Web Based Management window open.

1. Start your web browser.

Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the IP address of the machine or the print server name). For example: http://192.168.1.2

No password is required by default. If you have previously set a password, type it, and then click .

2. Click the **Administrator** tab.
3. Click the **Date&Time** menu in the left navigation bar.

**Date&Time**

---

**Date**       /  /

**Time**       :  (24 hr.)

**Time Zone**       ▼

**Auto Daylight**       Off  On

**Synchronize with SNTP server**

To synchronize the "Date&Time" with your SNTP server you must configure the SNTP server settings.

[SNTP>>](#)

---

4. In the **Date** fields, enter the date.
5. Select either 12h Clock or 24h Clock as your **Clock Type** (available only for certain countries).
6. In the **Time** fields, enter the time.
7. Select the time difference between your location and UTC from the **Time Zone** drop-down list, for example, the time zone for Eastern time in the USA and Canada is UTC-05:00.
8. Click the **On** option for **Auto Daylight** to set the machine to change automatically for daylight saving time. It will reset itself forward one hour in the spring, and back one hour in the fall/autumn (available only for certain countries).
9. Click **Submit**.

## Upload Scanned Data to a CIFS Server

>> [MFC-J6530DW/MFC-J6730DW](#)  
>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Load your document.
2. Press [Scan] > [to Network].
3. Press ▲ or ▼ to select one of the Scan to Network profiles listed.

If the LCD prompts you to enter a PIN, use the LCD to enter the four-digit PIN for the computer, and then press [OK].

4. Do one of the following:
  - To change the settings, press [Options], and then go to the next step.
  - If the profile is not complete (for example, if the logon account name and password are missing or if the quality or file type is not specified), you will be prompted to enter any missing information.  
When you finish the settings, press [Start].
  - If the profile is complete, press [Start].

After you press [Start], the LCD shows the message [Connecting]. When the connection to the CIFS server is successful, the machine starts scanning. If you are using the scanner glass, set the next page and then press [Continue]. If there are no more pages to scan, press [Finish].

5. Select the scan settings you want to change, and then press [OK].

Option	Description
Scan Type	Select the scan type for your document.
Resolution	Select the scan resolution for your document.
File Type	Select the file format for your document.
Document Size	Select your document size.
Scan Long Paper (ADF) (Available only for certain models)	Scan a long document using the ADF.
File Name	Rename the file.
File Name Style	Select the order in which the date, counter number, and other items appear in the file names.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
ADF Auto Deskew (Available only for certain models)	Correct any skewed documents when they are scanned using the ADF.
Skip Blank Page (Available only for certain models)	When On is selected, blank pages are skipped.
Skip Blank Page Sensitivity (Available only for certain models)	Select the sensitivity level for detecting blank pages in the scanned data. The higher the sensitivity, the easier it is for the machine to detect blank pages.

Option	Description
Remove Background Color	Change the amount of background color that is removed.
User Name	Enter the user name.

- To save the profile as a shortcut, press [Save as Shortcut]. You will be asked if you want to make this a One Touch Shortcut. Follow the LCD instructions.

6. Press [Start] to start scanning.

The LCD shows the message [Connecting]. When the connection to the CIFS server is successful, the machine starts scanning. If you are using the scanner glass, set the next page and then press [Continue]. If there are no more pages to scan, press [Finish].

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Load your document.

2. Press  [Scan].

3. Swipe left or right to display  [to Network], and press it.

The icon moves to the middle of the touchscreen and is highlighted in blue.

4. Press  [to Network].

5. Press ▲ or ▼ to select one of the Scan to Network profiles listed.

If the LCD prompts you to enter a PIN, use the LCD to enter the four-digit PIN for the computer, and then press [OK].

6. Do one of the following:

- To change the settings, press [Options], and then go to the next step.
- If the profile is not complete (for example, if the logon account name and password are missing or if the quality or file type is not specified), you will be prompted to enter any missing information.

When you finish the settings, press [Start].

- If the profile is complete, press [Start].

After you press [Start], the LCD shows the message [Connecting]. When the connection to the CIFS server is successful, the machine starts scanning. If you are using the scanner glass, set the next page and then press [Continue]. If there are no more pages to scan, press [Finish].

7. Select the scan settings you want to change, and then press [OK].

Option	Description
2-sided Scan (Available only for certain models)	Select the 2-sided scan mode.
Scan Type	Select the scan type for your document.
Resolution	Select the scan resolution for your document.
File Type	Select the file format for your document.
Document Size	Select your document size.
Scan Long Paper (ADF) (Available only for certain models)	Scan a long document using the ADF.
File Name	Rename the file.

Option	Description
File Name Style	Select the order in which the date, counter number, and other items appear in the file names.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
ADF Auto Deskew (Available only for certain models)	Correct any skewed documents when they are scanned using the ADF.
Skip Blank Page (Available only for certain models)	When On is selected, blank pages are skipped.
Skip Blank Page Sensitivity (Available only for certain models)	Select the sensitivity level for detecting blank pages in the scanned data. The higher the sensitivity, the easier it is for the machine to detect blank pages.
Remove Background Color	Change the amount of background color that is removed.
User Name	Enter the user name.

- To save the profile as a shortcut, press [Save as Shortcut]. You will be asked if you want to make this a One Touch Shortcut. Follow the LCD instructions.

8. Press [Start] to start scanning.

The LCD shows the message [Connecting]. When the connection to the CIFS server is successful, the machine starts scanning. If you are using the scanner glass, set the next page and then press [Continue]. If there are no more pages to scan, press [Finish].

### Related Information

- [Scan to Network \(Windows\)](#)

## Web Services for Scanning on Your Network (Windows Vista SP2 or greater, Windows 7, Windows 8 and Windows 10)

The Web Services protocol enables Windows Vista (SP2 or greater), Windows 7, Windows 8 and Windows 10 users to scan using a Brother machine on the network. You must install the driver via Web Services.

- [Use Web Services to Install Drivers Used for Scanning \(Windows Vista, Windows 7, Windows 8 and Windows 10\)](#)
- [Scan Using Web Services from the Brother Machine \(Windows Vista SP2 or greater, Windows 7, Windows 8 and Windows 10\)](#)
- [Configure Scan Settings for Web Services](#)

## Use Web Services to Install Drivers Used for Scanning (Windows Vista, Windows 7, Windows 8 and Windows 10)

Use Web Services to monitor printers on the network.

- Make sure you have installed the Brother software and drivers.
- Verify that the host computer and the Brother machine are on the same subnet, or that the router is correctly configured to pass data between the two devices.
- You must configure the IP address on your Brother machine before you configure this setting.
- For Windows Server 2008, Windows Server 2012 and Windows Server 2012 R2, you must install Print Services.

1. Do one of the following:

- Windows Vista

Click  **(Start) > Network.**

The machine's Web Services Name appears with the printer icon.

Right-click the machine you want to install.

- Windows 7

Click  **(Start) > Control Panel > Network and Internet > View network computers and devices.**

The machine's Web Services Name appears with the printer icon.

Right-click the machine you want to install.

- Windows 8

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings > Change PC settings > Devices > Add a device.**

The machine's Web Services Name appears.

- Windows 8.1

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings > Change PC settings > PC and devices > Devices > Add a device.**

The machine's Web Services Name appears.

- Windows 10

Click  **> All apps > Windows System > Control Panel.** In the **Hardware and Sound** group, click **Add a device.**

- The Web Services Name for the Brother machine is your model name and the MAC Address (Ethernet Address) of your machine (for example, Brother MFC-XXXX (model name) [XXXXXXXXXXXX] (MAC Address / Ethernet Address)).
- Windows 8/Windows 10  
Move your mouse over the machine name to display the machine's information.

2. Do one of the following:

- Windows Vista/Windows 7

Click **Install** in the displayed menu.

- Windows 8/Windows 10

Select the machine you want to install.

To uninstall drivers, click **Uninstall** or  **(Remove device).**

## Configure Scan Settings for Web Services

1. Do one of the following:
  - Windows Vista  
Click  (Start) > **Control Panel** > **Hardware and Sound** > **Scanners and Cameras**.
  - Windows 7  
Click  (Start) > **Devices and Printers**.
  - Windows 8  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
  - Windows 10  
Click  > **All apps** > **Windows System** > **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
2. Do one of the following:
  - Windows Vista  
Click your machine, and then click the **Scan Profiles** button. The **Scan Profiles** dialog box appears.
  - Windows 7, Windows 8 and Windows 10  
Right-click the machine icon, and then select **Scan profiles....** The **Scan Profiles** dialog box appears.
3. Select the scan profile you want to use.
4. Make sure the scanner selected in the **Scanner** list is a Brother machine that supports Web Services for scanning, and then click the **Set as Default** button.
5. Click **Edit...**  
The **Edit Default Profile** dialog box appears.
6. Select the **Source**, **Paper size**, **Color format**, **File type**, **Resolution (DPI)**, **Brightness** and **Contrast** settings.
7. Click the **Save Profile** button.  
These settings will be applied when you scan using the Web Services protocol.

If you are requested to select a scanning application, select Windows Fax and Scan or Windows Photo Gallery from the list.

## Change Scan Button Settings from ControlCenter4 (Windows)

1. Click the  (ControlCenter4) icon in the task tray, and then click **Open**.
2. Click the **Device Settings** tab.
3. Click the **Device Scan Settings** button.

The **Device Scan Settings** dialog box appears.

4. Click the tab for the Scan to action you want to change (**Image**, **OCR**, **E-mail**, or **File**).
5. Change the settings as needed.
6. Click **OK**.

Each tab corresponds to a scan feature, as described below.

These settings can be changed.

Click the tabs, and then change the settings.

Tab Name	Corresponding Feature
Image	Scan to Image
OCR	Scan to OCR
E-mail	Scan to Email
File	Scan to File

Settings	Applicable Features			
	Image	OCR	E-mail	File
File Type	Yes	Yes	Yes	Yes
Target Application	Yes	Yes	-	-
OCR Language (Available only for certain models)	-	Yes	-	-
File Name	Yes	Yes	Yes	Yes
Destination Folder	Yes	Yes	Yes	-
Scan Location	-	-	-	Yes
File Size Priority	Yes	-	Yes	Yes
Resolution	Yes	Yes	Yes	Yes
Scan Type	Yes	Yes	Yes	Yes
Document Size	Yes	Yes	Yes	Yes
Brightness	Yes	Yes	Yes	Yes
Contrast	Yes	Yes	Yes	Yes
Auto Crop	Yes	-	Yes	Yes
ID Card Scan	Yes	Yes	Yes	Yes
Advanced Settings	Yes	Yes	Yes	Yes
Default	Yes	Yes	Yes	Yes

### File Type

Select the file type you want to use for the scanned data.

### Target Application

Select the destination application from the drop-down list.

### OCR Language

Set the optical character recognition (OCR) language to match the language of the scanned document's text (Available only for certain models).

### File Name

Type a prefix for your file name, if needed.

### Destination Folder

Click the folder icon to browse and select the folder where you want to save your scanned documents.

### Scan Location

Select the **Folder** or **SharePoint** radio button to specify the destination where you want to save your scanned documents.

---

## File Size Priority

Adjust the data compression ratio of the scanned image. Change the file size by moving the **File Size Priority** slider to the right or left.

## Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

## Scan Type

Select from a range of scan color depths.

- **Auto**  
Use for any type of document. This mode automatically picks an appropriate color depth for the document.
- **Black & White**  
Use for text or line art images.
- **Gray (Error Diffusion)**  
Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)
- **True Gray**  
Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.
- **24bit Color**  
Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

## Document Size

Select the exact size of your document from the **Document Size** drop-down list.

- If you select the **1 to 2 (A4)** option, the scanned image will be divided into two A5-size documents.

## Brightness

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value into the field to set the **Brightness** level.

## Contrast

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value into the field to set the **Contrast** level.

## Auto Crop

Scan multiple documents placed on the scanner glass. The machine will scan each document and create separate files or a single multi-page file.

## ID Card Scan

Select this check box to scan both sides of an identification card onto one page.

## Advanced Settings

Click the **Advanced Settings** button in the scan settings dialog box to configure advanced settings.

- **Remove Bleed-through / Pattern**
  - **Remove Background Color**  
Remove the base color of documents to make the scanned data more legible.
- **Rotate Image**  
Rotate the scanned image.
- **Skip Blank Page**  
Remove the document's blank pages from the scanning results. (Available only for certain models)

---

- **Display Scanning Results**

Show the numbers of total pages saved and blank pages skipped on your computer screen. (Available only for certain models)

- **ADF Auto Deskew**

When scanning the document from the ADF, the machine corrects skewing of the document automatically. (Available only for certain models)

**Default**

Select this option to restore all settings to their factory setting values.

-

## Change Scan Button Settings from ControlCenter2 (Mac)

- In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
- Hold the control key on your keyboard and click the scan destination (**Image, OCR, E-mail, or File**) whose settings you want to change.
- Click the **Device Button** tab.  
The settings for the scan destination that you selected appear.  
The following example shows the **Scan to Image** settings.

Settings	Applicable Features			
	Image	OCR	E-mail	File
Target Application /E-mail Application	Yes	Yes	Yes	-
File Type	Yes	Yes	Yes	Yes
File size	Yes	-	Yes	Yes

<b>OCR Language</b> (only available for certain models)	-	Yes	-	-
<b>Destination File Path</b>	Yes	Yes	Yes	-
<b>File Name</b>	Yes	Yes	Yes	Yes
<b>Insert Date in File Name</b>	Yes	Yes	Yes	Yes
<b>Destination Folder</b>	Yes	Yes	Yes	Yes
<b>Resolution</b>	Yes	Yes	Yes	Yes
<b>Scan Type</b>	Yes	Yes	Yes	Yes
<b>Document Size</b>	Yes	Yes	Yes	Yes
<b>ID Card Scan</b>	Yes	Yes	Yes	Yes
<b>Advanced Settings</b>	Yes	Yes	Yes	Yes
<b>Restore Defaults</b>	Yes	Yes	Yes	Yes

### Target Application/E-mail Application

Select which application is used to open scanned data. Only applications installed on your computer can be selected.

- **Add**

Add an application to the pop-up menu.

Type the application name in the **Application Name** field (up to 30 characters) and select your preferred application by clicking the **Browse** button. Select the **File Type** option from the pop-up menu.

- **Delete**

Delete an application you have added to the pop-up menu.

Select the application from the **Application Name** pop-up menu, and then click **Delete**.

### File Type

Select the file type you want to use for the scanned data.

### File size

Change the file size by moving the **File size** slider to the right or left.

### OCR Language

Set the optical character recognition (OCR) language to match the language of the scanned document's text (available only for certain models).

### Destination File Path

Click the **Change** button to change the prefix of the file name and the path of the destination folder.

### File Name

Type a prefix for your file name, if needed. To change the prefix for the **Image**, **OCR** and **E-mail** features, click **Change**.

### Insert Date in File Name

Automatically inserts the date in the file name of the scanned image. To insert the date in the file name for the **Image**, **OCR** and **E-mail** features, click **Change**.

### Destination Folder

To change the folder for the **Image**, **OCR** and **E-mail** features, click **Change**. Click **Browse** to select the folder where you want to save your scanned document. Select the **Show Folder** option to automatically display the destination folder after scanning to a **File**.

### Resolution

Select a scanning resolution from the **Resolution** pop-up menu. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

---

## Scan Type

Select from a range of scan color depths.

- **Black & White**

Use for text or line art images.

- **Gray (Error Diffusion)**

Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)

- **True Gray**

Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.

- **24bit Color**

Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

- **Auto**

Use for any type of document. This mode automatically picks an appropriate color depth for the document.

## Document Size

Select the exact size of your document from the **Document Size** pop-up menu.

- If you select the **1 to 2 (A4)** option, the scanned image will be divided into two A5-size documents.

## ID Card Scan

Select this check box to scan both sides of an identification card onto one page.

## Advanced Settings

Click the **Advanced Settings** button in the scan settings dialog box to configure advanced settings.

- **Brightness**

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again.

- **Contrast**

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasize dark and light areas of the image, while a decrease reveals more details in gray areas.

- **ADF Auto Deskew**

When scanning the document from the ADF, the machine corrects skewing of the document automatically. (Available only for certain models)

- **Remove Background Color**

Remove the base color of documents to make the scanned data more recognizable. When you use this feature, select from three settings: High, Medium and Low.

- **Skip Blank Page**

Remove blank pages of the document from the scanning results. (Available only for certain models)

- **Display Scanning Results**

Show the numbers of total pages saved and blank pages skipped on your computer screen. (Available only for certain models)

- **Rotate Image**

Rotate the scanned image.

## Restore Defaults

Select this option to restore all settings to their factory setting values.

## Scan Using ControlCenter4 Home Mode (Windows)

Select **Home Mode** as the mode setting for ControlCenter4.

1. Load your document.
2. Click the  (**ControlCenter4**) icon in the task tray, and then click **Open**.
3. Click the **Scan** tab.

4. Select the **Document Type**.
  5. Change the document's **Scan Size**, if needed.
  6. Click  (**Scan**).
- The machine starts scanning, and the scanned image appears in the image viewer.
7. If you scanned multiple pages using the ADF, click the left or right arrow buttons to preview each scanned page.
  8. Crop the scanned image, if needed.
  9. Do one of the following:
    - Click  (**Save**) to save scanned data.
    - Click  (**Print**) to print scanned data.
    - Click  (**Open with an Application**) to open scanned data in another application.
    - Click  (**Send E-mail**) to attach scanned data to an email.
    - Click  (**OCR**) to convert your scanned document to an editable text file. (available only for certain models)

Home > Scan > Scan from Your Computer (Windows) > Scan Using ControlCenter4 Home Mode (Windows) > Scan Using ControlCenter4 Home Mode (Windows) > Select Document Type Using ControlCenter4 Home Mode (Windows)

## Select Document Type Using ControlCenter4 Home Mode (Windows)

- Select the **Document Type** option that matches the type of original you want to scan.

Option	Description
Photo	600 x 600 dpi 24bit Color
Text and Graph	300 x 300 dpi 24bit Color
Monochrome Text	200 x 200 dpi Black & White
Custom	300 x 300 dpi (24bit Color as default) Select the scan settings you want from the <b>Custom Settings</b> button.

### ✓ Related Information

- [Scan Using ControlCenter4 Home Mode \(Windows\)](#)
- [Custom Scan Settings \(Windows\)](#)

## Custom Scan Settings (Windows)

Select **Custom** in the **Document Type** list to change advanced scan settings.

- Select **Custom**, and then click the **Custom Settings** button.

The **Custom Scan Settings** dialog box appears.

You can change the following settings:

### Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

### Scan Type

Select from a range of scan color depths.

#### - Auto

Use for any type of document. This mode automatically picks an appropriate color depth for the document.

#### - Black & White

Use for text or line art images.

#### - Gray (Error Diffusion)

Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)

#### - True Gray

Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.

#### - 24bit Color

Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

---

## Brightness

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value into the field to set the **Brightness** level.

## Contrast

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value into the field to set the **Contrast** level.

## Auto Crop

Scan multiple documents placed on the scanner glass. The machine will scan each document and create separate files or a single multi-page file.

## Continuous Scanning

Select this option to scan multiple pages. After a page is scanned, select either continue scanning or finish.

## 2-sided Scanning

Select this check box to scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option, depending on the layout of your original, to make sure the data file you create appears correctly. (Available only for certain models)

## ID Card Scan

Select this check box to scan both sides of an identification card onto one page.

## Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** button in the Scan Settings dialog box.

- **Remove Bleed-through / Pattern**
  - **Remove Background Color**

Remove the base color of documents to make the scanned data more legible. (Available only for certain models)
- **Rotate Image**

Rotate the scanned image.
- **Skip Blank Page**

Remove the document's blank pages from the scanning results. (Available only for certain models)
- **Display Scanning Results**

Show the numbers of total pages saved and blank pages skipped on your computer screen. (Available only for certain models)
- **ADF Auto Deskew**

When scanning the document from the ADF, the machine corrects skewing of the document automatically. (Available only for certain models)

## Crop a Scanned Image Using ControlCenter4 Home Mode (Windows)

The crop tool on the Image Editing Toolbar lets you trim unwanted areas from your scanned image. Use the **Zoom In** and **Zoom Out** tools to help view the image to be cropped.

### Image Editing Toolbar

#### 1. Restart

Cancels all the edits applied to the selected image. The edited image returns to its original state.

#### 2. Fit to Window

Displays the scanned image so that the entire image fits in the window.

#### 3. Zoom In

Zooms in on the scanned image.

#### 4. Zoom Out

Zooms out of the scanned image.

#### 5. Crop and Edit

Removes the outer parts of the image. Click the **Crop and Edit** button, and then change the frame to contain the area you want to keep after cropping.

#### 6. Page Counter

Indicates the page number of the scanned page currently shown in the image viewer. To display a different page, select the desired page number from the drop-down page number list.

If you have scanned multiple pages, you can see the next or previous scanned page by clicking the left or right arrow buttons in the preview window.

1. Scan a document.

2. Click  (**Crop and Edit**) to edit the scanned image.

The **Crop and Edit - ControlCenter4** window appears.

- a. Expands the scanned image so that the entire image fits in the window.
  - b. Zooms in on the image.
  - c. Zooms out of the image.
  - d. Rotates the image counter-clockwise 90 degrees.
  - e. Rotates the image clockwise 90 degrees.
  - f. Click and drag the frame to adjust the area to be cropped.
3. Click **OK**.
- The edited image appears in the image viewer.

## Save Scanned Data to a Folder as a PDF File Using ControlCenter4 Home Mode (Windows)

Select **Home Mode** as the mode setting for ControlCenter4.

1. Load your document.
2. Click the  (**ControlCenter4**) icon in the task tray, and then click **Open**.
3. Click the **Scan** tab.

4. Select the **Document Type**.
  5. Change the size of your document, if needed.
  6. Click  (**Scan**).
- The machine starts scanning, and the scanned image appears in the image viewer.
7. Click the left or right arrow buttons to preview each scanned page.
  8. Click **Save**.
- The **Save** dialog box appears.
9. Click the **File Type** drop-down list, and then select a PDF file.

To save the document as a password-protected PDF, select **Secure PDF Single-Page (\*.pdf)** or **Secure PDF Multi-Page (\*.pdf)** from the **File Type** drop-down list, click , and then type the password.

10. To change the file name, click the **Change** button, if needed.
11. Click the folder icon to browse and select the folder where you want to save your scanned documents.
12. Click **OK**.

The scanned document is saved to the destination folder as a PDF.

### File Type

Select the file type you want to use for the scanned data.

For **Send E-mail** and **Save**:

- **Windows Bitmap (\*.bmp)**
- **JPEG (\*.jpg)** (recommended for most users when scanning pictures)
- **TIFF Single-Page (\*.tif)**
- **TIFF Multi-Page (\*.tif)**
- **Portable Network Graphics (\*.png)**
- **PDF Single-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF Multi-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF/A Single-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF/A Multi-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **High Compression PDF Single-Page (\*.pdf)**
- **High Compression PDF Multi-Page (\*.pdf)**
- **Secure PDF Single-Page (\*.pdf)**
- **Secure PDF Multi-Page (\*.pdf)**
- **Searchable PDF Single-Page (\*.pdf)**
- **Searchable PDF Multi-Page (\*.pdf)**
- **XML Paper Specification (\*.xps)** (the XML Paper Specification is available for Windows Vista, Windows 7, Windows 8 and Windows 10, or when using applications that support XML Paper Specification files)
- **Microsoft Office Word (\*.docx)** (Available only for certain models)
- **Microsoft Office PowerPoint (\*.pptx)** (Available only for certain models)
- **Microsoft Office Excel (\*.xlsx)** (Available only for certain models)

For **OCR**:

- **Text (\*.txt)**
- **HTML 3.2 (\*.htm)**
- **HTML 4.0 (\*.htm)**
- **Searchable PDF Single-Page (\*.pdf)**
- **Searchable PDF Multi-Page (\*.pdf)**
- **WordPad (\*.rtf)**

- 
- **RTF Word 2000 (\*.rtf)**
  - **WordPerfect 9, 10 (\*.wpd)**
  - **Microsoft Excel 2003, XP (\*.xls)**

#### **Target Application**

Select the destination application from the drop-down list.

#### **OCR Language**

Set the optical character recognition (OCR) language to match the language of the scanned document's text (Available only for certain models).

#### **File Name**

Click **Change** to change the file name's prefix.

#### **Scan Location**

Select the **Folder** or **SharePoint** radio button to specify the destination where you want to save your scanned documents.

#### **Show Folder**

Select this option to automatically display the destination folder after scanning.

#### **File Size Priority**

Adjust the data compression ratio of the scanned image. Change the file size by moving the **File Size Priority** slider to the right or left.

#### **Custom Settings**

Select the **Custom** option, click the **Custom Settings** button, and then change settings.

#### **Scan Size**

Select the exact size of your document from the **Scan Size** drop-down menu.

### File Type

Select the file type you want to use for the scanned data.

For **Image**, **E-mail** and **File**:

- **Windows Bitmap (\*.bmp)**
- **JPEG (\*.jpg)** (recommended for most users when scanning pictures)
- **TIFF Single-Page (\*.tif)**
- **TIFF Multi-Page (\*.tif)**
- **Portable Network Graphics (\*.png)**
- **PDF Single-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF Multi-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF/A Single-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **PDF/A Multi-Page (\*.pdf)** (recommended for scanning and sharing documents)
- **High Compression PDF Single-Page (\*.pdf)**
- **High Compression PDF Multi-Page (\*.pdf)**
- **Secure PDF Single-Page (\*.pdf)**
- **Secure PDF Multi-Page (\*.pdf)**
- **Searchable PDF Single-Page (\*.pdf)**

- 
- **Searchable PDF Multi-Page (\*.pdf)**
  - **XML Paper Specification (\*.xps)** (the XML Paper Specification is available for Windows Vista, Windows 7, Windows 8 and Windows 10, or when using applications that support XML Paper Specification files)

For **OCR**:

- **Text (\*.txt)**
- **HTML 3.2 (\*.htm)**
- **HTML 4.0 (\*.htm)**
- **Searchable PDF Single-Page (\*.pdf)**
- **Searchable PDF Multi-Page (\*.pdf)**
- **WordPad (\*.rtf)**
- **RTF Word 2000 (\*.rtf)**
- **WordPerfect 9, 10 (\*.wpd)**
- **Microsoft Excel 2003, XP (\*.xls)**

For **E-mail** and **File**:

- **Microsoft Office Word (\*.docx)** (Available only for certain models)
- **Microsoft Office PowerPoint (\*.pptx)** (Available only for certain models)
- **Microsoft Office Excel (\*.xlsx)** (Available only for certain models)

### Target Application

Select the destination application from the drop-down list.

### OCR Language

Set the optical character recognition (OCR) language to match the language of the scanned document's text (Available only for certain models).

### File Name

Click **Change** to change the file name's prefix.

### Destination Folder

Click the folder icon to browse and select the folder where you want to save your scanned documents.

### Scan Location

Select the **Folder** or **SharePoint** radio button to specify the destination where you want to save your scanned documents.

### Show Folder

Select this option to automatically display the destination folder after scanning.

### Show Save As Window

Select this option to specify the scanned image's destination every time you scan.

### File Size Priority

Adjust the data compression ratio of the scanned image. Change the file size by moving the **File Size Priority** slider to the right or left.

### PreScan

Select **PreScan** to preview your image and crop unwanted portions before scanning.

### Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

### Scan Type

Select from a range of scan color depths.

- 
- **Auto**  
Use for any type of document. This mode automatically picks an appropriate color depth for the document.
  - **Black & White**  
Use for text or line art images.
  - **Gray (Error Diffusion)**  
Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)
  - **True Gray**  
Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.
  - **24bit Color**  
Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

### Document Size

Select the exact size of your document from the **Document Size** drop-down list.

- If you select the **1 to 2 (A4)** option, the scanned image will be divided into two A5-size documents.

### Brightness

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value into the field to set the **Brightness** level.

### Contrast

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value into the field to set the **Contrast** level.

### Continuous Scanning

Select this option to scan multiple pages. After a page is scanned, select either continue scanning or finish.

### 2-sided Scanning

Select this check box to scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option, depending on the layout of your original, to make sure the data file you create appears correctly. (Available only for certain models)

### Auto Crop

Scan multiple documents placed on the scanner glass. The machine will scan each document and create separate files or a single multi-page file.

### ID Card Scan

Select this check box to scan both sides of an identification card onto one page.

### Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** button in the scan settings dialog box.

- **Remove Bleed-through / Pattern**
  - **Remove Background Color**  
Remove the base color of documents to make the scanned data more legible.
- **Rotate Image**  
Rotate the scanned image.
- **Skip Blank Page**  
Remove the document's blank pages from the scanning results. (Available only for certain models)

---

- **Display Scanning Results**

Show the numbers of total pages saved and blank pages skipped on your computer screen. (Available only for certain models)

**ADF Auto Deskew**

When scanning the document from the ADF, the machine corrects skewing of the document automatically. (Available only for certain models)

**Default**

Select this option to restore all settings to their factory setting values.

## Scan Using Nuance™ PaperPort™ 14 or Other Windows Applications

You can use the Nuance™ PaperPort™ 14 application for scanning.

- To download the Nuance™ PaperPort™ 14 application, click  (**Brother Utilities**), select **Do More** in the left navigation bar, and then click **PaperPort**.
- Nuance™ PaperPort™ 14 supports Windows Vista (SP2 or greater), Windows 7, Windows 8, Windows 8.1, Windows 10 Home, Windows 10 Pro, Windows 10 Education and Windows 10 Enterprise.
- For detailed instructions on using each application, click the application's **Help** menu, and then click **Getting Started Guide** in the **Help** ribbon.

The instructions for scanning in these steps are for PaperPort™ 14. For other Windows applications, the steps will be similar. PaperPort™ 14 supports both TWAIN and WIA drivers; the TWAIN driver (recommended) is used in these steps.

- Depending on the model of your machine, Nuance™ PaperPort™ 14 may not be included. If it is not included, you can use other software applications that support scanning.
1. Load your document.
  2. Start PaperPort™ 14.  
Do one of the following:
    - Windows Vista and Windows 7  
Using your computer, click  (**Start**) > **All Programs** > **Nuance PaperPort 14** > **PaperPort**.
    - Windows 8  
Click  (**PaperPort**).
    - Windows 10  
Click  > **All apps** > **Nuance PaperPort 14** > **PaperPort**.
  3. Click the **Desktop** menu, and then click **Scan Settings** in the **Desktop** ribbon.  
The **Scan or Get Photo** panel appears on the left side of the screen.
  4. Click **Select**.
  5. From the available Scanners list, select **TWAIN: TW-Brother MFC-XXXX** or **TWAIN: TW-Brother MFC-XXXX LAN** (where MFC-XXXX is the model name of your machine). To use the WIA driver, select the Brother driver that has "WIA" as the prefix.
  6. Select the **Display scanner dialog box** check box in the **Scan or Get Photo** panel.
  7. Click **Scan**.  
The Scanner Setup dialog box appears.

- Adjust the settings in the Scanner Setup dialog box, if needed.
- Click the **Document Size** drop-down list, and then select your document size.

To scan both sides of the document (MFC-J6930DW/MFC-J6935DW):  
Automatic 2-sided scan is available only when using the ADF.  
You cannot use PreScan to preview an image.

- Click **PreScan** if you want to preview your image and crop unwanted portions before scanning.
- Click **Start**.  
The machine starts scanning.

## TWAIN Driver Settings (Windows)

- Note that the item names and assignable values will vary depending on the machine.
- The **Brightness** option is available only when selecting the **Black & White**, **Gray (Error Diffusion)**, **True Gray**, or **24bit Color** options from the **Scan Type** settings.
- The **Contrast** option is available only when selecting the **Gray (Error Diffusion)**, **True Gray**, or **24bit Color** options from the **Scan Type** settings.

### 1. Scan

Select the **Photo**, **Web**, or **Text** option depending on the type of document you want to scan.

Scan (Image Type)		Resolution	Scan Type
<b>Photo</b>	Use for scanning photo images.	300 x 300 dpi	<b>24bit Color</b>
<b>Web</b>	Use for attaching the scanned image to web pages.	100 x 100 dpi	<b>24bit Color</b>
<b>Text</b>	Use for scanning text documents.	200 x 200 dpi	<b>Black &amp; White</b>

### 2. Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

### 3. Scan Type

Select from a range of scan color depths.

- **Black & White**

Use for text or line art images.

- **Gray (Error Diffusion)**

Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)

- **True Gray**

Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.

- **24bit Color**

Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

### 4. Document Size

Select the exact size of your document from a selection of preset scan sizes.

If you select **Custom**, the **Custom Document Size** dialog box appears and you can specify the document size.

### 5. Brightness

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value in the field to set the brightness level.

### 6. Contrast

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value in the field to set the contrast level.

### 7. 2-sided Scanning

Scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option from the **2-sided Scanning** drop-down list, so when you turn the pages, they are facing the way you want. (Available only for certain models)

### 8. Auto Crop

Scan multiple documents placed on the scanner glass. The machine will scan each document and create separate files or a single multi-page file.

### 9. Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** button in the Scanner Setup dialog box.

- 
- **Paper Detection**
    - **Auto Deskew**

Set the machine to correct document skewing automatically as the pages are scanned from the ADF.
    - **Rotate Image**

Rotate the scanned image.
  - **Image Quality**
    - **Background Processing**
      - **Remove Bleed-through / Pattern**

Prevent bleed-through.
      - **Remove Background Color**

Remove the base color of documents to make the scanned data more legible.
    - **Color Drop**

Select a color to remove from the scanned image.
    - **Boldface Formatting**

Emphasize the characters of the original by making them bold.
    - **Blurred Character Correction**

Correct the broken or incomplete characters of the original to make them easier to read.
    - **Edge Emphasis**

Make the characters of the original sharper.
    - **Reduce Noise**

Improve and enhance the quality of your scanned images with this selection. The **Reduce Noise** option is available when selecting the **24bit Color** option and the **300 x 300 dpi**, **400 x 400 dpi**, or **600 x 600 dpi** scan resolution.
  - **Page Control**
    - **Edge Fill**

Fill in the edges on four sides of the scanned image using the selected color and range.
    - **Skip Blank Page**

Remove the document's blank pages from the scanning results. (Available only for certain models)
    - **Continuous Scan**

Select this option to scan multiple pages. After a page is scanned, select either continue scanning or finish.

-

## Scan Using Windows Photo Gallery or Windows Fax and Scan

Windows Photo Gallery or Windows Fax and Scan applications are other options that you can use for scanning.

- These applications use the WIA scanner driver.
- If you want to crop a portion of a page after pre-scanning the document, you must scan using the scanner glass (also called the flatbed).

1. Load your document.
2. Launch your scanning application. Do one of the following:
  - (Windows Photo Gallery)  
Click **File > Import from Camera or Scanner**.
  - (Windows Fax and Scan)  
Click **File > New > Scan**.
3. Select the scanner you want to use.
4. Click **Import** or **OK**.

The **New Scan** dialog box appears.

5. Adjust the settings in the Scanner Setup dialog box, if needed.

The scanner resolution can be set to a maximum of 1200 dpi. If you want to scan at higher resolutions, use the **Scanner Utility** software of **Brother Utilities**.

If your machine supports 2-sided Scan and you want to scan both sides of your document, select **Feeder (Scan both sides)** as **Source**.
6. Click **Scan**.

---

The machine starts scanning the document.

### **Related Information**

- [Scan from Your Computer \(Windows\)](#)
  - [WIA Driver Settings \(Windows\)](#)
-

## WIA Driver Settings (Windows)

### Paper source

Select the **Document Feeder** or **Flatbed** option from the drop-down list.

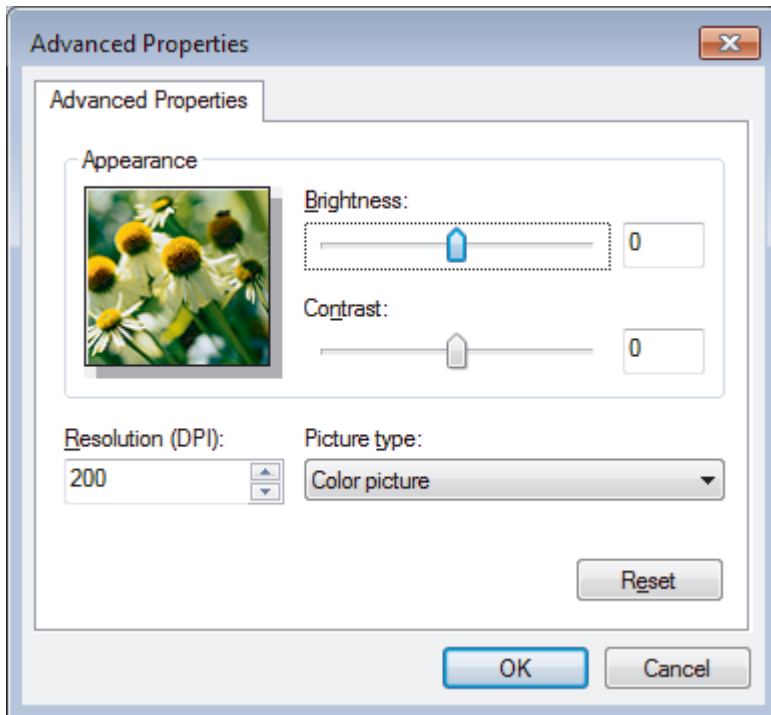

### Picture Type (Image Type)

Select **Color picture**, **Grayscale picture**, **Black and white picture or text**, or **Custom Settings** for the type of document you want to scan.

To change advanced settings, click the **Adjust the quality of the scanned picture** link.

### Page size

The **Page size** option is available if you select the **Document Feeder** as the **Paper source** option.

### Brightness

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again.

### Contrast

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value in the field to set the contrast level.

### Resolution (DPI)

Select a scanning resolution from the **Resolution (DPI)** list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

## Install BookScan Enhancer and Whiteboard Enhancer (Windows)

BookScan Enhancer and Whiteboard Enhancer are image processing applications. BookScan Enhancer can automatically correct images scanned from books. Whiteboard Enhancer can clean up and enhance text and images in photos taken of a whiteboard.

These applications are not available for Windows Server series.

- The machine must be turned on and connected to the computer.
- The computer must be connected to the Internet.
- You must be logged on with Administrator access privileges.

1. Click  (**Brother Utilities**).
2. Select your machine from the drop-down list.
3. Select **Do More** in the left navigation bar.
4. Click **BookScan&WhiteBoard Suite** and follow the on-screen instructions to install.

- [Scan Using ControlCenter2 \(Mac\)](#)
- [Scan Using TWAIN-Compliant Applications \(Mac\)](#)

## Scan Using ControlCenter2 (Mac)

Use Brother's ControlCenter software to scan photos and save them as JPEGs, PDFs, or other file formats.

- [Scan Using ControlCenter2 \(Mac\)](#)
- [Save Scanned Data to a Folder as a PDF File Using ControlCenter2 \(Mac\)](#)
- [Scan Both Sides of a Document Automatically Using ControlCenter2 \(Mac\)](#)
- [Scan Both Sides of an ID Card Using ControlCenter2 \(Mac\)](#)
- [Scan to Email Attachment Using ControlCenter2 \(Mac\)](#)
- [Scan to an Editable Text File \(OCR\) Using ControlCenter2 \(Mac\)](#)
- [Scan to an Office File Using ControlCenter2 \(Mac\)](#)
- [Scan Settings for ControlCenter2 \(Mac\)](#)

## Scan Using ControlCenter2 (Mac)

Send scanned photos or graphics directly to your computer.

1. Load your document.
2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
3. Click the **SCAN** tab.

4. Click the **Image** button.  
The scan settings dialog box appears.

5. Change the scan settings, such as file format, file name, destination file path, resolution and color, if needed.

To change the file name or destination file path, click **Change**.

6. Click the **Start Scanning** button.  
The machine starts scanning. The scanned image opens in the application you have selected.

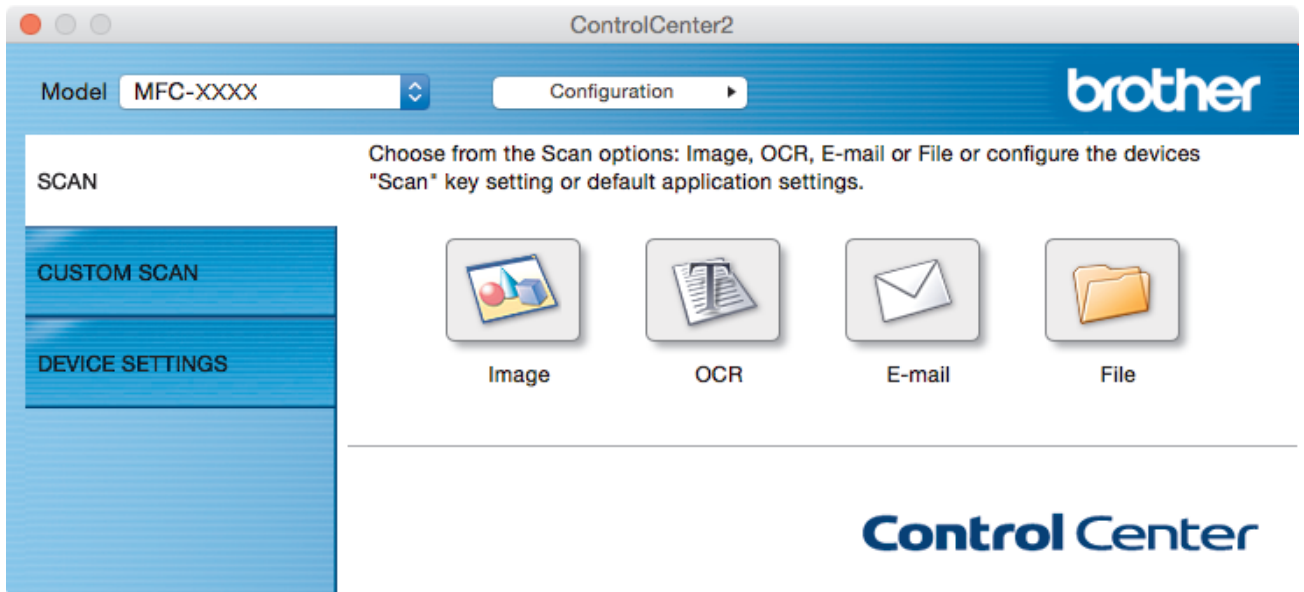

### Related Information

- [Scan Using ControlCenter2 \(Mac\)](#)

## Save Scanned Data to a Folder as a PDF File Using ControlCenter2 (Mac)

1. Load your document.
2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
3. Click the **SCAN** tab.

4. Click the **File** button.  
The scan settings dialog box appears.

5. Click the **File Type** pop-up menu, and then select a PDF file.

To save the document as a password-protected PDF, select **Secure PDF (\*.pdf)** from the **File Type** pop-up menu, type your password in the **Password** and **Re-type Password** fields, and then click **OK**.

6. Change the scan settings, such as file name, destination folder, resolution and color, if needed.
7. Click the **Start Scanning** button.

The machine starts scanning. The file will be saved in the folder you selected.

## Related Information

## Scan Both Sides of a Document Automatically Using ControlCenter2 (Mac)

**Related Models:** MFC-J6930DW/MFC-J6935DW

1. Load documents in the ADF.

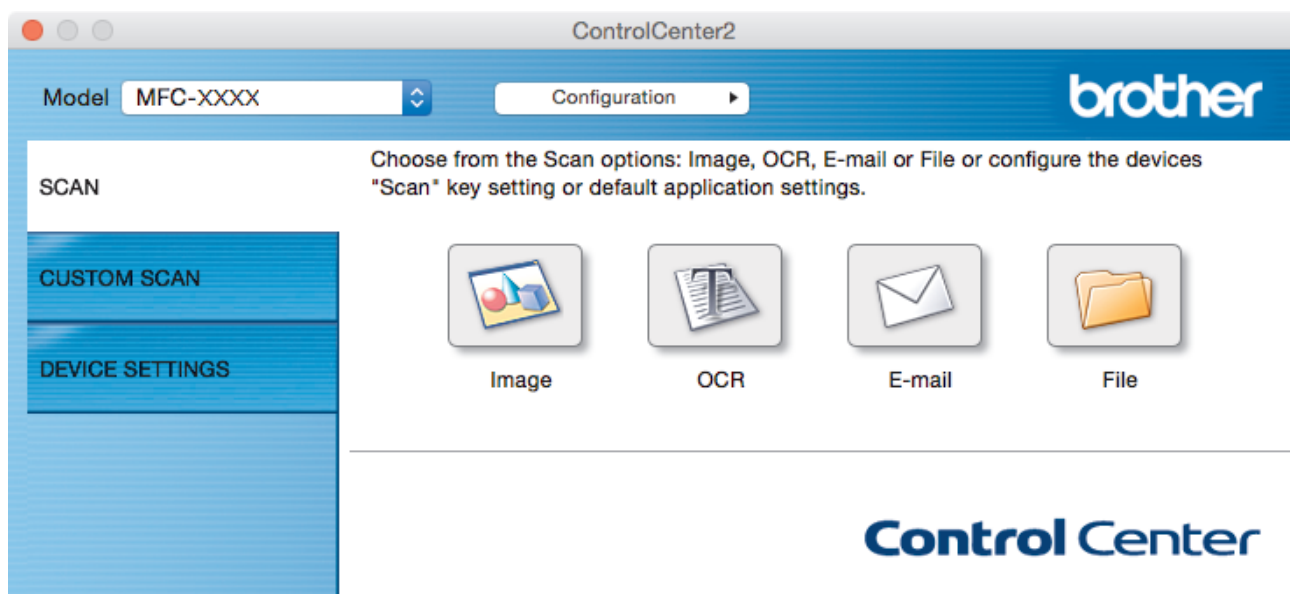

To scan both sides of a document automatically, you must use the ADF, not the flatbed scanner glass.

2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.

The **ControlCenter2** screen appears.

3. Click the **SCAN** tab.

4. Click the scan type button (**Image**, **OCR**, **E-mail**, or **File**) you want to use.  
The scan settings dialog box appears.
5. Select the **2-sided Scanning** check box.
6. Select the **Long-edge binding** or **Short-edge binding** option, depending on the Original layout (see table for layout examples).

2-sided Scan setting	Original layout	Scan Result
<b>Long-edge binding</b>		
<b>Short-edge binding</b>		

---

7. Configure other settings, if needed.

8. Click the **Start Scanning** button.

The machine starts scanning.

You have now changed the default settings for your selected Scan to action. These settings will be used the next time this scan type (**Image**, **OCR**, **E-mail**, or **File**) is clicked for this action.

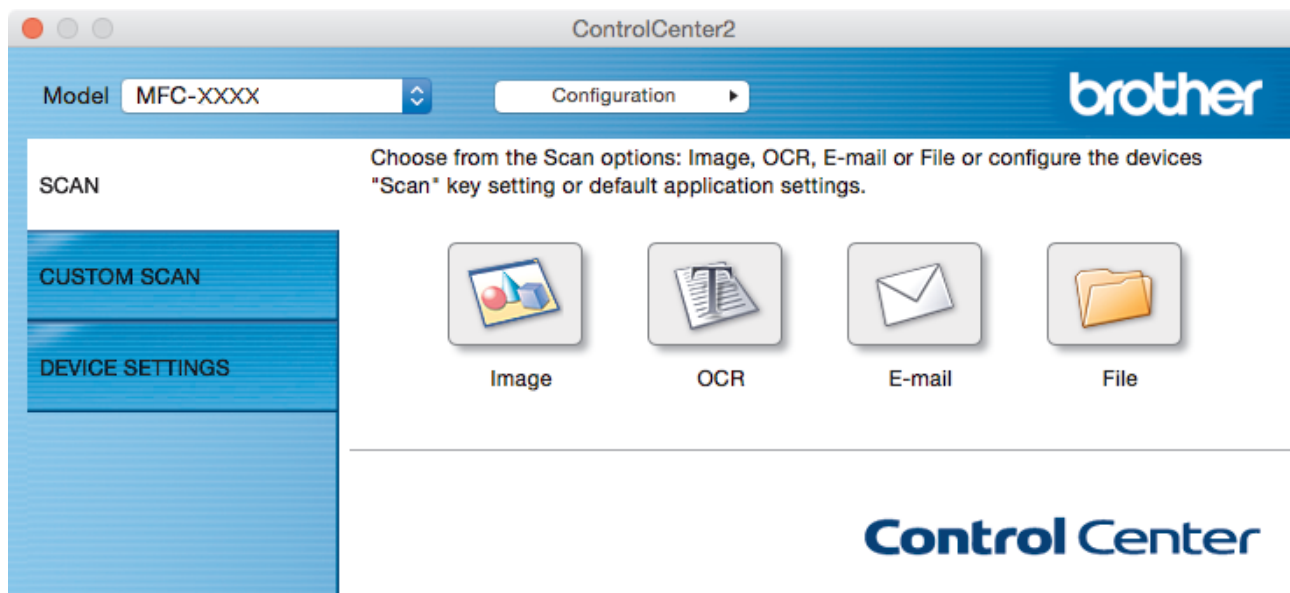

### Related Information

## Scan Both Sides of an ID Card Using ControlCenter2 (Mac)

1. Place an ID card on the scanner glass.
2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
3. Click the **SCAN** tab.

4. Click the **File** button.  
The scan settings dialog box appears.

5. Select the **ID Card Scan** check box.  
The instruction dialog box appears.
6. Read the instructions on the screen, and then click **OK**.
7. Configure other settings, if needed.
8. Click the **Start Scanning** button.  
The machine starts scanning one side of the identification card.
9. After the machine has scanned one side, turn over the identification card, and then click **Continue** to scan the other side.
10. Click **Finish**.

## Related Information

- [Scan Using ControlCenter2 \(Mac\)](#)

## Scan to Email Attachment Using ControlCenter2 (Mac)

Send a scanned document as an email attachment.

The Scan to Email feature does not support Webmail services. Use the Scan to Image or Scan to File feature to scan a document or a picture, and then attach the scanned file to an email message.

1. Load your document.
2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
3. Click the **SCAN** tab.

4. Click the **E-mail** button.  
The scan settings dialog box appears.

5. Change the scan settings, such as file format, file name, destination file path, resolution and color, if needed.

To change the file name or destination file path, click **Change**.

6. Click the **Start Scanning** button.

The machine starts scanning. Your default email application opens and the scanned image is attached to a new, blank email.

## Related Information

- [Scan Using ControlCenter2 \(Mac\)](#)

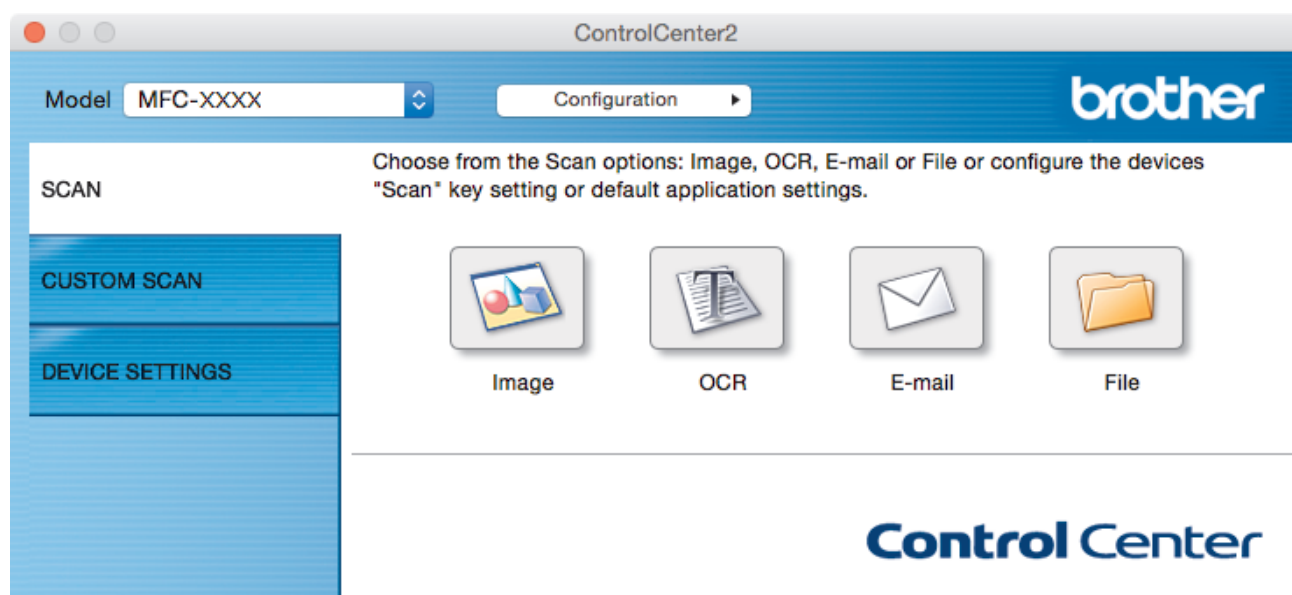

## Scan to an Editable Text File (OCR) Using ControlCenter2 (Mac)

Your machine can convert characters in a scanned document to text using optical character recognition (OCR) technology. You can edit this text using your preferred text-editing application.

 The Scan to OCR feature is available for certain languages.

1. Load your document.
2. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
3. Click the **SCAN** tab.

4. Click the **OCR** button.  
The scan settings dialog box appears.

5. Change the scan settings, such as file format, file name, destination file path, resolution and color, if needed.

To change the file name or destination file path, click **Change**.

6. Click the **Start Scanning** button.

The machine scans the document, converts it to editable text, and then sends it to your default word processing application.

### Related Information

Continuous Scanning	Yes	Yes	Yes	Yes
2-sided Scanning (available only for certain models)	Yes	Yes	Yes	Yes
ID Card Scan	Yes	Yes	Yes	Yes
Show Scanner Interface	Yes	Yes	Yes	Yes
Advanced Settings	Yes	Yes	Yes	Yes
Restore Defaults	Yes	Yes	Yes	Yes

### Target Application/E-mail Application

Select which application is used to open scanned data. Only applications installed on your computer can be selected.

- **Add**

Add an application to the pop-up menu.

Type the application name in the **Application Name** field (up to 30 characters) and select your preferred application by clicking the **Browse** button. Select the **File Type** option from the pop-up menu.

- **Delete**

Delete an application you have added to the pop-up menu.

Select the application from the **Application Name** pop-up menu, and then click **Delete**.

### File Type

Select the file type you want to use for the scanned data.

### File size

Change the file size by moving the **File size** slider to the right or left.

### OCR Language

Set the optical character recognition (OCR) language to match the language of the scanned document's text (available only for certain models).

---

## Destination File Path

Click the **Change** button to change the prefix of the file name and the path of the destination folder.

## File Name

Type a prefix for your file name, if needed. To change the prefix for the **Image**, **OCR**, and **E-mail** features, click **Change**.

## Insert Date in File Name

Automatically inserts the date in the file name of the scanned image. To insert the date in the file name for the **Image**, **OCR** and **E-mail** features, click **Change**.

## Destination Folder

To change the folder for the **Image**, **OCR** and **E-mail** features, click **Change**. Click **Browse** to select the folder where you want to save your scanned document. Select the **Show Folder** option to automatically display the destination folder after scanning to a **File**.

## Show Save As window

Select this option to specify the scanned image's destination every time you scan.

## Resolution

Select a scanning resolution from the **Resolution** pop-up menu. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

## Scan Type

Select from a range of scan color depths.

- **Black & White**  
Use for text or line art images.
- **Gray (Error Diffusion)**  
Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are put in a specific pattern to give a gray appearance.)
- **True Gray**  
Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.
- **24bit Color**  
Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.
- **Auto**  
Use for any type of document. This mode automatically picks an appropriate color depth for the document.

## Document Size

Select the exact size of your document from the **Document Size** pop-up menu.

- If you select the **1 to 2 (A4)** option, the scanned image will be divided into two A5-size documents.

## Continuous Scanning

Select this option to scan multiple pages. After a page is scanned, select either continue scanning or finish.

## 2-sided Scanning

Select this check box to scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option, depending on the layout of your original, to make sure the created data file appears correctly. (Available only for certain models)

## ID Card Scan

Select this check box to scan both sides of an identification card onto one page.

## Show Scanner Interface

Select this check box to crop a portion of a scanned page after pre-scanning the document.

---

## Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** button in the scan settings dialog box.

- **Brightness**

Set the **Brightness** level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again.

- **Contrast**

Increase or decrease the **Contrast** level by moving the slider to the right or left. An increase emphasize dark and light areas of the image, while a decrease reveals more details in gray areas.

- **ADF Auto Deskew**

When scanning the document from the ADF, the machine corrects skewing of the document automatically. (Available only for certain models)

- **Remove Background Color**

Select this option to remove the base color of documents to make the scanned data more recognizable. When you use this feature, select from three settings: high, medium and low.

- **Skip Blank Page**

Remove blank pages of the document from the scanning results. (Available only for certain models)

- **Display Scanning Results**

Show the numbers of total pages saved and blank pages skipped on your computer screen. (Available only for certain models)

- **Rotate Image**

Rotate the scanned image.

## Restore Defaults

Select this option to restore all settings to their factory setting values.

## Send the Same Fax to More than One Recipient (Broadcasting)

Use the Broadcasting feature to send the same fax to multiple fax numbers at the same time.

- This feature is available only for black and white faxes.
- Address Book numbers must be stored in the machine's memory before they can be used in a broadcast.
- Group numbers must also be stored in the machine's memory before they can be used in a broadcast. Group numbers include many stored Address Book numbers for easier dialing.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

You can include Groups, Address Book numbers and up to 50 manually-dialed numbers in the same broadcast.

If you did not use any of the Address Book numbers for Groups, you can broadcast faxes to as many as 250 different numbers.

1. Load your document.

2. Press  [Fax].

If [Fax Preview] is set to [On], press  [Fax] > [Sending Faxes].

3. Press [Options] > [Broadcasting].

4. Press [Add Number].

You can add numbers to the broadcast in the following ways:

- Press [Add Number] and enter a fax number using the dial pad. Press [OK].

If you downloaded Internet Fax:

To broadcast using an email address, press , enter the email address, and press [OK].

- Press [Add from Address book]. Press ▲ or ▼ to display the numbers you want to add to the broadcast. Select the check boxes of the numbers you want to add.

When finished, press [OK].

- Press [Search in Address book]. Press the first letter of the name and press [OK]. Press the name, and then press the number you want to add.

Repeat this step to enter additional fax numbers.

5. When finished, press [OK].

6. Press [Fax Start].

7. Do one of the following:

- If you are using the ADF, the machine starts scanning and sending the document.
- If you are using the scanner glass, the machine starts scanning the first page.

When the touchscreen displays [Next page?], do one of the following:

- Press [No] when finished scanning pages. The machine starts sending the document.
- Press [Yes] to scan another page. Place the next page on the scanner glass, and then press [OK]. The machine starts scanning the page.

Repeat this step for each additional page.

If the [Out of Memory] message appears, press  or [Quit] to cancel or [Send Now] to send the pages scanned so far.

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

- [Set the F/T Ring Time \(Pseudo/Double-ring\)](#)
- [Set Easy Receive](#)

## Receive Modes Overview

Some receive modes answer automatically ([Fax Only] and [Fax/Tel]). You may want to change the Ring Delay before using these modes.

### Fax Only

[Fax Only] mode automatically answers every call as a fax.

### Fax/Tel

[Fax/Tel] mode helps you manage incoming calls, by recognizing whether they are fax or voice calls and handling them in one of the following ways:

- Faxes will be received automatically.
- Voice calls will start the F/T ring to tell you to pick up the line. The F/T ring is a pseudo/double-ring made by your machine.

### Manual

[Manual] mode turns off all automatic answering functions (unless you are using the Distinctive Ring feature).

To receive a fax in [Manual] mode, lift the handset of the external telephone or press the Hook button. When you hear fax tones (short repeating beeps), press the Start button, and then select [Receive] to receive a fax. You can also use the Easy Receive feature to receive faxes by lifting a handset on the same line as the machine.

### External TAD

[External TAD] mode lets an external answering device manage your incoming calls.

Incoming calls will be handled in the following ways:

- Faxes will be received automatically.
- Voice callers can record a message on the external TAD.

### Related Information

- [Set the Number of Rings Before the Machine Answers \(Ring Delay\)](#)
- [Set the F/T Ring Time \(Pseudo/Double-ring\)](#)
- [Set Easy Receive](#)
- [Connect an External TAD](#)

## Choose the Correct Receive Mode

The correct Receive Mode for you is determined by the external devices and telephone subscriber services (Voice Mail, Distinctive Ring and so on) you will be using on the same line as the Brother machine.

### Will you be using a Distinctive Ring number for receiving faxes? (USA and Canada only)

Brother uses the term "Distinctive Ring" but different telephone companies may have other names for this service, such as Custom Ringing, Personalized Ring, Teen Ring, Ident-A-Ring, Ident-A-Call, Data Ident-A-Call, Smart Ring and SimpleBiz Fax & Alternate Number Ringing.

### Will you be using Voice Mail on the same telephone line as your Brother machine?

If you have Voice Mail on the same telephone line as your Brother machine, there is a strong possibility that Voice Mail and the Brother machine will conflict with each other when receiving incoming calls. Select Manual Mode as your Receive Mode.

If you do not want to answer every call manually to determine whether it's a voice call or a fax, contact your telephone provider and ask about Distinctive Ring services.

### Will you be using a Telephone Answering Device on the same telephone line as your Brother machine?

Your external telephone answering device (TAD) will answer every call automatically. Voice messages are stored on the external TAD and fax messages are printed. Select [External TAD] as your Receive Mode.

### Will you be using your Brother machine on a dedicated fax line?

Your machine automatically answers every call as a fax. Select [Fax Only] as your Receive Mode.

### Will you be using your Brother machine on the same line as your telephone?

#### • Do you want to receive voice calls and faxes automatically?

Select [Fax/Tel] mode when your Brother machine and your telephones share the same line.

**Important Note:** You cannot receive voice messages on either Voice Mail or an answering machine if you select [Fax/Tel] mode.

#### • Do you expect to receive very few faxes?

Select [Manual] as your Receive Mode. You control the telephone line and must answer every call yourself.

## Set the Number of Rings Before the Machine Answers (Ring Delay)

When somebody calls your machine, you will hear the normal telephone ring sound. The number of rings is set in the Ring Delay option.

- The Ring Delay setting sets the number of times the machine rings before it answers in [Fax Only] and [Fax/Tel] modes.
- If you have external or extension telephones on the same line as the machine, keep the Ring Delay setting of [4].

## Set the F/T Ring Time (Pseudo/Double-ring)

When you set the Receive Mode to [Fax/Tel], if the call is a fax, your machine will receive it automatically. However, if it is a voice call, the machine will sound the F/T ring (pseudo/double-ring) for the time you set in the F/T Ring Time option. When you hear the F/T ring, it means that a voice caller is on the line.

Because the F/T ring is a setting only on your Brother machine, extension and external telephones will not ring; however, you can still answer the machine's call on any telephone.

## Set Easy Receive

**If Easy Receive is On:** The machine can receive a fax automatically, even if you answer the call. When the message that your machine is receiving a fax appears on the LCD or when you hear a click on the phone line through the handset you are using, just replace the handset. Your machine will do the rest.

**If Easy Receive is Off:** If you are at the machine and answer a fax call first by lifting the external handset, press the Start button, and then select [Receive] to receive the fax. If you answered at an extension telephone, press \*51.

- If Easy Receive is set to [On], but your machine does not connect a fax call when you lift an extension or external telephone handset, press the fax receive code \*51.
- If you send faxes from a computer on the same telephone line and the machine intercepts them, set Easy Receive to [Off].

## Use PC-Fax Receive to Transfer Received Faxes to Your Computer (Windows only)

Turn on the PC-Fax Receive feature, automatically store incoming faxes to your machine's memory, and then send them to your computer. Use your computer to view and store these faxes.

- This feature is available only for black and white faxes. When you receive a color fax, your machine prints the color fax but does not send the fax to your computer.
- Before you can set up PC-Fax Receive, you must install the Brother software and drivers on your computer. Make sure your computer is connected and turned on. You must have the PC-FAX Receiving software running on your computer.

Even if your computer is turned off, your machine will receive and store faxes in its memory. When you start your computer and the PC-FAX Receiving software runs, your machine transfers faxes to your computer automatically.

## Remote Retrieval Commands

Use the Remote Commands in this table to access fax commands and options when you are away from your Brother machine. When you call the machine and enter your remote access code (three digits followed by \*), the system will sound two short beeps and you must enter a Remote Command (column 1), followed by one of the options (column 2) for that command.

Remote Command	Options	Operation Details
95	<b>Change the Fax Forwarding, Paging, or Fax Storage settings</b>	
	1 OFF	You can select <i>Off</i> after you retrieve or erase all your messages.
	2 Fax Forwarding	One long beep means the change is accepted. If you hear three short beeps, you cannot make a change because something has not been set up (for example, a Fax Forwarding or Paging number has not been registered). You can register your Fax Forwarding number by entering 4. After you register the number, Fax Forwarding will work.
	3 Paging (USA and Canada only)	
	4 Fax Forwarding number	
6 Fax Storage		
96	<b>Retrieve a fax</b>	
	2 Retrieve all faxes	Enter the fax number of a remote fax machine to receive stored fax messages.
	3 Erase faxes from memory	If you hear one long beep, fax messages have been erased from memory.
97	<b>Check the receiving status</b>	
	1 Fax	Check whether your machine has received any faxes. If yes, you will hear one long beep. If not, you will hear three short beeps.
98	<b>Change the Receive Mode</b>	
	1 External TAD	One long beep means the change has been accepted.
	2 Fax/Tel	
	3 Fax Only	
90	<b>Exit</b>	Press <b>9 0</b> to stop remote retrieval. Wait for the long beep, then hang up.

## Forward Faxes Remotely

Call your Brother machine from any touch-tone telephone or fax machine to forward incoming faxes to another machine.

- You must turn on Fax Storage, Paging (USA and Canada only), or Fax Preview before you use this feature.

1. Dial your fax number.
2. When your machine answers, enter your Remote Access Code (three digits followed by \*). If you hear one long beep, you have messages.
3. When you hear two short beeps, press 9 6 2.
4. Wait for the long beep, and then use the dial pad to enter the fax number (up to 20 digits) of the remote fax machine where you want your fax messages sent, followed by # #.

You cannot use \* and # as dial numbers but you can press # to insert a pause in the fax number.

5. Hang up after you hear one long beep. Your Brother machine will forward any incoming faxes to the fax number you entered. The other fax machine will then print your fax messages.

-

## Special Line Considerations

- [Rollover Telephone Lines](#)
- [Two-Line Telephone System](#)
- [Convert Telephone Wall Outlets](#)
- [Install Your Brother Machine, an External Two-Line TAD and Two-Line Telephone](#)

## Rollover Telephone Lines

A rollover telephone system is a group of two or more separate telephone lines that pass incoming calls to each other if they are busy.

This feature is available only in the USA and Canada.

The calls are usually passed down or 'rolled over' to the next available telephone line in a preset order.

Your machine can work in a rollover system only if it is the last number in the sequence, so the call cannot roll away. Do not place the machine on any of the other numbers; when the other lines are busy and a second fax call is received, the fax call would be transferred to a line that does not have a fax machine. **Your machine will work best on a dedicated line.**

### Related Information

- [Special Line Considerations](#)

## Two-Line Telephone System

A two-line telephone system is nothing more than two separate telephone numbers on the same wall outlet.

This feature is available only in the USA and Canada.

The two telephone numbers can be on separate jacks (RJ11) or combined into one jack (RJ14). Your machine must be plugged into an RJ11 jack. RJ11 and RJ14 jacks may be equal in size and appearance and both may contain four wires (black, red, green, yellow). To test the type of jack, plug in a two-line telephone and see if it can access both lines. If it can, you must separate the line for your machine.

### Related Information

- [Special Line Considerations](#)
-

## Convert Telephone Wall Outlets

This feature is available only in the USA and Canada.

There are three ways to convert to an RJ11 jack. The first two ways may require assistance from the telephone company. You can change the wall outlets from one RJ14 jack to two RJ11 jacks. Or, you can have an RJ11 wall outlet installed and slave or jump one of the telephone numbers to it.

The third way is the easiest: Buy a triplex adapter. You can plug a triplex adapter into an RJ14 outlet. It separates the wires into two separate RJ11 jacks (Line 1, Line 2) and a third RJ14 jack (Lines 1 and 2). If your machine is on Line 1, plug the machine into L1 of the triplex adapter. If your machine is on Line 2, plug it into L2 of the triplex adapter.

### Triplex adapter

### Related Information

- [Special Line Considerations](#)

## Install Your Brother Machine, an External Two-Line TAD and Two-Line Telephone

When you are installing an external two-line telephone answering device (TAD) and a two-line telephone, your machine must be isolated on one line at both the wall jack and at the TAD.

- This feature is available only in the USA and Canada.
- The most common connection is to place the machine on Line 2, which is explained in the following steps. The back of the two-line TAD must have two telephone jacks: one labeled L1 or L1/L2, and the other labeled L2. You will need at least three telephone line cords, the one that came with your machine and two for your external two-line TAD. You will need a fourth line cord if you add a two-line telephone.

1. Place the two-line TAD and the two-line telephone next to your machine.
2. Plug one end of the telephone line cord for your machine into the L2 jack of the triplex adapter. Plug the other end into the LINE jack of the machine.
3. Plug one end of the first telephone line cord for your TAD into the L1 jack of the triplex adapter. Plug the other end into the L1 or L1/L2 jack of the two-line TAD.
4. Plug one end of the second telephone line cord for your TAD into the L2 jack of the two-line TAD. Plug the other end into the EXT. jack of the machine.

- a. Triplex Adapter
- b. Two Line Telephone
- c. External Two Line TAD
- d. Machine

You can keep two-line telephones on other wall outlets as always. There are ways to add a two-line telephone to the machine's wall outlet. You can plug the telephone line cord from the two-line telephone into the L1+L2 jack of the triplex adapter. Or, you can plug the two-line telephone into the TEL jack of the two-line TAD.

## Set up Groups for Broadcasting

A Group, which can be stored in the Address Book, allows you to send the same fax message to many fax numbers.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

First, you must store each fax number in the Address Book. Then you can include them as numbers in the Group. Each Group uses up an Address Book number. You can store up to six Groups, or you can assign up to 198 numbers to a large Group.

1. Press  [Fax] > [Address Book].
2. Do the following steps:
  - a. Press [Edit] > [Setup Groups] > [Name].
  - b. Enter the Group name (up to 16 characters) using the touchscreen. Press [OK].
  - c. Press [Add/Delete].
  - d. Add Address Book numbers to the Group by pressing them to display a red checkmark. Press [OK].
  - e. Read and confirm the displayed list of names and numbers you have selected, and then press [OK] to save your Group.

To store another Group for broadcasting, repeat these steps.

3. Press .

## Dial Access Codes and Credit Card Numbers

Sometimes you may want to choose from several long-distance carriers when you send a fax. Rates may vary depending on the time and destination. To take advantage of low rates, you can store the access codes of long-distance carriers and credit card numbers as Address Book numbers.

You can store these long dialing sequences by dividing them and setting them up as separate Address Book numbers in any combination. You can even include manual dialing.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

For example: you might have stored '555' on Address Book: Brother 1 and '7000' on Address Book: Brother 2. You can use them both to dial '555-7000' if you press the following:

1. Press  [Fax] > [Address Book].
2. Press ▲ or ▼ to display the number of Brother 1.
3. Press the number.
4. Press [Apply].
5. Press [Options].
6. Press ▲ or ▼ to display the [Address Book] option, and then press it.
7. Read and review the message on the touchscreen, and then press [OK].
8. Press ▲ or ▼ to display the number of Brother 2.
9. Press the number.
10. Press [Apply].
11. Press [Fax Start].

You will dial '555-7000'.

To change a number temporarily, you can substitute part of the number by pressing it using the touchscreen. For example, to change the number to '555-7001', you could enter the number (Brother 1: 555) using Address Book, press [Apply], and then press 7001 using the touchscreen.

If you must wait for another dial tone or signal at any point in the dialing sequence, create a pause in the number by pressing [Pause].

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

- [Voice Over Internet Protocol \(VoIP/Telephone Line Interference\)](#)
- [External TAD \(Telephone Answering Device\)](#)
- [External and Extension Telephones](#)

## Voice Mail

This feature is available only in the USA and Canada.

If you have Voice Mail on the same telephone line as your Brother machine, Voice Mail and the Brother machine will conflict with each other when receiving incoming calls.

For example, if your Voice Mail is set to answer after four rings and your Brother machine is set to answer after two rings, then your Brother machine will answer first. This will prevent callers from being able to leave a message in your Voice Mail.

Similarly, if your Brother machine is set to answer after four rings and your Voice Mail is set to answer after two rings, then your Voice Mail will answer first. This will prevent your Brother machine from being able to receive an incoming fax, since Voice Mail cannot transfer the incoming fax back to the Brother machine.

To avoid conflicts between your Brother machine and your Voice Mail service, do one of the following:

- Get the Distinctive Ring service from your telephone company. Distinctive Ring is a feature of your Brother machine that allows a person with one line to receive fax and voice calls through two different telephone numbers on that one line.

Brother uses the term 'Distinctive Ring,' but telephone companies market the service under a variety of names, such as Custom Ringing, Personalized Ring, Smart Ring, Ident-A-Ring, Ident-A-Call, Data Ident-A-Call, Teen Ring, and SimpleBiz Fax & Alternate Number Ringing. This service establishes a second telephone number on the same line as your existing telephone number, and each number has its own ring pattern. Typically, the original number rings with the standard ring pattern and is used for receiving voice calls, and the second number rings with a different ring pattern and is used for receiving faxes.

- Set your Brother machine's Receive Mode to "Manual". Manual Mode requires you answer every incoming call if you want to be able to receive a fax. If the incoming call is a telephone call, then complete the call as you normally would. If you hear fax sending tones you must transfer the call to the Brother machine.

Unanswered fax and voice calls will go to your Voice Mail.

## Distinctive Ring

This feature is available only in the USA and Canada.

Distinctive Ring is a function of your Brother machine that allows a person with one line to receive fax and voice calls through two different phone numbers on that one line. Brother uses the term "Distinctive Ring," but telephone companies market the service under a variety of names, such as Custom Ringing, Personalized Ring, Smart Ring, Ident-A-Ring, Ident-A-Call, Data Ident-A-Call, Teen Ring, and SimpleBiz Fax & Alternate Number Ringing. This service establishes a second telephone number on the same line as your existing telephone number, and each number has its own ring pattern. Typically, the original number rings with the standard ring pattern and is used for receiving voice calls, and the second number rings with a different ring pattern and is used for receiving faxes.

- You must pay for your telephone company's Distinctive Ring service before you program the machine to work with it.
- Contact your telephone company for availability and rates.

### What does your telephone company's 'Distinctive Ring' do?

Your telephone company's Distinctive Ring service allows you to have more than one number on the same telephone line. **If you need more than one telephone number, it is cheaper than paying for an extra line.** Each telephone number has its own distinctive ring pattern, so you will know which telephone number is ringing. This is one way to have a separate telephone number for your machine.

Contact your telephone company for availability and rates.

### What does Brother's 'Distinctive Ring' do?

The Brother machine has a Distinctive Ring feature that allows you to use your machine to take full advantage of the telephone company's Distinctive Ring service. The new telephone number on your line can only receive faxes.

You must pay for your telephone company's Distinctive Ring service before you program the machine to work with it.

### Do you have Voice Mail?

If you have Voice Mail on the telephone line where you will install your new machine, there is a strong possibility that Voice Mail and the machine will conflict with each other while receiving incoming calls. **However, the Distinctive Ring feature allows you to use more than one number on your line, so both Voice Mail and the machine can work together without any problems.** If each one has a separate telephone number, neither will interfere with the other's operations.

If you decide to get the Distinctive Ring service from the telephone company, you must register the new Distinctive Ring pattern they give you. This is so your machine can recognize its incoming calls.

You can change or cancel the Distinctive Ring pattern at any time. You can switch it off temporarily, and turn it back on later. When you get a new fax number, make sure you reset this feature.

### Before you choose the ring pattern to register

You can register only one Distinctive Ring pattern with the machine. Some ring patterns cannot be registered. The ring patterns below are supported by your Brother machine. Register the one your telephone company gives you.

Ring Pattern	Rings	
1	short-short or long-long	
2	short-long-short	

Ring Pattern	Rings	
3	short-short-long	
4	very long (normal pattern)	

- Ring Pattern #1 is often called Short-Short and is the most commonly used.
- If the ring pattern you received is not on this chart, **contact your telephone company and ask for one that is shown.**

- The machine will answer only calls to its registered number.
- The first two rings are silent on the machine. This is because the fax must <<listen>> to the ring pattern (to compare it to the pattern that was 'registered'). (Other telephones on the same line will ring.)
- If you program the machine correctly, it will recognize the registered ring pattern of the 'fax number' within two ring patterns and then answer with a fax tone. When the 'voice number' is called, the machine will not answer.

## Caller ID

The Caller ID feature lets you use the Caller ID subscriber service offered by many local telephone companies. This service displays the telephone number, or name if it is available, of your caller as the line rings.

- The [# Unavailable] message means the call originated outside your Caller ID service area.
- The [Private Call] message means the caller has intentionally blocked transmission of Caller ID information.

Call your telephone company for more information.

Once you answer a call, the Caller ID information disappears from the LCD and is stored in Caller ID memory.

View the list or select a number and fax to it, add it to the Address Book, or delete it from the history.

You can print a list of the Caller ID information received by your machine.

- This feature is not available in some countries.
- This feature may not be available in certain areas of the USA and Canada.
- The Caller ID service varies with different carriers. Contact your local telephone company to learn if the service is available in your area.

## Set up Your Area Code

When returning calls from the Caller ID history, your machine will dial "1" plus the area code. If your local dialing plan requires that the "1" not be used for calls within your area code, enter your area code in this setting.

This feature is available only in the USA.

Calls returned from the Caller ID history to numbers *within* your area code will be dialed using only 10 digits (area code + seven-digit number). If your dialing plan does not follow the standard 1 + area code + seven-digit number dialing system for calling *outside* your area code, you may experience problems returning calls from the Caller ID history and will not be able to return calls to those numbers using Caller ID history.

### Related Information

- [Caller ID](#)

## Voice Over Internet Protocol (VoIP/Telephone Line Interference)

VoIP is a type of phone system that uses an Internet connection instead of a traditional telephone line. Telephone providers frequently bundle VoIP together with Internet and cable services.

Your machine may not work with some VoIP systems. To use your machine to send and receive faxes on a VoIP system, connect one end of your telephone cord to the jack labeled LINE on your machine. Connect the other end of the telephone cord to a modem, interface box, phone adapter, splitter, or other such device.

If you have questions about how to connect your machine to the VoIP system, contact your VoIP provider.

After you have connected your machine to the VoIP system, press the Hook button to verify the machine has a dial tone. If the machine does not have a dial tone, call your VoIP provider.

If you are having problems sending or receiving faxes over a VoIP system, we recommend changing the machine's modem speed to the [Basic (for VoIP)] setting.

### Related Information

- [Telephone Services and External Devices](#)
- [Telephone Line Interference/VoIP](#)

## External TAD (Telephone Answering Device)

You can connect an external Telephone Answering Device (TAD) to the same line as your machine. When the TAD answers a call, your machine will “listen” for the CNG (fax calling) tones sent by a sending fax machine. If it hears them it will take over the call and receive the fax. If it does not hear them, it will let your TAD take a voice message and the LCD will show [Telephone].

The external TAD must answer within four rings (we recommend setting it to two rings). This is because your machine cannot hear the CNG tones until the external TAD has picked up the call. The sending machine will send CNG tones for only eight to ten seconds longer. We do not recommend using the toll saver feature on your external TAD if it needs more than four rings to activate it.

Unless you are using Distinctive Ring, the TAD must be connected to the EXT. jack of the machine.

- **If you subscribe to your telephone company’s Distinctive Ring service:**

You may connect an external TAD to a separate wall jack only if you subscribe to your telephone company’s Distinctive Ring service, have registered the distinctive ring pattern on your machine, and use that number as a fax number. The recommended setting is at least four rings on the external TAD when you have the telephone company’s Distinctive Ring service. You cannot use the Toll Saver setting.

- **If You Do Not Subscribe to the Distinctive Ring Service:**

You must plug your TAD into the EXT. jack of your machine. If your TAD is plugged into a wall jack, both your machine and the TAD will try to control the telephone line. (See the illustration.)

- 1 TAD
- 2 Protective Cap

### IMPORTANT

DO NOT connect a TAD elsewhere on the same telephone line.

If you have problems receiving faxes, reduce the Ring Delay setting on your external TAD.

### ✓ Related Information

- [Telephone Services and External Devices](#)
- [Connect an External TAD](#)
- [Record an Outgoing Message \(OGM\) on the External TAD](#)
- [Multi-line Connections \(PBX\)](#)

## Connect an External TAD

The external TAD must be plugged into the jack labeled EXT. Your machine cannot work correctly if you plug the TAD into a wall jack (unless you are using Distinctive Ring).

1. Plug the telephone line cord from the telephone wall jack into the jack labeled LINE.
2. Remove the protective cap (1) from the jack labeled EXT., and then plug the telephone line cord from your external TAD into the EXT. jack.

Make sure this cord is connected to the TAD at the TAD's telephone line jack, and not its handset jack.

3. Set your external TAD to four rings or less.  
The machine's Ring Delay setting does not apply.
4. Record the outgoing message on your external TAD.
5. Set the TAD to answer calls.
6. Set the Receive Mode on your machine to [External TAD].

### ✓ Related Information

- [External TAD \(Telephone Answering Device\)](#)
- [Receive Modes Overview](#)
- [Choose the Correct Receive Mode](#)
- [Telephone and Fax problems](#)

## Record an Outgoing Message (OGM) on the External TAD

1. Record five seconds of silence at the beginning of your message. This allows your machine time to listen for fax tones.

We recommend beginning your OGM with an initial five second silence because the machine cannot hear fax tones over a loud voice. You may try leaving out this pause, but if your machine has trouble receiving faxes, then you should re-record the OGM to include it.

2. Limit your speaking to 20 seconds.
3. End your 20-second message by giving your Fax Receive Code for people sending manual faxes. For example: "After the beep, leave a message or press \*51 and Start to send a fax."

### Related Information

- [External TAD \(Telephone Answering Device\)](#)

## Multi-line Connections (PBX)

We suggest you ask the company that installed your PBX to connect your machine. If you have a multi line system we suggest you ask the installer to connect the unit to the last line on the system. This prevents the machine being activated each time the system receives telephone calls. If all incoming calls will be answered by a switchboard operator we recommend setting the Receive Mode to `[Manual]`.

We cannot guarantee that your machine will operate correctly under all circumstances when connected to a PBX. Any difficulties with sending or receiving faxes should be reported first to the company that handles your PBX.

## Operation from External and Extension Telephones

### Use extension telephones

If you answer a fax call at an extension telephone, you can make your machine receive the fax by pressing the Fax Receive Code **\*51**.

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at an extension telephone by pressing the Telephone Answer Code **#51**.

### Use an external telephone (Connected to the EXT. jack of the machine)

If you answer a fax call at the external telephone connected to the EXT. jack of the machine, you can make the machine receive the fax by pressing the Start button and selecting the option to receive.

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at the external telephone by pressing [Pickup].

### If you answer a call and no one is on the line:

You should assume that you're receiving a manual fax.

Press **\*51** and wait for the chirp or until the LCD shows [Receiving], and then hang up.

You can also use the Easy Receive feature to make your machine automatically take the call.

### Related Information

## Use a Non-Brother Cordless External Handset

If your non-Brother cordless telephone is connected to the EXT. jack of the machine and you typically carry the cordless handset elsewhere, it is easier to answer calls during the Ring Delay.

If you let the machine answer first, you must go to the machine so you can press [Pickup] to transfer the call to the cordless handset.

### Related Information

- [External and Extension Telephones](#)

## Use the Remote Codes

### Fax Receive Code

If you answer a fax call on an extension telephone, you can tell your machine to receive it by pressing the Fax Receive Code **\*51**. Wait for the chirping sounds then replace the handset.

If you answer a fax call at the external telephone, you can make the machine receive the fax by pressing the Start button and then selecting the option to receive.

### Telephone Answer Code

If you receive a voice call and the machine is in F/T mode, it will start to sound the F/T ring (pseudo/double-ring) after the initial Ring Delay. If you pick up the call on an extension telephone you can turn the F/T ring off by pressing **#51** (make sure you press this between the rings).

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at the external telephone by pressing [Pickup].

## Set the Transmission Verification Report's Style

You can use the Transmission Verification Report as proof that you sent a fax. This report lists the receiving party's name or fax number, the time and date of transmission, duration of transmission, number of pages sent, and whether or not the transmission was successful.

There are several settings available for the Transmission Verification Report:

Option	Description
On	Prints a report after every fax you send.
On (+Image)	Prints a report after every fax you send. A portion of the fax's first page appears on the report.
Error only	Prints a report if your fax is unsuccessful due to a transmission error.
Error only (+Image)	Prints a report if your fax is unsuccessful due to a transmission error. A portion of the fax's first page appears on the report.
Off	The report will not be printed.

Reduce paper consumption and save time by using Brother's PC-FAX software to send faxes directly from your machine.

- [Configure PC-FAX \(Windows\)](#)
- [Configure your PC-Fax Address Book \(Windows\)](#)

## Configure PC-FAX (Windows)

Before sending faxes using PC-FAX, personalize the send options in each tab of the **PC-FAX Setup** dialog box.

1. Do one of the following:

- Windows Vista and Windows 7

Click  (**Start**) > **All Programs** > **Brother** > **Brother Utilities**.

Click the drop-down list and select your model name (if not already selected). Click **PC-FAX** in the left navigation bar, and then click **Setup Sending**.

- Windows 8 and Windows 10

Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected). Click **PC-FAX** in the left navigation bar, and then click **Setup Sending**.

The **PC-FAX Setup** dialog box appears.

2. Do one of the following:

- Click the **User Information** tab, and then type your user information in the fields.

Each Microsoft account can have its own customized **User Information** screen for custom fax headers and cover pages.

- Click the **Sending** tab, and then type the number needed to access an outside line (if needed) in the **Outside line access** field. Select the **Include header** check box to include the header information.
- Click the **Address Book** tab, and then select the address book you want to use for PC-FAX from the **Select Address Book** drop-down list.

3. Click **OK**.

## Send a Fax Using PC-FAX (Windows)

PC-FAX supports only black and white faxes. A black and white fax will be sent even if the original data is color and the receiving fax machine supports color faxes.

1. Create a file in any application on your computer.
2. Select the print command in your application.
3. Select **Brother PC-FAX** as your printer, and then complete your print operation.

The **Brother PC-FAX** dialog box appears.

4. Type a fax number using one of the following methods:
  - Click the numbers on the dial pad to type the number, and then click **Add Send Address**.

 If you select the **Dial Restriction** check box, a confirmation dialog box will appear for you to re-type the fax number using the keyboard. This feature helps to prevent transmissions to the wrong destination.

- Click the **Address Book** button, and then select a member or group from the Address Book.

 If you make a mistake, click **All Clear** to delete all entries.

5. To include a cover page, select the **Add Cover Page** check box. You can also click  to create or edit a cover page.
6. Click **Start** to send the fax.

- To cancel the fax, click **Cancel**.
- To redial a number, click **Redial** to show the last five fax numbers, select a number, and then click **Start**.

## Set Up Your Computer for PC-FAX Receiving (Windows)

1. Double-click the  (**PC-FAX Receive**) icon in your computer task tray.

The **PC-FAX Receive** window appears.

2. Click **Settings**.
3. Configure these options as needed:

### Preferences

Configure to start PC-FAX Receive automatically when you start Windows.

### Save

Configure the path to save PC-FAX files and select the received document format.

### Upload to

Configure the path to the SharePoint server and select the option to upload automatically or manually (available only for Administrators).

### Device

Select the Brother machine that you want to receive PC-FAX.

### Lock (available only for Administrators)

Restrict users who do not have administrator privileges from configuring the settings options shown above.

4. Click **OK**.

### Related Information

- [Run Brother's PC-FAX Receive on Your Computer \(Windows\)](#)

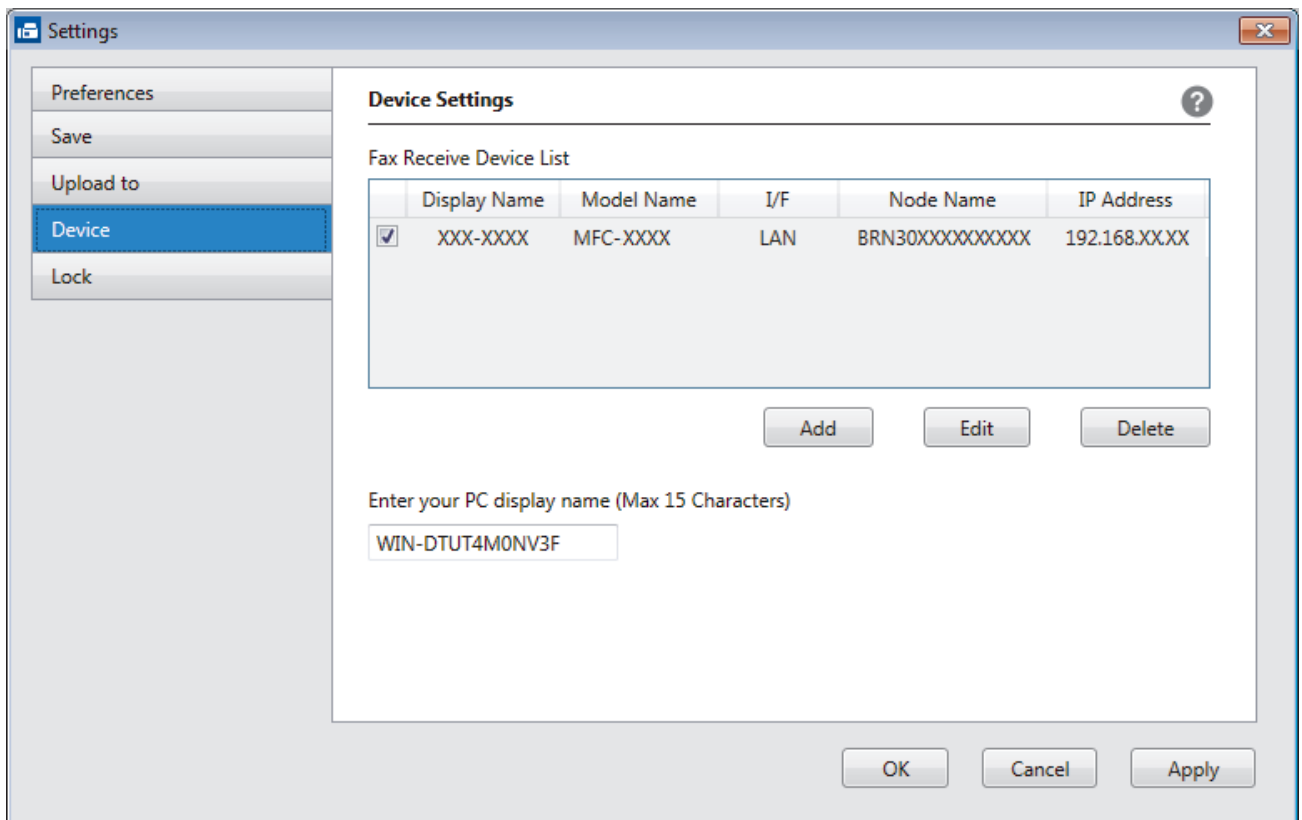

## Add Your Brother Machine to PC-FAX Receiving (Windows)

- If you installed the machine following the instructions for a network user, then the machine should already be configured for your network.

1. Double-click the  (**PC-FAX Receive**) icon in your computer task tray.

The **PC-FAX Receive** window appears.

2. Click **Settings**.
3. Click **Device > Add**.

4. Select the appropriate connection method.

### Select your machine from the automatic search results below.

Connected Brother machines will be displayed. Select a device from the list. Click **OK**.

### Specify your machine by IP address

Type the machine's IP address in the **IP Address** field, and then click **OK**.

5. To change the computer name that will appear on the machine's LCD, type the new name in the **Enter your PC display name (Max 15 Characters)** field.
6. Click **OK**.

### **Related Information**

- [Run Brother's PC-FAX Receive on Your Computer \(Windows\)](#)

## View Received PC-FAX Messages (Windows)

### Receiving Status

Icon	Indicated Status
	Standby mode No unread messages
	Receiving messages
	Messages received Unread messages

1. Double-click the  (PC-FAX Receive) icon in your computer task tray.

The PC-FAX Receive window appears.

2. Click any faxes in the list to view them.
3. When finished, click  in the right top corner of the window to close it.

Even after closing the window, PC-FAX Receive is active and the  (PC-FAX Receive ) icon will remain in your computer task tray. To close PC-FAX Receive, click the icon in the computer task tray and click **Close**.

## PC-FAX for Mac

Use Brother's PC-FAX software to send faxes directly from your Mac without printing them. This feature helps reduce your paper consumption and save time.

- [Send Faxes from Your Application \(Mac\)](#)

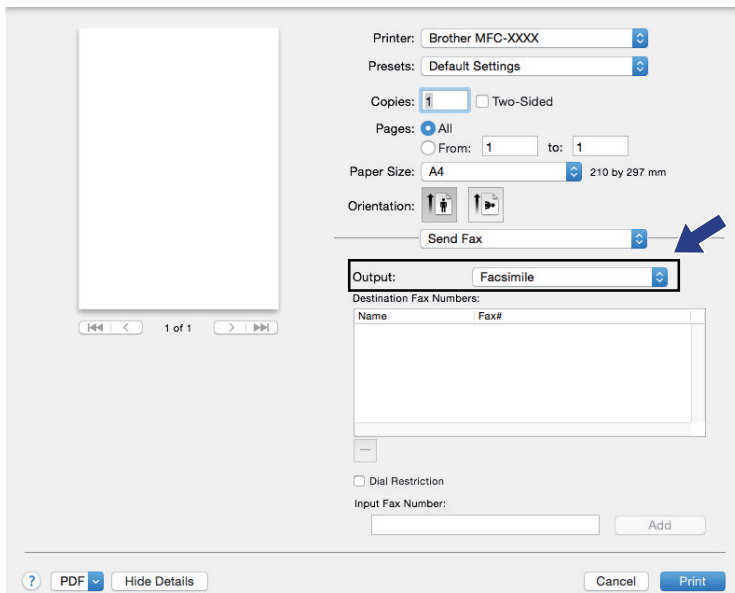

## Send Faxes from Your Application (Mac)

PC-FAX supports only black and white faxes. A black and white fax will be sent even if the original data is color and the receiving fax machine supports color faxes.

1. Create a document in a Mac application.
2. From an application, such as Apple TextEdit, click the **File** menu, and then select **Print**.
3. Click the application pop-up menu, and then select the **Send Fax** option.

4. Click the **Output** pop-up menu, and then select the **Facsimile** option.

5. Type a fax number in the **Input Fax Number** field, and then click **Add**.  
The fax number is displayed in the **Destination Fax Numbers** field.

To send a fax to more than one number, click the **Add** button after entering the first fax number and type the next fax number. The destination fax numbers will be listed in the **Destination Fax Numbers** field.

The screenshot shows a fax software interface with the following elements:

- Printer:** Brother MFC-XXXX
- Presets:** Default Settings
- Copies:** 1, with a checkbox for Two-Sided.
- Pages:** All, with radio buttons for From: 1 to: 1.
- Paper Size:** A4, 210 by 297 mm.
- Orientation:** Portrait/landscape icons.
- Send Fax:** A dropdown menu.
- Output:** Facsimile.
- Destination Fax Numbers:** A table with columns for Name and Fax#.
- Input Fax Number:** A text field with an **Add** button next to it.
- Buttons:** Cancel and Print.

Name	Fax#
	222-111-3333

6. Click **Print** to send the fax.

### Web Based Management

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS). Type your machine's IP address into your web browser to access and change your print server settings.

### BRAdmin Light (Windows)

BRAdmin Light is a utility for the initial setup of Brother network-connected devices. This utility can search for Brother products on your network, view the status and configure the basic network settings, such as IP address.

Go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com) to download BRAdmin Light.

- If using Windows Firewall, or the firewall function of an anti-spyware or antivirus application, temporarily disable them. When you are sure you can print, configure the software settings following the instructions.

### BRAdmin Professional (Windows)

BRAdmin Professional is a utility for more advanced management of network-connected Brother devices. This utility can search for Brother products on your network and view the device status from an easy-to-read Windows Explorer-style screen that changes color to identify the status of each device. You can configure network and device settings, and update device firmware from a Windows computer on your LAN. BRAdmin Professional can also log activity of Brother devices on your network and export the log data.

- Go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com) to download the latest version of Brother's BRAdmin Professional utility.
- Node name: The node name appears in the current BRAdmin Professional window. The default node name is "BRNxxxxxxxxxxxx" for a wired network or "BRWxxxxxxxxxxxx" for a wireless network (where "xxxxxxxxxxxx" is your machine's MAC Address / Ethernet address).
- If using Windows Firewall, or the firewall function of an anti-spyware or antivirus application, temporarily disable them. When you are sure you can print, configure the software settings following the instructions.

### Remote Setup (Windows and Mac)

Remote Setup is a program for configuring many machine and network settings from either a Windows or a Mac application. When you start this application, the settings on your machine are automatically downloaded to your computer and displayed on your computer screen. If you change the settings, you can upload them directly to the machine.

This utility can be used with either a USB or a network connection.

## Additional Methods of Configuring Your Brother Machine for a Wireless Network

To connect your machine to your wireless network, we recommend using the Installation CD-ROM.

- [Before Configuring Your Brother Machine for a Wireless Network](#)
- [Configure Your Machine for a Wireless Network Using the One Push Method of Wi-Fi Protected Setup™ \(WPS\)](#)
- [Configure Your Machine for a Wireless Network Using the PIN Method of Wi-Fi Protected Setup™ \(WPS\)](#)
- [Configure Your Machine for a Wireless Network When the SSID is Not Broadcast](#)
- [Configure Your Machine for an Enterprise Wireless Network](#)
- [Use Wi-Fi Direct®](#)

## Before Configuring Your Brother Machine for a Wireless Network

Before attempting to configure a wireless network, confirm the following:

- Before configuring wireless settings, you must know your Network name (SSID) and Network Key. If you are using an enterprise wireless network, you must know the User ID and Password.

---

If you do not know the security information, please consult the router manufacture, your system administrator, or your Internet provider.

---

- To achieve optimum results with normal everyday document printing, place the Brother machine as close to the wireless LAN access point/router as possible with minimal obstructions. Large objects and walls between the two devices and interference from other electronic devices can affect the data transfer speed of your documents.

Due to these factors, wireless may not be the best method of connection for all types of documents and applications. If you are printing large files, such as multi-page documents with mixed text and large graphics, you may want to consider selecting wired Ethernet for faster data transfer (supported models only), or USB for the fastest throughput speed.

- Although the Brother machine can be used in both a wired and wireless network (supported models only), only one connection method can be used at a time. However, a wireless network connection and Wi-Fi Direct connection, or a wired network connection (supported models only) and Wi-Fi Direct connection can be used at the same time.

## Configure Your Machine for a Wireless Network Using the One Push Method of Wi-Fi Protected Setup™ (WPS)

If your wireless access point/router supports WPS (Push Button Configuration), you can use WPS from your machine's control panel menu to configure your wireless network settings.

Routers or access points that support WPS are marked with this symbol:

>> [MFC-J6530DW/MFC-J6730DW](#)  
>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [WPS].
2. When [Enable WLAN?] appears, press [Yes].  
The wireless setup wizard starts. To cancel, press [No].
3. When the touchscreen instructs you to start WPS, press the WPS button on your wireless access point/router. Then press [OK] on your machine. Your machine automatically tries to connect to your wireless network.

If your wireless device is connected successfully, the LCD displays [Connected].

You have completed the wireless network setup. To install drivers and software necessary for operating your device, insert the Brother installation disc into your computer or go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [WPS].
2. When [Enable WLAN?] appears, press [Yes].  
This will start the wireless setup wizard. To cancel, press [No].
3. When the touchscreen instructs you to start WPS, press the WPS button on your wireless access point/router. Then press [OK] on your machine. Your machine automatically tries to connect to your wireless network.

If your wireless device is connected successfully, the display shows [Connected].

You have completed the wireless network setup. To install drivers and software necessary for operating your device, insert the Brother installation disc into your computer or go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

### Related Information

- [Additional Methods of Configuring Your Brother Machine for a Wireless Network](#)

## Configure Your Machine for a Wireless Network Using the PIN Method of Wi-Fi Protected Setup™ (WPS)

If your wireless LAN access point/router supports WPS, you can use the Personal Identification Number (PIN) Method to configure your wireless network settings.

The PIN Method is one of the connection methods developed by the Wi-Fi Alliance®. By submitting a PIN created by an Enrollee (your machine) to the Registrar (a device that manages the wireless LAN), you can set up the wireless network and security settings. For more information on how to access WPS mode, see the instructions provided with your wireless access point/router.

### Type A

Connection when the wireless LAN access point/router (1) doubles as the Registrar.

### Type B

Connection when another device (2), such as a computer, is used as the Registrar.

 Routers or access points that support WPS are marked with this symbol:

>> [MFC-J6530DW/MFC-J6730DW](#)  
>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [WPS w/ PIN Code].
2. When [Enable WLAN?] appears, press [Yes].  
The wireless setup wizard starts. To cancel, press [No].
3. The LCD displays an eight-digit PIN and the machine starts searching for a wireless LAN access point/router.

- Using a computer connected to the network, type in your browser's address bar the IP address of the device you are using as the Registrar. (For example: <http://192.168.1.2>)
- Go to the WPS settings page and type the PIN, and then follow the on-screen instructions.

- The Registrar is usually the wireless LAN access point/router.
- The settings page will differ depending on the brand of wireless LAN access point/router. For more information, see the instructions supplied with your wireless LAN access point/router.

**If you are using a Windows Vista, Windows 7, Windows 8, or Windows 10 computer as a Registrar, complete the following steps:**

- Do one of the following:
  - Windows Vista  
Click  **(Start) > Network > Add a wireless device.**
  - Windows 7  
Click  **(Start) > Devices and Printers > Add a device.**
  - Windows 8  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings > Control Panel > Hardware and Sound > Devices and Printers > Add a device.**
  - Windows 10  
Click  **> All apps > Windows System > Control Panel.** In the **Hardware and Sound** group, click **Add a device.**

- To use a Windows Vista, Windows 7, Windows 8, or Windows 10 computer as a Registrar, you must register it to your network in advance. For more information, see the instructions supplied with your wireless LAN access point/router.
- If you use Windows 7, Windows 8, or Windows 10 as a Registrar, you can install the printer driver after the wireless configuration by following the on-screen instructions. To install the full driver and software package, use the Brother installation disc.

- Select your machine and click **Next**.
- Type the PIN displayed on the machine's LCD, and then click **Next**.
- Select your network, and then click **Next**.
- Click **Close**.

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

- Press  [Settings] > [Wi-Fi] > [WPS w/ PIN Code].
- When [Enable WLAN?] appears, press [Yes].  
This will start the wireless setup wizard. To cancel, press [No].
- The LCD displays an eight-digit PIN and the machine starts searching for a wireless LAN access point/router.
- Using a computer connected to the network, type in your browser's address bar the IP address of the device you are using as the Registrar. (For example: <http://192.168.1.2>)
- Go to the WPS settings page and type the PIN, and then follow the on-screen instructions.

- The Registrar is usually the wireless LAN access point/router.
- The settings page will differ depending on the brand of wireless LAN access point/router. For more information, see the instructions supplied with your wireless LAN access point/router.

**If you are using a Windows Vista, Windows 7, Windows 8, or Windows 10 computer as a Registrar, complete the following steps:**

- Do one of the following:
  - Windows Vista

---

Click  (**Start**) > **Network** > **Add a wireless device**.

- Windows 7

Click  (**Start**) > **Devices and Printers** > **Add a device**.

- Windows 8

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings** > **Control Panel** > **Hardware and Sound** > **Devices and Printers** > **Add a device**.

- Windows 10

Click  > **All apps** > **Windows System** > **Control Panel**. In the **Hardware and Sound** group, click **Add a device**.

- To use a Windows Vista, Windows 7, Windows 8, or Windows 10 computer as a Registrar, you must register it to your network in advance. For more information, see the instructions supplied with your wireless LAN access point/router.
- If you use Windows 7, Windows 8, or Windows 10 as a Registrar, you can install the printer driver after the wireless configuration by following the on-screen instructions. To install the full driver and software package, use the Brother installation disc.

7. Select your machine and click **Next**.
8. Type the PIN displayed on the machine's LCD, and then click **Next**.
9. Select your network, and then click **Next**.
10. Click **Close**.

## Configure Your Machine for a Wireless Network When the SSID is Not Broadcast

- >> [MFC-J6530DW/MFC-J6730DW](#)
- >> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and write down the current wireless network settings.

Network Name (SSID)			
Communication Mode	Authentication Method	Encryption Mode	Network Key
Infrastructure	Open System	NONE	-
		WEP	
	Shared Key	WEP	
		WPA/WPA2-PSK	AES
		TKIP	

For example:

Network Name (SSID)			
HELLO			
Communication Mode	Authentication Method	Encryption Mode	Network Key
Infrastructure	WPA2-PSK	AES	12345678

If your router uses WEP encryption, enter the key used as the first WEP key. Your Brother machine supports the use of the first WEP key only.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [Setup Wizard].
3. When [Enable WLAN?] appears, press [Yes].  
The wireless setup wizard starts. To cancel, press [No].
4. The machine searches for your network and displays a list of available SSIDs. Press ▲ or ▼ to display the [<New SSID>] option, and then press it.
5. Press [OK].
6. Enter the SSID name, and then press [OK].

For more information about how to enter text, see the *Appendix*.

7. Press [Infrastructure].
8. Select the Authentication Method, and then press it.
9. Do one of the following:
  - If you selected the [Open System] option, press either [None] or [WEP].  
If you selected the [WEP] option for Encryption type, enter the WEP key, and then press [OK].
  - If you selected the [Shared Key] option, enter the WEP key, and then press [OK].

- If you selected the [WPA/WPA2-PSK] option, press either [TKIP+AES] or [AES].  
Enter the WPA key, and then press [OK].

- For more information about how to enter text, see the *Appendix*.
- Your Brother machine supports the use of the first WEP key only.

10. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the LCD displays [Connected].

You have completed the wireless network setup. To install drivers and software necessary for operating your device, insert the Brother installation disc into your computer or go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and write down the current wireless network settings.

Network Name (SSID)			
Communication Mode	Authentication Method	Encryption Mode	Network Key
Infrastructure	Open System	NONE	-
		WEP	
	Shared Key	WEP	
		WPA/WPA2-PSK	AES
		TKIP	

For example:

Network Name (SSID)			
HELLO			
Communication Mode	Authentication Method	Encryption Mode	Network Key
Infrastructure	WPA2-PSK	AES	12345678

If your router uses WEP encryption, enter the key used as the first WEP key. Your Brother machine supports the use of the first WEP key only.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [Setup Wizard].
3. When [Enable WLAN?] appears, press [Yes].  
This will start the wireless setup wizard. To cancel, press [No].
4. The machine searches for your network and displays a list of available SSIDs. Swipe up or down or press ▲ or ▼ to display [<New SSID>]. Press [<New SSID>], and then press [OK].
5. Enter the SSID name, and then press [OK].

For more information about how to enter text, see the *Appendix*.

6. Press [Infrastructure] when instructed.
7. Select the Authentication Method.
8. Do one of the following:

- 
- If you selected the [Open System] option, select the Encryption type [None] or [WEP], and then press it.  
If you selected the [WEP] option for Encryption type, enter the WEP key, and then press [OK].
  - If you selected the [Shared Key] option, enter the WEP key, and then press [OK].
  - If you selected the [WPA/WPA2-PSK] option, press [TKIP+AES] or [AES].  
Enter the WPA key, and then press [OK].

- 
- For more information about how to enter text, see the *Appendix*.
  - Your Brother machine supports the use of the first WEP key only.
- 

9. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the display shows [Connected].

You have completed the wireless network setup. To install drivers and software necessary for operating your device, insert the Brother installation disc into your computer or go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

### MFC-J6530DW/MFC-J6730DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and record the current wireless network settings.

Network Name (SSID)

Communication Mode	Authentication Method	Encryption Mode	User ID	Password
Infrastructure	LEAP	CKIP		
		AES		
	EAP-FAST/NONE	TKIP		
		AES		
	EAP-FAST/MS-CHAPv2	TKIP		
		AES		
	EAP-FAST/GTC	TKIP		
		AES		
	PEAP/MS-CHAPv2	TKIP		
		AES		
	PEAP/GTC	TKIP		
		AES		
	EAP-TTLS/CHAP	TKIP		
		AES		
	EAP-TTLS/MS-CHAP	TKIP		
		AES		
	EAP-TTLS/MS-CHAPv2	TKIP		
		AES		
EAP-TTLS/PAP	TKIP			
	AES			
EAP-TLS	TKIP			
	AES		-	

For example:

Network Name (SSID)
HELLO

Communication Mode	Authentication Method	Encryption Mode	User ID	Password
Infrastructure	EAP-FAST/MS-CHAPv2	AES	Brother	12345678

- If you configure your machine using EAP-TLS authentication, you must install the client certificate issued by a CA before you start configuration. Contact your network administrator about the client certificate. If you have installed more than one certificate, we recommend writing down the certificate name you want to use.
- If you verify your machine using the common name of the server certificate, we recommend writing down the common name before you start configuration. Contact your network administrator about the common name of the server certificate.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN] > [Setup Wizard].
3. When [Enable WLAN?] appears, press [Yes].  
The wireless setup wizard starts. To cancel, press [No].
4. The machine searches for your network and displays a list of available SSIDs. Press ▲ or ▼ to display the [<New SSID>] option, and then press it.
5. Press [OK].
6. Enter the SSID name, and then press [OK].

For more information about how to enter text, see the *Appendix*.

7. Press [Infrastructure].
8. Select the Authentication Method, and then press it.
9. Do one of the following:
  - If you selected the [LEAP] option, enter the user ID, and then press [OK]. Enter the Password, and then press [OK].
  - If you selected the [EAP-FAST], [PEAP] or [EAP-TTLS] option, select the Inner Authentication method [NONE], [CHAP], [MS-CHAP], [MS-CHAPv2], [GTC] or [PAP].

Depending on your Authentication method, the Inner Authentication method selections differ.

Select the encryption type [TKIP+AES] or [AES].

Select the verification method [No Verification], [CA] or [CA + Server ID].

- If you selected the [CA + Server ID] option, enter the server ID, user ID and password (if required), and then press [OK] for each option.
- For other selections, enter the user ID and Password, and then press [OK] for each option.

If you have not imported a CA certificate into your machine, the machine displays [No Verification].

- If you selected the [EAP-TLS] option, select the encryption type [TKIP+AES] or [AES].  
The machine will display a list of available Client Certificates, and then select the certificate.  
Select the verification method [No Verification], [CA] or [CA + Server ID].
  - If you selected the [CA + Server ID] option, enter the server ID and user ID, and then press [OK] for each option.
  - For other selections, enter the user ID, and then press [OK].

If you have not imported a CA certificate into your machine, the machine displays [No Verification].

10. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the LCD displays [Connected].

You have completed the wireless network setup. To install drivers and software necessary for operating your device, insert the Brother installation disc into your computer or go to your model's **Downloads** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

## Print or Scan from Your Mobile Device Using Wi-Fi Direct

Wi-Fi Direct is one of the wireless configuration methods developed by the Wi-Fi Alliance®. It allows you to configure a secured wireless network between your Brother machine and a mobile device, such as an Android™ device, Windows device, iPhone, iPod touch, or iPad, without using an access point. Wi-Fi Direct supports wireless network configuration using the one-push or PIN Method of Wi-Fi Protected Setup™ (WPS). You can also configure a wireless network by manually setting a SSID and password. Your Brother machine's Wi-Fi Direct feature supports WPA2™ security with AES encryption.

1. Mobile device
2. Your Brother machine

- Although the Brother machine can be used in both a wired (supported models only) and wireless network, only one connection method can be used at a time. However, a wireless network connection and Wi-Fi Direct connection, or a wired network connection and Wi-Fi Direct connection can be used at the same time.
- The Wi-Fi Direct supported device can become a Group Owner (G/O). When configuring the Wi-Fi Direct network, the Group Owner (G/O) serves as an access point.

### Related Information

- [Configure Your Wi-Fi Direct Network Manually](#)

## Wi-Fi Direct Network Configuration Overview

The following instructions offer five methods for configuring your Brother machine in a wireless network environment. Select the method you prefer for your environment.

Check your mobile device for configuration.

1. Does your mobile device support Wi-Fi Direct?

Option	Description
Yes	Go to Step 2
No	Go to Step 3

2. Does your mobile device support one-push configuration for Wi-Fi Direct?

Option	Description
Yes	See <i>Related Information</i> : Configure Your Wi-Fi Direct Network Using the One-Push Method
No	See <i>Related Information</i> : Configure Your Wi-Fi Direct Network Using the PIN Method

3. Does your mobile device support Wi-Fi Protected Setup™ (WPS)?

Option	Description
Yes	Go to Step 4
No	See <i>Related Information</i> : Configure Your Wi-Fi Direct Network Manually

4. Does your mobile device support one-push configuration for Wi-Fi Protected Setup™ (WPS)?

Option	Description
Yes	See <i>Related Information</i> : Configure Your Wi-Fi Direct Network Using the One-Push Method of Wi-Fi Protected Setup™ (WPS)
No	See <i>Related Information</i> : Configure Your Wi-Fi Direct Network Using the PIN Method of Wi-Fi Protected Setup™ (WPS)

To use Brother iPrint&Scan functionality in a Wi-Fi Direct network configured by one-push configuration using Wi-Fi Direct or by PIN Method configuration using Wi-Fi Direct, the device you use to configure Wi-Fi Direct must be running Android™ 4.0 or greater.

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

If your mobile device supports Wi-Fi Direct, follow these steps to configure a Wi-Fi Direct network:

When the machine receives the Wi-Fi Direct request from your mobile device, the message [Wi-Fi Direct connection request received. Press [OK] to connect.] will appear on the LCD. Press [OK] to connect.

1. Press  [Settings] > [All Settings] > [Network] > [Wi-Fi Direct] > [Push Button].
2. Activate Wi-Fi Direct on your mobile device (see your mobile device's user's guide for instructions) when [Activate Wi-Fi Direct on other device. Then Press [OK].] appears. Press [OK] on your Brother machine.  
This will start the Wi-Fi Direct setup.
3. Do one of the following:
  - When your Brother machine is the Group Owner (G/O), connect your mobile device to the machine directly.
  - When your Brother machine is not the Group Owner (G/O), it will display available device names with which to configure a Wi-Fi Direct network. Select the mobile device to which you want to connect. Search for available devices again by pressing [Rescan].

If your mobile device connects successfully, the machine displays [Connected]. You have completed the Wi-Fi Direct network setup.

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

If your mobile device supports Wi-Fi Direct, follow these steps to configure a Wi-Fi Direct network:

When the machine receives the Wi-Fi Direct request from your mobile device, the message [Wi-Fi Direct connection request received. Press [OK] to connect.] will be displayed. Press [OK] to connect.

1. Press  [Settings] > [All Settings] > [Network] > [Wi-Fi Direct] > [Push Button].
2. Activate Wi-Fi Direct on your mobile device (see your mobile device's user's guide for instructions) when [Activate Wi-Fi Direct on other device. Then Press [OK].] appears. Press [OK] on your Brother machine.  
This will start the Wi-Fi Direct setup.
3. Do one of the following:
  - When your Brother machine is the Group Owner (G/O), connect your mobile device to the machine directly.
  - When your Brother machine is not the Group Owner (G/O), it will display available device names with which to configure a Wi-Fi Direct network. Select the mobile device to which you want to connect. Search for available devices again by pressing [Rescan].

If your mobile device connects successfully, the machine displays the message [Connected]. You have completed the Wi-Fi Direct network setup.

## Fax Using the Internet (I-Fax)

With Brother's I-Fax program, you can send and receive fax documents using the Internet as the transport mechanism. Documents are transmitted in email messages as attached TIFF files. Your computer can send and receive documents as long as it has an application that can generate and view TIFF files. You can use any TIFF viewer application. Documents sent via the Brother machine will be converted into a TIFF format automatically. If you want to send and receive messages to and from your Brother machine, your computer's email application must support Multipurpose Internet Mail Extensions (MIME).

To use this feature, go to the Brother Solutions Center at [support.brother.com](http://support.brother.com), click **Downloads** on your model page and download the I-Fax Install Tool.

1. Fax (Sender)
2. Telephone line
3. Your Brother Machine (Receiver/Sender)
4. The Internet
5. A computer receives a forwarded email
6. A fax machine receives a forwarded fax

- I-Fax supports sending and receiving documents in Letter or A4 format and in black and white only.
- If your document is in Ledger or A3 format, it will be reduced to Letter or A4 format automatically when it is sent.

- [Forward Received Email and Fax Messages](#)

## Important Information about Internet Fax (I-Fax)

I-Fax communication on a LAN is very similar to communication via email; however, it is different from fax communication using standard phone lines. The following is important information for using I-Fax:

- Factors such as the receiver's location, structure of the LAN and how busy the circuit (such as the Internet) is may cause the system to take a longer time than usual to send an error mail.
- When sending confidential documents, we recommend using standard phone lines instead of the Internet (due to its low level of security).
- If the receiver's mail system is not MIME-compatible, you cannot use I-Fax to send documents. If possible, find out in advance, and note that some servers will not send an error reply.
- If a document is too large to send via I-Fax, it may not reach the receiver.
- You cannot change the font or size of the text in any Internet mail you receive.

## Configure Your Brother Machine for Email or I-Fax

Before using I-Fax, configure your Brother machine to communicate with your network and mail server. You can configure these items using the machine's control panel, Web Based Management, Remote setup, or BRAdmin Professional. We recommend using Web Based Management to configure the optional items.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Protocol** menu in the left navigation bar.
6. In the **POP3/IMAP4/SMTP** field, click **Advanced Settings** and configure the following settings:
  - **Send E-mail Settings(SMTP)**
    - **Port**
    - **Server Authentication Method**
    - **SMTP-AUTH Account Name**
    - **SMTP-AUTH Account Password**
  - **Receive E-mail Settings(POP3/IMAP4)**
    - **Protocol**
    - **Mailbox Name**
    - **Mailbox Password**

If you are unsure of any of these items, contact your system administrator.

7. When finished, click **Submit**.  
The **Test Send/Receive E-mail Configuration** dialog box appears.
8. Follow the instructions in the dialog box to test the current settings.

## Receive an I-Fax Automatically

To receive an I-Fax automatically, use Web Based Management to configure receiving options, if needed.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Fax** tab.
5. Click **I-Fax** in the left navigation bar.
6. Click **E-mail Receive** and configure the following settings:

### E-mail Receive

---

**Auto Polling**  Off  On

**Polling Frequency**  minute(s)

**Print Mail Header**  ▼

**Delete/Read Receive Error Mail**  Off  On

**Send Delivery Notification (Receive)**  ▼

---

[POP3/IMAP4/SMTP>>](#)

---

- **Auto Polling**
- **Polling Frequency**
- **Print Mail Header**
- **Delete/Read Receive Error Mail**
- **Send Delivery Notification (Receive)**

There are two ways to receive email messages:

- POP3/IMAP4 receiving at regular intervals
- POP3/IMAP4 receiving, manually initiated

When using POP3/IMAP4 receiving, the machine polls your email server to receive data. Polling can occur at set intervals (for example, you can configure the machine to poll the email server every ten minutes) or you can manually poll the server.

7. When finished, click **Submit**.

- If your machine starts to receive email data, the LCD will display [Receiving].The email will print automatically.
  - If your machine is out of paper when receiving data, the received data will be held in the machine's memory. This data will be printed automatically after paper is re-inserted into the machine.
  - If the received mail is not in a plain text format, or an attached file is not in the TIFF format, the error message "**ATTACHED FILE FORMAT NOT SUPPORTED**" will be printed.
  - If the received mail is too large, the error message "**E-MAIL FILE TOO LARGE**" will be printed.
  - If **Delete/Read Receive Error Mail** is **On** (default), then the error mail will be deleted (POP3) or read (IMAP4) from the email server automatically.
-

## Set Up Relay Broadcast on Your Brother Machine

A Relay Broadcast is when your Brother machine receives a message over the Internet and then relays it to another fax machine using conventional telephone lines. If you must fax a document over a long distance or abroad, use the "relay broadcast" function to save the communication fee.

1. Internet-available fax machine
2. The Internet
3. Your Brother Machine
4. Telephone line
5. Fax machine

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Fax** tab.
5. Click **I-Fax** in the left navigation bar.
6. Click **Relay Function** and configure the following settings:

### Relay Function

---

**Relay Broadcast Function**     Off    On

**Relay Domain**

**Relay Broadcast Report**     Off    On

---

- **Relay Broadcast Function**  
Set the **Relay Broadcast Function** to **On**.
- **Relay Domain**

---

Configure your machine's domain name on the machine that will broadcast the document to the conventional fax machine. To use your machine as a relay broadcast device, you must specify the trusted domain name (the portion of the name after the "@" sign) on the machine. Use care in selecting a trusted domain: any user on a trusted domain will be able to send a relay broadcast. You can register up to five domain names.

- **Relay Broadcast Report**

Specify whether or not you want a report to print after the machine completes the relay broadcast.

7. When finished, click **Submit**.

### MFC-J6530DW/MFC-J6730DW

1. Load your document.
2. Do one of the following:
  - If Fax Preview is set to [Off], press [Fax].
  - If Fax Preview is set to [On], press [Fax], and then press [Sending Faxes].
3. Press [Options] > [Broadcasting] > [Add Number].
4. You can add email addresses to the broadcast in the following ways:
  - Press [Add Number] and press , enter the email address and press [OK].
  - Press [Add from Address book]. Press the check box of the email address you want to add to the broadcast. After you have checked all the email addresses you want, press [OK].
  - Press [Search in Address book]. Enter the name and press [OK]. The search results will be displayed. Press the name and then press the email address you want to add to the broadcast.

The following is an example of how to enter the email address and phone number:

UKFAX@brother.co.uk(fax#123456789)

email address                      Fax Phone Number

The word "fax#" must be included with the phone number inside the parenthesis.

After you have entered all of the fax numbers, press [OK].

5. Press [Fax Start].

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Load your document.

---

2. Do one of the following:

- If Fax Preview is set to [Off], press [Fax].
- If Fax Preview is set to [On], press [Fax] and [Sending Faxes].

3. Press [Options] > [Broadcasting] > [Add Number].

4. You can add email addresses to the broadcast in the following ways:

- Press [Add Number] and press , enter the email address and press [OK].
- Press [Add from Address book]. Press the check box of the email address you want to add to the broadcast. After you have checked all the email addresses you want, press [OK].
- Press [Search in Address book]. Enter the name and press [OK]. The search results will be displayed. Press the name and then press the email address you want to add to the broadcast.

The following is an example of how to enter the email address and phone number:

UKFAX@brother.co.uk(fax#123456789)

The word "fax#" must be included with the phone number inside the parenthesis.

After you have entered all of the fax numbers, press [OK].

5. Press [Fax Start].

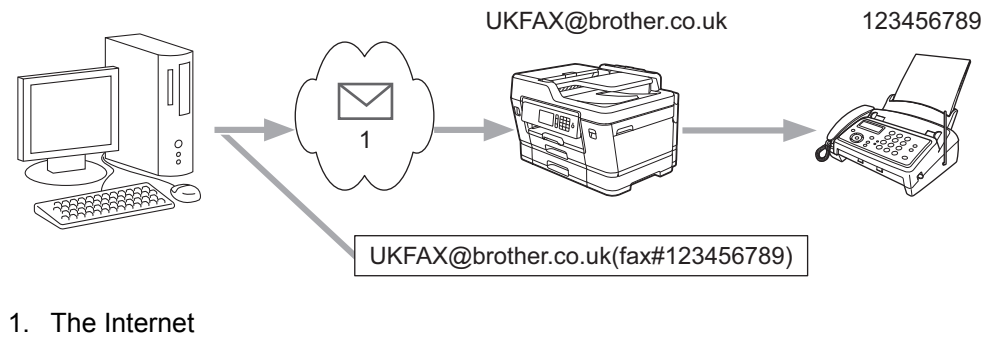

## Related Information

-

## Relay Broadcast from Your Computer

Use the Relay Broadcast Function to send email from your computer to a conventional fax machine.

Some email applications do not support sending an email to multiple fax numbers. If your email application cannot support multiple fax numbers, you can relay to only one fax machine at a time.

If you are sending an email to a conventional fax machine, the method of entering the fax machine's fax number will vary, depending on the mail application you are using.

1. In your email application, create a new mail message and type the email address of the relay machine and fax number of the first fax machine in the "TO" box.

The following is an example of how to enter the email address and fax number:

UKFAX@brother.co.uk(fax#123456789)

email address                      Fax Phone Number

The word "fax#" must be included with the phone number inside the parenthesis.

 For Microsoft Outlook, the address information must be entered into the address book as follows:

Name: fax#123456789

Email address: UKFAX@brother.co.uk

2. Type the email address of the relay machine and fax number of the second fax machine in the "TO" box.
3. Send the email.

## Configure and Operate LDAP Search

The LDAP feature allows you to search for information, such as fax numbers and email addresses, on your server. When you use the Fax, I-Fax, or Scan to Email server feature, you can use the LDAP search to find fax numbers or email addresses.

- The LDAP feature does not support simplified Chinese, traditional Chinese, or Korean.
- The LDAP feature supports LDAPv3.
- The LDAP feature does not support SSL/TLS.
- You must use Simple Authentication to communicate with your LDAP server.

### Related Information

- [Advanced Network Features](#)
- [Change LDAP Configuration Using Web Based Management](#)
- [Perform an LDAP Search Using Your Machine's Control Panel](#)

## Change LDAP Configuration Using Web Based Management

Use Web Based Management to configure your LDAP settings in a web browser.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Protocol** menu in the left navigation bar.
6. Select the **LDAP** check box, and then click **Submit**.
7. Restart your Brother machine to activate the configuration.
8. On your computer, in Web Based Management's **Address Book** tab, select **LDAP** in the left navigation bar.
  - **LDAP Search**
  - **LDAP Server Address**
  - **Port** (The default port number is 389.)
  - **Search Root**
  - **Authentication**
  - **Username**  
This selection will be available depending on the authentication method used.
  - **Password**  
This selection will be available depending on the authentication method used.

- If the LDAP server supports Kerberos authentication, we recommend selecting Kerberos for the Authentication settings. It provides strong authentication between the LDAP server and your machine.
- You must configure the SNTP protocol (network time server), or you must set the date, time and time zone correctly on the control panel for Kerberos authentication.

- **Kerberos Server Address**  
This selection will be available depending on the authentication method used.
  - **Timeout for LDAP**
  - **Attribute of Name (Search Key)**
  - **Attribute of E-mail**
  - **Attribute of Fax Number**
9. When finished, click **Submit**. Make sure the **Status** field reads **OK**.

### Related Information

## Wireless LAN Report Error Codes

If the Wireless LAN Report shows that the connection failed, check the error code on the printed report and see the corresponding instructions in the table:

Error Code	Problem and Recommended Solutions
TS-01	<p>The wireless setting is not activated, change the wireless setting to ON.</p> <p>If a network cable is connected to your machine, disconnect it and change the wireless setting of your machine to ON.</p>
TS-02	<p>The wireless access point/router cannot be detected.</p> <ol style="list-style-type: none"> <li>Check the following two points: <ul style="list-style-type: none"> <li>Unplug the power to your wireless access point/router, wait for 10 seconds, and then plug it back in.</li> <li>If your WLAN access point/router is using MAC address filtering, confirm that the MAC address of the Brother machine is allowed in the filter.</li> </ul> </li> <li>If you manually entered the SSID and security information (SSID/authentication method/encryption method/Network Key), the information may be incorrect. Reconfirm the SSID and security information and re-enter the correct information as necessary.</li> </ol> <p>This device does not support a 5GHz SSID/ESSID and you must select a 2.4 GHz SSID/ESSID. Make sure the access point/router is set to 2.4 GHz or 2.4 GHz/5 GHz mixed mode.</p>
TS-03	<p>The wireless network and security setting you entered may be incorrect. Reconfirm the wireless network settings.</p> <p>If you do not know this information, ask your network administrator.</p>
TS-04	<p>The Authentication/Encryption methods used by the selected wireless access point/router are not supported by your machine.</p> <p>Change the authentication and encryption methods of the wireless access point/router. Your machine supports the following authentication methods:</p> <ul style="list-style-type: none"> <li>WPA-Personal TKIP or AES</li> <li>WPA2-Personal TKIP or AES</li> <li>Open WEP or None (without encryption)</li> <li>Shared key WEP</li> </ul> <p>If your problem is not solved, the SSID or network settings you entered may be incorrect. Confirm the wireless network settings.</p>
TS-05	<p>The security information (SSID/Network Key) is incorrect.</p> <p>Confirm the SSID and Network Key.</p>
TS-06	<p>The wireless security information (Authentication method/Encryption method/Network Key) is incorrect.</p> <p>Confirm the wireless security information (Authentication method/Encryption method/Network Key).</p>
TS-07	<p>The machine cannot detect a WLAN access point/router that has WPS enabled.</p> <p>If you want to connect with WPS, you must operate both your machine and the WLAN access point/router. Confirm the connection method for WPS on WLAN access point/router and try starting again.</p> <p>If you do not know how to operate your WLAN access point/router using WPS, see the documentation provided with your WLAN access point/router, ask the manufacturer of your WLAN access point/router, or ask your network administrator.</p>

---

Error Code	Problem and Recommended Solutions
TS-08	<p>Two or more WLAN access points that have WPS enabled are detected.</p> <ul style="list-style-type: none"><li>• Confirm that only one WLAN access point/router within range has the WPS method active and try again.</li><li>• Try again after a few minutes to avoid interference from other access points.</li></ul>

How to confirm wireless security information (SSID/authentication method/encryption method/Network Key) of your WLAN access point/router:

1. The Default security settings may be provided on a label attached to the WLAN access point/router. Or the manufacturer's name or model number of the WLAN access point/router may be used as the default security settings.
2. See the documentation provided with your WLAN access point/router for information on how to find the security settings.
  - If the WLAN access point/router is set to not broadcast the SSID, the SSID will not automatically be detected. You will have to manually enter the SSID name.
  - The Network key may also be described as the Password, Security Key or Encryption Key.

If you do not know the SSID and wireless security settings of your WLAN access point/router or how to change the configuration, see the documentation provided with your WLAN access point/router, ask the manufacturer of your access point/router or ask to your Internet provider or network administrator.

## Secure Function Lock 3.0

Brother's Secure Function Lock 3.0 increases security by restricting the functions available on your Brother machine.

- [Before Using Secure Function Lock 3.0](#)
- [Configure Secure Function Lock 3.0 Using Web Based Management](#)
- [Scan Using Secure Function Lock 3.0](#)
- [Configure Public Mode for Secure Function Lock 3.0](#)
- [Additional Secure Function Lock 3.0 Features](#)
- [Register a new ID Card Using Machine's Control Panel](#)

## Before Using Secure Function Lock 3.0

Use Secure Function Lock to configure passwords, set specific user page limits, and grant access to some or all of the functions listed here.

You can configure and change the following Secure Function Lock 3.0 settings using Web Based Management or BRAdmin Professional (Windows):

- **Print**

Print includes print jobs sent via AirPrint, Google Cloud Print™ and Brother iPrint&Scan.

If you register users' logon names in advance, the users will not need to enter their passwords when they use the print function.

- **Copy**

- **Scan**

Scan includes scan jobs sent via Brother iPrint&Scan.

- **Fax** (supported models only)

- **Send**

- **Receive**

- **Media**

- **Print from**

- **Scan to**

- **Web Connect** (supported models only)

- **Apps** (supported models only)

- **Page Limits** (\*)

- **Color Print**

- **Page Counters**

- **Card ID (NFC ID)** (supported models only)

If you register users' Card IDs in advance, a registered user can activate the machine by touching his registered card to the machine's NFC symbol.

### Related Information

- [Secure Function Lock 3.0](#)

## Configure Secure Function Lock 3.0 Using Web Based Management

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Administrator** tab.
5. Click the **User Restriction Function** menu in the left navigation bar.
6. Select **Secure Function Lock**.
7. Click **Submit**.
8. Click the **Restricted Functions** menu in the left navigation bar.
9. In the **User List / Restricted Functions** field, type a group name or user name.
10. In the **Print** and the other columns, select a check box to allow or clear a check box to restrict the function listed.
11. To configure the maximum page count, select the **On** check box in the **Page Limits** column, and then type the maximum number in the **Max. Pages** field.
12. Click **Submit**.
13. Click the **User List** menu in the left navigation bar.
14. In the **User List** field, type the user name.
15. In the **PIN Number** field, type a four-digit password.
16. To register the user's Card ID, type the card number in the **Card ID (NFC ID)** field (Available only for certain models) .
17. Select **User List / Restricted Functions** from the drop-down list for each user.
18. Click **Submit**.

### Related Information

- [Secure Function Lock 3.0](#)
- [Register Your Machine with Google Cloud Print™ Using Web Based Management](#)

## Scan Using Secure Function Lock 3.0

### Setting Scan restrictions (for administrators)

Secure Function Lock 3.0 allows an administrator to restrict which users are allowed to scan. When the Scan feature is set to Off for the public user setting, only users who have the **Scan** check box selected will be able to scan.

### Using the Scan feature (for restricted users)

- To scan using the machine's control panel:  
Restricted users must enter their PINs on the machine's control panel to access Scan mode.
- To scan from a computer:  
Restricted users must enter their PINs on the machine's control panel before scanning from their computers. If the PIN is not entered on the machine's control panel, an error message will appear on the user's computer.

---

If the machine supports ID card authentication, restricted users can also access Scan mode by touching the NFC symbol on the machine's control panel with their registered ID cards.

---

## Configure Public Mode for Secure Function Lock 3.0

Use the Secure Function Lock screen to set up Public Mode, which limits the functions available to public users. Public users will not need to enter a password to access the features made available through Public Mode settings.

Public Mode includes print jobs sent via AirPrint, Google Cloud Print™ and Brother iPrint&Scan.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Administrator** tab.
5. Click the **User Restriction Function** menu in the left navigation bar.
6. Select **Secure Function Lock**.
7. Click **Submit**.
8. Click the **Restricted Functions** menu.
9. In the **Public Mode** row, select a check box to allow or clear a check box to restrict the function listed.
10. Click **Submit**.

### Related Information

- [Secure Function Lock 3.0](#)

## Additional Secure Function Lock 3.0 Features

Configure the following features in the Secure Function Lock screen:

### All Counter Reset

Click **All Counter Reset**, in the **Page Counters** column, to reset the page counter.

### Export to CSV file

Click **Export to CSV file**, to export the current page counter including **User List / Restricted Functions** information as a CSV file.

### Card ID (NFC ID) (supported models only)

Click the **User List** menu, and then type a users' Card ID in the **Card ID (NFC ID)** field. You can use your ID card for authentication.

### Last Counter Record

Click **Last Counter Record** if you want the machine to retain the page count after the counter has been reset.

### Counter Auto Reset

Click **Counter Auto Reset** to configure the time interval you want between page counter reset. Choose a daily, weekly, or monthly interval.

### Related Information

- [Secure Function Lock 3.0](#)

## Register a new ID Card Using Machine's Control Panel

**Related Models:** MFC-J6930DW/MFC-J6935DW

1. Touch the NFC symbol on the machine's control panel with a registered ID Card.
2. Press  displayed at the top left of the screen.
3. Press [Register Card].
4. Touch a new ID Card to the NFC symbol.  
The new ID Card's number is registered to the machine.

For the supported ID Card types, go to the Brother Solutions Center at [support.brother.com](http://support.brother.com) to see **FAQs & Troubleshooting**.

5. Press [OK].

## Manage Your Network Machine Securely Using SSL/TLS

- [Certificates and Web Based Management](#)

## Certificates and Web Based Management

You must configure a certificate to manage your networked Brother machine securely using SSL/TLS. You must use Web Based Management to configure a certificate.

- [Supported Security Certificate Features](#)
- [Create and Install a Certificate](#)
- [Manage Multiple Certificates](#)

## Supported Security Certificate Features

Your Brother machine supports the use of multiple security certificates, which allows secure authentication and communication with the machine. The following security certificate features can be used with the machine:

- SSL/TLS communication
- SSL communication for SMTP/POP3/IMAP4 (only available for certain models)
- IEEE 802.1x authentication

The Brother machine supports the following:

- Pre-installed certificate

Your machine has a pre-installed self-signed certificate. This certificate enables you to use SSL/TLS communication without creating or installing a different certificate.

---

The pre-installed self-signed certificate cannot protect your communication from being compromised. We recommend using a certificate that is issued by a trusted organization for better security.

---

- Self-signed certificate

This print server issues its own certificate. Using this certificate, you can easily use the SSL/TLS communication without creating or installing a different certificate from a CA.

- Certificate from a Certificate Authority (CA)

There are two methods for installing a certificate from a CA. If you already have a certificate from a CA or if you want to use a certificate from an external trusted CA:

- When using a Certificate Signing Request (CSR) from this print server.
- When importing a certificate and a private key.

- Certificate Authority (CA) Certificate

To use a CA certificate that identifies the CA and owns its private key, you must import that CA certificate from the CA before configuring the security features of the Network.

- 
- If you are going to use SSL/TLS communication, we recommend contacting your system administrator first.
  - When you reset the print server back to its default factory settings, the certificate and the private key that are installed will be deleted. If you want to keep the same certificate and the private key after resetting the print server, export them before resetting, and then reinstall them.
-

-

## Create and Install a Certificate

- [Step by Step Guide for Creating and Installing a Certificate](#)
- [Create and Install a Self-signed Certificate](#)
- [Create and Install a Certificate from a Certificate Authority \(CA\)](#)
- [Import and Export a CA Certificate](#)

## Step by Step Guide for Creating and Installing a Certificate

There are two options when choosing a security certificate: use a self-signed certificate or use a certificate from a Certificate Authority (CA).

These are a brief summary of the actions required, based on the option you choose.

### Option 1

#### Self-Signed Certificate

1. Create a self-signed certificate using Web Based Management.
2. Install the self-signed certificate on your computer.

### Option 2

#### Certificate from a CA

1. Create a Certificate Signing Request (CSR) using Web Based Management.
2. Install the certificate issued by the CA on your Brother machine using Web Based Management.
3. Install the certificate on your computer.

#### Related Information

-

## Create and Install a Self-signed Certificate

- [Create a Self-signed Certificate](#)
- [Install the Self-signed Certificate for Windows users with Administrator Rights](#)
- [Import and Export the Self-signed Certificate on your Brother Machine](#)

## Create a Self-signed Certificate

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Security** tab.
6. Click **Certificate**.
7. Click **Create Self-Signed Certificate**.
8. Enter a **Common Name** and a **Valid Date**.
  - The length of the **Common Name** is less than 64 bytes. Enter an identifier, such as an IP address, node name, or domain name to use when accessing this machine through SSL/TLS communication. The node name is displayed by default.
  - A warning will appear if you use the IPPS or HTTPS protocol and enter a different name in the URL than the **Common Name** that was used for the self-signed certificate.
9. Select your setting from the **Public Key Algorithm** drop-down list. The default setting is **RSA(2048bit)**.
10. Select your setting from the **Digest Algorithm** drop-down list. The default setting is **SHA256**.
11. Click **Submit**.
12. Click **Network**.
13. Click **Protocol**.
14. Click **HTTP Server Settings**.
15. Select the certificate you want to configure from the **Select the Certificate** drop-down list.
16. Click **Submit**.

The following screen appears.

## HTTP Server Settings

---

The setting for high security in communication was done.

---

To activate your new settings, this Device needs to restart.

Note: Any jobs in progress will be aborted.

To activate other protocols that have secure settings after restarting, check the box below.

Activate other protocols that have secure settings.

Would you like to restart immediately?

---

17. Click **Yes** to restart your print server.

The self-signed certificate is created and saved in your machine's memory.

To use SSL/TLS communication, the self-signed certificate must be installed on your computer.

### Related Information

- [Create and Install a Self-signed Certificate](#)
-

## Install the Self-signed Certificate for Windows users with Administrator Rights

The following steps are for Microsoft Internet Explorer. If you use another web browser, consult the documentation for your web browser to get help with installing certificates.

1. Do one of the following:

- (Windows Vista, Windows 7, Windows Server 2008)

Click  (**Start**) > **All Programs**.

- (Windows 8 )

Right-click the  (**Internet Explorer**) icon on the taskbar.

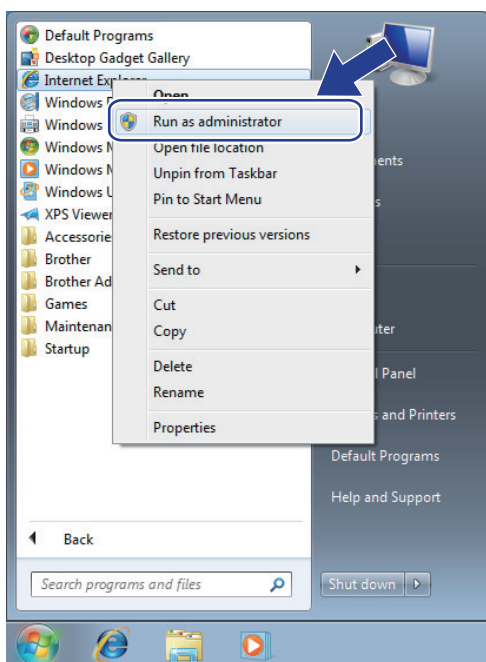

- (Windows 10)

Click  (**Start**) > **All apps** > **Windows Accessories** > **Internet Explorer**.

- (Windows Server 2012 and Windows Server 2012 R2)

Click  (**Internet Explorer**), and then right-click the  (**Internet Explorer**) icon that appears on the taskbar.

2. Right-click **Internet Explorer**, and then click **Run as administrator**.

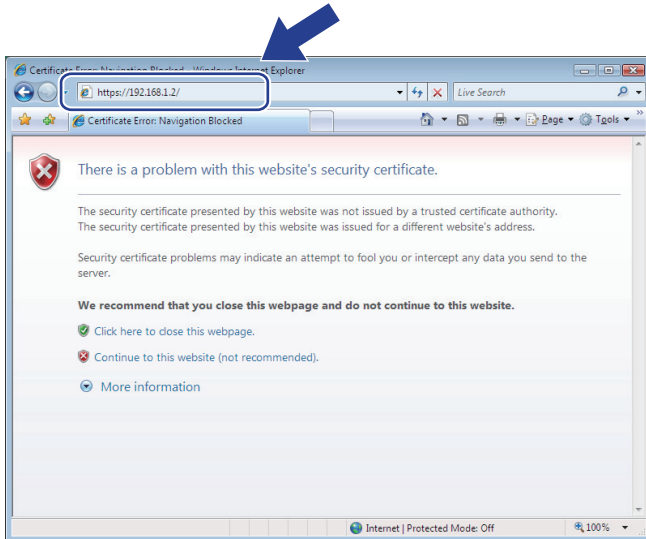

If the **User Account Control** screen appears,

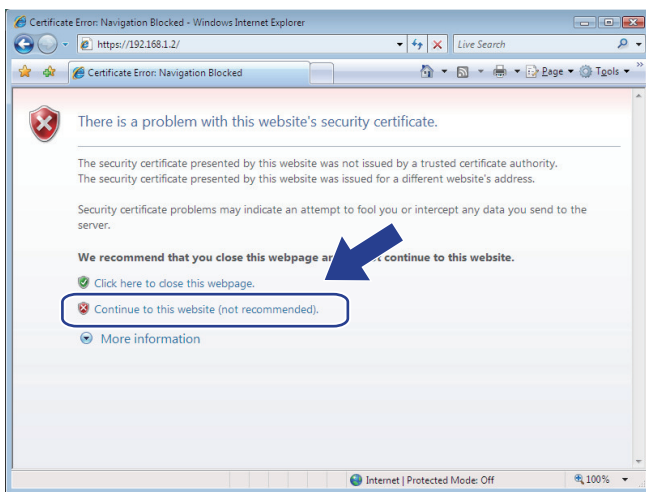

- (Windows Vista) Click **Continue (Allow)**.
- (Windows 7/Windows 8/Windows 10) Click **Yes**.

3. Type "https://machine's IP address" in your browser's address bar to access your machine (where "machine's IP address" is the machine's IP address or the node name that you assigned for the certificate).

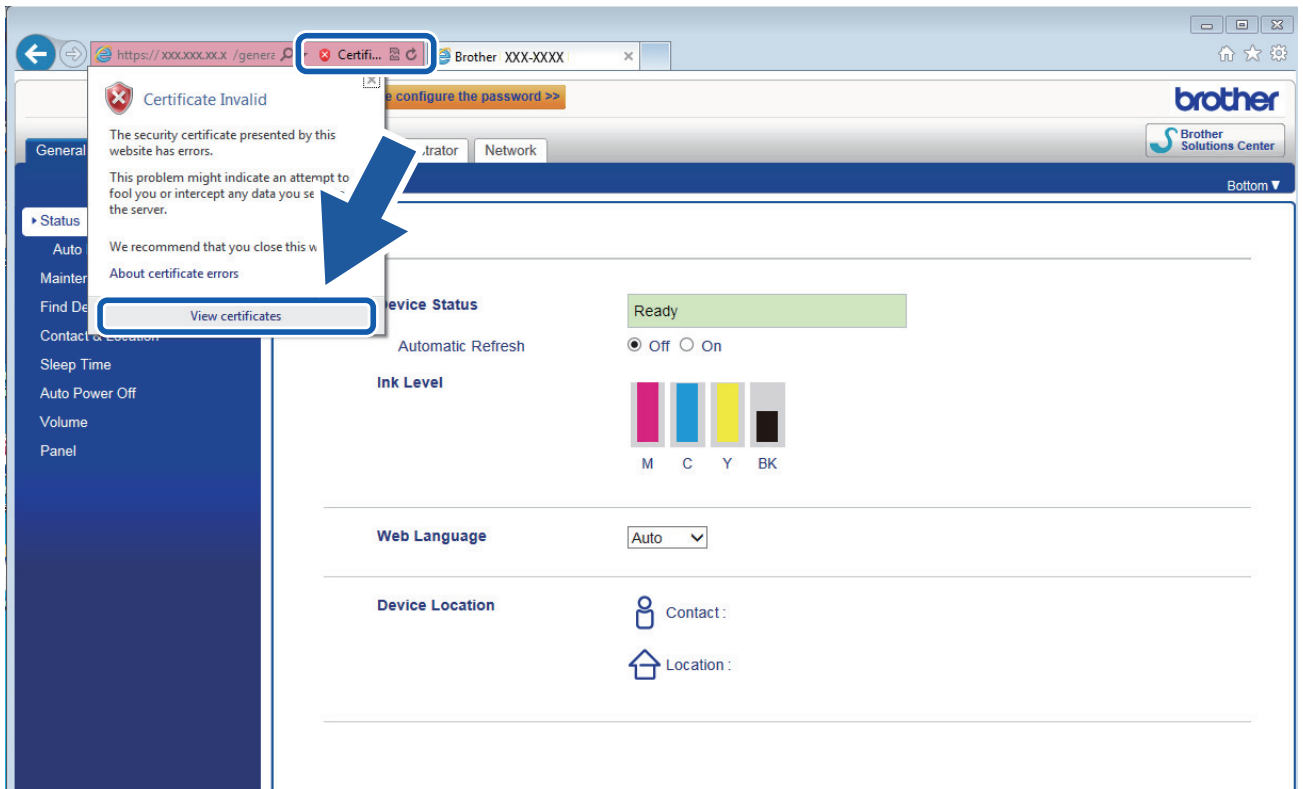

4. Click **Continue to this website (not recommended)**.

5. Click **Certificate error**, and then click **View certificates**.

6. Click **Install Certificate...**

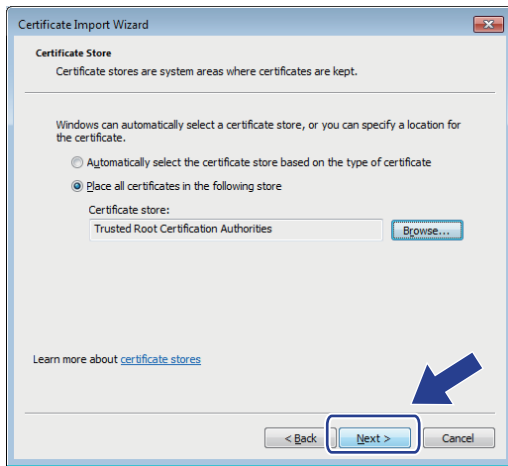

7. When the **Certificate Import Wizard** appears, click **Next**.
8. Select **Place all certificates in the following store**, and then click **Browse...**

9. Select **Trusted Root Certification Authorities**, and then click **OK**.

10. Click **Next**.

11. Click **Finish**.

12. Click **Yes**, if the fingerprint (thumbprint) is correct.

The fingerprint (thumbprint) is printed on the Network Configuration Report.

13. Click **OK**.

The self-signed certificate is now installed on your computer, and SSL/TLS communication is available.

▲ [Home](#) > [Security](#) > [Manage Your Network Machine Securely Using SSL/TLS](#) > [Certificates and Web Based Management](#) > [Create and Install a Certificate](#) > [Create and Install a Self-signed Certificate](#) > [Import and Export the Self-signed Certificate on your Brother Machine](#)

## **Import and Export the Self-signed Certificate on your Brother Machine**

You can store the self-signed certificates on your Brother machine and manage them by importing and exporting.

- [Import the Self-signed Certificate](#)
- [Export the Self-signed Certificate](#)

## Import the Self-signed Certificate

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Security** tab.
6. Click **Certificate**.
7. Click **Import Certificate and Private Key**.
8. Browse to the file you want to import.
9. Type the password if the file is encrypted, and then click **Submit**.

The self-signed certificate is imported to your machine.

To use SSL/TLS communication, the self-signed certificate must also be installed on your computer. Contact your network administrator.

### Related Information

- [Import and Export the Self-signed Certificate on your Brother Machine](#)
- [Install the Self-signed Certificate for Windows users with Administrator Rights](#)

## Export the Self-signed Certificate

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Security** tab.
6. Click **Certificate**.
7. Click **Export** shown with **Certificate List**.
8. If you want to encrypt the file, type a password in the **Enter password** field.  
If the **Enter password** field is blank, your output file will not be encrypted.
9. Type the password again in the **Retype password** field, and then click **Submit**.
10. Click **Save**.
11. Specify the location where you want to save the file.

The self-signed certificate is exported to your computer.

You can also import the self-signed certificate to your computer.

### Related Information

- [Import and Export the Self-signed Certificate on your Brother Machine](#)

## Create and Install a Certificate from a Certificate Authority (CA)

If you already have a certificate from an external trusted CA, you can store the certificate and private key on the machine and manage them by importing and exporting. If you do not have a certificate from an external trusted CA, create a Certificate Signing Request (CSR), send it to a CA for authentication, and install the returned certificate on your machine.

- [Create a Certificate Signing Request \(CSR\)](#)
- [Install a Certificate on Your Brother Machine](#)
- [Import and Export the Certificate and Private Key](#)

## Create a Certificate Signing Request (CSR)

A Certificate Signing Request (CSR) is a request sent to a Certificate Authority (CA) to authenticate the credentials contained within the certificate.

We recommend installing a Root Certificate from the CA on your computer before creating the CSR.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Security** tab.
6. Click **Certificate**.
7. Click **Create CSR**.
8. Type a **Common Name** (required) and add other information about your **Organization** (optional).

- Your company details are required so that a CA can confirm your identity and verify it to the outside world.
- The length of the **Common Name** must be less than 64 bytes. Enter an identifier, such as an IP address, node name, or domain name to use when accessing this printer through SSL/TLS communication. The node name is displayed by default. The **Common Name** is required.
- A warning will appear if you type a different name in the URL than the Common Name that was used for the certificate.
- The length of the **Organization**, the **Organization Unit**, the **City/Locality** and the **State/Province** must be less than 64 bytes.
- The **Country/Region** should be a two character ISO 3166 country code.
- If you are configuring an X.509v3 certificate extension, select the **Configure extended partition** check box, and then select **Auto (Register IPv4)** or **Manual**.

9. Select your setting from the **Public Key Algorithm** drop-down list. The default setting is **RSA(2048bit)**.
10. Select your setting from the **Digest Algorithm** drop-down list. The default setting is **SHA256**.
11. Click **Submit**.

The CSR appears on your screen. Save the CSR as a file or copy and paste it into an online CSR form offered by a Certificate Authority.

---

12. Click **Save**.

- Follow your CA's policy regarding the method to send a CSR to your CA.
- If you are using the Enterprise root CA of Windows Server 2008/2012/2012 R2, we recommend using the Web Server for the certificate template to securely create the Client Certificate. If you are creating a Client Certificate for an IEEE 802.1x environment with EAP-TLS authentication, we recommend using User for the certificate template. For more information, go to your model's page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

### Related Information

## Install a Certificate on Your Brother Machine

When you receive a certificate from a CA, follow the steps below to install it into the print server:

Only a certificate issued with your machine's CSR can be installed onto the machine. When you want to create another CSR, make sure that the certificate is installed before creating another CSR. Create another CSR only after installing the certificate on the machine. If you do not, the CSR you create before installing will be invalid.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Security** tab.
6. Click **Certificate**.
7. Click **Install Certificate**.
8. Browse to the file that contains the certificate issued by the CA, and then click **Submit**.

The certificate has been created successfully and saved in your machine's memory successfully.

To use SSL/TLS communication, the Root Certificate from the CA must be installed on your computer. Contact your network administrator.

6. Click **CA Certificate**.
7. Select the certificate you want to export and click **Export**.
8. Click **Submit**.
9. Click **Save**.
10. Specify where on your computer you want to save the exported certificate, and save it.

### Related Information

- [Import and Export a CA Certificate](#)

## Manage Multiple Certificates

The multiple certificate feature allows you to use Web Based Management to manage each certificate installed on your machine. In Web Based Management, navigate to the **Certificate** or **CA Certificate** screen to view certificate content, delete, or export your certificates.

	Maximum Number of Certificates Stored UP on Brother Machine
Self-signed Certificate or Certificate Issued by a CA	5
CA Certificate	6

We recommend storing one less certificate than allowed, reserving an empty spot in case of certificate expiration. When a certificate expires, import a new certificate into the reserved spot, and then delete the expired certificate. This ensures that you avoid configuration failure.

- When you use HTTPS/IPPS, IEEE 802.1x, or Signed PDF, you must select which certificate you are using.
- When you use SSL for SMTP/POP3/IMAP4 communications (only available for certain models), you do not have to choose the certificate. The necessary certificate will be chosen automatically.

- [Send or Receive an Email Securely Using SSL TLS](#)

## Configure Email Sending or Receiving Using Web Based Management

We recommend using Web Based Management to configure secured email sending with user authentication, or email sending and receiving using SSL/TLS.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Protocol** menu in the left navigation bar.
6. In the **POP3/IMAP4/SMTP** field, click **Advanced Settings** and make sure the status of **POP3/IMAP4/SMTP** is **Enabled**.
7. Configure the **POP3/IMAP4/SMTP** settings.
  - Confirm that the email settings are correct after configuration by sending a test email.
  - If you do not know the POP3/IMAP4/SMTP server settings, contact your network administrator or Internet Service Provider (ISP).
8. When finished, click **Submit**.  
The **Test Send/Receive E-mail Configuration** dialog box appears.
9. Follow the instructions in the dialog box to test the current settings.

### Related Information

- [Send or Receive an Email Securely](#)
- [Send or Receive an Email Securely Using SSL TLS](#)

## Send an Email with User Authentication

Your Brother machine supports the SMTP-AUTH method to send email via an email server that requires user authentication. This method prevents unauthorized users from accessing the email server.

You can use SMTP-AUTH for email notification, email reports and I-Fax.

---

We recommend using Web Based Management to configure the SMTP authentication.

---

### Email Server Settings

You must configure your machine's SMTP authentication method to match the method used by your email server. For details about your email server settings, contact your network administrator or Internet Service Provider (ISP).

---

To enable SMTP server authentication: in the Web Based Management **POP3/IMAP4/SMTP** screen, under **Server Authentication Method**, you must select **SMTP-AUTH**.

---

### Related Information

- [Send or Receive an Email Securely](#)
-

## Send or Receive an Email Securely Using SSL TLS

Your Brother machine supports SSL/TLS methods to send or receive an email via an email server that requires secure SSL/TLS communication. To send or receive email via an email server that is using SSL/TLS communication, you must configure SMTP over SSL/TLS, POP3 over SSL/TLS, or IMAP4 over SSL/TLS.

We recommend using Web Based Management to configure SSL/TLS.

### Verify Server Certificate

Under **SSL/TLS**, if you choose **SSL** or **TLS**, the **Verify Server Certificate** check box will be selected automatically.

#### POP3/IMAP4/SMTP

---

**Status** Enabled

---

#### Send E-mail Settings(SMTP)

**Server Address**

**Port**

**Server Authentication Method**  None  
 SMTP-AUTH

**SMTP-AUTH Account Name**

**SMTP-AUTH Account Password**

Enter password

Retype password

**SSL/TLS**  None  
 SSL  
 TLS  
 Verify Server Certificate

**Device E-mail Address**

---

#### Receive E-mail Settings(POP3/IMAP4)

**Protocol**  POP3  IMAP4

**Server Address**

**Port**

**Mailbox Name**

- Before you verify the server certificate, you must import the CA certificate issued by the CA that signed the server certificate. Contact your network administrator or your Internet Service Provider (ISP) to confirm if importing a CA certificate is necessary.
- If you do not need to verify the server certificate, clear the **Verify Server Certificate** check box.

### Port Number

If you select **SSL** or **TLS** for SMTP, POP3, or IMAP4, the **Port** value will be changed to match the protocol. To change the port number manually, type the port number after you choose **SSL** or **TLS** for the **SSL/TLS** settings. You must configure your machine's POP3/IMAP4/SMTP communication method to match the method used by your email server. For details about your email server settings, contact your network administrator or your ISP.

---

In most cases, the secured webmail services require the following settings:

SMTP	<b>Port</b>	25
	<b>Server Authentication Method</b>	<b>SMTP-AUTH</b>
	<b>SSL/TLS</b>	<b>TLS</b>
POP3	<b>Port</b>	995
	<b>SSL/TLS</b>	<b>SSL</b>
IMAP4	<b>Port</b>	993
	<b>SSL/TLS</b>	<b>SSL</b>

- [Configure IEEE 802.1x Authentication for a Wired or a Wireless Network Using Web Based Management \(Web Browser\)](#)
- [IEEE 802.1x Authentication Methods](#)

## What Is IEEE 802.1x Authentication?

IEEE 802.1x is an IEEE standard for wired and wireless networks that limits access from unauthorized network devices. Your Brother machine (supplicant) sends an authentication request to a RADIUS server (Authentication server) through your access point or HUB. After your request has been verified by the RADIUS server, your machine can access the network.

### Related Information

- [Use IEEE 802.1x Authentication for a Wired or a Wireless Network](#)
-

## Configure IEEE 802.1x Authentication for a Wired or a Wireless Network Using Web Based Management (Web Browser)

- If you configure your machine using EAP-TLS authentication, you must install the client certificate issued by a CA before you start configuration. Contact your network administrator about the client certificate. If you have installed more than one certificate, we recommend writing down the certificate name you want to use.
- Before you verify the server certificate, you must import the CA certificate that has been issued by the CA that signed the server certificate. Contact your network administrator or your Internet Service Provider (ISP) to confirm whether a CA certificate import is necessary.

You can also configure IEEE 802.1x authentication using:

- BRAdmin Professional (Wired and wireless network)
- Wireless setup wizard from the control panel (Wireless network)
- Wireless setup wizard on the CD-ROM (Wireless network)

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Do one of the following:

Option	Description
Wired network	Click the <b>Wired</b> tab, and then select <b>Wired 802.1x Authentication</b> in the left navigation bar.
Wireless network	Click the <b>Wireless</b> tab, and then select <b>Wireless (Enterprise)</b> in the left navigation bar.

6. Configure the IEEE 802.1x authentication settings.

- To enable IEEE 802.1x authentication for wired networks, select **Enabled** for **Wired 802.1x status** on the **Wired 802.1x Authentication** page.
- If you are using **EAP-TLS** authentication, you must select the client certificate that has been installed (shown with certificate name) for verification from the **Client Certificate** drop-down list.
- If you select **EAP-FAST**, **PEAP**, **EAP-TTLS**, or **EAP-TLS** authentication, select the verification method from the **Server Certificate Verification** drop-down list. Verify the server certificate using the CA certificate, imported to the machine in advance, that has been issued by the CA that signed the server certificate.

Select one of the following verification methods from the **Server Certificate Verification** drop-down list:

Option	Description
<b>No Verification</b>	The server certificate can always be trusted. The verification is not performed.
<b>CA Cert.</b>	The verification method to check the CA reliability of the server certificate, using the CA certificate that has been issued by the CA that signed the server certificate.
<b>CA Cert. + ServerID</b>	The verification method to check the common name <sup>1</sup> value of the server certificate, in addition to the CA reliability of the server certificate.

7. When finished with configuration, click **Submit**.

For wired networks: After configuring, connect your machine to the IEEE 802.1x supported network. After a few minutes, print the Network Configuration Report to check the **<Wired IEEE 802.1x>** Status.

Option	Description
<b>Success</b>	The wired IEEE 802.1x function is enabled and the authentication was successful.
<b>Failed</b>	The wired IEEE 802.1x function is enabled; however, the authentication failed.
<b>Off</b>	The wired IEEE 802.1x function is not available.

- [Supported Security Certificate Features](#)

<sup>1</sup> The common name verification compares the common name of the server certificate to the character string configured for the **Server ID**. Before you use this method, contact your system administrator about the server certificate's common name and then configure **Server ID**.

## IEEE 802.1x Authentication Methods

### LEAP (Wireless network)

Lightweight Extensible Authentication Protocol (LEAP) is a proprietary EAP method developed by Cisco Systems, Inc., which uses a user ID and password for authentication.

### EAP-FAST

Extensible Authentication Protocol-Flexible Authentication via Secured Tunneling (EAP-FAST) has been developed by Cisco Systems, Inc., which uses a user ID and password for authentication, and symmetric key algorithms to achieve a tunneled authentication process.

The Brother machine supports the following inner authentication methods:

- EAP-FAST/NONE
- EAP-FAST/MS-CHAPv2
- EAP-FAST/GTC

### EAP-MD5 (Wired network)

Extensible Authentication Protocol-Message Digest Algorithm 5 (EAP-MD5) uses a user ID and password for challenge-response authentication.

### PEAP

Protected Extensible Authentication Protocol (PEAP) is a version of EAP method developed by Cisco Systems, Inc., Microsoft Corporation and RSA Security. PEAP creates an encrypted Secure Sockets Layer (SSL)/Transport Layer Security (TLS) tunnel between a client and an authentication server, for sending a user ID and password. PEAP provides mutual authentication between the server and the client.

The Brother machine supports the following inner authentications:

- PEAP/MS-CHAPv2
- PEAP/GTC

### EAP-TTLS

Extensible Authentication Protocol-Tunneled Transport Layer Security (EAP-TTLS) has been developed by Funk Software and Certicom. EAP-TTLS creates a similar encrypted SSL tunnel to PEAP, between a client and an authentication server, for sending a user ID and password. EAP-TTLS provides mutual authentication between the server and the client.

The Brother machine supports the following inner authentications:

- EAP-TTLS/CHAP
- EAP-TTLS/MS-CHAP
- EAP-TTLS/MS-CHAPv2
- EAP-TTLS/PAP

### EAP-TLS

Extensible Authentication Protocol-Transport Layer Security (EAP-TLS) requires digital certificate authentication both at a client and an authentication server.

## Brother Web Connect Overview

Press  (Web) or  (Apps) on the touchscreen to use Brother Web Connect.

Certain websites provide services that allow users to upload and view images and files on the website. Your Brother machine can scan images and upload them to these services, and also download from and print images that are already uploaded to these services.

1. Printing
2. Scanning
3. Photos, images, documents and other files
4. Web Service

To use Brother Web Connect, your Brother machine must be connected to a network that has access to the Internet, through either a wired or wireless connection.

For network setups that use a proxy server, the machine must also be configured to use a proxy server. If you are unsure of your network configuration, check with your network administrator.

---

A proxy server is a computer that serves as an intermediary between computers without a direct Internet connection, and the Internet.

## Online Services Used with Brother Web Connect

Use Brother Web Connect to access online services from your Brother machine. Some of these web services offer business versions.

To use Brother Web Connect, you must have an account with the online service you want to use. If you do not already have an account, use a computer to access the service's website and create an account.

You do not need to create an account to use Brother Creative Center. (Brother CreativeCenter is available only for some models.)

### Google Drive™

An online document storage, editing, sharing and file synchronization service.

## Configure the Proxy Server Settings Using Web Based Management

If your network uses a proxy server, the following proxy server information must be configured using Web Based Management:

- Proxy server address
- Port number
- User Name
- Password

We recommend Microsoft Internet Explorer 8/11 for Windows and Safari 9 for Mac. Make sure that JavaScript and Cookies are always enabled in whichever browser you use. If you use different web browser, make sure it is compatible with HTTP 1.0 and HTTP 1.1.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).  
For example:  
http://192.168.1.2
3. No password is required by default. Type a password if you have set one, and then click .
4. Click the **Network** tab.
5. Click the **Protocol** menu in the left navigation bar.
6. Make sure the **Proxy** check box is selected, and then click **Submit**.
7. In the **Proxy** field, click **Advanced Settings**.
8. Enter the proxy server information.
9. Click **Submit**.

- [Create an Account for Each Online Service Before Using Brother Web Connect](#)
- [Apply for Brother Web Connect Access](#)
- [Register an Account on Your Brother Machine for Brother Web Connect](#)
- [Set Up Brother Web Connect for Brother CreativeCenter](#)

## Brother Web Connect Setup Overview

Configure the Brother Web Connect settings using the following procedure (when using Brother CreativeCenter, this procedure is not necessary):

### Step 1: Create an account with the service you want to use.

Access the service's website using a computer and create an account. (If you already have an account, there is no need to create an additional account.)

1. User registration
2. Web Service
3. Obtain account

### Step 2: Apply for Brother Web Connect access.

Start Brother Web Connect access using a computer and obtain a temporary ID.

1. Enter account information
2. Brother Web Connect application page
3. Obtain temporary ID

### Step 3: Register your account information on your machine so you can access the service you want to use.

Enter the temporary ID to enable the service on your machine. Specify the account name as you would like it to be displayed on the machine, and enter a PIN if you would like to use one.

1. Enter temporary ID
2. Web Service

Your Brother machine can now use the service.

## Related Information

-

## Create an Account for Each Online Service Before Using Brother Web Connect

To use Brother Web Connect to access an online service, you must have an account with that online service. If you do not already have an account, use a computer to access the service's website and create an account. After creating an account, log on and use the account once with a computer before using the Brother Web Connect feature. Otherwise, you may not be able to access the service using Brother Web Connect.

If you already have an account, there is no need to create an additional account.

After you finish creating an account with the online service you want to use, apply for Brother Web Connect access.

---

You do not need to create an account if you use the service as a guest. You can use only certain services as a guest. If the service you want to use does not have a guest-user option, you must create an account.

---

### Related Information

- [Set Up Brother Web Connect](#)
-

## Apply for Brother Web Connect Access

To use Brother Web Connect to access online services, you must first apply for Brother Web Connect access using a computer that has the Brother Software installed.

1. Access the Brother Web Connect application website:

Option	Description
Windows Vista Windows 7	Click  ( <b>Start</b> ) > <b>All Programs</b> > <b>Brother</b> > <b>Brother Utilities</b> , and then click the drop-down list and select your model name (if not already selected). Click <b>Do More</b> in the left navigation bar, and then click <b>Brother Web Connect</b> .
Windows 8 Windows 10	Launch  ( <b>Brother Utilities</b> ), and then click the drop-down list and select your model name (if not already selected). Click <b>Do More</b> in the left navigation bar, and then click <b>Brother Web Connect</b> .
Windows 8.1	Move your mouse to the lower left corner of the <b>Start</b> screen and click  (if you are using a touch-based device, swipe up from the bottom of the <b>Start</b> screen to bring up the <b>Apps</b> screen). Click  ( <b>Brother Utilities</b> ), and then click the drop-down list and select your model name (if not already selected). Click <b>Do More</b> in the left navigation bar, and then click <b>Brother Web Connect</b> .
Mac	Click <b>Go</b> in the <b>Finder</b> bar, <b>Applications</b> > <b>Brother</b> > <b>Utilities</b> > <b>Brother Web Connect</b> .

You can also access the website directly:

Type [bwc.brother.com](http://bwc.brother.com) into your web browser's address bar.

The Brother Web Connect page launches.

The first time you launch Brother Web Connect, you must select your country, language, and model name, and then click Next to move to the next step, selecting the service you want.

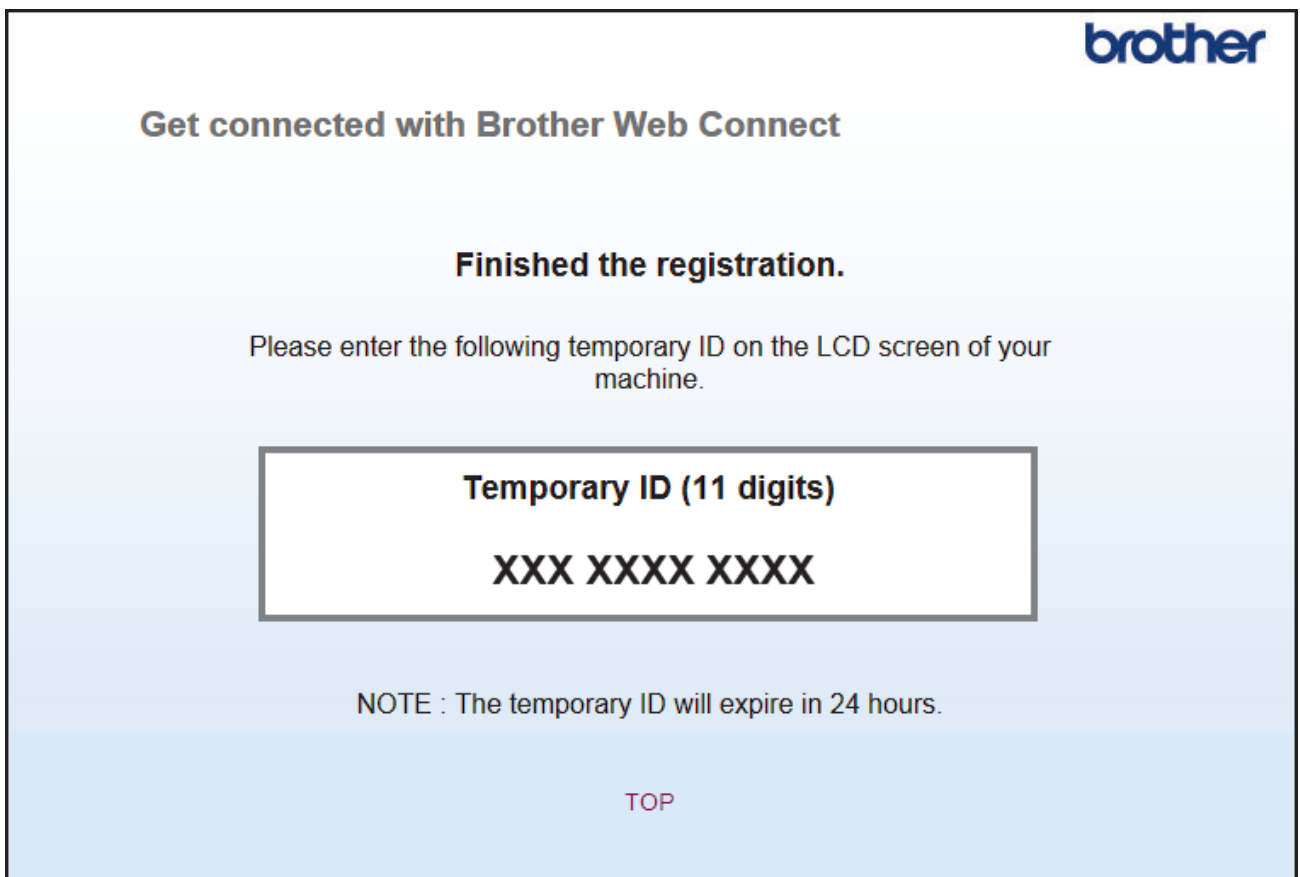

2. Select the service you want to use.

The actual screen may differ from the screen shown above.

3. Follow the on-screen instructions and apply for access.

When finished, your temporary ID will appear.

4. Make a note of your temporary ID, as you will need it to register accounts to the machine. The temporary ID is valid for 24 hours.
5. Close the web browser.

Now that you have a Brother Web Connect access ID, you must register this ID on your machine, and then use your machine to access the web service you want to use.

## Download and Print Documents Using Brother Web Connect

Documents that have been uploaded to your account can be downloaded directly to your machine and printed. Documents that other users have uploaded to their own accounts for sharing can also be downloaded to your machine and printed, as long as you have viewing privileges for those documents. Certain services allow guest users to view documents that are public. When accessing a service or an account as a guest user, you can view documents that the owner has made public, that is, documents with no viewing restrictions.

To download other users' documents, you must have access privileges to view the corresponding albums or documents.

If you are a restricted user for Web Connect due to the Secure Function Lock feature (available for certain models), you cannot download the data.

The Secure Function Lock Page Limit feature applies to the print job using Web Connect.

---

For Hong Kong, Taiwan and Korea

Brother Web Connect supports only file names written in English. Files named in the local language will not be downloaded.

### MFC-J6530DW/MFC-J6730DW

1. Press ◀ or ▶ to display [Web].

Press [Web].

- If information regarding the Internet connection appears on the machine's LCD, read the information and press [OK].
- Occasionally, updates or announcements about Brother Web Connect's features will appear on the LCD. Read the information, and then press [OK].

2. Press ▲ or ▼ to display the service that hosts the document you want to download and print.

Press the service name.

3. Do one of the following:

- To log on to the service, press ▲ or ▼ to display your account name, and then press it. If the PIN entry screen appears, enter the four-digit PIN and press [OK].
- To access the service as a guest user, press ▲ or ▼ to display [Use Service as a Guest User], and then press it. When the information regarding access as a guest user appears, press [OK].

4. Press ▲ or ▼ to display [Download to Print].

Press [Download to Print].

- If you accessed the service as a guest user, enter or select the account name of the user whose documents you want to download.

5. Press ▲ or ▼ to display the desired album, and then press it.

- An album is a collection of documents. However, the actual term may differ depending on the service you use. When using Evernote®, you must select the notebook, and then select the note.
- Some services do not require documents to be saved in albums. For documents not saved in albums, select [Show Unsorted Files] or [Show Unsorted Photos] to select documents. You cannot download documents from other users if the documents are not saved in an album.

6. Press the thumbnail of the document you want to print. Confirm the document on the LCD and press [OK].

Select additional documents to print (you can select up to 10 documents).

7. When finished, press [OK].

8. Follow the on-screen instructions to complete this operation.

- [Download and Print Using Web Services](#)

## Download and Save a Document to an External Memory Device Using Brother Web Connect

JPEG, PDF and Microsoft Office files can be downloaded from a service and saved directly on media connected to the machine. Documents that other users have uploaded to their own accounts for sharing can also be downloaded to your machine as long as you have viewing privileges for those documents. Certain services allow guest users to view documents that are public. When accessing a service or an account as a guest user, you can view documents that the owner has made public, that is, documents with no viewing restrictions.

- Make sure there is enough available space on your USB flash drive.
- To download other users' documents, you must have access privileges to view the corresponding albums or documents.
- USB flash drive support is available only for some models.
- Downloaded files are renamed based on the current date. For example, the first image saved on July 1, would be named 07010001.jpg. Note that the region setting also determines the date format of the file name.
- Images are saved in the "BROTHER" folder, which can be found on the root level of the media.

### IMPORTANT

DO NOT remove the USB flash drive while the message appears on the LCD. Otherwise, the USB flash drive, or data stored on the USB flash drive could be damaged.

## Register Your Machine with Google Cloud Print™ Using Web Based Management

Make sure you have already created a Google Account. If you do not have an account, use a computer or mobile device to access the Google website (<https://accounts.google.com/signup>) and create an account.

Make sure your Brother machine is idle before starting the registration process.

Before you begin to register your machine, confirm that the correct date and time are set on the machine's control panel. See *Related Information*.

1. Confirm that your Brother machine is connected to the same network as your computer or mobile device.
2. Start your web browser.
3. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- You can see your machine's IP address in the Network menu on the control panel of your machine.
- If you have set a login password for Web Based Management, type your password in the **Login** box, then click .

The screenshot shows the Brother Solutions Center web interface. At the top, there are tabs for 'General', 'Address Book', 'Fax', 'Print', 'Scan', 'Administrator', and 'Network'. The 'Network' tab is selected. On the right side, there is a 'Brother Solutions Center' logo and a 'Bottom' dropdown menu. The left navigation bar is expanded to show 'Status'. The main content area displays the 'Status' page with the following information:

- Device Status:** Ready (indicated by a green bar)
- Automatic Refresh:**  Off  On
- Ink Level:** M (Magenta), C (Cyan), Y (Yellow), BK (Black)
- Web Language:** Auto (dropdown menu)
- Device Location:** Contact: (person icon), Location: (house icon)

4. Click the **Network** tab.
5. Click the **Protocol** menu in the left navigation bar.
6. Make sure that **Google Cloud Print** is selected, and then click **Advanced Settings**.

Protocol		
<input checked="" type="checkbox"/> <b>Web Based Management (Web Server)</b>		<a href="#">HTTP Server Settings</a>
<input checked="" type="checkbox"/> <b>SNMP</b>	<a href="#">Advanced Settings</a>	
<input checked="" type="checkbox"/> <b>Remote Setup</b>		
<hr/>		
<input checked="" type="checkbox"/> <b>LPD (PC Fax Send)</b>	<a href="#">Advanced Settings</a>	
<input checked="" type="checkbox"/> <b>Raw Port</b>		
<input checked="" type="checkbox"/> <b>IPP</b>		<a href="#">HTTP Server Settings</a>
<input checked="" type="checkbox"/> <b>AirPrint</b>	<a href="#">Advanced Settings</a>	<a href="#">HTTP Server Settings</a>
<input checked="" type="checkbox"/> <b>Mopria</b>		
<input checked="" type="checkbox"/> <b>Web Services</b>	<a href="#">Advanced Settings</a>	<a href="#">HTTP Server Settings</a>
<input checked="" type="checkbox"/> <b>Mobile printing for Windows</b>		
<input checked="" type="checkbox"/> <b>Google Cloud Print</b>	<a href="#">Advanced Settings</a>	
<input type="checkbox"/> <b>Proxy</b>	<a href="#">Advanced Settings</a>	

7. Make sure that **Status** is set to **Enabled**. Click **Register**.
8. When a confirmation message appears on your machine's LCD, press [OK].

If the confirmation message does not appear on your machine's LCD, repeat these steps.

9. Click **Google**.
10. The sign-in screen for Google Cloud Print™ appears. Sign in with your Google Account and follow the on-screen instructions to register your machine.
11. When you have finished registering your machine, return to the Web Based Management screen and make sure that **Registration Status** is set to **Registered**.

If your machine supports the Secure Function Lock feature, printing via Google Cloud Print™ is possible even if PC print for each user is restricted. To restrict printing via Google Cloud Print™, disable Google Cloud Print™ using Web Based Management or set the Secure Function Lock feature to Public Mode, and then restrict print for public users. See *Related Information*.

## Mobile Printing for Windows

Mobile printing for Windows is a function to print wirelessly from your Windows mobile device. You can connect to the same network that your Brother machine is connected to and print without installing the printer driver on the device. Many Windows apps support this function.

1. Windows mobile device (Windows 10 Mobile or later)
2. Wi-Fi® connection
3. Your Brother machine

### Related Information

- [Mobile/Web Connect](#)

## Mopria® Print Service

Mopria® Print Service is a print feature on Android™ mobile devices (Android™ version 4.4 or later) developed by the Mopria® Alliance. With this service, you can connect to the same network as your machine and print without additional setup. Many native Android™ apps, including Google Chrome™, Gmail™, and Gallery, support printing.

1. Android™ 4.4 or later
2. Wi-Fi® Connection
3. Your Brother machine

You must download the Mopria® Print Service from the Google Play™ Store and install it on your Android™ device. Before using this service, you must turn it on.

## Brother iPrint&Scan

Use Brother iPrint&Scan to print and scan from various mobile devices.

- For Android™ Devices

Brother iPrint&Scan allows you to use features of your Brother machine directly from your Android™ device, without using a computer.

Download and install Brother iPrint&Scan from the Google Play™ Store app.

- For Apple Devices

Brother iPrint&Scan allows you to use features of your Brother machine directly from your Apple device.

Download and install Brother iPrint&Scan from the App Store.

- For Windows Devices

Brother iPrint&Scan allows you to use features of your Brother machine directly from your Windows device, without using a computer.

Download and install Brother iPrint&Scan from the Microsoft Store.

For more detailed information, see the *Mobile Print/Scan Guide for Brother iPrint&Scan*. Go to your model's **Manuals** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

### Related Information

- [Mobile/Web Connect](#)

## Near-Field Communication (NFC)

**Related Models:** MFC-J6930DW/MFC-J6935DW

Near-Field Communication (NFC) allows for simple transactions, data exchange and wireless connections between two devices that are close to each other.

If your Android™ device is NFC-enabled, you can print data (photos, PDF files, text files, web pages and email messages) from the device or scan photos and documents to the device by touching it to the NFC symbol on the machine's control panel.

You must download and install Brother iPrint&Scan to your Android™ device to use this feature. For more detailed information, see the *Mobile Print/Scan Guide for Brother iPrint&Scan*. Go to your model's **Manuals** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

## ControlCenter

Use Brother's ControlCenter software utility to quickly access your frequently-used applications. Using ControlCenter gives you direct access to specific applications.

- [ControlCenter4 \(Windows\)](#)
- [ControlCenter2 \(Mac\)](#)

## **ControlCenter4 (Windows)**

- [Change the Operation Mode in ControlCenter4 \(Windows\)](#)
- [Scan Using ControlCenter4 Home Mode \(Windows\)](#)
- [Scan Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Set Up the Brother Machine Using ControlCenter4 \(Windows\)](#)
- [Create a Custom Tab Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Set Up the Brother Machine from Your Computer \(Windows\)](#)
- [Set Up Your Machine's Address Book Using ControlCenter4 \(Windows\)](#)

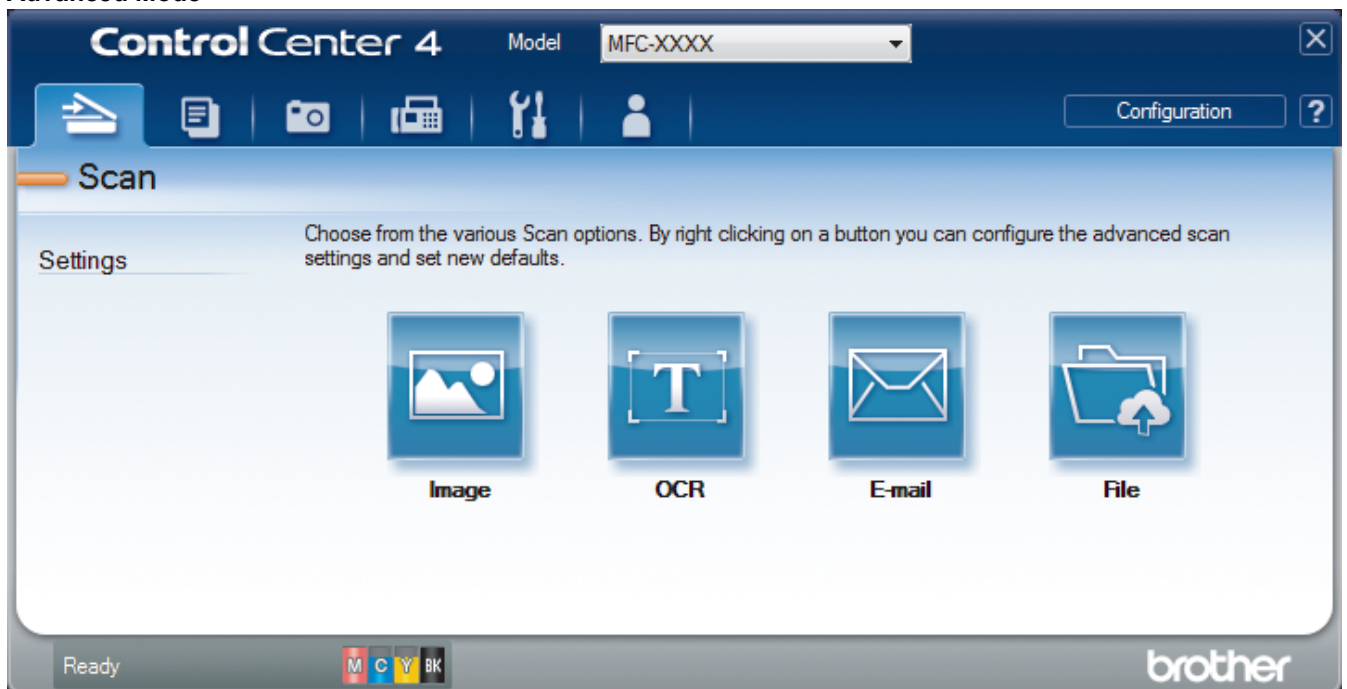

## Change the Operation Mode in ControlCenter4 (Windows)

ControlCenter4 has two operation modes: **Home Mode** and **Advanced Mode**. You can change modes at any time.

### Home Mode

### Advanced Mode

- **Home Mode**  
ControlCenter4 Home Mode lets you access your machine's main features easily.
- **Advanced Mode**

ControlCenter4 Advanced Mode gives you more control over the details of your machine's features and allows you to customize one-button scan actions.

To change operation mode:

1. Click the  (**ControlCenter4**) icon in the task tray, and then select **Open**.
2. Click the **Configuration** button, and then select **Mode Select**.
3. The mode selection dialog box appears. Select either the **Home Mode** or **Advanced Mode** option.

4. Click **OK**.

## Related Information

- [ControlCenter4 \(Windows\)](#)

- [Scan Both Sides of a Document Automatically Using ControlCenter4 Home Mode \(Windows\)](#)
- [Scan Settings for ControlCenter4 Home Mode \(Windows\)](#)
- [Change the Operation Mode in ControlCenter4 \(Windows\)](#)

## Scan Using ControlCenter4 Advanced Mode (Windows)

ControlCenter4 Advanced Mode gives you more control over the details of your machine's features and allows you to customize one-button scan actions.

- [Scan Photos and Graphics Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Save Scanned Data to a Folder as a PDF File Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan Both Sides of a Document Automatically Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan Both Sides of an ID Card Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan to Email Attachment Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan to an Editable Text File \(OCR\) Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan to an Office File Using ControlCenter4 Advanced Mode \(Windows\)](#)
- [Scan Settings for ControlCenter4 Advanced Mode \(Windows\)](#)
- [Change the Operation Mode in ControlCenter4 \(Windows\)](#)

## Set Up the Brother Machine Using ControlCenter4 (Windows)

If Secure Function Lock is set to On, you cannot use Remote Setup.

1. Click the  (ControlCenter4) icon in the task tray, and then click **Open**.
2. Click the **Device Settings** tab.
3. Click the **Remote Setup** button.
4. Configure the settings as needed.

### Export

Click to save the current configuration settings to a file.

Click **Export** to save your address book or all settings for your machine.

---

**Import**

Click to import a file and read its settings.

**Print**

Click to print the selected items on the machine. You cannot print the data until it is uploaded to the machine. Click **Apply** to upload the new data to the machine, and then click **Print**.

**OK**

Click to start uploading data to the machine, and then exit the Remote Setup Program. If an error message appears, confirm that your data is correct, and then click **OK**.

**Cancel**

Click to exit the Remote Setup Program without uploading data to the machine.

**Apply**

Click to upload data to the machine without exiting the Remote Setup Program.

5. Click **OK**.

- If your computer is protected by a firewall and is unable to use Remote Setup, you may need to configure the firewall settings to allow communication through port numbers 137 and 161.
- If you are using Windows Firewall and you installed the Brother software and drivers from the CD-ROM, the necessary firewall settings have already been set.

**Related Information**

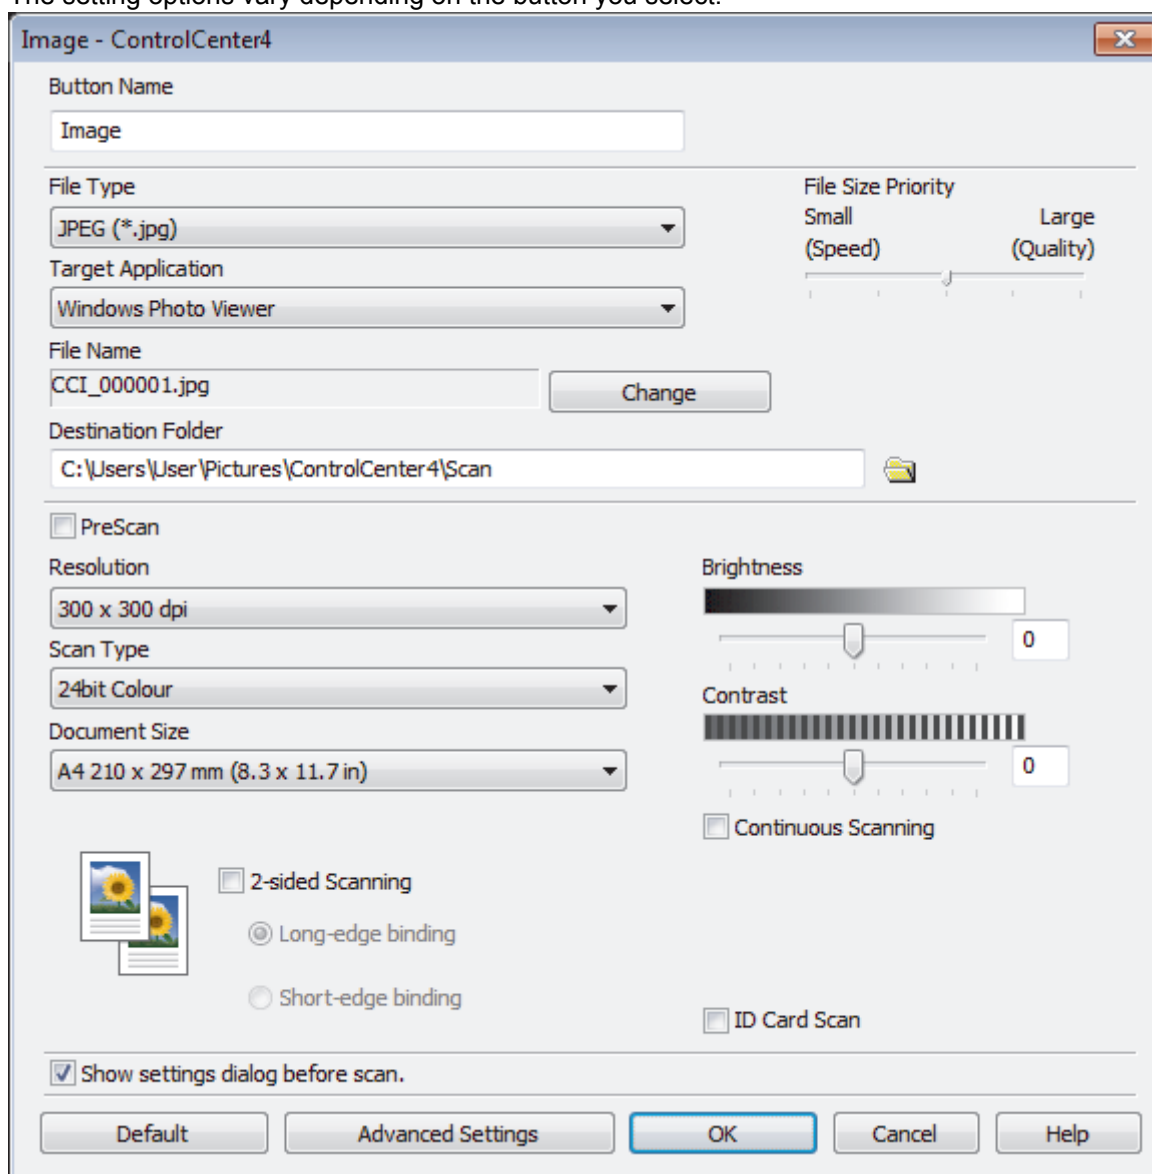

- [ControlCenter4 \(Windows\)](#)
- [Remote Setup \(Windows\)](#)

## Create a Custom Tab Using ControlCenter4 Advanced Mode (Windows)

You can create up to three customized tabs, each including up to five customized buttons, with your preferred settings.

Select **Advanced Mode** as the mode setting for ControlCenter4.

1. Click the  (**ControlCenter4**) icon in the task tray, and then click **Open**.
2. Click the **Configuration** button, and then select **Create custom tab**.  
A custom tab is created.
3. To change the name of a custom tab, right-click the custom tab, and then select **Rename custom tab**.
4. Click the **Configuration** button, select **Create custom button**, and then select the button you want to create.  
The settings dialog box appears.
5. Type the button name, and then change the settings, if needed. Click **OK**.  
The setting options vary depending on the button you select.

You can change or remove the created tab, button, or settings. Click the **Configuration** button, and then follow the menu.

- [Scan Using ControlCenter2 \(Mac\)](#)
- [Set Up the Brother Machine Using ControlCenter2 \(Mac\)](#)
- [Turn On the AutoLoad Feature \(Mac\)](#)
- [Set Up Your Machine's Address Book Using ControlCenter2 \(Mac\)](#)

## Scan Using ControlCenter2 (Mac)

Use Brother's ControlCenter software to scan photos and save them as JPEGs, PDFs, or other file formats.

- [Scan Using ControlCenter2 \(Mac\)](#)
- [Save Scanned Data to a Folder as a PDF File Using ControlCenter2 \(Mac\)](#)
- [Scan Both Sides of a Document Automatically Using ControlCenter2 \(Mac\)](#)
- [Scan Both Sides of an ID Card Using ControlCenter2 \(Mac\)](#)
- [Scan to Email Attachment Using ControlCenter2 \(Mac\)](#)
- [Scan to an Editable Text File \(OCR\) Using ControlCenter2 \(Mac\)](#)
- [Scan to an Office File Using ControlCenter2 \(Mac\)](#)
- [Scan Settings for ControlCenter2 \(Mac\)](#)

## Set Up the Brother Machine Using ControlCenter2 (Mac)

 If Secure Function Lock is set to On, you cannot use Remote Setup.

1. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.

The **ControlCenter2** screen appears.

2. Click the **DEVICE SETTINGS** tab.
3. Click the **Remote Setup** button.

The Remote Setup Program screen appears.

4. Configure the settings as needed.

### Export

Click to save the current configuration settings to a file.

 Click **Export** to save your address book or all settings for your machine.

---

**Import**

Click to import a file and read its settings.

**Print**

Click to print the selected items on the machine. You cannot print the data until it is uploaded to the machine. Click **Apply** to upload the new data to the machine, and then click **Print**.

**OK**

Click to start uploading data to the machine, and then exit the Remote Setup Program. If an error message appears, enter the correct data again, and then click **OK**.

**Cancel**

Click to exit the Remote Setup Program without uploading data to the machine.

**Apply**

Click to upload data to the machine without exiting the Remote Setup Program.

5. When finished, click **OK**.

**Related Information**

- [ControlCenter2 \(Mac\)](#)

## Troubleshooting

If you think there is a problem with your machine, first check each of the items below, then try to identify the problem, and follow our troubleshooting tips.

You can correct most problems yourself. If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips.

Visit us at [support.brother.com](http://support.brother.com).

Click **FAQs & Troubleshooting** and search for your model name.

First, check the following:

- The machine's power cord is connected correctly and the machine's power is on.
- All of the machine's orange protective parts have been removed.
- The ink cartridges are installed correctly.
- The Scanner Cover and the Jam Clear Cover are fully closed.
- Paper is inserted correctly in the paper tray.
- The interface cables are securely connected to the machine and the computer, or the wireless connection is set up on both the machine and your computer.
- (For network models) The access point (for wireless), router, or hub is turned on and its link button is blinking.
- The machine's LCD is displaying messages.

If you did not solve the problem with the checks, identify the problem and then see *Related Information*.

## Error and Maintenance Messages

As with any sophisticated office product, errors may occur and supply items may have to be replaced. If this happens, your machine identifies the error or required routine maintenance and shows the appropriate message. The most common error and maintenance messages are shown in the table.

You can correct most errors and perform routine maintenance yourself. If you need more tips, go to your model's **FAQs & Troubleshooting** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

- (MFC-J6930DW/MFC-J6935DW)

If the touchscreen displays errors and your Android™ device supports the NFC feature, touch your device to the NFC symbol on the control panel to access the Brother Solutions Center and browse the latest FAQs from your device. (Your mobile telephone provider's message and data rates may apply.)

Make sure the NFC settings of both your Brother machine and your Android™ device are set to On.

### MFC-J6530DW/MFC-J6730DW

Error Message	Cause	Action
B&W Print Only Replace ink.	<p>One or more of the color ink cartridges have reached the end of their lives.</p> <p>You can use the machine in black &amp; white mode for approximately four weeks depending on the number of pages you print.</p> <p>While this message appears on the touchscreen, each operation works in the following way:</p> <ul style="list-style-type: none"> <li>• <b>Printing</b> If the media type is set to <b>Plain Paper</b> in the <b>Basic</b> tab, and <b>Grayscale</b> is chosen in the <b>Advanced</b> tab of the printer driver, you can use the machine as a black &amp; white printer.</li> <li>• <b>Copying</b> If the paper type is set to <b>Plain Paper</b>, you can make copies in black &amp; white.</li> <li>• <b>Faxing</b> If the paper type is set to <b>Plain Paper</b>, the machine will receive and print the faxes in black &amp; white.</li> </ul>	<p>Replace the ink cartridges.</p> <p>See <i>Related Information: Replace the Ink Cartridges</i>.</p> <p>Although the Cause column lists options for using the machine after this error appears, you may not be able to use the machine until you replace the ink cartridge(s) under the following conditions:</p> <ul style="list-style-type: none"> <li>• If you unplug the machine or remove the ink cartridge.</li> <li>• If you select the <b>Slow Drying Paper</b> option on the machine or in the printer driver.</li> </ul>
Cannot Detect	<p>You installed a new ink cartridge too quickly and the machine did not detect it.</p> <p>An ink cartridge is not installed correctly.</p> <p>A used ink cartridge was reinstalled.</p> <p>If you are not using Genuine Brother ink, the machine may not detect the ink cartridge.</p> <p>The ink cartridge must be replaced.</p>	<p>Take out the new ink cartridge and reinstall it slowly and firmly until it locks into place.</p> <p>See <i>Related Information: Replace the Ink Cartridges</i>.</p> <p>Remove the used ink cartridge and install a new one.</p> <p>Use a new Genuine Brother Ink Cartridge. If the error is not cleared, call Brother Customer Service.</p> <p>Replace the ink cartridge with a new Genuine Brother Ink Cartridge.</p>

Error Message	Cause	Action
	The new ink cartridge has an air bubble.	Slowly turn the ink cartridge so that the ink supply port is pointing downward, and then reinstall the cartridge.
	The wrong Brother model ink cartridge was installed.	Check the model numbers of the ink cartridges and install the correct ink cartridges.
Cannot Detect Ink Volume	If you are not using Genuine Brother ink, the machine may not detect the ink volume.	Use a new Genuine Brother Ink Cartridge. If the error is not cleared, call Brother Customer Service.
Comm.Error	Poor telephone line quality caused a communication error.	Send the fax again or connect the machine to another telephone line. If the problem continues, call the telephone company and ask them to check your telephone line.
Connection Error	Other devices are trying to connect to the Wi-Fi Direct network at the same time.	Make sure there are no other devices trying to connect to the Wi-Fi Direct network, and then try to configure the Wi-Fi Direct settings again.
Connection Failed	The Brother machine and your mobile device cannot communicate during the Wi-Fi Direct network configuration.	<ul style="list-style-type: none"> <li>• Move the mobile device closer to your Brother machine.</li> <li>• Move your Brother machine and the mobile device to an obstruction-free area.</li> <li>• If you are using the PIN Method of WPS, make sure you have entered the correct PIN.</li> </ul>
Cover is Open.	The scanner cover is not locked in the closed position.	Lift the scanner cover and then close it again.
		Make sure the telephone line cord and interface cable (if used) have been guided correctly through the cable channel and out the back of the machine.
	The ink cartridge cover is not locked in the closed position.	Firmly close the ink cartridge cover until it locks into place.
Data Remaining in Memory	Print data is left in the machine's memory.	Press  . The machine will cancel the job and clear it from the memory. Try to print again.
Disconnected	The other person or other person's fax machine stopped the call.	Try to send or receive again. If calls are stopped repeatedly and you are using a VoIP (Voice over IP) system, try changing the Compatibility to Basic (for VoIP). <i>See Related Information: Telephone Line Interference/VoIP.</i>
Document Jam/too Long	The document was not inserted or fed correctly, or the document scanned from the ADF was too long.	Remove the jammed document, and then press  . Set the document in the ADF correctly. <i>See Related Information: Load Documents in the Automatic Document Feeder (ADF).</i> <i>See Related Information: Document Jams.</i>

Error Message	Cause	Action
DR Mode in Use	The machine is in Distinctive Ring mode. You cannot change the Receive Mode from Manual to another mode.	Set Distinctive Ring to Off. <i>See Related Information: Turn off Distinctive Ring.</i>
High Temperature	The room temperature is too high.	After cooling the room, allow the machine to cool down to room temperature. Try again when the machine has cooled down.
Hub is Unusable.	A hub or USB flash drive with hub has been connected to the USB direct interface.	Hubs, including a USB flash drive with a built-in hub, are not supported. Unplug the device from the USB direct interface.
Ink Absorber NearFull	The ink absorber box or flushing box is nearly full.	The ink absorber box or flushing box must be replaced soon. Call Brother Customer Service or a Brother Authorized Service Center to have your machine serviced.
Ink Absorber Pad Full	The ink absorber box or flushing box is full. These components are periodic maintenance items that may require replacement after a period of time to ensure optimum performance from your Brother machine. Because these components are periodic maintenance items, the replacement is not covered under the warranty. The need to replace these items and the time period before replacement is dependent on the number of purges and flushes required to clean the ink system. These boxes acquire amounts of ink during the different purging and flushing operations. The number of times a machine purges and flushes for cleaning varies depending on different situations. For example, frequently powering the machine on and off will cause numerous cleaning cycles since the machine automatically cleans upon power up. The use of non-Brother ink may cause frequent cleanings because non-Brother ink could cause poor print quality which is resolved by cleaning. The more cleaning the machine requires, the faster these boxes will fill up.  <b>Repairs resulting from the use of non-Brother supplies may not be covered under the stated product warranty.</b>	The ink absorber box or flushing box must be replaced. Call Brother Customer Service or a Brother Authorized Service Center to have your machine serviced.  Reasons for cleaning are: <ol style="list-style-type: none"> <li>1. The machine automatically cleans itself after you remove the power cord and plug it back in.</li> <li>2. After a paper jam has been cleared, the machine automatically cleans itself before the next received page is printed.</li> <li>3. The machine automatically cleans itself after sitting idle for more than 30 days (infrequent use).</li> <li>4. The machine automatically cleans itself after ink cartridges of the same color have been replaced 12 times.</li> </ol>
Ink Low	One or more of the ink cartridges are near the end of their lives. If the sending machine has the ability to convert it, the color fax will be printed at your machine as a black & white fax.	Order a new ink cartridge. You can continue printing until the touchscreen displays <code>Replace Ink</code> . <i>See Related Information: Replace the Ink Cartridges.</i>  • <b>You can still scan even if the ink is low or needs to be replaced.</b>
Install Ink	An ink cartridge is not installed correctly.	Remove the new ink cartridge and re-install it slowly and firmly until it locks into place. <i>See Related Information: Replace the Ink Cartridges.</i>
Jam Front/Rear Jam Front	The paper is jammed in the machine.	Remove the jammed paper.

Error Message	Cause	Action
Jam Rear Jam Manual Feed Slot Jam Front/Manual Feed Slot Jam Tray2 Repeat Jam XX		See <i>Related Information: Printer Jam or Paper Jam</i> .  If there is a repeat paper jam, try another paper jam clear operation.  See <i>Related Information: Remove Paper Scraps</i> .
	The paper guides are not set to the correct paper size.	Make sure the paper guides are set to the correct paper size.
	The machine's paper support is not set correctly.	Make sure the paper support is fully inserted into the machine.  See <i>Related Information: Paper is Jammed in the Front of the Machine</i> .
	More than one sheet of paper was placed in the manual feed slot.  <b>-OR-</b> Another sheet of paper was placed in the manual feed slot before the touchscreen prompted you to load another sheet of paper.	Do not put more than one sheet of paper in the manual feed slot at any one time. Wait until the touchscreen prompts you to load another sheet of paper before you feed the next sheet of paper in the manual feed slot.  Remove the jammed paper.  See <i>Related Information: Printer Jam or Paper Jam</i> .
	Paper dust has accumulated on the surface of the paper pick-up rollers.	Clean the paper pick-up rollers.  See <i>Related Information: Clean the Paper Pick-up Rollers</i> .
Low Temperature	The room temperature is too low.	After warming the room, allow the machine to warm up to room temperature. Try again when the machine has warmed up.
Media is Full.	The USB flash drive you are using already contains 999 files.	Your machine can only save to your USB flash drive if it contains fewer than 999 files. Delete unused files and try again.
	The USB flash drive you are using does not have enough free space to scan the document.	Delete unused files from your USB flash drive to make some free space, and then try again.
No Caller ID	There is no incoming call history. You did not receive calls or you have not subscribed to the Caller ID service from your telephone company.	To use the Caller ID feature, call your telephone company.  See <i>Related Information: Caller ID</i> .
No Device	When configuring the Wi-Fi Direct network, the Brother machine cannot find your mobile device.	<ul style="list-style-type: none"> <li>• Make sure your machine and mobile device are in the Wi-Fi Direct mode.</li> <li>• Move the mobile device closer to your Brother machine.</li> <li>• Move your Brother machine and the mobile device to an obstruction-free area.</li> <li>• If you are manually configuring the Wi-Fi Direct network, make sure you have entered the correct password.</li> <li>• If your mobile device has a configuration page for how to obtain an IP address, make sure the IP address of your mobile device has been configured via DHCP.</li> </ul>
No File	The USB flash drive in the media drive does not contain a .JPG file.	Put the correct USB flash drive into the slot again.

Error Message	Cause	Action
No Paper Fed No Paper Fed [Tray #1] No Paper Fed [Tray #2]	The machine is out of paper or paper is not correctly loaded in the paper tray.	Do one of the following: <ul style="list-style-type: none"> <li>• Refill the paper tray, and then follow the LCD instructions.</li> <li>• Remove and reload the paper, and then follow the LCD instructions.</li> </ul> <i>See Related Information: Load Paper.</i>
	The paper was not inserted in the center position of the manual feed slot.	Remove the paper and reinsert it in the center of the manual feed slot, and then follow the LCD instructions.  <i>See Related Information: Load Paper in the Manual Feed Slot.</i>
	The Jam Clear Cover is not closed correctly.	Make sure the Jam Clear Cover is closed evenly at both ends.  <i>See Related Information: Printer Jam or Paper Jam.</i>
	Paper dust has accumulated on the surface of the paper pick-up rollers.	Clean the paper pick-up rollers.  <i>See Related Information: Clean the Paper Pick-up Rollers.</i>
No Response/Busy	The number you dialed does not answer or is busy.	Verify the number and try again.
Out of Fax Memory	The fax memory is full.	Do one of the following: <ul style="list-style-type: none"> <li>• Clear the data from the memory. To gain extra memory, you can turn off Memory Receive. <i>See Related Information: Turn Off Memory Receive.</i></li> <li>• Print the faxes that are in the memory. <i>See Related Information: Print a Fax Stored in the Machine's Memory.</i></li> </ul>
Out of Memory	The machine's memory is full.	<b>If a fax-sending or copy operation is in progress:</b> <ul style="list-style-type: none"> <li>• Press  or <b>Quit</b> or <b>Close</b> and wait until the other operations that are in progress finish, and then try again.</li> <li>• Press <b>Send Now</b> to send the pages scanned so far.</li> <li>• Press <b>Partial Print</b> to copy the pages scanned so far.</li> <li>• Clear the data in the memory. To gain extra memory, you can turn off Memory Receive. <i>See Related Information: Turn Off Memory Receive.</i></li> <li>• Print the faxes stored in the memory. <i>See Related Information: Print a Fax Stored in the Machine's Memory.</i></li> </ul>
Paper Size Mismatch Paper Size Mismatch [Tray #1] Paper Size Mismatch [Tray #2]	The paper size setting does not match the size of paper in the tray. <b>-OR-</b> The paper orientation is not proper for the paper size. <b>-OR-</b>	<ol style="list-style-type: none"> <li>1. Check that the paper size you selected on the machine's display matches the size of the paper in the tray. <i>See Related Information: Change the Paper Size and Paper Type.</i></li> <li>2. Make sure you loaded the paper in the proper orientation and set the paper</li> </ol>

Error Message	Cause	Action
	You did not set the paper guides in the tray to the indicators for the paper size you are using.	<p>guides at the indicators for your paper size.</p> <p>See <i>Related Information: Load Paper</i>.</p> <p>3. After you have checked the paper size and the paper orientation, follow the LCD instructions.</p>
		<p>If printing from your computer, make sure the paper size you selected in the printer driver matches the size of paper in the tray.</p> <p>See <i>Related Information: Print Settings (Windows) or Print Options (Mac)</i>.</p>
Paper Tray not detected	The paper tray is not completely inserted.	Slowly push the paper tray completely into the machine.
Paper Tray #1 not detected Paper Tray #2 not detected	Paper or a foreign object has prevented the paper tray from being inserted properly.	Pull the paper tray out of the machine, and remove the jammed paper or foreign object. If you cannot find or remove the jammed paper, see <i>Related Information: Printer Jam or Paper Jam</i> .
Repetitive No Paper Fed	Paper dust has accumulated on the surface of the paper pick-up rollers.	Clean the paper pick-up rollers. See <i>Related Information: Clean the Paper Pick-up Rollers</i> .
Repetitive Paper Jams	A foreign object, such as a paper clip or a piece of ripped paper, is in the machine.	Remove any foreign objects and paper scraps in the machine. See <i>Related Information: Remove Paper Scraps</i> .
Replace Ink	One or more of the ink cartridges have reached the end of their lives. The machine will stop all print operations. While memory is available, black & white faxes will be stored in the memory. If the sending machine has the ability to convert it, the color fax will be stored in the memory as a black & white fax.	Replace the ink cartridges. See <i>Related Information: Replace the Ink Cartridges</i> . <ul style="list-style-type: none"> <li><b>You can still scan even if the ink is low or needs to be replaced.</b></li> </ul>
Sending Error Wrong Document Size Settings	The document size option does not match the size of your fax document.	Select the correct document size option, and then press <b>Fax Start</b> again.
The maximum number of devices are already connected using Wi-Fi Direct.	Two mobile devices are already connected to the Wi-Fi Direct network when the Brother machine is the Group Owner (G/O).	After the current connection between your Brother machine and another mobile device has shut down, try to configure the Wi-Fi Direct settings again. You can confirm the connection status by printing the Network Configuration Report. See <i>Related Information: Print the Network Configuration Report</i> .
Touchscreen Init. Failed	The touchscreen was pressed before the power on initialization was completed.	Make sure nothing is touching or resting on the touchscreen, especially when plugging the machine in.
	Debris may be stuck between the lower part of the touchscreen and its frame.	Insert a piece of stiff paper between the lower part of the touchscreen and its frame and slide it back and forth to push out the debris.
Tray Settings Tray #1 Settings Tray #2 Settings	This message is displayed when the setting to confirm the paper type and size is enabled.	To not display this confirmation message, change the setting to Off.

Error Message	Cause	Action
		See <i>Related Information: Change the Check Paper Size Setting.</i>
Unable to Clean XX Unable to Initialize XX Unable to Print XX	The machine has a mechanical problem. <b>-OR-</b> A foreign object, such as a paper clip or a piece of ripped paper, is in the machine.	Open the scanner cover and remove any foreign objects and paper scraps from inside the machine. If the error message continues, disconnect the machine from the power for several minutes, and then reconnect it.  You can try additional paper jam clear operations. <i>See Related Information: Remove Paper Scraps.</i>  (If you cannot print received faxes, transfer them to another fax machine or to your computer.) <i>See Related Information: Transfer Your Faxes or Fax Journal Report.</i>
Unable to Scan XX	The machine has a mechanical problem.	Disconnect the machine from the power for several minutes, and then reconnect it. (If you cannot print received faxes, transfer them to another fax machine or to your computer.) <i>See Related Information: Transfer Your Faxes or Fax Journal Report.</i>
Unusable Device Disconnect device from front connector & turn machine off & then on	A broken device is connected to the USB direct interface.	Unplug the device from the USB direct interface, then press  to turn the machine off and then on again.
Unusable Device Please disconnect USB device.	A USB device or USB flash drive that is not supported has been connected to the USB direct interface.	Unplug the device from the USB direct interface. Turn the machine off and then on again.
Wrong Ink Cartridge	The ink cartridge model number is not compatible with your machine.	Verify whether the cartridge model number will work with your machine.
Wrong Ink Color	An ink cartridge has been installed in the wrong position.	Check which ink cartridges are not matched by color to their ink cartridge positions and move them to their correct positions.
Wrong Tray Settings	The machine's Paper Size and Tray Use settings do not match the size of paper in the tray you are using.	Follow the instructions on the touchscreen and try to print again.  Configure the paper size setting for the tray according to the LCD instructions.

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

Error Message	Cause	Action
Black and White Print Only Replace ink.	One or more of the color ink cartridges have reached the end of their lives. You can use the machine in black & white mode for approximately four weeks depending on the number of pages you print. While this message appears on the touchscreen, each operation works in the following way:	Replace the ink cartridges. <i>See Related Information: Replace the Ink Cartridges.</i>  Although the Cause column lists options for using the machine after this error appears, you may not be able to use the machine until you replace the ink cartridge(s) under the following conditions:

Error Message	Cause	Action
	<ul style="list-style-type: none"> <li>• <b>Printing</b> If the media type is set to <b>Plain Paper</b> in the <b>Basic</b> tab, and <b>Grayscale</b> is chosen in the <b>Advanced</b> tab of the printer driver, you can use the machine as a black &amp; white printer.</li> <li>• <b>Copying</b> If the paper type is set to <b>Plain Paper</b> you can make copies in black &amp; white.</li> <li>• <b>Faxing</b> If the paper type is set to <b>Plain Paper</b>, the machine will receive and print the faxes in black &amp; white.</li> </ul>	<ul style="list-style-type: none"> <li>• If you unplug the machine or remove the ink cartridge.</li> <li>• If you select the <b>Slow Drying Paper</b> option on the machine or in the printer driver.</li> </ul>

If the error is not cleared, call Brother Customer Service.</p> <p>Replace the ink cartridge with a new Genuine Brother Ink Cartridge.</p> <p>Slowly turn the ink cartridge so that the ink supply port is pointing downward, and then reinstall the cartridge.</p> <p>Check the model numbers of the ink cartridges and install the correct ink cartridges.</p>
Cannot Detect Ink Volume	<p>If you are not using Genuine Brother ink, the machine may not detect the ink volume.</p>	<p>Use a new Genuine Brother Ink Cartridge. If the error is not cleared, call Brother Customer Service.</p>
Comm.Error	<p>Poor telephone line quality caused a communication error.</p>	<p>Send the fax again or connect the machine to another telephone line. If the problem continues, call the telephone company and ask them to check your telephone line.</p>
Connection Error	<p>Other devices are trying to connect to the Wi-Fi Direct network at the same time.</p>	<p>Make sure there are no other devices trying to connect to the Wi-Fi Direct network, and then try to configure the Wi-Fi Direct settings again.</p>
Connection Failed	<p>The Brother machine and your mobile device cannot communicate during the Wi-Fi Direct network configuration.</p>	<ul style="list-style-type: none"> <li>• Move the mobile device closer to your Brother machine.</li> <li>• Move your Brother machine and the mobile device to an obstruction-free area.</li> <li>• If you are using the PIN Method of WPS, make sure you have entered the correct PIN.</li> </ul>
Cover is Open.	<p>The scanner cover is not locked in the closed position.</p>	<p>Lift the scanner cover and then close it again.</p>

Error Message	Cause	Action
		Make sure the telephone line cord and interface cable (if used) have been guided correctly through the cable channel and out the back of the machine.
	The ink cartridge cover is not locked in the closed position.	Firmly close the ink cartridge cover until it locks into place.
Data Remaining in Memory	Print data is left in the machine's memory.	Press  . The machine will cancel the job and clear it from the memory. Try to print again.
Disconnected	The other person or other person's fax machine stopped the call.	Try to send or receive again. If calls are stopped repeatedly and you are using a VoIP (Voice over IP) system, try changing the Compatibility to Basic (for VoIP). <i>See Related Information: Telephone Line Interference/VoIP.</i>
Document Jam/too Long	The document was not inserted or fed correctly, or the document scanned from the ADF was too long.	Remove the jammed document, and then press  . Set the document in the ADF correctly. <i>See Related Information: Load Documents in the Automatic Document Feeder (ADF).</i> <i>See Related Information: Document Jams.</i>
DR Mode in Use	The machine is in Distinctive Ring mode. You cannot change the Receive Mode from Manual to another mode.	Set Distinctive Ring to Off. <i>See Related Information: Turn off Distinctive Ring.</i>
High Temperature	The room temperature is too high.	After cooling the room, allow the machine to cool down to room temperature. Try again when the machine has cooled down.
Hub is Unusable.	A hub or USB flash drive with hub has been connected to the USB direct interface.	Hubs, including a USB flash drive with a built-in hub, are not supported. Unplug the device from the USB direct interface.
Ink Absorber NearFull	The ink absorber box or flushing box is nearly full.	The ink absorber box or flushing box must be replaced soon. Call Brother Customer Service or a Brother Authorized Service Center to have your machine serviced.
Ink Absorber Pad Full	The ink absorber box or flushing box is full. These components are periodic maintenance items that may require replacement after a period of time to ensure optimum performance from your Brother machine. Because these components are periodic maintenance items, the replacement is not covered under the warranty. The need to replace these items and the time period before replacement is dependent on the number of purges and flushes required to clean the ink system. These boxes acquire amounts of ink during the different purging and flushing operations. The number of times a machine purges and flushes for cleaning varies depending on different situations. For example, frequently	The ink absorber box or flushing box must be replaced. Call Brother Customer Service or a Brother Authorized Service Center to have your machine serviced. Reasons for cleaning are: 1. The machine automatically cleans itself after you remove the power cord and plug it back in. 2. After a paper jam has been cleared, the machine automatically cleans itself before the next received page is printed. 3. The machine automatically cleans itself after sitting idle for more than 30 days (infrequent use).

Error Message	Cause	Action
	<p>powering the machine on and off will cause numerous cleaning cycles since the machine automatically cleans upon power up. The use of non-Brother ink may cause frequent cleanings because non-Brother ink could cause poor print quality which is resolved by cleaning. The more cleaning the machine requires, the faster these boxes will fill up.</p> <p><b>Repairs resulting from the use of non-Brother supplies may not be covered under the stated product warranty.</b></p>	<p>4. The machine automatically cleans itself after ink cartridges of the same color have been replaced 12 times.</p>
Ink Low	<p>One or more of the ink cartridges are near the end of their lives. If the sending machine has the ability to convert it, the color fax will be printed at your machine as a black &amp; white fax.</p>	<p>Order a new ink cartridge. You can continue printing until the touchscreen displays <i>ReplacE Ink</i>.</p> <p>See <i>Related Information: Replace the Ink Cartridges</i>.</p> <ul style="list-style-type: none"> <li>• <b>You can still scan even if the ink is low or needs to be replaced.</b></li> </ul>
Install Ink	<p>An ink cartridge is not installed correctly.</p>	<p>Remove the new ink cartridge and re-install it slowly and firmly until it locks into place.</p> <p>See <i>Related Information: Replace the Ink Cartridges</i>.</p>

## Document is Jammed in the Top of the ADF Unit

1. Remove any paper that is not jammed from the ADF.
2. Open the ADF cover.
3. Remove the jammed document by pulling it upward.

4. Close the ADF cover.
5. Press .

### IMPORTANT

To avoid future document jams, close the ADF cover correctly by pressing it down in the center.

### Related Information

- [Document Jams](#)

## Document is Jammed in the Bottom of the ADF Unit

1. Remove any paper that is not jammed from the ADF.
2. Lift the ADF document support, and remove the jammed paper.

3. Press .

### Related Information

- [Document Jams](#)

## Document is Jammed inside the ADF Unit

1. Remove any paper that is not jammed from the ADF.
2. Lift the document cover.
3. Pull the jammed document out to the right.

4. Close the document cover.
5. Press .

### Related Information

- [Document Jams](#)

## Remove Paper Scraps Jammed in the ADF

1. Lift the document cover.
2. Insert a piece of stiff paper, such as cardstock, into the ADF to push any small paper scraps through.

3. Close the document cover.
4. Press .

### Related Information

## Printer Jam or Paper Jam

Locate and remove the jammed paper.

- [Paper is Jammed in the Front of the Machine](#)
- [Paper is Jammed in the Back of the Machine](#)
- [Remove Paper Scraps](#)
- [Error and Maintenance Messages](#)
- [Paper Handling and Printing Problems](#)

## Paper is Jammed in the Front of the Machine

If the LCD displays the following paper jam messages, follow these steps:

- [Jam Front/Rear], [Repeat Jam Front/Rear]
  - [Jam Front], [Repeat Jam Front]
  - [Jam Front/MP Tray], [Repeat Jam Front/MP Tray]
  - [Jam Front/Manual Feed Slot], [Repeat Jam Front/Manual Feed]
1. Unplug the machine from the AC power outlet.
  2. If the paper is loaded in the MP tray, remove the paper. (MFC-J6535DW/MFC-J6930DW/MFC-J6935DW)
  3. Pull Tray #1 (1) completely out of the machine as shown by the arrow.

If your LCD error message was repeat paper jam messages, for example [Repeat Jam Front/Rear], lift the paper support (1), and then pull it at an angle completely out of the machine as shown by the arrow.

When finished, continue with the next step.

4. Slowly pull out the jammed paper (1).

If your LCD error message was repeat paper jam messages, for example [Repeat Jam Front/Rear], do the following:

- a. Lift the Jam Clear Flap, and remove the jammed paper.

- b. Make sure you look carefully inside (1) for any scraps of paper.

When finished, continue with the next step.

5. Using both hands, use the finger holds on each side of the machine to lift the scanner cover (1) into the open position.

6. Slowly pull the jammed paper (1) out of the machine.

If your LCD error message was repeat paper jam messages, for example [Repeat Jam Front/Rear], move the print head (if necessary) to take out any paper remaining in this area. Make sure pieces of paper are not left in the corners of the machine (1) and (2).

When finished, continue with the next step.

## IMPORTANT

- If the print head is in the right corner as shown in the illustration, you cannot move the print head. Close the scanner cover, and then reconnect the power cord. Open the scanner cover again, and then hold down  until the print head moves to the center. Then unplug the machine from the power source and take out the paper.

- If the paper is jammed under the print head, unplug the machine from the power source, and then move the print head to take out the paper.
- If ink gets on your skin or clothing, immediately wash it off with soap or detergent.

7. Gently close the scanner cover using the finger holds on each side.

8. If your LCD error message was [Jam Front/Rear] or [Repeat Jam Front/Rear], do the following:
- Open the Jam Clear Cover (1) at the back of the machine.

- Make sure you look carefully inside for jammed paper and slowly pull it out of the machine.

- Close the Jam Clear Cover. Make sure the cover is closed completely.

9. If your LCD error message was [Jam Front/MP Tray] or [Repeat Jam Front/MP Tray], make sure you look carefully inside the MP tray for jammed paper. Push the release lever (1) toward the back of the machine, and then slowly pull the jammed paper out of the MP tray.

10. If your LCD error message was [Jam Front/Manual Feed Slot] or [Repeat Jam Front/Manual Feed], make sure you look carefully inside the manual feed slot for jammed paper and slowly pull it out of the machine.

11. If your LCD error message was repeat paper jam messages, for example [Repeat Jam Front/Rear], and you removed the paper support, put it firmly back in the machine. Make sure you fit the paper support into the channels.

12. Slowly push Tray #1 completely into the machine.

13. Reconnect the power cord.

If there is a repeat paper jam, a small piece of paper may be stuck in the machine.

## Paper is Jammed in the Back of the Machine

If the LCD displays the following paper jam messages, follow these steps:

- [Jam Rear], [Repeat Jam Rear]
  - [Jam MP Tray], [Repeat Jam MP Tray]
  - [Jam Manual Feed Slot], [Repeat Jam Manual Feed Slot]
  - [Jam Tray2], [Repeat Jam Tray2]
1. Unplug the machine from the AC power outlet.
  2. If the paper is loaded in the MP tray, remove the paper. (MFC-J6535DW/MFC-J6930DW/MFC-J6935DW)
  3. Pull Tray #1 (1) completely out of the machine as shown by the arrow.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW)

If your LCD error message was [Jam Tray2] or [Repeat Jam Tray2], also pull Tray #2 (2) completely out of the machine as shown by the arrow.

When finished, continue with the next step.

4. If your LCD error message was [Jam Rear], [Repeat Jam Rear], [Jam Tray2] or [Repeat Jam Tray2], do the following:
  - a. Open the Jam Clear Cover (1) at the back of the machine.

- b. Slowly pull the jammed paper out of the machine.

c. Close the Jam Clear Cover. Make sure the cover is closed completely.

5. If your LCD error message was [Jam MP Tray] or [Repeat Jam MP Tray], push the release lever (1) toward the back of the machine, and then slowly pull the jammed paper out of the MP tray.

6. If your LCD error message was [Jam Manual Feed Slot] or [Repeat Jam Manual Feed Slot], slowly pull the jammed paper out of the manual feed slot.

7. Using both hands, use the finger holds on each side of the machine to lift the scanner cover (1) into the open position.

8. Slowly pull the jammed paper (1) out of the machine.

If your LCD error message was repeat paper jam messages, for example [Repeat Jam Rear], move the print head (if necessary) to take out any paper remaining in this area. Make sure pieces of paper are not left in the corners of the machine (1) and (2).

When finished, continue with the next step.

## IMPORTANT

- If the print head is in the right corner as shown in the illustration, you cannot move the print head. Close the scanner cover, and then reconnect the power cord. Open the scanner cover again, and then hold down  until the print head moves to the center. Then unplug the machine from the power source and take out the paper.

- If the paper is jammed under the print head, unplug the machine from the power source, and then move the print head to take out the paper.
- If ink gets on your skin or clothing, immediately wash it off with soap or detergent.

9. Gently close the scanner cover using the finger holds on each side.

10. (MFC-J6530DW/MFC-J6535DW) Slowly push Tray #1 completely into the machine.

(MFC-J6730DW/MFC-J6930DW/MFC-J6935DW) Slowly push Tray #1 and Tray #2 (if removed) completely into the machine.

11. Reconnect the power cord.

If there is a repeat paper jam, a small piece of paper may be stuck in the machine.

## Remove Paper Scraps

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. If you repeatedly experience paper jams (3 times or more), the LCD displays a message asking if you want to remove the scraps.

Press [Yes] to return to the Home screen.

2. Press  [Settings] > [Maintenance] > [Remove Paper Scraps].

3. Follow the instructions on the LCD to locate and remove the jammed paper.

During the procedure, you must load the Maintenance sheet (included with your machine) in Landscape orientation in the manual feed slot. (If you do not have the Maintenance sheet, use one sheet of Letter or A4 size thicker paper, such as glossy paper.)

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. If you repeatedly experience paper jams (3 times or more), the LCD displays a message asking if you want to remove the scraps.

Press [Yes] to return to the Home screen.

2. Press  [Settings] > [Maintenance] > [Remove Paper Scraps].

3. Follow the instructions on the LCD to locate and remove the jammed paper.

During the procedure, you must insert the Maintenance sheet (included with your machine) into the machine in Landscape orientation through the opening as shown, until you feel it grab the paper. (If you do not have the Maintenance sheet, use one sheet of Letter or A4 size thicker paper, such as glossy paper.)

## If You Are Having Difficulty with Your Machine

For technical help, you must call the country where you bought the machine. Calls must be made from within that country.

If you think there is a problem with your machine, check the following topics. You can correct most problems yourself.

If you need additional help, the Brother Solutions Center offers the latest FAQs and troubleshooting tips.

Visit [support.brother.com](http://support.brother.com).

Using non-Brother supplies may affect the print quality, hardware performance, and machine reliability.

## Paper Handling and Printing Problems

### Printing Difficulties

Difficulties	Suggestions
No printout	Check that the correct printer driver has been installed and selected.
	Check to see if the machine's display is showing an error message. See <i>Related Information: Error and Maintenance Messages</i> .
	Check that the machine is online: <ul style="list-style-type: none"> <li>Windows Vista and Windows Server 2008 Click /Start &gt; <b>Control Panel &gt; Hardware and Sound &gt; Printers</b>. Right-click <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name). Make sure <b>Use Printer Online</b> is not listed. If it is listed, click this option to set the driver Online.</li> <li>Windows 7 and Windows Server 2008 R2 Click /Start &gt; <b>Devices and Printers</b> . Right-click <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name) and click <b>See what's printing</b>. Click <b>Printer</b> in the menu bar. Make sure <b>Use Printer Offline</b> is not selected.</li> <li>Windows 8 Move your mouse to the lower right corner of your desktop. When the menu bar appears, click <b>Settings &gt; Control Panel</b>. In the <b>Hardware and Sound</b> group, click <b>View devices and printers</b>. Right-click the <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name). Click <b>See what's printing</b>. If printer driver options appear, select your printer driver. Click <b>Printer</b> in the menu bar and make sure <b>Use Printer Offline</b> is not selected.</li> <li>Windows 10 Click  &gt; <b>All apps &gt; Windows System &gt; Control Panel</b>. In the <b>Hardware and Sound</b> group, click <b>View devices and printers</b>. Right-click the <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name). Click <b>See what's printing</b>. If printer driver options appear, select your printer driver. Click <b>Printer</b> in the menu bar and make sure <b>Use Printer Offline</b> is not selected.</li> <li>Windows Server 2012 Move your mouse to the lower right corner of your desktop. When the menu bar appears, click <b>Settings &gt; Control Panel</b>. In the <b>Hardware</b> group, click <b>View devices and printers</b>. Right-click the <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name). Click <b>See what's printing</b>. If printer driver options appear, select your printer driver. Click <b>Printer</b> in the menu bar and make sure <b>Use Printer Offline</b> is not selected.</li> <li>Windows Server 2012 R2 Click <b>Control Panel</b> on the <b>Start</b> screen. In the <b>Hardware</b> group, click <b>View devices and printers</b>. Right-click the <b>Brother MFC-XXXX Printer</b> (where XXXX is your model name). Click <b>See what's printing</b>. If printer driver options appear, select your printer driver. Click <b>Printer</b> in the menu bar and make sure <b>Use Printer Offline</b> is not selected.</li> </ul>
	One or more ink cartridges have reached the end of their life. See <i>Related Information: Replace the Ink Cartridges</i> .
If old, unprinted data remains in the printer driver spooler, it will prevent new print jobs from printing. Open the printer icon and delete all data as follows: <ul style="list-style-type: none"> <li>Windows Vista and Windows Server 2008 Click /Start &gt; <b>Control Panel &gt; Hardware and Sound &gt; Printers</b>.</li> <li>Windows 7 and Windows Server 2008 R2</li> </ul>	

Difficulties	Suggestions
	<p>Click /Start &gt; <b>Devices and Printers</b> &gt; <b>Printers and Faxes</b>.</p> <ul style="list-style-type: none"> <li>Windows 8 Move your mouse to the lower right corner of your desktop. When the menu bar appears, click <b>Settings</b> &gt; <b>Control Panel</b>. In the <b>Hardware and Sound</b> group, click <b>View devices and printers</b> &gt; <b>Printers</b>.</li> <li>Windows 10 Click  &gt; <b>All apps</b> &gt; <b>Windows System</b> &gt; <b>Control Panel</b>. In the <b>Hardware and Sound</b> group, click <b>View devices and printers</b> &gt; <b>Printers</b>.</li> <li>Windows Server 2012 Move your mouse to the lower right corner of your desktop. When the menu bar appears, click <b>Settings</b> &gt; <b>Control Panel</b>. In the <b>Hardware</b> group, click <b>View devices and printers</b> &gt; <b>Printers</b>.</li> <li>Windows Server 2012 R2 Click <b>Control Panel</b> on the <b>Start</b> screen. In the <b>Hardware</b> group, click <b>View devices and printers</b> &gt; <b>Printers</b>.</li> <li>OS X v10.9.5, 10.10.x, 10.11.x Click the <b>System Preferences</b> &gt; <b>Printers &amp; Scanners</b>.</li> </ul>
The headers or footers appear when the document is displayed on the screen but do not appear when the document is printed.	There is an unprintable area on the top and bottom of the page. Adjust the top and bottom margins in your document to allow for this. See <i>Related Information: Unprintable Area</i> .
Cannot perform 'Page Layout' printing.	Check that the paper size setting in the application and in the printer driver are the same.
Print speed is too slow.	<p>Try changing the printer driver setting. The highest resolution needs longer data processing, sending and printing time. Try the other quality settings in the printer driver as follows:</p> <ul style="list-style-type: none"> <li>Windows In the printer driver, clear the <b>Color Enhancement (True2Life)</b> check box on the <b>Advanced</b> tab.</li> <li>Mac In the printer driver, choose <b>Color Settings</b>, click <b>Advanced Color Settings</b>, and make sure you clear the <b>Color Enhancement</b> check box.</li> </ul> <p>Turn the Borderless feature off. Borderless printing is slower than normal printing. See <i>Related Information: Print Settings (Windows) or Print a Photo (Mac)</i>.</p> <p>Turn off the Quiet Mode setting. Print speed is slower in Quiet Mode. See <i>Related Information: Reduce Printing Noise</i>.</p>

## Print Quality Difficulties

Difficulties	Suggestions
Poor print quality	<p>Check the print quality. See <i>Related Information: Check the Print Quality</i>.</p> <p>Make sure the Media Type setting in the printer driver or the Paper Type setting in the machine's menu matches the type of paper you are using. See <i>Related Information: Change the Paper Size and Paper Type</i>. See <i>Related Information: Print Settings (Windows) or Print Options (Mac)</i>.</p> <p>Make sure your ink cartridges are fresh. The following may cause ink to clog:</p> <ul style="list-style-type: none"> <li>The expiration date written on the cartridge package has passed.</li> <li>The ink cartridge has been in your machine for over six months.</li> <li>The ink cartridge may not have been stored correctly before use.</li> </ul>

Difficulties	Suggestions
	<p>Make sure you are using Genuine Brother Ink. Using non-Brother supplies may affect the print quality, hardware performance, and machine reliability.</p> <p>Make sure you are using one of the recommended types of paper. See <i>Related Information: Acceptable Paper and Other Print Media</i>.</p> <p>The recommended environment for your machine is between 68 °F to 91 °F (20 °C to 33 °C).</p>
<p>White lines appear in text or graphics.</p> 	<p>Clean the print head. See <i>Related Information: Clean the Print Head from Your Brother Machine</i>. See <i>Related Information: Clean the Print Head from Your Computer (Windows) or Clean the Print Head from Your Computer (Mac)</i>.</p> <p>Make sure you are using Genuine Brother Ink.</p> <p>Try using the recommended types of paper. See <i>Related Information: Acceptable Paper and Other Print Media</i>.</p> <p>To prolong print head life, provide the best ink cartridge economy and maintain print quality, we do not recommend frequently unplugging the machine and/or leaving the machine unplugged for extended periods of time. We recommend using  to power down the machine. Using  allows minimal power to the machine, resulting in periodic, but less frequent, cleaning of the print head.</p>
<p>The machine prints blank pages.</p>	<p>Check the print quality. See <i>Related Information: Check the Print Quality</i>.</p> <p>Make sure you are using Genuine Brother Ink.</p> <p>To prolong print head life, provide the best ink cartridge economy and maintain print quality, we do not recommend frequently unplugging the machine and/or leaving the machine unplugged for extended periods of time. We recommend using  to power down the machine. Using  allows minimal power to the machine, resulting in periodic, but less frequent, cleaning of the print head.</p>
<p>Characters and lines are blurred.</p> 	<p>Check the printing alignment. See <i>Related Information: Check the Print Alignment from Your Brother Machine</i>. See <i>Related Information: Check the Print Alignment from Your Computer (Windows) or Check the Print Alignment from Your Computer (Mac)</i>.</p> <p>Change the print setting options. See <i>Related Information: Change the Print Setting Options When Having Printing Problems</i>.</p>
<p>Printed text or images are skewed.</p>	<p>Make sure the paper is loaded correctly in the paper tray and the paper guides are adjusted correctly. See <i>Related Information: Load Paper</i>.</p> <p>Make sure the Jam Clear Cover is closed correctly.</p>
<p>Smudge or stain at the top center of the printed page.</p>	<p>Make sure the paper is not too thick or curled. See <i>Related Information: Acceptable Paper and Other Print Media</i>.</p>
<p>Printing appears dirty or ink seems to run.</p>	<p>Make sure you are using the recommended types of paper. Do not handle the paper until the ink is dry. See <i>Related Information: Acceptable Paper and Other Print Media</i>.</p> <p>Make sure the printing surface is face down in the paper tray.</p> <p>Make sure you are using Genuine Brother Ink.</p> <p>If you are using photo paper, make sure the glossy side of the photo paper is face down in the tray and you have set the correct paper type. If you are printing a photo from your computer, set the Media Type in the printer driver.</p>
<p>Ink is smudged or wet when using glossy photo paper.</p>	<p>Be sure to check the front and back of the paper. Place the glossy surface (printing surface) face down.</p>

Difficulties	Suggestions
	See <i>Related Information: Change the Paper Size and Paper Type</i> . If you use glossy photo paper, make sure the paper type setting is correct.
Stains appear on the reverse side or at the bottom of the page.	Make sure the printer platen is not dirty with ink. See <i>Related Information: Clean the Machine's Printer Platen</i> . Make sure you are using Genuine Brother Ink. Make sure you are using the paper support flap. See <i>Related Information: Load Paper</i> . Make sure the paper feed rollers are not dirty with ink. See <i>Related Information: Clean the Paper Feed Rollers</i> .
The machine prints dense lines on the page.	Windows Select <b>Reverse Order</b> in the <b>Basic</b> tab of the printer driver.
The printouts are wrinkled.	<ul style="list-style-type: none"> <li>• Windows In the printer driver, choose the <b>Advanced</b> tab, click <b>Other Print Options</b>, and then click <b>Advanced Color Settings</b>. Clear the <b>Bi-Directional Printing</b> check box.</li> <li>• Mac In the printer driver, choose <b>Print Settings</b>, click <b>Advanced</b>, choose <b>Other Print Options</b>, and clear the <b>Bi-Directional Printing</b> check box.</li> </ul> <p>Make sure you are using Genuine Brother Ink.</p>

## Paper Handling Difficulties

Difficulties	Suggestions
The machine does not feed paper.	Make sure the paper tray is pushed in all the way until it locks into place. Make sure the Jam Clear Cover at the back of the machine is closed. If the machine's LCD displays a Paper Jam message and you still have a problem, see <i>Related Information: Error and Maintenance Messages</i> . If the paper tray is empty, load a new stack of paper into the paper tray. If there is paper in the paper tray, make sure it is straight. If the paper is curled, straighten it. Sometimes it is helpful to remove the paper, turn the stack over and put it back in the paper tray. Reduce the amount of paper in the paper tray, and then try again. Clean the paper pick-up rollers. See <i>Related Information: Clean the Paper Pick-up Rollers</i> . Make sure that the paper is within specifications for the machine. See <i>Related Information: Paper Weight and Thickness</i> .
Photo paper does not feed correctly.	When you print on Brother Photo paper, load one extra sheet of the same photo paper in the paper tray. An extra sheet has been included in the paper package for this purpose.
Machine feeds multiple pages.	<ul style="list-style-type: none"> <li>• Make sure the paper is loaded correctly in the paper tray.</li> <li>• Remove all the paper from the tray and fan the stack of paper well, then put it back in the tray.</li> <li>• Make sure you do not push the paper in too far.</li> </ul> <p>See <i>Related Information: Load Paper</i>. Make sure the Jam Clear Cover is closed correctly. See <i>Related Information: Printer Jam or Paper Jam</i>. Make sure the Base Pad in the paper tray is not dirty. See <i>Related Information: Clean the Base Pad</i>.</p>

Difficulties	Suggestions
There is a paper jam.	<p>See <i>Related Information: Printer Jam or Paper Jam</i>. Make sure the paper guides are set to the correct paper size.</p> <p>Use the jam prevention settings. For copying See <i>Related Information: Change the Print Setting Options When Having Printing Problems</i>. For printing See <i>Related Information: Prevent Smudged Printouts and Paper Jams (Windows)</i> or <i>Prevent Smudged Printouts and Paper Jams (Mac)</i>.</p>
Paper jam reoccurs.	<p>If there is a repeat paper jam, a small piece of paper may be stuck in the machine. Make sure paper is not still jammed in the machine. See <i>Related Information: Remove Paper Scraps</i>.</p>
The paper jams when you use 2-sided copy or 2-sided print.	<p>If paper jams occur frequently during 2-sided copying or 2-sided printing, the paper feed rollers may be stained with ink. Clean the paper feed rollers. See <i>Related Information: Clean the Paper Feed Rollers</i>.</p>

## Printing Received Faxes

Difficulties	Suggestions
<ul style="list-style-type: none"> <li>• Condensed print</li> <li>• Horizontal streaks</li> <li>• Top and bottom sentences are cut off</li> <li>• Missing lines</li> </ul>	<p>This is usually caused by a poor telephone connection. Make a copy; if your copy looks good, you probably had a bad connection, with static or interference on the telephone line. Ask the other party to send the fax again.</p>
Black lines when receiving	<p>The sender's scanner may be dirty. Ask the sender to make a copy to see if the problem is with the sending machine. Try receiving from another fax machine.</p>
Left and right margins are cut off or a single page is printed on two pages.	<p>If the received faxes are divided and printed on two pages or if you get an extra blank page, your paper size setting may not be correct for the paper you are using. See <i>Related Information: Change the Paper Size and Paper Type</i>.</p> <p>Turn on Auto Reduction. See <i>Related Information: Shrink Page Size of an Oversized Incoming Fax</i>.</p>
Received color fax prints only in black & white.	<p>Replace the color ink cartridges that have reached the end of their life, and then ask the other person to send the color fax again. See <i>Related Information: Replace the Ink Cartridges</i>.</p>

## Telephone and Fax problems

### Telephone Line or Connections

Difficulties	Suggestions
Dialing does not work. (No dial tone)	Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you subscribe to DSL, VoIP or MagicJack services, call your service provider for connection instructions.  If you are using a VoIP system, try changing the VoIP setting to <i>Basic (for VoIP)</i> . This will lower modem speed and turn off Error Correction Mode (ECM).  See <i>Related Information: Telephone Line Interference/VoIP</i> .
	(Available only for some countries.) Change the Tone/Pulse setting. See <i>Related Information: Set Tone or Pulse Dialing Mode</i> .
	Send a manual fax by pressing the Hook button, and dialing the number. Wait to hear fax-receiving tones before pressing the Start button.
	If there is no dial tone, connect a known working telephone and telephone line cord to the jack. Then lift the external telephone's handset and listen for a dial tone. If there is still no dial tone, ask your telephone company to check the line and/or wall jack.
The machine does not answer when called.	Make sure the machine is in the correct receive mode for your setup. See <i>Related Information: Choose the Correct Receive Mode</i> .  Check for a dial tone. If possible, call your machine to hear it answer. If there is still no answer, check that the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If there is no ringing when you call your machine, ask your telephone company to check the line.

### Handling Incoming Calls

Difficulties	Suggestions
The machine 'Hears' a voice as a CNG Tone.	If Easy Receive is set to On, your machine is more sensitive to sounds. It may mistakenly interpret certain voices or music on the line as a fax machine calling and respond with fax receiving tones. Deactivate the machine by pressing  . Try avoiding this problem by turning Easy Receive to Off. See <i>Related Information: Set Easy Receive</i> .
Sending a Fax Call to the machine.	If you answered on an extension telephone, press your Fax Receive Code (the factory setting is *51). If you answered on the external telephone (connected to the EXT. jack), press the Start button to receive the fax.  When your machine answers, hang up.
Custom features on a single line.	If you have Call Waiting, Call Waiting/Caller ID, Caller ID, Voice Mail, an answering machine, an alarm system or other custom feature on a single telephone line with your machine, it may create a problem sending or receiving faxes.  <b>For Example:</b> If you subscribe to Call Waiting or some other custom service and its signal comes through the line while your machine is sending or receiving a fax, the signal can temporarily interrupt or disrupt the faxes. Brother's ECM (Error Correction Mode) feature should help overcome this problem. This condition is related to the telephone system industry and is common to all devices that send and receive information on a single, shared line with custom features. If avoiding

Difficulties	Suggestions
	a slight interruption is crucial to your business, we recommend using a separate telephone line with no custom features.

## Receiving Faxes

Difficulties	Suggestions
Cannot receive a fax.	<p data-bbox="553 362 1477 459">Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you hear static or interference on your fax line, contact your local telephone provider.</p> <p data-bbox="553 472 1477 651">Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. If you subscribe to DSL, VoIP, or MagicJack services, call your service provider for connection instructions. If you are using a VoIP system, try changing the VoIP setting to <i>Basic (for VoIP)</i>. This will lower modem speed and turn off Error Correction Mode (ECM).</p> <p data-bbox="553 665 1230 694"><i>See Related Information: Telephone Line Interference/VoIP.</i></p> <p data-bbox="553 707 1477 804">Make sure the machine is in the correct Receive Mode. This is determined by the external devices and telephone subscriber services you have on the same line as the Brother machine.</p> <p data-bbox="553 817 1241 846"><i>See Related Information: Choose the Correct Receive Mode.</i></p> <ul data-bbox="553 860 1477 1413" style="list-style-type: none"> <li>• If you have a dedicated fax line and want your Brother machine to automatically answer all incoming faxes, you should select Fax only mode.</li> <li>• If your Brother machine shares a line with an external answering machine, you should select the External TAD mode. In External TAD mode, your Brother machine will receive incoming faxes automatically and voice callers will be able to leave a message on your answering machine.</li> <li>• If your Brother machine shares the line with a Voice Mail subscriber service, see <i>Related Information: Voice Mail</i>.</li> <li>• If your Brother machine is on a line with the Distinctive Ring subscriber service, see <i>Related Information: Distinctive Ring</i>.</li> <li>• If your Brother machine shares a line with other telephones and you want it to automatically answer all incoming faxes, you should select the Fax/Tel mode. In Fax/Tel mode, your Brother machine will receive faxes automatically and produce a pseudo/double-ring to alert you to answer voice calls.</li> <li>• If you do not want your Brother machine to answer any incoming faxes automatically, you should select the Manual mode. In Manual mode, you must answer every incoming call and activate the machine to receive faxes.</li> </ul> <p data-bbox="553 1426 1477 1487">Another device or service at your location may be answering the call before your Brother machine answers. To test this, lower the Ring Delay setting:</p> <ul data-bbox="553 1500 1477 1738" style="list-style-type: none"> <li>• If the Receive Mode is set to Fax Only or Fax/Tel, reduce the Ring Delay to one ring. <i>See Related Information: Set the Number of Rings Before the Machine Answers (Ring Delay).</i></li> <li>• If the Receive Mode is set to External TAD, reduce the number of rings programmed on your answering machine to two.</li> <li>• If the Receive Mode is set to Manual, DO NOT adjust the Ring Delay setting.</li> </ul> <p data-bbox="553 1751 956 1780">Have someone send you a test fax:</p> <ul data-bbox="553 1794 1477 2040" style="list-style-type: none"> <li>• If you received the test fax successfully, your machine is operating correctly. Remember to reset your Ring Delay or answering machine setting back to your original setting. If receiving problems recur after resetting the Ring Delay, then a person, device, or subscriber service is answering the fax call before the machine has a chance to answer.</li> <li>• If you were not able to receive the fax, then another device or subscriber service may be interfering with your fax reception or there may be a problem with your fax line.</li> </ul>

Difficulties	Suggestions
	<p>If you are using a telephone answering machine (External TAD mode) on the same line as the Brother machine, make sure your answering machine is set up correctly.</p> <p>See <i>Related Information: Connect an External TAD.</i></p> <ol style="list-style-type: none"> <li>1. Plug the telephone line cord directly from the telephone wall jack to your Brother machine's LINE jack.</li> <li>2. Remove the protective cap from your Brother machine's EXT jack, and then plug the telephone line cord from your answering machine into the EXT jack.</li> <li>3. Set your answering machine to answer within four rings. If you are having problems receiving faxes or voice messages, set your answering machine to answer within two or three rings.</li> <li>4. Record the outgoing message on your answering machine. <ul style="list-style-type: none"> <li>• Record five seconds of silence at the beginning of your outgoing message.</li> <li>• Limit your speaking to 20 seconds.</li> <li>• End your outgoing message with your Fax Receive Code for people sending manual faxes. For example: "After the beep, leave a message or press *51 and Start to send a fax."</li> </ul> </li> <li>5. Set your answering machine to answer calls.</li> <li>6. Set your Brother machine's Receive Mode to External TAD. See <i>Related Information: Choose the Correct Receive Mode.</i></li> </ol>
	<p>Make sure your Brother machine's Easy Receive feature is turned On. Easy Receive is a feature that allows you to receive a fax even if you answered the call on an external or extension telephone.</p> <p>See <i>Related Information: Set Easy Receive.</i></p>
	<p>If you often get transmission errors due to possible interference on the telephone line or if you are using a VoIP system, try changing the Compatibility setting to <i>Basic(for VoIP)</i>.</p> <p>See <i>Related Information: Telephone Line Interference/VoIP.</i></p>

## Sending Faxes

Difficulties	Suggestions
Cannot send a fax.	<p>Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you subscribe to DSL, VoIP, or magicJack services, call your service provider for connection instructions.</p> <p>If you are using a VoIP system, try changing the VoIP setting to <i>Basic (for VoIP)</i>. This will lower modem speed and turn off Error Correction Mode (ECM).</p> <p>See <i>Related Information: Telephone Line Interference/VoIP.</i></p>
	<p>Print the Transmission Verification Report and check for an error.</p> <p>See <i>Related Information: Print Reports.</i></p>
	<p>Contact your administrator to check your Secure Function Lock Settings.</p>
	<p>Ask the other party to check that the receiving machine has paper.</p>
Poor sending quality.	<p>Try changing your resolution to Fine or S.Fine. Make a copy to check your machine's scanner operation. If the copy quality is poor, clean the scanner.</p> <p>See <i>Related Information: Clean the Scanner.</i></p>
Transmission Verification Report says RESULT:NG.	<p>There is probably temporary noise or static on the line. Try sending the fax again. If you are sending a PC-Fax message and get RESULT:NG on the Transmission Verification Report, your machine may be out of memory. To free up extra memory, you can turn off Fax Storage, print fax messages in memory or cancel a delayed fax. If the problem continues, ask the telephone company to check your telephone line.</p> <p>See <i>Related Information: Turn Off Memory Receive.</i></p>

Difficulties	Suggestions
	<p>See <i>Related Information: Print a Fax Stored in the Machine's Memory.</i></p> <p>See <i>Related Information: Cancel a Fax in Progress.</i></p> <p>See <i>Related Information: Check and Cancel a Pending Fax.</i></p> <p>If you often get transmission errors due to possible interference on the telephone line or if you are using a VoIP system, try changing the Compatibility setting to Basic(for VoIP).</p> <p>See <i>Related Information: Telephone Line Interference/VoIP.</i></p>
Sent faxes are blank.	<p>Make sure you are loading the document correctly.</p> <p>See <i>Related Information: Load Documents in the Automatic Document Feeder (ADF).</i></p> <p>See <i>Related Information: Load Documents on the Scanner Glass.</i></p>
Size of the sent fax is different from the document size.	<p>The machine may not detect the document size correctly for some documents, such as dark-color documents and transparencies.</p> <p>Select the correct document size option according to the size of your document.</p> <p>(MFC-J6535DW/MFC-J6935DW)</p> <p>The ADF document sensor may detect the wrong document size. Clean the ADF document sensor.</p> <p>See <i>Related Information: Clean the ADF Document Sensor.</i></p>
Vertical black lines when sending.	<p>Black vertical lines on faxes you send are typically caused by dirt or correction fluid on the glass strip. Clean the glass strip.</p> <p>See <i>Related Information: Clean the Scanner.</i></p>

## Telephone Line Interference/VoIP

If you are having problems sending or receiving a fax due to possible interference on the telephone line or if you are using a VoIP system, we recommend changing the modem speed to minimize errors in fax operations.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Settings] > [All Settings] > [Initial Setup] > [Compatibility].
2. Press the option you want.
  - [Basic (for VoIP)] reduces the modem speed to 9,600 bps and turns off color fax receiving and ECM, except for color fax-sending. Unless interference is a recurring problem on your telephone line, you may prefer to use it only when needed.  
To improve compatibility with most VoIP services, Brother recommends changing the compatibility setting to [Basic (for VoIP)].
  - [Normal] sets the modem speed at 14,400 bps.
  - [High] sets the modem speed at 33,600 bps.
3. Press .

- 
- VoIP (Voice over IP) is a type of phone system that uses an Internet connection, rather than a traditional phone line.
- 

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Settings] > [All Settings] > [Initial Setup] > [Compatibility].
2. Press the option you want.
  - [Basic (for VoIP)] reduces the modem speed to 9,600 bps and turns off color fax receiving and ECM, except for color fax-sending. Unless interference is a recurring problem on your telephone line, you may prefer to use it only when needed.

## Other Problems

### Copying Difficulties

Difficulties	Suggestions
Cannot make a copy.	Contact your administrator to check your Secure Function Lock Settings.
Black lines or streaks appear in copies. 	Black lines on copies are typically caused by dirt or correction fluid on the glass strip. Clean the glass strip, scanner glass, and the white bar and white plastic above them. See <i>Related Information: Clean the Scanner.</i>
Black marks or spots appear in copies.	Black marks or spots on copies are typically caused by dirt or correction fluid on the scanner glass. Clean the scanner glass and white plastic above it. See <i>Related Information: Clean the Scanner.</i>
Dark lines appear at regular intervals. 	Check and adjust the paper feed. See <i>Related Information: Correct the Paper Feed to Clear Vertical Lines.</i>
Copies are blank.	Make sure you are loading the document correctly. See <i>Related Information: Load Documents in the Automatic Document Feeder (ADF).</i> See <i>Related Information: Load Documents on the Scanner Glass.</i>
Poor copy results when using the ADF.	Try using the scanner glass. See <i>Related Information: Load Documents on the Scanner Glass.</i>
Paper size of copies is larger than expected when using the ADF. (MFC-J6535DW/MFC-J6935DW)	The ADF document sensor may detect the wrong document size. Clean the ADF document sensor. See <i>Related Information: Clean the ADF Document Sensor.</i>
Fit to Page does not work correctly.	Make sure the document is not skewed on the scanner glass. Reposition the document and try again.  The machine may not detect the document size correctly for some documents, such as dark-color documents and transparencies. Therefore, Fit to Page may not work.  Select an enlargement or reduction ratio other than Fit to Page according to the sizes of your document and paper.

### Scanning Difficulties

Difficulties	Suggestions
TWAIN or WIA errors appear when starting to scan. (Windows)	Make sure the Brother TWAIN or WIA driver is selected as the primary source in your scanning application. For example, in Nuance™ PaperPort™ 14, click <b>Desktop &gt; Scan Settings &gt; Select</b> to choose the Brother TWAIN/WIA driver.
TWAIN error appears when starting to scan. (Mac)	Make sure the Brother TWAIN driver is selected as the primary source in your scanning application. You can also scan documents using the ICA Scanner Driver.

Difficulties	Suggestions
OCR does not work.	Try increasing the scanning resolution.
Poor scanning results when using the ADF. (Black lines appear in the scanned data.)	Clean the white bar and the glass strip underneath it. See <i>Related Information: Clean the Scanner.</i>
	Try using the scanner glass. See <i>Related Information: Load Documents on the Scanner Glass.</i>
Size of scanning results is different from the document size. (MFC-J6535DW/MFC-J6935DW)	The machine may not detect the document size correctly for some documents, such as dark-color documents and transparencies. Therefore, the <b>Auto</b> option for the document size may not work. Select a document size option other than <b>Auto</b> according to the size of your document.
	The ADF document sensor may detect the wrong document size. Clean the ADF document sensor. See <i>Related Information: Clean the ADF Document Sensor.</i>

## Direct Photo Printing Difficulties

Difficulties	Suggestions
Part of my photo is missing when printed.	Make sure Borderless printing and Cropping are turned off. See <i>Related Information: Print Borderless Photos from a USB Flash Drive.</i> See <i>Related Information: Print Photos with Auto Cropping.</i>

## Software Difficulties

Difficulties	Suggestions
Cannot print.	Uninstall and reinstall the Brother driver.
“Device Busy” appears on the computer screen.	Make sure the machine is not showing an error message on the machine's display.

## Network Problems

- [Use the Network Connection Repair Tool \(Windows\)](#)
- [Where Can I Find My Brother Machine's Network Settings?](#)
- [I Cannot Complete the Wireless Network Setup Configuration](#)
- [My Brother Machine Cannot Print, Scan, or PC-FAX Receive over the Network](#)
- [I Want to Check that My Network Devices are Working Correctly](#)
- [Troubleshooting](#)

## Use the Network Connection Repair Tool (Windows)

Use the Network Connection Repair Tool to fix the Brother machine's network settings. It will assign the correct IP address and Subnet Mask.

- Windows Vista/Windows 7/Windows 8/Windows 10  
You must log on with Administrator rights.
- Make sure the Brother machine is turned on and is connected to the same network as your computer.

1. Do one of the following:

Option	Description
Windows Vista/ Windows 7	Click  ( <b>Start</b> ) > <b>All Programs</b> > <b>Brother</b> > <b>Brother Utilities</b> .  Click the drop-down list and select your model name (if not already selected). Click <b>Tools</b> in the left navigation bar, and then click <b>Network Connection Repair Tool</b> .
Windows 8/ Windows 10	Launch  ( <b>Brother Utilities</b> ), and then click the drop-down list and select your model name (if not already selected). Click <b>Tools</b> in the left navigation bar, and then click <b>Network Connection Repair Tool</b> .

- If the **User Account Control** screen appears, do one of the following:
  - Windows Vista: Click **Allow**.
  - Windows 7/Windows 8/Windows 10: Click **Yes**.

2. Follow the on-screen instructions.

3. Check the diagnosis by printing the Network Configuration Report.

The Network Connection Repair Tool will start automatically if you select the **Enable Connection Repair Tool** option in the Status Monitor. Right-click the Status Monitor screen, and then click **Other Settings** > **Enable Connection Repair Tool**. This is not recommended when your network administrator has set the IP address to Static, since it will automatically change the IP address.

If the correct IP address and the Subnet Mask are still not assigned even after using the Network Connection Repair Tool, ask your network administrator for this information.

## I Cannot Complete the Wireless Network Setup Configuration

Turn your wireless router off and back on. Then try to configure the wireless settings again. If you are unable to resolve the problem, follow the instructions below:

Investigate the problem using the WLAN Report.

Cause	Action	Interface
Your security settings (SSID/ Network Key) are not correct.	<ul style="list-style-type: none"> <li>• Confirm the security settings using the Wireless Setup Helper utility. For more information and to download the utility, go to your model's <b>Downloads</b> page on the Brother Solutions Center at <a href="http://support.brother.com">support.brother.com</a>.</li> <li>• Select and confirm that you are using the correct security settings.                             <ul style="list-style-type: none"> <li>- See the instructions supplied with your wireless LAN access point/router for information on how to find the security settings.</li> <li>- The manufacturer's name or model number of the wireless LAN access point/router may be used as the default security settings.</li> <li>- Consult with the access point/router manufacturer, your Internet provider, or network administrator.</li> </ul> </li> </ul>	Wireless
Your Brother machine's MAC address is not allowed.	Confirm that the Brother machine's MAC Address is allowed in the filter. You can find the MAC Address on your Brother machine's control panel.	Wireless
Your wireless LAN access point/router is in stealth mode (not broadcasting the SSID).	<ul style="list-style-type: none"> <li>• Enter the correct SSID name or Network Key manually.</li> <li>• Check the SSID name or the Network Key in the instructions supplied with your wireless LAN access point/router and reconfigure the wireless network setup.</li> </ul>	Wireless
Your security settings (SSID/ password) are not correct.	<ul style="list-style-type: none"> <li>• Confirm the SSID and password.                             <ul style="list-style-type: none"> <li>- When you are configuring the network manually, the SSID and password are displayed on your Brother machine. If your mobile device supports the manual configuration, the SSID and password will be displayed on your mobile device's screen.</li> </ul> </li> </ul>	Wi-Fi Direct
You are using Android™ 4.0.	If your mobile device disconnects (approximately six minutes after using Wi-Fi Direct), try the one-push configuration using WPS (recommended) and set the Brother machine as a G/O.	Wi-Fi Direct
Your Brother machine is placed too far from your mobile device.	Move your Brother machine within about 3.3 feet (1 meter) of the mobile device when you configure the Wi-Fi Direct network settings.	Wi-Fi Direct
There are some obstructions (walls or furniture, for example) between your machine and the mobile device.	Move your Brother machine to an obstruction-free area.	Wi-Fi Direct
There is a wireless computer, Bluetooth-supported device, microwave oven, or digital cordless phone near the Brother machine or the mobile device.	Move other devices away from the Brother machine or the mobile device.	Wi-Fi Direct
If you have checked and tried all of the above, but still cannot complete the Wi-Fi	<ul style="list-style-type: none"> <li>• Turn your Brother machine off and back on. Then try to configure the Wi-Fi Direct settings again.</li> </ul>	Wi-Fi Direct

---

Cause	Action	Interface
Direct configuration, do the following:	<ul style="list-style-type: none"><li data-bbox="496 170 1230 253">• If you are using your Brother machine as a client, confirm how many devices are allowed in the current Wi-Fi Direct network, and then check how many devices are connected.</li></ul>	

### For Windows

If your wireless connection has been interrupted, and you have checked and tried all of the above, we recommend using the Network Connection Repair Tool.

## Check Network Devices Using the Ping Command

Check the IP addresses of both your computer and your Brother machine, and then confirm whether the network is operating correctly.

- >> [Configure the IP Address on your computer \(Windows\)](#)
- >> [Configure the IP Address on your computer \(Mac\)](#)
- >> [Configure the IP Address on your Brother machine](#)

### Configure the IP Address on your computer (Windows)

1. Do one of the following:

- Windows Vista and Windows 7

Click  /Start > All Programs > Accessories > Command Prompt

- Windows 8

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Search** > **Command Prompt**.

- Windows 10

Click  > All apps > Windows System > Command Prompt.

- Type "ipconfig" and then press the Enter key on your keyboard.
- Confirm the values for the IPv4 address and subnet mask.
- Type "exit" and then press the Enter key on your keyboard.

### Configure the IP Address on your computer (Mac)

- Select **System Preferences** from the Apple menu.
- Click **Network** > **Advanced** > **TCP/IP**
- Confirm the values for the IPv4 address and subnet mask.

### Configure the IP Address on your Brother machine

Print the Network Configuration Report, and confirm the values for the IP address and subnet mask.

```
<IP Settings >
IP Address      192.168.11.250      (set manually)
Subnet Mask    255.255.255.0
IP Gateway     192.168.100.200
Boot Method    STATIC
Boot Tries     3
IP Filter      Disabled
```

Check the IP addresses for both your computer and your Brother machine. Confirm that the network address portions are the same. For example, if the subnet mask is "255.255.255.0", it is normal for only the host address portions to be different.

	Network Address	Host Address	
IP Address	192.168.100.	250	Set the final number, which corresponds to "0" in the subnet mask, to 1–254.
Subnet Mask	255.255.255.	0	Usually, there are no problems when the subnet mask is "255.255.255.0". Use the same value for all of your computers.

2. Press the reset option you want to use.
3. Press [OK] for two seconds to reboot the machine.

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Settings] > [All Settings] > [Initial Setup] > [Reset].
2. Press the reset option you want to use.
3. Press [OK] for two seconds to reboot the machine.

### Related Information

- [Troubleshooting](#)
- [Reset Functions Overview](#)
- [Transfer Your Faxes or Fax Journal Report](#)

## Reset Functions Overview

The following reset functions are available:

1. [Machine Reset]

You can reset all the machine's settings that you have changed, such as Date and Time and Ring Delay. The Address Book, Fax Reports, and Call History will remain.

2. [Network]

Reset the print server back to its default factory settings (includes Password and IP Address information).

3. [Address Book & Fax]

Address Book & Fax resets the following settings:

- Address Book  
(Address Book and Setup Groups)
- Programmed fax jobs in the memory  
(Delayed Fax and Delayed Batch Transmission)
- Station ID  
(Name and Number)
- Remote Fax Options  
(Fax Forwarding and Paging (USA and Canada only))
- Report  
(Transmission Verification Report, Address Book and Fax Journal)
- History  
(Caller ID history and Outgoing Call)
- Faxes in memory

4. [All Settings]

Use the Settings Reset function to reset all machine's settings to the settings originally set at the factory. Brother strongly recommends you perform this operation when you dispose of the machine.

Unplug the interface cable before you choose [Network] or [All Settings].

## **Routine Maintenance**

- [Replace the Ink Cartridges](#)
- [Clean Your Brother Machine](#)
- [Check Your Brother Machine](#)
- [Correct the Paper Feed to Clear Vertical Lines](#)
- [Change the Print Setting Options When Having Printing Problems](#)
- [Pack and Ship Your Brother Machine](#)

## Replace the Ink Cartridges

Your Brother machine is equipped with an ink dot counter. The ink dot counter automatically monitors the level of ink in each of the four cartridges. When the machine detects an ink cartridge is running out of ink, the machine will display a message.

The LCD displays which ink cartridge is low or needs replacing. Be sure to follow the LCD prompts to replace the ink cartridges in the correct order.

Even though the machine tells you to replace an ink cartridge, there will be a small amount of ink left in the ink cartridge. It is necessary to keep some ink in the ink cartridge to prevent air from drying out and damaging the print head assembly.

### **CAUTION**

If ink gets in your eyes, wash it out with water at once and call a doctor if you are concerned.

### **IMPORTANT**

Brother strongly recommends that you do not refill the ink cartridges provided with your machine. We also strongly recommend that you continue to use only Genuine Brother Brand replacement ink cartridges. Use or attempted use of potentially incompatible ink and/or cartridges in the Brother machine may cause damage to the machine and/or may result in unsatisfactory print quality. Our warranty coverage does not apply to any problem that is caused by the use of unauthorized third-party ink and/or cartridges. To protect your investment and obtain premium performance from the Brother machine, we strongly recommend the use of Genuine Brother Supplies.

1. Open the ink cartridge cover (1).

If one or more of the ink cartridges needs replacing, the LCD displays [Black and White Print Only] or [Replace Ink].

If the black cartridge is empty, the only message that will appear is [Replace Ink]. You must replace the black cartridge.

2. Press the lock release lever to release the cartridge color indicated on the LCD and remove the cartridge from the machine, as shown in the illustration.

3. Open the new ink cartridge bag for the color indicated on the LCD, and take out the ink cartridge.

### IMPORTANT

- DO NOT touch the cartridge in the area indicated (1); this can prevent the machine from detecting the cartridge.

- Quickly shake just the **black** ink cartridge horizontally 15 times as shown, before inserting it into the machine.

4. Insert the ink cartridge in the direction of the arrow on the label.  
Each color has its own correct position.

5. Gently push the area marked “PUSH” until the ink cartridge locks into place, and then close the ink cartridge cover.

The machine will automatically reset the ink dot counter.

- If you replaced an ink cartridge, for example, the Black cartridge, the LCD may ask you to verify that it is a brand new one (for example, [Did you change Black]). For each new cartridge you installed, select [Yes] to reset the ink dot counter for that color. If the ink cartridge you installed is not a brand new one, be sure to select [No].
- If the LCD displays [No Ink Cartridge] or [Cannot Detect] after you install the ink cartridge, check that the ink cartridge is installed correctly. Remove the ink cartridge and reinstall it slowly until it locks into place.

## IMPORTANT

- DO NOT shake the ink cartridges. If ink stains your skin or clothing, wash with soap or detergent at once.
- DO NOT take out ink cartridges if you do not need to replace them; the machine will not know the quantity of ink left in the cartridge.
- DO NOT touch the cartridge insertion slots; the ink may stain your skin.
- If you mix the colors by installing an ink cartridge in the wrong position, the LCD shows [Wrong Ink Color].  
Check which ink cartridges are not matched by color to their ink cartridge positions and move them to their proper positions.
- When you open an ink cartridge, install it in the machine and use it up within six months of installation. Use unopened ink cartridges by the expiration date written on the cartridge package.
- DO NOT dismantle or tamper with the ink cartridge; this can cause the ink to leak out of the cartridge.

- [Clean the Paper Pick-up Rollers for Paper Tray #2](#)

## Clean the Scanner

1. Unplug the machine from the AC power outlet.
2. Lift the document cover (1). Clean the scanner glass (2) and the white plastic (3) with a soft lint-free cloth moistened with water.

3. In the ADF unit, clean the white bar (1) and the glass strip (2) with a lint-free cloth moistened with water.

4. (MFC-J6930DW/MFC-J6935DW) Open the scanner glass cover (1), and clean the white bar (2) and the glass strip (3) with a soft lint-free cloth moistened with water.

In addition to cleaning the scanner glass and glass strip with a non-flammable glass cleaner, run your fingertip over the glass to see if you can feel anything on it. If you feel dirt or debris, clean the glass again concentrating on that area. You may need to repeat the cleaning process three or four times. To test, make a copy after each cleaning attempt.

When there is a spot of dirt or correction fluid on the glass strip, the printed sample shows a vertical line.

After the glass strip is cleaned, the vertical line is gone.

## Clean the Print Head from Your Computer (Windows)

To maintain good print quality, the machine automatically cleans the print head when needed. If there is a print quality problem, start the cleaning process manually.

1. Do one of the following:

- For Windows Vista and Windows Server 2008

Click  (**Start**) > **Control Panel** > **Hardware and Sound** > **Printers**.

- For Windows 7 and Windows Server 2008 R2

Click  (**Start**) > **Devices and Printers**.

- For Windows 8

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.

- For Windows Server 2012

Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware** group, click **View devices and printers**.

- For Windows Server 2012 R2

Click **Control Panel** on the **Start** screen. In the **Hardware** group, click **View devices and printers**.

- For Windows 10

Click  > **All apps** > **Windows System** > **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.

2. Right-click the **Brother MFC-XXXX Printer** icon (where XXXX is your model name), and then select **Printing preferences**. If printer driver options appear, select your printer driver.

The printer driver dialog box appears.

3. Click the **Maintenance** tab.

4. Select one of the following options:

Option	Description
<b>Check Print Quality...</b>	Use to print the test page and check the print quality.
<b>Print Head Cleaning...</b>	Use to start the cleaning process manually. Select if a line or blank spaces appear in text or graphics on the test page.

5. Do one of the following:

- If you selected the **Check Print Quality...** option, click **Start**.

The machine prints the test page.

- If you selected the **Print Head Cleaning...** option, select the **Black only**, **Color only**, or **All** option for the cleaning type, and then click **Next**.

6. Select the **Normal**, **Strong**, or **Strongest** option for the cleaning strength, and then click **Next**.

7. Click **Start**.

The machine starts cleaning.

## Clean the Machine's LCD

### IMPORTANT

DO NOT use liquid cleaners (including ethanol).

1. Press and hold down  to turn off the machine. The LCD displays [Shutting Down] for a few seconds before the power goes off.
2. Clean the LCD with a dry, soft lint-free cloth.

### ✓ Related Information

- [Clean Your Brother Machine](#)

## Clean the Outside of the Machine

### IMPORTANT

- Use neutral detergents. Cleaning with volatile liquids such as thinner or benzine will damage the outside surface of the machine.
- DO NOT use cleaning materials that contain ammonia.
- DO NOT use isopropyl alcohol to remove dirt from the control panel. It may crack the panel.

1. If the paper support flap is open, close it, and then close the paper support.
2. Pull the paper trays (1) completely out of the machine as shown by the arrow.

3. Wipe the outside of the machine with a dry, lint-free cloth to remove dust.

4. Remove anything that is stuck inside the paper tray. Wipe the inside and the outside of the paper tray with a dry, lint-free cloth to remove dust.

5. Slowly push the paper tray completely into the machine.

### Related Information

- [Clean Your Brother Machine](#)

## Clean the Machine's Printer Platen

### WARNING

 Be sure to unplug the machine from the AC power outlet before cleaning the printer platen to avoid an electrical shock.

1. Using both hands, use the finger holds on each side of the machine to lift the scanner cover into the open position.
2. Clean the machine's printer platen (1) and the area around it, wiping off scattered ink with a dry, soft lint-free cloth.

### IMPORTANT

DO NOT bend or apply too much pressure on the nine tabs (2). They could be damaged.

3. Gently close the scanner cover using both hands.

4. Reconnect the power cord.

### Related Information

- [Clean Your Brother Machine](#)
- [Paper Handling and Printing Problems](#)

## Clean the Paper Feed Rollers

If the paper feed rollers are stained with ink or have a buildup of paper dust, it may cause paper feed problems.

1. Unplug the machine from the AC power outlet.
2. If the paper support flap is open, close it, and then close the paper support.
3. Pull the paper tray (1) completely out of the machine as shown by the arrow.

4. Lift the paper support (1), and then pull it at an angle completely out of the machine as shown by the arrow.

5. Clean the front side of the Paper Feed Rollers (1) with a soft lint-free cloth moistened with water, using a side-to-side motion. After cleaning, wipe the rollers with a dry, soft lint-free cloth to remove all moisture.

6. Lift the Jam Clear Flap (2), and then clean the back side of the Paper Feed Rollers (1) with a soft lint-free cloth moistened with water. After cleaning, wipe the rollers with a dry, soft lint-free cloth to remove all moisture.

7. Put the paper support firmly back in the machine. Make sure you fit the paper support into the channels.

8. Slowly push the paper tray completely into the machine.
9. Reconnect the power cord.

Do not use the machine again until the rollers are dry. Using the machine before the rollers are dry may cause paper feed problems.

### Related Information

## Check the Print Quality

If faded or streaked colors and text appear or if text is missing on your printouts, the print head nozzles may be clogged. Print the Print Quality Check Sheet and look at the nozzle check pattern.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Ink] > [Improve Print Quality] > [Check Print Quality].

You can also press  [Settings] > [Maintenance] > [Improve Print Quality] > [Check Print Quality].

2. Press [Start].

The machine prints the Print Quality Check Sheet.

3. Check the quality of the four color blocks on the sheet.

4. The touchscreen asks about the print quality. Do one of the following:

- If all lines are clear and visible, press [No], and then press  to finish the Print Quality check.
- If lines are missing (see **Poor**, below), press [Yes].

#### OK

#### Poor

5. The touchscreen asks you to check the print quality of each color. Press the number of the pattern (1–4) that most closely matches the printing result.

6. Do one of the following:

- If print head cleaning is needed, press [Start] to start the cleaning procedure.
- If print head cleaning is not needed, the Maintenance screen reappears on the touchscreen. Press .

7. After the cleaning procedure is finished, the touchscreen asks if you want to print the Print Quality Check Sheet again. Press [Yes], and then press [Start].

The machine prints the Print Quality Check Sheet again. Check the quality of the four color blocks on the sheet again.

If you clean the print head and the print has not improved, try installing a new Genuine Brother Brand replacement ink cartridge for each problem color. Try cleaning the print head again. If the print has not improved, contact Brother Customer Service.

## IMPORTANT

DO NOT touch the print head. Touching the print head may cause permanent damage and may void the print head's warranty.

When a print head nozzle is clogged, the printed sample looks like this.

After the print head nozzle is cleaned, the lines are gone.

## MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Ink] > [Improve Print Quality] > [Check Print Quality].

You can also press  [Settings] > [Maintenance] > [Improve Print Quality] > [Check Print Quality].

2. Press [Start].

The machine prints the Print Quality Check Sheet.

3. Check the quality of the four color blocks on the sheet.

4. The touchscreen asks about the print quality. Do one of the following:

- If all lines are clear and visible, press [No], and then press  to finish the Print Quality check.
- If lines are missing (see **Poor**, below), press [Yes].

**OK**

## Poor

5. The touchscreen asks you to check the print quality of each color. Press the number of the pattern (1–4) that most closely matches the printing result.
6. Do one of the following:
  - If print head cleaning is needed, press [Start] to start the cleaning procedure.
  - If print head cleaning is not needed, the Maintenance screen reappears on the touchscreen. Press .
7. After the cleaning procedure is finished, the touchscreen asks if you want to print the Print Quality Check Sheet again. Press [Yes], and then press [Start].

The machine prints the Print Quality Check Sheet again. Check the quality of the four color blocks on the sheet again.

If you clean the print head and the print has not improved, try installing a new Genuine Brother Brand replacement ink cartridge for each problem color. Try cleaning the print head again. If the print has not improved, contact Brother Customer Service.

## IMPORTANT

DO NOT touch the print head. Touching the print head may cause permanent damage and may void the print head's warranty.

When a print head nozzle is clogged, the printed sample looks like this.

After the print head nozzle is cleaned, the lines are gone.

## Check the Print Alignment from Your Brother Machine

If your printed text becomes blurred or images become faded after transporting the machine, adjust the print alignment.

>> [MFC-J6530DW/MFC-J6730DW](#)

>> [MFC-J6535DW/MFC-J6930DW/MFC-J6935DW](#)

### MFC-J6530DW/MFC-J6730DW

1. Press  [Ink] > [Improve Print Quality] > [Alignment].

You can also press  [Settings] > [Maintenance] > [Improve Print Quality] > [Alignment].

2. Press [Next].
3. Press ▲ or ▼ to display the paper size that needs a print alignment adjustment, and then press it.
4. Press [Basic alignment] or [Advanced alignment].
5. Load the selected paper size in the tray, and then press [Start].

The machine prints the Alignment Check Sheet.

(A)

6. For the (A) pattern, press ▲ or ▼ to display the number of the test print with the fewest visible vertical stripes (1-9), and then press it (in the example above, row number 6 is the best choice). Press [OK].

Repeat this step for the rest of the patterns.

When the print alignment is not adjusted correctly, text looks blurry or crooked, like this.

After the print alignment is adjusted correctly, text looks like this.

7. Press .

### MFC-J6535DW/MFC-J6930DW/MFC-J6935DW

1. Press  [Ink] > [Improve Print Quality] > [Alignment].

You can also press  [Settings] > [Maintenance] > [Improve Print Quality] > [Alignment].

2. Press [Next].
3. Swipe up or down or press ▲ or ▼ to display the paper size that needs a print alignment adjustment, and then press it.
4. Press [Basic alignment] or [Advanced alignment].
5. Load the selected paper size in the tray, and then press [Start].

The machine prints the Alignment Check Sheet.

(A)

6. For the “A” pattern, swipe up or down or press ▲ or ▼ to display the number of the test print with the least visible vertical stripes (1-9), and then press it (in the example, number 6 is the best choice). Press [OK]. Repeat this step for the rest of the patterns.

When the print alignment is not adjusted correctly, text looks blurry like this.

After the print alignment is adjusted correctly, text looks like this.

7. Press .

## Check the Print Alignment from Your Computer (Windows)

If your printed text becomes blurred or images become faded after transporting the machine, adjust the print alignment.

- Do one of the following:
  - For Windows Vista and Windows Server 2008  
Click  (**Start**) > **Control Panel** > **Hardware and Sound** > **Printers**.
  - For Windows 7 and Windows Server 2008 R2  
Click  (**Start**) > **Devices and Printers**.
  - For Windows 8  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
  - For Windows Server 2012  
Move your mouse to the lower right corner of your desktop. When the menu bar appears, click **Settings**, and then click **Control Panel**. In the **Hardware** group, click **View devices and printers**.
  - For Windows Server 2012 R2  
Click **Control Panel** on the **Start** screen. In the **Hardware** group, click **View devices and printers**.
  - For Windows 10  
Click  > **All apps** > **Windows System** > **Control Panel**. In the **Hardware and Sound** group, click **View devices and printers**.
- Right-click the **Brother MFC-XXXX Printer** icon (where XXXX is your model name), and then select **Printer properties**. If printer driver options appear, select your printer driver.
- Click the **General** tab, and then click the **Printing Preferences...** or **Preferences...** button.  
The printer driver dialog box appears.
- Click the **Advanced** tab.
- Click the **Other Print Options** button.
- Select the **Reduce Uneven Lines** option.
- Select one of the following options:

Option	Description
<b>A3, JIS B4, Ledger</b>	Adjust the print alignment for A3, JIS B4 (available only for some countries) and Ledger size paper.
<b>A4, Letter</b>	Adjust the print alignment for A4 and Letter size paper.
<b>Other Sizes</b>	Adjust the print alignment for other paper sizes.

- Click **OK** to return to the printer driver window.
- Click **OK**.

## Pack and Ship Your Brother Machine

- When you transport the machine, use the packing materials that came with your machine. If you do not pack the machine correctly, any damage that may occur in transit may not be covered by your warranty.
- The machine should be adequately insured with the carrier.

### IMPORTANT

It is important to allow the machine to “park” the print head after a print job. Listen carefully to the machine before unplugging it to make sure that all mechanical noises have stopped. Not allowing the machine to finish this parking process may lead to print problems and possible damage to the print head.

1. Unplug the machine from the AC power outlet.
2. Using both hands, use the finger holds on each side of the machine to lift the scanner cover into the open position. Then unplug the machine from the telephone wall jack and take the telephone line cord out of the machine.
3. Unplug the interface cable from the machine, if it is connected.
4. Remove the orange protective part from its storage place inside the machine.

5. Gently close the scanner cover using the finger holds on each side.

6. Open the ink cartridge cover.
7. Press the ink release levers to release the ink cartridges and then take out the ink cartridges.
8. Install the orange protective part and then close the ink cartridge cover.

## IMPORTANT

- Make sure the plastic tab on the left side of the orange protective part (1) clicks securely into place (2).

- If you are not able to find the orange protective part, ship the machine without it. DO NOT leave the ink cartridges in the machine during shipping.

9. Wrap the machine in the bag.

10. Pack the machine in the original carton with the original packing material as shown below.  
Do not pack the used ink cartridge in the carton.

If you are returning your machine to Brother as part of the Exchange Service, pack only the machine. Keep all separate parts and printed materials to use with your “Exchange” machine.

11. Close the carton and tape it shut.

## Set Your Station ID

Set the machine's Station ID if you want the date and time to appear on each fax you send.

### NOTE

(USA only)

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or electronic device to send any message via a telephone fax machine unless such messages clearly contain, in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity or other individual sending the message and the telephone number of the sending machines or such business, other entity or individual. To program this information into the fax machine, see *Set the date and time* and *Set your Station ID*.

	WPS w/ PIN Code	-	-	Configure your wireless network settings using WPS with a PIN.
	WLAN Status	Status	-	View the current wireless network status.
Signal		-	View the current wireless network signal strength.	
SSID		-	View the current SSID.	
Comm. Mode		-	View the current Communication Mode.	
MAC Address	-	-	View the machine's MAC address.	
Wi-Fi Direct	Push Button	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.
	PIN Code	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.

Level 1	Level 2	Level 3	Level 4	Descriptions	
<b>Wi-Fi Direct</b>	<b>Manual</b>	-	-	Configure your Wi-Fi Direct network settings manually.	
	<b>Group Owner</b>	-	-	Set your machine as the Group Owner.	
	<b>Device Information</b>	<b>Device Name</b>	-	-	View your machine's device name.
		<b>SSID</b>	-	-	View the Group Owner's SSID. When the machine is not connected, the LCD displays Not Connected.
		<b>IP Address</b>	-	-	View your machine's current IP Address.
	<b>Status Information</b>	<b>Status</b>	-	-	View the current Wi-Fi Direct network status.
		<b>Signal</b>	-	-	View the current Wi-Fi Direct network signal strength. When your machine acts as Group Owner, the LCD always indicates a strong signal.
	<b>I/F Enable</b>	-	-	-	Turn the Wi-Fi Direct connection on or off.
<b>E-mail/IFAX</b> (Available after Internet Fax (I-Fax) is downloaded.)	<b>Mail Address</b>	-	-	Enter the email address. (Up to 60 characters)	
	<b>Setup Server</b>	<b>SMTP</b>	<b>Server</b>	Enter the SMTP server name and address.	
			<b>Port</b>	Enter the SMTP port number.	
			<b>Auth. for SMTP</b>	Select the Security method for email notification.	
			<b>SSL/TLS</b>	Send or receive an email via an email server that requires secure SSL/TLS communication.	
			<b>Verify Certification</b>	Verify the SMTP Server Certificate automatically.	
		<b>POP3/IMAP4</b>	<b>Protocol</b>	Select the protocol for receiving an email from the server.	
			<b>Server</b>	Enter the server name and address.	
			<b>Port</b>	Enter the port number.	
			<b>Mailbox Name</b>	Enter the mailbox name. (Up to 60 characters)	
			<b>Mailbox Password</b>	Enter the password to login to the server. (Up to 32 characters)	
			<b>Select Folder</b>	Select the specified folder in the mailbox using the IMAP4 protocol.	
			<b>SSL/TLS</b>	Send or receive an E-mail via an E-mail server that requires secure SSL/TLS communication.	

Level 1	Level 2	Level 3	Level 4	Descriptions	
E-mail/IFAX (Available after Internet Fax (I-Fax) is downloaded.)	Setup Server	POP3/IMAP4	Verify Certification	Verify the Server Certificate automatically.	
			APOP	Turn APOP on or off.	
	Setup Mail RX	Auto Polling	Auto Polling	Automatically check the server for new messages.	
			Poll Frequency	Set the interval for checking new messages on the server.	
			Header	Select the contents of the email header to be printed.	
			Del/Read Error Mail	Set the machine to automatically delete error mails.	
			Notification	Receive notification messages.	
	Setup Mail TX	Sender Subject	Size Limit	View the subject.	
			Size Limit	Size Limit	Limit the size of email documents.
				Maximum Size (MB)	
			Notification	Send notification messages.	
	Setup Relay	Relay Broadcast	Relay Broadcast	Relay a document to another fax machine.	
			Relay Domain	Register the Domain name.	
			Relay Report	Print the relay Broadcast Report.	
Manual Receive	-	-	Manually check the POP3 or IMAP4 server for new messages.		
Message from Brother	Message from Brother	-	-	Display messages and notifications from Brother.	
	Status	-	-		
Web Connect Settings	Proxy Settings	Proxy Connection	-	Change the Web connection settings.	
		Address	-		
		Port	-		
		User Name	-		
		Password	-		
Network I/F	-	-	-	Select the network connection type.	
Network Reset	-	-	-	Restore all network settings back to the factory settings.	

[Settings] > [All Settings] > [Print Reports]

Level 1	Descriptions
Transmission	Print a Transmission Verification Report for your last transmission.
Address Book	Print a list of names and numbers stored in the Address Book.
Fax Journal	Print a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit. RX means Receive.)
User Settings	Print a list of your settings.

Level 1	Descriptions
Network Configuration	Print a list of your Network settings.
WLAN Report	Print the wireless LAN connection results.
Caller ID History	Print a list of the available Caller ID information about the last 30 received faxes and telephone calls.

[Settings] > [All Settings] > [Machine Info.]

Level 1	Level 2	Descriptions
Serial No.	-	Check your machine's serial number.
Firmware Version	Main Version	Check your machine's firmware version.
Firmware Update	-	Update your machine to the latest firmware.
Firmware Auto Check	-	View firmware information on the Home screen.

[Settings] > [All Settings] > [Initial Setup]

Level 1	Level 2	Descriptions
Date & Time	Date	Add the date and time on the screen and in the headings of the faxes you send.
	Time	
	Clock Type (USA and Canada only)	Select the time format (12-hour or 24-hour).
	Auto Daylight (USA and Canada only)	Set the machine to change automatically for Daylight Saving Time.
	Time Zone	Set your time zone.
Station ID	Fax	Enter your name and fax number so it appears on each page you fax.
	Name	
Tone/Pulse (Available only for some countries.)	-	Select the dialing mode.
Fax Auto Redial	-	Set the machine to redial the last fax number if the fax did not go through because the line was busy.
Dial Tone	-	Shorten the dial tone detect pause.
Dial Prefix	-	Set a prefix number to always be added before the fax number every time you dial.
Compatibility	-	Adjust the equalization for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
Reset	Machine Reset	Restore all the machine's settings that you have changed, such as Date and Time and Ring Delay.
	Network	Restore all network settings back to the factory settings.
	Address Book & Fax	Erase all stored phone numbers and fax settings.
	All Settings	Restore all the machine's settings back to the factory settings.
Local Language	-	Change your LCD language.

[Fax] (When [Fax Preview] is [Off])

Level 1	Level 2	Level 3	Descriptions
Redial (Pause)	-	-	Redial the last number called. When you are entering a fax or telephone number on the Touchpanel, Redial changes to Pause on the LCD. Press Pause when you need a delay while dialing numbers, such as access codes and credit card numbers. You can also store a pause when you set up addresses.
Address Book	 (Search:)	-	When LDAP is off, the search will be within the Local Address Book. When LDAP is on, the search will be within the Local Address Book and LDAP Server.
		Detail (This will appear only when LDAP is on.)	View detailed information about the selected address.
	Edit	-	Store Address Book numbers, set up Group numbers for Broadcasting, and change and delete Address Book numbers.
	-	Apply	Start sending a fax using the Address Book.
Call History	Redial	-	Redial the last number you dialed.
	Outgoing Call	Apply	Select a number from the Outgoing Call history and then send a fax to it, add it to the Address Book, or delete it.
		Edit	
	Caller ID History	Apply	Select a number from the Caller ID history and then send a fax to it, add it to the Address Book, or delete it.
Edit			
Options	Fax Resolution	-	Set the resolution for outgoing faxes.
	Contrast	-	Adjust the contrast.
	Document Size	-	Set the document size for outgoing faxes.
	Scan Long Paper	-	Scan a long document using the ADF.
	Broadcasting	Add Number	Send the same fax message to more than one fax number.
	Preview	-	Preview a fax message before you send it.
	Color Setting	-	Set whether faxes are sent in black and white or color.
	Delayed Fax	Delayed Fax	Set the time of day the delayed faxes will be sent.
		Set Time	
	Batch TX	-	Combine delayed faxes to the same fax number at the same time of day into one transmission.
	Real Time TX	-	Send a fax without using the memory.
Overseas Mode	-	Set to On if you have difficulty sending faxes overseas.	

Level 1	Level 2	Level 3	Descriptions
Options	Call History	Redial	Redial the last number you dialed.
		Outgoing Call	Select a number from the Outgoing Call history and then send a fax to it, add it to the Address Book, or delete it.

	Scan Screen	-	Set the default Scan screen settings.
Notice Settings	Document Alert	-	Displays the alert when a document is left on the scanner glass.
	Copy Tip	-	Displays the document placement guidance when you open the document cover.
	Scan Result (Skip Blank Page)	-	Displays a scan result of skip blank page when finished.
Sleep Mode	-	-	Select how long the machine must be idle before it goes into Sleep Mode.
Auto Power Off	-	-	Select how long the machine must wait before it automatically turns itself off after entering Sleep Mode.  When set to Off, the machine will not power off automatically.

[Settings] > [All Settings] > [Shortcut Settings]

Level 1	Level 2	Descriptions
(Select shortcut button.)	Rename	Change the shortcut name.
	Edit	Change the shortcut settings.
	Delete	Delete the shortcut.

[Settings] > [All Settings] > [Fax]

Level 1	Level 2	Level 3	Descriptions
Setup Receive	Ring Delay	-	Set the number of rings before the machine answers in Fax Only or Fax/Tel mode.
	Receive Mode	-	Select the Receive Mode that best suits your needs.
	F/T Ring Time	-	Set the length of the pseudo/double-ring time in Fax/Tel mode.
	Fax Preview	-	View received faxes on the LCD.
	Easy Receive	-	Receive fax messages automatically when you answer a call and hear fax tones.
	Remote Codes	-	Answer calls at an extension or external telephone and use codes to turn the machine on or off. You can personalize the codes.
	Auto Reduction	-	Reduce the size of incoming faxes.
	PC Fax Receive	-	Set the machine to send faxes to your computer. You can turn on the Backup Print safety feature.

Level 1	Level 2	Level 3	Descriptions
Setup Receive	Memory Receive	-	Set the machine to forward fax messages, to call your pager or cell phone, to store incoming faxes in the memory (so you can retrieve them while you are away from your machine), or the cloud service.  If you select Fax Forward, or Forward to Cloud, you can turn on the Backup Print safety feature.
	Fax Rx Stamp	-	Print the received time and date on the top of received faxes.
Report Setting	Transmission	-	Select the initial setup for the Transmission Verification Report.
	Journal Period	-	Set the interval for automatic printing of the Fax Journal.  If you select an option other than Off and Every 50 Faxes, you can set the time for the option.  If you select Every 7 Days, you can set the day of the week.
Print Fax	-	-	Print received faxes stored in the machine's memory.
Remote Access	-	-	Set your own code for Remote Retrieval.
Dial Restriction	Dial Pad	-	Set the machine to restrict dialing when using the dial pad.
	Address Book	-	Set the machine to restrict the dialing when using the Address Book.
	Shortcuts	-	Set the machine to restrict the dialing when using a Shortcut.
	LDAP Server	-	Set the machine to restrict dialing when using LDAP search.
Remaining Jobs	-	-	Check which scheduled jobs are in the machine's memory and cancel selected jobs.
Miscellaneous	Distinctive (US and Canada only)	Distinctive Ring Pattern	Turn on the telephone company's Distinctive Ring subscriber service to register your new ring pattern on the machine.
	Area Code (USA only)	-	Set your 3-digit area code only if you do not dial it within your own area code.

[Settings] > [All Settings] > [Printer]

(MFC-J6935DW)

Level 1	Level 2	Level 3	Descriptions
Emulation	-	-	Select the emulation mode.
2-sided	2-sided Print	-	Enable or disable 2-sided printing and choose long edge or short edge.
HP Tray Command	-	-	Select the correct version of HP LaserJet emulation.
Reset Printer	-	-	Restore the printer settings to the factory settings.

[Settings] > [All Settings] > [Network]

Level 1	Level 2	Level 3	Level 4	Descriptions
Wired LAN	TCP/IP	BOOT Method	-	Select the BOOT method that best suits your needs.

Level 1	Level 2	Level 3	Level 4	Descriptions
Wired LAN	TCP/IP	IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name.
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	-	Specify the IP address of the primary or secondary WINS server.
		DNS Server	-	Specify the IP address of the primary or secondary DNS server.
		APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.
	IPv6	-	Turn the IPv6 protocol on or off. To use the IPv6 protocol, go to the Brother Solutions Center at <a href="http://support.brother.com">support.brother.com</a> for more information.	
	Ethernet	-	-	Select the Ethernet link mode.
Wired Status	-	-	View the current wired status.	
MAC Address	-	-	View the machine's MAC address.	
WLAN	TCP/IP	BOOT Method	-	Select the BOOT method that best suits your needs.
		IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name.
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	-	Specify the IP address of the primary or secondary WINS server.
		DNS Server	-	Specify the IP address of the primary or secondary DNS server.
		APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.
	IPv6	-	Turn the IPv6 protocol on or off for a wireless LAN. To use the IPv6 protocol, go to the Brother Solutions Center at <a href="http://support.brother.com">support.brother.com</a> for more information.	
Setup Wizard	-	-	Configure your internal print server manually.	

Level 1	Level 2	Level 3	Level 4	Descriptions	
<b>WLAN</b>	<b>WLAN Assistant</b>	-	-	Configure your wireless network settings using the Brother CD-ROM.	
	<b>WPS</b>	-	-	Configure your wireless network settings using the one-button push method.	
	<b>WPS w/ PIN Code</b>	-	-	Configure your wireless network settings using WPS with a PIN.	
	<b>WLAN Status</b>	<b>Status</b>	-	-	View the current wireless network status.
		<b>Signal</b>	-	-	View the current wireless network signal strength.
		<b>SSID</b>	-	-	View the current SSID.
		<b>Comm. Mode</b>	-	-	View the current Communication Mode.
<b>MAC Address</b>	-	-	View the machine's MAC address.		
<b>Wi-Fi Direct</b>	<b>Push Button</b>	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.	
	<b>PIN Code</b>	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.	
	<b>Manual</b>	-	-	Configure your Wi-Fi Direct network settings manually.	
	<b>Group Owner</b>	-	-	Set your machine as the Group Owner.	
	<b>Device Information</b>	<b>Device Name</b>	-	-	View your machine's device name.
		<b>SSID</b>	-	-	View the Group Owner's SSID. When the machine is not connected, the LCD displays Not Connected.
		<b>IP Address</b>	-	-	View your machine's current IP Address.
	<b>Status Information</b>	<b>Status</b>	-	-	View the current Wi-Fi Direct network status.
		<b>Signal</b>	-	-	View the current Wi-Fi Direct network signal strength. When your machine acts as Group Owner, the LCD always indicates a strong signal.
	<b>I/F Enable</b>	-	-	Turn the Wi-Fi Direct connection on or off.	
<b>NFC</b> (MFC-J6930DW/ MFC-J6935DW)	-	-	-	Turn the NFC function on or off.	
<b>E-mail/IFAX</b> (Available after Internet Fax (I-Fax) is downloaded.)	<b>Mail Address</b>	-	-	Enter the email address. (Up to 60 characters)	

Level 1	Level 2	Level 3	Level 4	Descriptions
E-mail/IFAX (Available after Internet Fax (I-Fax) is downloaded.)	Setup Server	SMTP	Server	Enter the SMTP server name and address.
			Port	Enter the SMTP port number.
			Auth. for SMTP	Select the Security method for email notification.
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.
			Verify Certification	Verify the SMTP Server Certificate automatically.
		POP3/IMAP4	Protocol	Select the protocol for receiving an email from the server.
			Server	Enter the server name and address.
			Port	Enter the port number.
			Mailbox Name	Enter the mailbox name. (Up to 60 characters)
			Mailbox Password	Enter the password to login to the server. (Up to 32 characters)
			Select Folder	Select the specified folder in the mailbox using the IMAP4 protocol.
			SSL/TLS	Send or receive an E-mail via an E-mail server that requires secure SSL/TLS communication.
			Verify Certification	Verify the Server Certificate automatically.
			APOP	Turn APOP on or off.
	Setup Mail RX	Auto Polling	Auto Polling	Automatically check the server for new messages.
			Poll Frequency	Set the interval for checking for new messages on the server.
		Header	-	Select the contents of the email header to be printed.
		Del/Read Error Mail	-	Set the machine to automatically delete error mails.
		Notification	-	Receive notification messages.
	Setup Mail TX	Sender Subject	-	View the subject.
		Size Limit	Size Limit	Limit the size of email documents.
			Maximum Size (MB)	
		Notification	-	Send notification messages.
Setup Relay	Relay Broadcast	-	Relay a document to another fax machine.	

Level 1	Level 2	Level 3	Level 4	Descriptions
<b>E-mail/IFAX</b> (Available after Internet Fax (I-Fax) is downloaded.)	<b>Setup Relay</b>	<b>Relay Domain</b>	-	Register the Domain name.
		<b>Relay Report</b>	-	Print the relay Broadcast Report.
	<b>Manual Receive</b>	-	-	Manually check the POP3 or IMAP4 server for new messages.
<b>Message from Brother</b>	<b>Message from Brother</b>	-	-	Display messages and notifications from Brother.
	<b>Status</b>	-	-	
<b>Web Connect Settings</b>	<b>Proxy Settings</b>	<b>Proxy Connection</b>	-	Change the Web connection settings.

		<b>Port</b>	-	
		<b>User Name</b>	-	
		<b>Password</b>	-	
<b>Network I/F</b>	-	-	-	Select the network connection type.
<b>Network Reset</b>	-	-	-	Restore all network settings back to the factory settings.

 [Settings] > [All Settings] > [Print Reports]

Level 1	Descriptions
<b>Transmission</b>	Print a Transmission Verification Report for your last transmission.
<b>Address Book</b>	Print a list of names and numbers stored in the Address Book.
<b>Fax Journal</b>	Print a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit. RX means Receive.)
<b>User Settings</b>	Print a list of your settings.
<b>Network Configuration</b>	Print a list of your Network settings.
<b>WLAN Report</b>	Print the wireless LAN connection results.
<b>Caller ID History</b>	Print a list of the available Caller ID information about the last 30 received faxes and telephone calls.

 [Settings] > [All Settings] > [Machine Info.]

Level 1	Level 2	Descriptions
<b>Serial No.</b>	-	Check your machine's serial number.
<b>Firmware Version</b>	<b>Main Version</b>	Check your machine's firmware version.
<b>Firmware Update</b>	-	Update your machine to the latest firmware.
<b>Firmware Auto Check</b>	-	View firmware information on the Home screen.

 [Settings] > [All Settings] > [Initial Setup]

Level 1	Level 2	Descriptions
<b>Date &amp; Time</b>	<b>Date</b>	Add the date and time on the screen and in the headings of the faxes you send.
	<b>Time</b>	

Level 1	Level 2	Descriptions
<b>Date &amp; Time</b>	<b>Clock Type</b> (USA and Canada only)	Select the time format (12-hour or 24-hour).
	<b>Auto Daylight</b> (USA and Canada only)	Set the machine to change automatically for Daylight Saving Time.
	<b>Time Zone</b>	Set your time zone.
<b>Station ID</b>	<b>Fax</b>	Enter your name and fax number so it appears on each page you fax.
	<b>Name</b>	
<b>Tone/Pulse</b> (Available only for some countries.)	-	Select the dialing mode.
<b>Fax Auto Redial</b>	-	Set the machine to redial the last fax number if the fax did not go through because the line was busy.
<b>Dial Tone</b>	-	Shorten the dial tone detect pause.
<b>Dial Prefix</b>	-	Set a prefix number to always be added before the fax number every time you dial.
<b>Compatibility</b>	-	Adjust the equalization for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
<b>Reset</b>	<b>Machine Reset</b>	Restore all the machine's settings that you have changed, such as Date and Time and Ring Delay.
	<b>Network</b>	Restore all network settings back to the factory settings.
	<b>Address Book &amp; Fax</b>	Erase all stored phone numbers and fax settings.
	<b>All Settings</b>	Restore all the machine's settings back to the factory settings.
<b>Miscellaneous</b> (MFC-J6535DW) (USA only)	<b>Demo Setting</b>	Turn the Demo icon on or off. After you print from a computer or using iPrint&Scan, or connect to telephone lines, the Demo icon will disappear from the Home screen. To restore the Demo icon, you must delete all the settings you have changed by performing a Machine Reset.
<b>Local Language</b> (Available only for some countries.)	-	Change your LCD language.

## Change Machine Settings Using Web Based Management

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS).

- [What is Web Based Management?](#)
- [Access Web Based Management](#)
- [Set a Login Password for Web Based Management](#)

## What is Web Based Management?

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS). Type your machine's IP address into your web browser to access and change your print server settings.

- We recommend Microsoft Internet Explorer 8/11 for Windows and Safari 9 for Mac. Make sure that JavaScript and Cookies are always enabled in whichever browser you use. If you use different web browser, make sure it is compatible with HTTP 1.0 and HTTP 1.1.
- You must use the TCP/IP protocol on your network and have a valid IP address programmed into the print server and your computer.

The screenshot displays the Brother Solutions Center web interface. At the top, there are tabs for 'General', 'Address Book', 'Fax', 'Print', 'Scan', 'Administrator', and 'Network'. The 'General' tab is active. On the right, the 'Brother Solutions Center' logo is visible. Below the tabs, a dark blue sidebar contains a 'Status' menu with sub-items: 'Auto Refresh Interval', 'Maintenance Information', 'Find Device', 'Contact & Location', 'Sleep Time', 'Auto Power Off', 'Volume', and 'Panel'. The main content area is titled 'Status' and contains several sections: 'Device Status' showing 'Ready' with a green progress bar; 'Automatic Refresh' with radio buttons for 'Off' (selected) and 'On'; 'Ink Level' showing four bars for M (Magenta), C (Cyan), Y (Yellow), and BK (Black); 'Web Language' with a dropdown menu set to 'Auto'; and 'Device Location' with fields for 'Contact' (with a person icon) and 'Location' (with a house icon).

- The actual screen may differ from the screen shown above.

### Related Information

- [Change Machine Settings Using Web Based Management](#)

## Access Web Based Management

- We recommend using the HTTPS security protocol when configuring settings using Web Based Management.
- When you use HTTPS for Web Based Management configuration, your browser will display a warning dialog box.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .

You can now change the print server settings.

If you change the protocol settings, you must restart the machine after clicking **Submit** to activate the configuration.

### Related Information

- [Print the Network Configuration Report](#)
- [Monitor Machine Status from Your Computer \(Mac\)](#)

## Set a Login Password for Web Based Management

We recommend setting a login password to prevent unauthorized access to Web Based Management.

1. Start your web browser.
2. Type "http://machine's IP address" in your browser's address bar (where "machine's IP address" is the machine's IP address).

For example:

http://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

- For example:

http://SharedPrinter

If you enable a NetBIOS name, you can also use the node name.

- For example:

http://brnxxxxxxxxxxxx

The NetBIOS name can be found in the Network Configuration Report.

- For Mac, access Web Based Management by clicking the machine's icon on the **Status Monitor** screen.

3. No password is required by default. Type a password if you have set one, and then click .
4. Click **Administrator**.
5. Type the password you want to use in the **Enter New Password** field (8 to 32 characters).
6. Retype the password in the **Confirm New Password** field.
7. Click **Submit**.

In the future, every time you access Web Based Management, type the password in the **Login** field, and then click .

After configuring the settings, log off by clicking .

- If you have not previously set a login password, you can also set a password by clicking the **Please configure the password** button on the machine's web page.

## Change the Machine Settings Using Remote Setup

The Remote Setup program lets you configure many of your Brother machine's settings from your computer. When you start Remote Setup, the settings on your Brother machine will be downloaded to your computer and displayed on your screen. If you change the settings on your computer, you can upload them directly to the machine.

- [Remote Setup \(Windows\)](#)
- [Remote Setup \(Mac\)](#)

## **Remote Setup (Windows)**

- [Set Up the Brother Machine from Your Computer \(Windows\)](#)
- [Set Up the Brother Machine Using ControlCenter4 \(Windows\)](#)
- [Set Up Your Machine's Address Book Using ControlCenter4 \(Windows\)](#)

## Set Up the Brother Machine from Your Computer (Windows)

If Secure Function Lock is set to On, you cannot use Remote Setup.

1. Do one of the following:

- Windows Vista and Windows 7

Click  (**Start**) > **All Programs** > **Brother** > **Brother Utilities**.

Click the drop-down list and select your model name (if not already selected). Click **Tools** in the left navigation bar, and then click **Remote Setup**.

- Windows 8 and Windows 10

Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected). Click **Tools** in the left navigation bar, and then click **Remote Setup**.

The Remote Setup Program window appears.

When your machine is connected via a Network, type the password if required.

2. Configure the settings as needed.

### Export

Click to save the current configuration settings to a file.

Click **Export** to save your address book or all settings for your machine.

### Import

Click to import a file and read its settings.

### Print

Click to print the selected items on the machine. You cannot print the data until it is uploaded to the machine. Click **Apply** to upload the new data to the machine, and then click **Print**.

### OK

Click to start uploading data to the machine, and then exit the Remote Setup Program. If an error message appears, confirm that your data is correct, and then click **OK**.

### Cancel

Click to exit the Remote Setup Program without uploading data to the machine.

---

### Apply

Click to upload data to the machine without exiting the Remote Setup Program.

3. Click **OK**.
- If your computer is protected by a firewall and is unable to use Remote Setup, you may need to configure the firewall settings to allow communication through port numbers 137 and 161.
  - If you are using Windows Firewall and you installed the Brother software and drivers from the CD-ROM, the necessary firewall settings have already been set.

## Set Up the Brother Machine Using ControlCenter4 (Windows)

If Secure Function Lock is set to On, you cannot use Remote Setup.

1. Click the  (ControlCenter4) icon in the task tray, and then click **Open**.
2. Click the **Device Settings** tab.
3. Click the **Remote Setup** button.
4. Configure the settings as needed.

### Export

Click to save the current configuration settings to a file.

Click **Export** to save your address book or all settings for your machine.

---

**Import**

Click to import a file and read its settings.

**Print**

Click to print the selected items on the machine. You cannot print the data until it is uploaded to the machine. Click **Apply** to upload the new data to the machine, and then click **Print**.

**OK**

Click to start uploading data to the machine, and then exit the Remote Setup Program. If an error message appears, confirm that your data is correct, and then click **OK**.

**Cancel**

Click to exit the Remote Setup Program without uploading data to the machine.

**Apply**

Click to upload data to the machine without exiting the Remote Setup Program.

5. Click **OK**.

- If your computer is protected by a firewall and is unable to use Remote Setup, you may need to configure the firewall settings to allow communication through port numbers 137 and 161.
- If you are using Windows Firewall and you installed the Brother software and drivers from the CD-ROM, the necessary firewall settings have already been set.

## Set Up Your Machine's Address Book Using ControlCenter4 (Windows)

Use Remote Setup through CC4 to add or change Address Book numbers on your computer.

If Secure Function Lock is set to On, you cannot use Remote Setup.

1. Click the  (**ControlCenter4**) icon in the task tray, and then click **Open**.
2. Click the **Device Settings** tab.
3. Click the **Address Book** button.  
The **Address Book** opens in a Remote Setup window.
4. Add or update the Address Book information as needed.
5. Click **OK**.

### Related Information

## Remote Setup (Mac)

- [Set Up the Brother Machine Using ControlCenter2 \(Mac\)](#)
- [Set Up Your Machine's Address Book Using ControlCenter2 \(Mac\)](#)

## Set Up the Brother Machine Using ControlCenter2 (Mac)

 If Secure Function Lock is set to On, you cannot use Remote Setup.

1. In the **Finder** menu bar, click **Go > Applications > Brother**, and then double-click the  (**ControlCenter**) icon.  
The **ControlCenter2** screen appears.
2. Click the **DEVICE SETTINGS** tab.
3. Click the **Remote Setup** button.  
The Remote Setup Program screen appears.

4. Configure the settings as needed.

### Export

Click to save the current configuration settings to a file.

 Click **Export** to save your address book or all settings for your machine.

---

**Import**

Click to import a file and read its settings.

**Print**

Click to print the selected items on the machine. You cannot print the data until it is uploaded to the machine. Click **Apply** to upload the new data to the machine, and then click **Print**.

**OK**

Click to start uploading data to the machine, and then exit the Remote Setup Program. If an error message appears, enter the correct data again, and then click **OK**.

**Cancel**

Click to exit the Remote Setup Program without uploading data to the machine.

**Apply**

Click to upload data to the machine without exiting the Remote Setup Program.

5. When finished, click **OK**.

**Related Information**

- [ControlCenter2 \(Mac\)](#)

## Supply Specifications

### MFC-J6530DW/MFC-J6730DW/MFC-J6930DW

<b>Ink</b>	The machine uses individual Black, Yellow, Cyan and Magenta ink cartridges that are separate from the print head assembly.
<b>Service Life of Ink Cartridge</b>	The first time you install the ink cartridges, the machine will use extra ink to fill the ink delivery tubes. This is a one-time process that enables high-quality printing. Replacement ink cartridges will print the number of pages specified later in this table. Starter cartridge yield is approximately 65% of the yield of the LC3017 replacement cartridges.
<b>Replacement Supplies</b>	<Super High Yield Black> LC3019BK <Super High Yield Yellow> LC3019Y <Super High Yield Cyan> LC3019C <Super High Yield Magenta> LC3019M Black - Approximately 3000 pages <sup>1</sup> Yellow, Cyan and Magenta - Approximately 1500 pages <sup>1</sup>
	<High Yield Black> LC3017BK <High Yield Yellow> LC3017Y <High Yield Cyan> LC3017C <High Yield Magenta> LC3017M Black, Yellow, Cyan and Magenta - Approximately 550 pages <sup>1</sup>
	For more information about replacement supplies, visit us at <a href="http://www.brother.com/pageyield">www.brother.com/pageyield</a>
<b>What is Innobella?</b> 	Innobella is a range of genuine supplies offered by Brother. The name "Innobella" derives from the words "Innovation" and "Bella" (meaning "Beautiful" in Italian) and is a representation of the "innovative" technology providing you with "beautiful" and "long lasting" print results. When you print photo images, Brother recommends Innobella glossy photo paper (BP71 series) for high quality. Brilliant prints are made easier with Innobella Ink and paper.

<sup>1</sup> Approx. cartridge yield is declared in accordance with ISO/IEC 24711

## Brother Numbers

### IMPORTANT

For technical help, you must call the country where you bought the machine. Calls must be made **from within** that country.

### FAQs (Frequently Asked Questions)

The Brother Solutions Center is our one-stop resource for all your Machine needs. Download the latest software and utilities and read **FAQs & Troubleshooting** tips to learn how to get the most from your Brother product.

Check here for Brother driver updates, too.

### For Customer Service

#### In USA:

[www.brother-usa.com/support](http://www.brother-usa.com/support) (Self-Service/Email/Chat)

1-877-BROTHER (1-877-276-8437)

#### In Canada:

[www.brother.ca/support](http://www.brother.ca/support)

(Self-Service Videos, Email, Chat, Facebook and Twitter Help)

### Service Center Locator (USA only)

For the location of a Brother authorized service center, call 1-877-BROTHER (1-877-276-8437) or visit [www.brother-usa.com/service](http://www.brother-usa.com/service).

### Service Center Locations (Canada only)

For the location of a Brother authorized service center, visit [www.brother.ca/support](http://www.brother.ca/support).

### Ordering Accessories and Supplies

For best quality results use only genuine Brother supplies, which are available at most Brother retailers. If you cannot find the supplies you need and have a Visa, MasterCard, Discover, American Express credit card, or PayPal account, you can order directly from Brother. Visit us online for a complete selection of the Brother accessories and supplies that are available for purchase.

### NOTE

In Canada, only Visa and MasterCard are accepted.

#### In USA:

1-877-552-MALL (1-877-552-6255)

1-800-947-1445 (assistance via fax)
